February 9, 1933.

The Hon. William Langer,
 Governor of North Dakota,
 Bismarck, North Dakota.

My dear Governor:-

In view of the call of President-elect Roosevelt for a conference of governors on March 6 to discuss, among other things, reforestation and idle land use I am sending you a copy of the latest figures on idle forest areas, forest fire loss and other forestry data. This information in greater detail has recently been gathered by our Association.

It is my thought that when reforestation is discussed at the conference with Mr. Roosevelt, these figures may be of some assistance to you.

With all good wishes.

Very sincerely yours,

Charles Lathrop Pack
