AI Costume Design Assignment

Due Date: September 12th at 9:30 am

Purpose: The purpose of the assignment is to show how Chat GPT can be a helpful source for theatrical design when used correctly and honestly. It is also used to teach you how to take key description points from the journal and implement them into a costume design.

Skills:

- How to use AI and ChatGPT safely for design
- Understanding the costume design process, from start to finish
- Be able to analyze a character from written word
- Be able to analyze a play for costume design
- Understand what being in the world of the play means for costume design
- Being adventurous in designing but remaining true to the play

How Do I Do the Assignment:

1. Log on and create an account with Chat GPT
 - a. It will make you create an account in order to use it, sorry
2. Following the link underneath this point, you will have the two random pickers that will randomly assign you a play and a character. You need to click once on each to get your character and play. The links are also in the blackboard
 - a. Here is the link to the Character List: <https://wheelofnames.com/572-3s5>
 - b. Here is the link to the Play List: <https://wheelofnames.com/wc6-xvd>
3. When you have your character and play you are going to type this into the Chat GPT prompt
 - a. Can you give me a summary of the play [play name] in the voice of [character name]
 - b. It will then write you a summary of the play in the voice of the character summarizing the play you were randomly assigned.
4. Copy the summary entry into a word document and upload the document to the class blackboard. (This is the quiz)
5. Using the croquis' on the class blackboard, create your costume design of the character as a character in the play. **You cannot use digital renderings, you can only use paper, pencil, and whatever medium to color**
 - a. Some brainstorming questions: What would the character normally wear? How can the summary of the play influence the character's clothing? How can clothing show the character's development with what happens in the play?

What You Will Be Graded On: You will be graded on your understanding of the character and the mesh of the character in the play summary. I want to make sure you understand how to design from word descriptions since you will be designing from scripts instead of pictures of other designer's work. I am not looking for the next best painting, I am just looking for an understanding of the world and the understanding of the play summary.

Reflection Questions: These will be part of your reflection when you turn in the assignment.

- Would you use Chat GPT again for costume design?
- Did this assignment change your views of Chat GPT?
- Do you find Chat GPT to be a reliable resource for design?
- Do you find Chat GPT a reliable resource for research?
