Resolved, that the Faculty of the University of North Dakota has learned with profound sorrow and regret of the untimely death of Dr. A. E. Mead, Commissioner of Higher Education of the State of North Dakota.

Resolved, that this Senate does recognize his devotion to the cause of higher education. He was a man who gave himself completely to the cause in which he believed. He traveled greatly, conferred widely and worked unceasingly for the benefit of higher education. No detail was too trivial, no assignment too great to merit his full attention. No situation or individual was too imposing to deter his efforts. His resoluteness and determination contributed greatly to his accomplishment. We honor him for the man that he was and the goals that he sought.

Resolved, that the Senate does hereby tender its deep sympathy to the members of the family.

Resolved, that the Secretary communicate these resolutions to the family and to the Board of Higher Education.

After a student has registered he cannot change his course without the written consent of the dean of his college. A student who is permitted to drop a course between the end of the third week and the end of the eighth week must secure the signature of the instructor in the course. A student may not cancel a course after the end of the eighth week of the semester without cause. If a student, for cause, is permitted to drop a course after the first eight weeks in either semester, he may have his registration cancelled if the instructor certifies that the student was doing passable work; otherwise, he is given a failure. If a change is permitted in an academic program, a fee of one dollar will be charged after the first full week of classes.

The motion was seconded.

Mrs. MacKichan moved to amend the motion by striking out all the words and substituting in its stead the following:

A student who is permitted to drop a course between the end of the third week and one week following the second deficiency report must secure the signature of

the instructor in the course. A student may not cancel a course after one week following the second deficiency report of the semester without cause. If a student, for cause, is permitted to drop a course after one week following the second deficiency report in either semester, he may have his registration cancelled if the instructor certifies that the student was doing passable work; otherwise, he is given a failure.
