## 6.

Mr. Herndon moved that the University Senate approve the following recommendation from the Academic Policies Committee:

Recognizing the need for increased library services and holdings at the University of North Dakota, the University Senate recommends to the Administration and to the Board of Higher Education that all necessary efforts be made to raise the level of expenditure per full-time student from \$43 to \$62 (the average expenditure per fulltime student at comparable institutions) by the beginning of the academic year 1968-1969. It is further recommended that funds be raised for this purpose through application for federal monies, increased state appropriations, more aggressive campaigning among alumni for funds devoted specifically to library purposes and, if necessary, reallocations within the University of funds presently committed to purposes and programs of lesser priority.

The motion was seconded. Mr. Pearce moved that the motion be amended to add after the sentence ending 1968-1969, "with an ultimate target of 5% of the total institutional budget to be reached within ten years." The amendment was seconded. Discussion followed. Mr. Kolstoe moved that the amendment be amended to read, "with an ultimate target of expenditures equivalent to 5% of the institutional budget." The amendment to the amendment was accepted by Mr. Pearce and there being no objection the amendment was declared amended by unanimous consent. The amended ammendment was voted upon and carried. The motion as amended read:

Recognizing the need for increased library services and holdings at the University of North Dakota, the University Senate recommends to the Administration and to the Board of Higher Education that all necessary efforts be made to raise the level of expenditure per fulltime student from \$43 to \$62 (the average expenditure per fulltime student at comparable institutions) by the beginning of the academic year, 1968-69, with an ultimate target of expenditures equivalent to 5% of the institutional budget to be reached within 10 years. It is further recommended that funds be raised for this purpose through application for federal monies, increased state appropriations, more aggressive campaigning among alumni for funds devoted specifically to library purposes and, if necessary, reallocations within the University of funds presently committed to purposes and programs of lesser priority.

The motion was voted upon and carried.
