Aug. 31st 1934

Mr. Eugene Burdick,
Bismarck, N. Dak.

Dear Sir:--

I had a visit with your father when he was on his campaign tour this Summer and he informed that you had the ability to make arrowheads from flint, which same was interesting news to me.

In my collection of arrowheads I have a number of heads that would be perfect excepting that part of the point has been broken off and I would like very much to fix these to look O.K.

If you would tell me how to go about to mend or recin these I would appreciate it very much.

have had fairly good luck this Summer, on the blowed out plowed fields, in picking up a large number of arrowheads, both broken and perfect, find about 7 to 8 broken ones to every one good one.

I am enclosing a stamped envelope for your reply and kindly advise your father I may write him after a few days.

Yours very truly,

O. M. Anderson
