## Sioux Basketball Season Shows Winning 13-5 Mark

The University of North Dakota basketball team rallied in the second half of their season-ending game with the South Dakota State Jackrabbits here to hand the southern team a 49-47 defeat and end their season with a record of 13 wins and 5 losses.

Coach "Red" Jarrett, in an interview, claimed none of the credit for his team's first postwar season and added: "The boys themselves deserve all the credit. They were a wonderful bunch to work with. Captain Louie Bogan, who led the floor play, was responsible for pulling the team through some rough spots. He held the team together."

Jarrett, who next year will turn the team over to the newly appointed coach, Glenn Barnum, now coaching at Bemidji high school, leaves a talented and experienced squad of which only two will be upperclassmen. They are Don Bell, regular forward, a junior, and Dennis "Red" Huntley, reserve forward, who will be a junior. The rest of the squad, including regulars Bogan; Tom Amberry, Grand Forks; Roger Stromme, Coopers-town; and Creighton Knutson, Rugby, are freshmen.

Other freshmen squad members are Wes Sando, Grand Forks; George Mainz, Grafton; Clarence Moore, Wahpeton; Wally Uhlman, Mandan; and Jay McClintock, Rugby.

Mass X-ray surveys of all University students, faculty members and employees is being planned by the State Department of Health for the latter part of April, according to a letter received by President John C. West.

Planned for the purpose of helping to bring about the final eradication of tuberculosis in North Dakota, the program's success would make this state the first to achieve such a goal. Success of the program, however, will depend entirely on the co-operation of UND students.

Equipment for the survey would be set up in the dispensary and the library. Removal of clothing would not be necessary and the X-ray picture would take only a few minutes of each person's time, according to Ruth Noren, campus nurse.

Representatives of the State Department of Health have been on the campus making plans for the survey.

A survey of the colleges in the state is expected to be completed by May 20th. In preparing an itinerary to cover the colleges

during this period, William M. Smith, director of the division of preventable diseases has suggested April 29th and 30th as suitable dates to visit the University of North Dakota.

## 10th Honors Day Convocation Set

The 10th anniversary celebration of Honors Day, a traditional University event, will be held Thursday, April 25, according to Prof. John E. Howard, chairman of the Honors Day committee.

Letters have been mailed to the various campus honorary groups by Dr. Margaret Beede, who, as secretary of the committee, is in charge of the program, asking for information on their officers and new and old members. This information must be turned in to Miss Beede no later than April 9, Prof. Howard said.

# Named Director Of Center

On March 1, 1946, Mr. John A. Page of the University faculty was appointed Director of the North Dakota State Medical Center. This appointment was made on the recommendation of the Medical Center Advisory Council at its January meeting.

Mr. Page's duties will be to gather and compile accurate information on all phases of the work of the Medical Center including costs of the Medical School building, hospital, equipment, operation and teaching, nursing and custodial staffs. The benefits that will come to the people of North Dakota through the operation of the Medical Center will be formulated. After this material has been gathered, it will be distributed throughout the state through pamphlets, letters, newspapers, radio and the Alumni Review. Ample opportunity will be given the people of our state to know and understand the Medical Center Program.

The Myra Foundation, through its President, Mr. Carroll E. Day of Grand Forks, has made available \$10,000.00 for this work. The officers of the foundation consider the Medical Center an enterprise of the type and magnitude that it desires to support, since the foundation money is to be used for benefit and betterment of the greatest number of people.

It is expected that before next fall a financial campaign on a nation-wide basis will be launched to assist in furthering the North Dakota State Medical Center.
