Cunningham's Quint Awaits League Play

Coach Harold Cunningham's University basketball team, after a so-so pre-holiday campaign, will take a short rest before getting down to hard work for the North Central conference campaign.

Opening loop fray for the Sioux is January 3 at Cedar Falls, Ia., where they run into the defending champion, Iowa Teachers. The Panthers, rugged again this year, have been installed as favorites to repeat, with the Sioux ranked about in fourth place.

WIN FIRST GAME

Cunningham's athletes, mostly veterans, started with a 64-53 win over Moorhead Teachers, then lost to Concordia college of Moorhead, 55-48. They beat Northern Normal of Aberdeen, S. D., in handy fashion, 63-33, before embarking on a losing two-game trip into Minnesota.

Hamline's powerful five sprayed the North Dakota quint, 86-43, and then Gustavus Adolphus edged out a two-point win, 58-56.

The third loss in a row was suffered at the hands of the Bismarck Phantoms, probably the state's best semi-pro outfit, 48-47, and then the Sioux moved out to Bozeman, Mont., for a two-night stand against Montana State. There they split, winning the first time out, 49-42, and losing the finale, 49-41.

NOT DOWNCAST

Cunningham is not too downcast over the early reverses, figuring that when North Central competition starts he will have a winning combination.

Bearing the brunt of the action so far have been Jerry Anstett of Bariboo, Wis., Ed Weber of Minot, Don Meredith of Valley City, Fritz Engel of New Holstein, Wis., Louis Bogan of Grand Forks, Pete Simonson of Grand Forks and Glen Egstrom of Jamestown.

Alumni Head Reports on Conditions At University

Dear Friends of the University:

I am sure that you are interested in a brief report concerning conditions at your University. The following facts should be known to the citizens of North Dakota who are interested in higher education.

The University of North Dakota requested more money for educational services this year than in previous years for reasons which should be obvious to all of us who are acquainted with the economic conditions of the day in which we live. Some of the following are pertinent:

1. The salary scale for the staff must keep pace with salaries in other state universities. For many years we have been losing top-rate men to institutions in adjoining states. In order to hold our good men and to maintain a first-rate University, we must maintain a comparative salary scale.

2. Some of our departments are on the accredited list. Others are on probation and still others are not accredited. In order to reinstate those departments that have gone off the accredited list, we must improve our facili-

ties in accordance with the recommendations of the national accrediting agencies. This requires an increased budget.

3. Additional funds must be expended for such items as improvements, repairs, and new equipment because of the antiquated condition of many of our buildings and equipment, and because these items were neglected during the depression and the war years that followed.

4. The University budget request for educational services, maintenance and operation was \$3,340,000 for the biennium. The budget board allowed \$2,948,000. It will be necessary for the legislature to reinstate \$392,000 of this difference if we are to go forward as a first-class University.

GYMNASIUM

At the 1947 legislative session an appropriation of \$750,000 was requested for a gymnasium. The legislature made an appropriation of \$600,000 for this purpose. Although plans have been completed for the building, it was decided that it would be unwise to start work because the appropriation was insufficient to do a creditable job and building costs have increased 25 per cent since 1947.

For this reason, the board of higher education approved a request for an additional \$175,000 for the building and \$53,000 for equipment, or a total of \$228,000. Fifty-thousand dollars was allowed by the budget board for equipment but the \$175,000 was not approved.

For more than 25 years the University has been handicapped by lack of space in the old armory. Not more than half of the students can be seated at a basketball game and it is impossible to seat others who are desirous of watching University basketball games. The armory was built by the United States government during World War I and is scarcely large enough now to take care of the expansion.

(Continued on Page Four)

Sioux Hockey Six Has Tough Early Contests

Chances for a successful hockey season may be gauged with some accuracy after the Sioux skaters complete their holiday year-end series with University of Michigan—a two-game set being played at Albuquerque, New Mexico.

Aiming at equalling or bettering their fine record of last year when they broke into top U.S. collegiate circles with a winning record against all comers, the 1948-49 skaters took some fierce lumps in their first few outings but it must be said that the fault wasn't entirely lack of hockey ability.

GET LATE START

A fine Indian summer fall delayed ice-making until late November and the Sioux were forced to play their first two games against a college foe with only one practice game and less than two weeks of workouts.

Don Norman's skaters started by winning a 5-2 roughhouse mix with the Amerks, Grand Forks independent club. Nursing bruises and cuts, they then took off for Colorado Springs, Colo., where the worst happened against Colorado college, one of the country's top college sex-

tets. It was 12-4 and 12-4 again in the two-night stand out there.

STAGE COMEBACK

Norman brought his icemen back to face University of Saskatchewan, rated a strong Canadian outfit. The first night was 12-3 for the Canadians and 2,500 fans in the remodeled winter sports building were disappointed and fearful of things to come.

But those that returned the next night left happy. They saw their boys hold the clever northerners to a 3-3 deadlock in a brilliant exhibition. Norman figures that game was the turning point and by the New Year he expects his boys to be ready for the best.

At that, there wasn't much optimism as they prepared for the series at Albuquerque. Michigan's Wolverines, playing a swing through the west, dumped Colorado college, 5-2, in their first game.

The Sioux were invited to play Michigan on their fine 1947-48 record by a group of Albuquerque sportsmen who have built a new rink and are attempting to develop the city into a hockey citadel.

University Alumni News Briefs

Merle Lovell Lewis, 1940, won one of the medical profession's top honors recently when she was awarded a National Cancer Institute predoctorate research fellowship for graduate study at the University of Southern California. Her work on the proteins of leukocytes, with special reference to their relation to leukemias and multiple myeloma, will form the basis of her Ph.D. thesis. Her husband is a captain in the army medical corps stationed at Fort Mason in San Francisco, where he is in charge of the clinical and pathological laboratories.

Kathleen Law, 1948, Rolette, and Robert J. Page, 1945, Westhope, N.D., were married October 9. They will live in Bottineau, N.D.

Dr. James H. Reinhardt, 1945, is a residence Doctor at Northwestern hospital, Minneapolis, Minn., specializing in obstetrics and gynecology.

Edward X. Hallenberg, 1936, has been appointed assistant director of the Westinghouse research laboratories, Pittsburgh. He was formerly personnel manager.

Sister Helen Austin, 1945, has completed her dietetic internship and is now therapeutic dietician at St. Mary's hospital, Minneapolis.

Thomas D. Campbell, 1903, Hardin, Mont., and his daughter, Catherine, went to North Africa November 13 to help the French government increase its North African wheat production. A group of Tunisians visited Campbell's farm in September to observe large-scale methods.

Donna M. Thompson, 1948, lives in Los Angeles, Calif., where she is employed as coordinator of programs in the Beverly Hills area for Catholic Youth Organization.

Bert Lavette, 1940, is office manager of the International Harvester Co. in Minot, N.D.

Magner Muus, 1938, and Erling Muus, 1933, own Muus Lumber Yard in Minot. Mrs. Magnor Muus is the former Marjorie Pfeffer, 1942, and they have one child.

Leonard Senechal, 1939, has purchased full interest in Senechal's Super Grocery Market in Minot, N.D.

Truman Graves, 1939, is a partner in the Minot Typewriter Co.

Halvor Halvorson, Jr., 1941, was elected states attorney for Ward county, Minot, N.D.

Charles C. Truax, 1925, is retiring from his position as Ward county engineer and county supervisor of roads to become a heavy equipment contractor building roads, dams, and doing large scale leveling work.

Mr. and Mrs. Lincoln Ulvedahl (Lillian Froiland, 1942) live in Minot, N.D., where he is assistant sales manager of the Parker Motor Co.

Robert Wiley, 1937, is in partnership with his father, C. A. Wiley, 1905, in Minot's largest plumbing shop, Minot Plumbing and Heating Co.

Fred J. Traynor, 1903, and Mrs. Traynor are spending the winter in St. Petersburg, Fla. Their address is 130 4th Avenue North, Flori-de-Leon Apt. They visited Dean and Mrs. Melvin A. Brannon recently in Gainesville, Fla.

Rev. Clifford B. Holand, 1923, of Santa Monica, Calif., spent two months abroad while attending the world council of churches in Amsterdam. In addition to visiting Holland, he visited England, Scotland, Norway, Denmark, Belgium and France.

Richard Lillibridge, 1933, Bismarck, N.D., visited the campus December 4.

The Eielson Air Base near Fairbanks, Alaska, has been named in honor of Carl Ben Eielson, UND Graduate in 1921, who was killed November 29, 1929, in Siberia across the straits from Alaska while on a rescue mission. Eielson is credited with being the father of aviation in Alaska and one of the pioneers of polar flying. Eielson was an army flier in World War I. A program was held in Rapid City, S.D., in honor of the Eielson air base in September.

Mr. and Mrs. Warren L. Schlager (Jeanette Campbell), 1922 and 1923, have moved from Grand Forks to San Bernardino, Calif., where Mr. Schlager is opening a general insurance agency. They live at 331 Cajon st. in Redlands. Their son, Warren, is a junior at UND.

Mary Ann Keck, 1948, Doyon, N.D., and Malcolm Thal, Lakota, N.D., were married December 30. Mr. Thal is a student at the University.

Dr. Jerome C. Evanson, 1941, died November 19 at the naval hospital in Bremerton, Wash., after a seven-month illness. He was 26 years old and had been on the staff at the naval hospital since his graduation from Marquette university in 1946. Survivors include his wife and three children, Richard, 4, Ingrid, 2, and Kathryn, 3 months.

Dorothy Jane Davies, 1946, and Ellis Dodson, Chicago, were married December 4, in Chicago. The bride formerly taught in Paw Paw, Ill., and has been with Mandel Brothers store in Chicago. Mr. Dodson attended Chicago Teachers college and is employed by the Hire-Nelson Co., Forest Park, Ill.

Mrs. Marjorie Jewett Bell, 1921, Austin, Minn., is the author of the book entitled "An American Engineer in Afghanistan," which recently appeared on bookstands. It is the story of A. C. Jewett, who entered Afghanistan in 1911.

J. E. Abel, 1935, is supervisor for Western Electric Co. in Boise, Idaho. He and his wife and two sons live at 1612 Lincoln avenue, and invite alumni in that vicinity to visit them.

Alice L. Craig, 1932, and John W. McGillis, Fargo, N.D., were married June 14, 1948. They live at 1414 12th Ave. N., in Fargo.

Ingvald S. Johnson, 1933, lives in Salem, Ore. He was married July 3, to Doreen Driskell.

Beverly Heen, 1942, and Arley Bjella, 1941, were married December 18. They will make their home in Williston where Arley is practicing law, and is states attorney for Williams county. Beverly was formerly with Harper's Bazaar magazine in New York City.

Robert W. Hargrave Jr., 1942, lives in Carrington, N.D., where he and his father have a car agency. He was married June 10, 1948.

Oliver P. Malm, 1931, is in the legal department of Weyerhaeuser Timber Co. at Tacoma, Wash. He is president of the Northwest Kiwanis club.

Fred Bjornson, 1927, lives at 300 Witherbee Blvd., Lincoln, Neb., where he is assistant district manager for the International Harvester Co. He would appreciate hearing from any alumni living in that vicinity.

Ray O. Bjork, 1946, is at Murray hospital, Butte, Mont. He graduated from Bowman-Gray Medical school December 1.

Dr. and Mrs. John F. Vaughan (Mary Ellen Barber) 1944 and 1945, live in Vancouver, Wash., where Dr. Vaughan is engaged in general practice at 315 Arts Building.

Elmer A. Arestad, 1917, lives at Aneta, N.D., where he is a manipulative therapist. He is married and his hobbies include reading, horology, firearms and keeping fit.

Mrs. Floyd Hunter (Jean Ruud, 1940) lives in Youngstown, Ohio, where her husband is an attorney with the Youngstown Sheet and Tube Co. The Hunters have one son, Paul, three.

Joseph G. Bradac, M.S. 1948, is teaching in the geography department of the University of Missouri. Mrs. Bradac (Mary F. Marinelli) formerly at UND library is now communications librarian at Stephens college.

Lester Roach, M.A. 1934, is now secretary to Dr. Will Meninger, outstanding psychiatrist, at Topeka, Kansas. His wife is the former Lucille Wardrope, who was employed in UND administrative offices.

S. Kermit H. Larson, B.S. 1937, M.S. 1939, is at the University of California, Los Angeles, where he is assistant professor and chief of the soils unit of the agricultural section, atomic energy project.

University of North Dakota ALUMNI REVIEW

Office of Publication:
University Station, Grand Forks,
North Dakota

"Entered as second class matter at the postoffice at Grand Forks, N.D., under the act of August 24, 1912. Published by the University for alumni and former students of the University of North Dakota in the interests of the University, monthly ten times a year except July and August."

Officers of Alumni Association
President . . . Dr. R. E. Leigh
Vice-President . . . J. B. Bridston
Secretary . . . J. Lloyd Stone
Treasurer . . . E. W. Olson
Athletic Board of Control Ed Boe

Board of Directors

To 1949—John Hancock, O. B. Burtness, Theodore B. Wells, Gene Revelle, and Robert Vaaler.

To 1950 — Roy Holand, Elder Lium, Wallace S. Butler, Thomas D. Campbell and J. B. Bridston.

To 1951—John A. Page, Dr. L. J. Alger, Dr. R. E. Leigh, Mrs. Ethel Cooley and Helen Oppgaard McClure.

Alumni News Briefs

Edgar E. Foster, 1922, is the author of a new book "Rainfall and Runoff" published by The Macmillan company of New York. The book is a guide to modern methods of estimating, measuring and analyzing the distribution, volume, and flow of water from all sources. Foster lives in Denver, Colo., where he is a senior engineer with the U. S. bureau of reclamation.

Richard G. Ryerson, 1948, and Audrey Overby, University senior from Wahpeton, were married December 18 at Iowa City, Iowa, where Mr. Ryerson is with Montgomery Ward Co.

The 27th play written by Maxwell Anderson, 1911, opened on Broadway in December. It is "Anne of the Thousand Days" and the leading roles are taken by Joyce Redman and Rex Harrison. This is a historical drama based on the 1,000 days that Anne Boleyn and Henry VII lived together as man and wife. In 1932, Anderson won the Pulitzer award for the best American play produced that year, "Both Your Houses." Six of his plays have been made into motion pictures.

Mary Lou (Heaton) Skinner, 1935, received the M. P. H. in health education at the University of California last year and is now teaching in the School of Public Health there. She lives at 2740 Prince, Berkeley.

Leonard S. Hardland, 1939, is employed as assistant chief en-

gineer, national inventors council, Washington, D. C. He is married and has one child, Cathy, born August 6, 1947.

Dr. S. A. Rolzin (Rolzinski) 1925, died December 3 at Ne-koosa, Wis., after a year's illness. He graduated from the Minto, N. D., high school and completed his studies at Northwestern Dental school in Chicago. Survivors include his wife and two sons, Stephen Jr. 5, and Dean, 3.

Mr. and Mrs. William (Bud) Durick (Ann Merrie Thompson) 1948, are living at 211 Beach 29th, Far Rockaway, Long Island, N. Y. Bud is taking advanced study in merchandising, and is training part-time at Bloomingdale Brothers department store, where Hymen Salzberger, 1927, is a merchandising manager and vice-president. Mrs. Robert Barckley (Claire Petterson, 1943) is instructing in the training department of the store.

J. Raoul Besse, 1905, retired June 1, 1948, after 24 years of service as French professor at State Teachers college, Silver City, N. M. He previously retired in 1922 from the U. S. coast guard with the rank of lieutenant commander.

Minot Alumni Hold Luncheon

Minot's University Alumni association group sponsored a luncheon there recently for members of Rotary, Lions and Kiwanis clubs, UND alumni and five members of the North Dakota state legislature.

Alex Burr, supervising engineer of the lignite pilot plant at the University, discussed lignite development.

Legislators attending were State Senators Walter Blume of Ward county and Stolberg of Williams county and Reps. Baker and Haugland of Ward county and Haugen of McLean county.

Luncheon arrangements were in charge of Mr. and Mrs. Dean Piper, Hugh McCutcheon, Minot alumni secretary-treasurer, and Mrs. John Cooley handled invitations. Presiding was Jim V. Miller, president of the Minot Alumni association. Two hundred-dressed seventy-five attended the affair.

Lignite Plant Work Started

Sinking of test holes to determine subsoil conditions for structural planning of the \$750,000 national lignite research laboratory at the University of North Dakota has begun, according to Alex C. Burr, supervising engineer.

Burr, also director of research for the North Dakota research foundation, pointed out that \$200,000 of the total estimate has been appropriated and laboratory officials have been authorized to contract for the additional \$550,000.

The laboratory will be 150 feet in size and will be the center of all lignite research in the nation.

Quarter of U Students Wed

Approximately one-fourth of the students at the University of North Dakota are married, according to Registrar Ruby McKenzie.

She said there are 674 married students and 2,116 single persons on the campus. Among war veteran students, 462 are married and 913 are single.

There are 119 women undergraduates who are married, compared with 571 single women. Six of 15 women war veterans are married.

Chemistry Unit Given Charter

As part of its program of keeping up with modern developments the University of North Dakota chemistry department petitioned for a chapter of the American Chemical society and has been informed that it meets the requirements of the society.

Information was received by Dr. G. W. Smith, department head, that a charter had been issued to a Red River valley section of the American Chemical society with headquarters in Grand Forks.

The chapter is to include Minnesota and Dakota counties along the Red river and includes Fargo and Moorhead.

The society is an association of undergraduate and professional chemists. North Dakota was previously one of two states without a chapter.

Addresses Wanted

The alumni office would appreciate information regarding the present addresses of this list of graduates:

- Helmer T. Aasheim, B. S., Commerce, 1938.
- Edgar Aasland, B. S. 1924.
- Rueben E. Aasland, B. S. C. 1926.
- Lyle C. Acklin, B. S. 1930.
- Louis S. Ahlen, B. S. 1933.
- Carleton H. Alm, B. S. C. 1925.
- Charles H. Anderson, B. S. 1899.
- F. Josephine Anderson, B. S. in Ed. 1934 ss.
- Harriet Mabel Anderson (Mrs. Addison Shiek), B. S. in Ed. 1935.
- Rena Anderson, B. S. Ed. 1935.
- Roy W. Anderson, B. S. 1935.
- Alfred B. Arlick, B. S. 1931.
- Rueben W. Ashe, B. S. C. 1928.
- Marion L. Austin, B. S. 1934.
- Heyward C. Bailey, B. S. 1924.
- Frank J. Bain, B. S. C. 1929.
- Joseph P. Baker, B. S. C. 1927.
- Dr. George A. Bakke, B. S. in Med. 1931.
- Sidney A. Bakke, B. S. 1929.
- Rev. William Baldwin, B. S. 1917.
- William H. Barker, B. S. in E. E. 1933.
- Walter O. Basham, B. S. in Eng. 1931.

U Law School 50 Years Old

The 50th anniversary of the founding of the University of North Dakota school of law was marked at the annual law school banquet here with the freshman class acting as host to students and faculty of the school. The law school was created after recommendations by President Webster Merrifield of the University and Chief Justice Guy G. Corliss to the board of trustees in 1898. Nineteen students enrolled in the first term.

NOTE TO PARENTS

This issue of the Review is being sent to parents of University students, who are as concerned with the University as are alumni. As many parents as possible are invited to attend Alumni club meetings on Founders' Day, Feb. 22. The University has a Dad's association, organized last fall. Its officers are John L. Von Rueden of Grand Forks, president; Floyd Henderson of Grand Forks, vice president; Rev. Hubert Dukes of Grand Forks, secretary; and Lloyd Stone, assistant secretary.

University Fees Not Increased

Fees at the University of North Dakota have been held to near their pre-war levels despite rapidly mounting costs at the institution.

It now costs approximately \$300 per student per year to operate the University at present.

Fees range from \$60 to \$85 per student per year, depending on the school or college in which the student is enrolled.

For non-resident students fees range from \$103 to \$170 per student year.

In colleges over the nation fees seldom pay for more than 50 per cent of the cost of the institutions. At the University fees cover from 20 per cent to 25 per cent of the cost per student.

REPORT

(Continued from Page One)

ing needs of the military department. Those who are acquainted with the situation at the University are of the opinion that a gymnasium is one of the most urgent needs at this institution.

ADMINISTRATION BUILDING

The administrative offices are located in the oldest building on the campus, which was erected in 1883. The upper stories have been removed from this building and only the first floor, basement and part of the second floor are now in use. This building has cracked up very badly, has had to be tied together with tie rods. It was condemned 25 years ago by the state fire marshal. An appropriation of \$350,000 has been recommended by the budget board and board of higher education for a new administration building.

ENGINEERING BUILDING

For many years the University has lacked a modern engineering building to house one of the finest schools of engineering in the United States. A request for \$375,000 was submitted to the board of higher education and approved by them. This item was not approved by the budget board.

To give one example of the excellence of the University engineering department might be revealing. The United States bureau of mines, in searching for a location for lignite research, chose the University of North Dakota because of the fine professional staff, the type of equipment and research facilities, and because of the record the graduates of the University have made in the engineering field. The federal government appropriated \$750,000 to build a lignite research laboratory on the campus and it is expected that an appropriation of approximately \$250,000 each year will be made for the operation of this plant. However, these facilities are not an actual part of the University to the extent of relieving any pressure for classroom space.

WOMEN'S DORMITORY

During the 1947 legislative session an act was passed making it possible for the University to issue revenue bonds up to \$400,000 for the construction of a girls' dormitory. A girls' dormitory is badly needed on the campus of the University. Davis

hall, the only residence hall on this campus for women, was constructed approximately sixty years ago and houses 100 girls.

The University of North Dakota is far behind most state universities in the housing of our students. Davis hall is a disgrace to North Dakota. It is overcrowded and is considered to be a fire trap of the worst kind. It should be either completely renovated or abandoned as a women's dormitory.

An effort was made by the University to sell revenue bonds

DR. RALPH E. LEIGH

for the construction of a new girls' dormitory. One of the largest companies doing this type of business in the United States is the Emerson, Roche Co. of San Antonio, Texas. From recent experience in this type of revenue bond in eight states and for 45 similar projects, they reported as follows: "If you desire to provide adequate facilities for your students at rates substantially in line with those at present in effect, it will be necessary for you to secure a minimum appropriation from the state legislature of 50 per cent of the total cost of the project. I am certain that less than 50 per cent would not provide a self-liquidating project as earnings would be inadequate for debt service and reserve requirements."

In order for the University to build a girls' dormitory it will be necessary for the legislature to appropriate \$200,000. The University will then be in a position to issue revenue bonds for the remainder, thus making possible a \$400,000 women's dormitory at a cost of only \$200,000 to the state.

Sincerely yours,
Ralph E. Leigh,
President, Alumni Assoc.

List Early Donors

Here are the names of additional donors to the University Maintenance Fund, who subscribed money during the years 1895-1896, when the maintenance appropriation for the institution was vetoed.

Students Help Pay Own Way

Nearly 60 per cent of the men attending the University of North Dakota are receiving elements of education in the "famous school of hard knocks," along with their academic work.

According to figures from the registrar's office that percentage of the men here are paying their college expenses through money received from their own work.

Only about 8 per cent of the men attending the University pay none of their expenses out of their own earnings.

The report showed about 9 per cent pay 75 per cent of their expenses 10 per cent pay half and 11 per cent a quarter of their expenses.

Among women undergraduates only 8.8 per cent pay all their expenses from their own earnings. Ten per cent pay a quarter of their expenses in that way, 3.3 per cent pay half and 2.5 per cent pay three-quarters of their way.

The North Dakota State Medical Center was created by the legislature in 1945.
