	Comment category	Clarifier 1	Clarifier 2	Commont
	Ownership	Original owners - all		If land is returned it should go to the bordering landowner as this is where it was orginally taken
	Tribal Management Access	Public		We have tried for many years to get road access to our land; there is no road yet The TAT chairman has stated that he would allow access but he has already broken his promise; at Pouch Point south of New Town the tribes started charging \$10 per boat and \$5 per person in 1995
	Access	Public - general		I appreciate the freedom, accessibility, and low cost land enjoyed by American citizens Payments for land inundated by Garrison Dam within the reservation were an average
	Compensation	Tribe not compensated enough		of \$2,908 an acre; my father got \$75 per acre for right of way for Interstate 94 through our farm; Indian land was worth 38 times productive farm land? In 1803 the Louisiana Purchase included land between Rocky Mountains and
	Legal Ownership	Don't transfer		Mississippi River, including the Great Plains; tribal claim to ownership is void Under no circumstances should the federal government return the land to the tribes At the meeting there was tittle support for the land transfer under former land owners,
	Transfer Process	Public Meetings		county commissioners, and retirees; the McKenzie Bay occupants were unanimous in their opposition to the land transfer; there is no doubt the land transfer should not occur
	Ownership	Original owners - all	Transfer	Shoreline property on Lake Sakakawea should transfer to original owners for benefit of their families If lands are being returned they should be returned to the heirs of the people they
	Ownership Access	Original owners - all Public - general		were taken from; lands should be returned to everybody not just the TAT We hope that what you decide will make it possible for all of us in the area to continue enjoying Lake Sakakawea
	Investment	Cabin owners	McKenzie Bay McKenzie Bay	Much time, effort, and money have gone into making this our summer home.
	Access	Fees	General	It is area by providing camping and club facilities Congress enacted laws to guarantee public rights to free access, media reports and current tribal regulations clearly indicate an intent by the TAT to profit off the public for use of these lands
	Access	Fees	General	use of intest anxiety wars, if not before, TAT could require public to pay a finbal outlitting business to access the lands that the public has free access to at present Corps has a duty to properly survey and fence boundary of any lands that may be
	Jurisdictional confusion	Survey		transferred Leases do not address the dramatic increase in hunting license fees that the public will face; the fact that these leases are term-limited; nor the fact that not all of this land is
	Leases			leased If the land transfer proceeds as reported, the state interests are transferred, and the factors under New Mexico v. Mescalero Apache Tribe, 462 U.S. 324 (1983) would
	Legal Ownership	Original owners - all		place the State in a much weaker legal position in federal court Non-enrolled farmers and ranchers who are former landowners are not being
	Project Purpose	Recreation		considered as a recipient of these lands Congress funded purchase of some of these lands with clear intention that public recreation would be part of operation of Garrison Dam project. It is unclear whether the Corps has already centered its intention to transfer these
	Transfer Process	Public Meetings		lands and are only conducting public hearings for aesthetics
	Tribal Management	Wildlife Management	Conoral	TAT's repeated efforts to conduct commercial fishing ventures on Lake Sakakawea has caused concern about disease transfer from tame walleyes to the wild population Why should I have to pay an access license? The Indians don't need one to cross our locations of the second
_	Access Access	Fees	General General	land Concerned about tribal licenses and fees that would probably be imposed The only economic boost to the tribe would have to be for access for recreation as
	Access Access Access	Fees Public - general Public - general		these small parcels of land would have little or no value for farming or grazing Access to terrestrial and aquatic property should be available to public Fishing, boating, other amenities are sole reason many people live in this area Giving back the land to the tribe is nothing compared to everything they took and the
	Ownership	Transfer		beating we took How can the Corps transfer title and ownership of the lands to another government
	Ownership	Original owners - all		entity when Congress determined it was too costly to go to the original owner when they repealed Section 3508 of 102-575, whereas it would have returned it to all orginal owners all the land in question whether they were indian or nonindian? Unbelievable that the Corps did not provide any more accurate information to the people here until this evening. Why is this an unknown? Why haven't the lands been
	Transfer Process	Information		identified? I ask that the lands which have been held for publi recreation, invested in with private and mibli moneys do not be considered excess
	Tribal Management	General		If these lands were to transfer, where will the millions of dollars come from that will be needed to overcome the current low water levels? If the lands were to transfer, who will maintain the public holdings for the common good
	Tribal Management Legal	General	Transfer	of all people with little to no tangible financial return? Is there a legal agreement? If yes, then there is a legal obligation to uphold the law The Corps can still utilize enough land to address the ND governor's interests and
	Project Purpose	General	Transfer	concerns and serve the public Our neighbors do not need to fear access to these recreation sites within the boundaries of the Fort Berthold Reservation as all of the recreational sites have public access today
	ACCess	Public - general		access ioday We feel the U.S. government must fulfill its promise to return lands no longer needed for Project Purposes because of Garrison Dam has totally destroyed our economy and
	Historical trauma of dam	Tribe		our way of life Land held in trust by the federal government, whether the Department of Army of Department of Interior, is subject to very similar regulations governing right-of-ways
	Legal Master Plan Ownership	Tribal State		and easements that protect the public Concerned tribe will go commercial State of North Dakota is best suited for recreation in consort with federal government
	Project Purpose Access Ownership	Recreation Public Don't transfer		Recreation is an objective of the project We are opposed to project because access is an unsure topic North Dakota Wildlife Federation is opposed to land transfer
	Historical trauma of dam	Tribe		I'm a medicine bottle carrier and can't even pick my medicine anymore; I have 40 acres of farmland down there that was taken by the Corps I never heard one word about recreation when the dam was built - it was always you're
	Project Purpose Ownership Access	Recreation Transfer Cabin owners		doing this for flood control These lands were theirs for a long time and they should get them back Coros should allow us access to our cabin area
	Ownership Ownership	Cabin owners Transfer	Don't transfer	Corps should retain ownership of land around Mahto Bay cabin area Not against the return of the land I think it's good Have nonIndian people ever had anything taken away from them, a country, a culture,
	Historical trauma of dam Historical trauma of dam	Tribe		a religion, a tife? Tve watched my family die young and some of the relatives, and that's from the effect of the flooding of this dam
	Historical trauma of dam	Nestribal members		The project severely impacted our family too, as it literally cut our ranch in half; we now
	riistoncal trauma or dam	Noncibal members		Copy of "Notice of Acceptance of Option for Purchase of Land" for Alren Gilbertson's
	Other Ownership	Miscellaneous Don't transfer		grandfather's land We urge you not to include any NDGF managed land should a transaction take place; a high percentage of land in Deepwater Management Area was acquired from non-
	Ownership	State	Don't transfer	tribal members in the first place and transferring land to an entity that didn't have it in the first place would be extremely unfair The issue is the definition of "excess lands," and as one of the stated ojbectives of the
	Project Purpose	Recreation		Garrison Dam Project was and is recreation, a significant portion of the proposed land to be transferred does not meet the definition of excess The Tribe has negotiated with individual tribal owners and purchased land to give the
	Access	Public		public access to Mahto Bay, McKenzie Bay, and Charging Eagle Bay, have also used tribal dollars to provide public access to Pouch Point and Skunk Bay To me, as one tribal member, 9-11 for us was when they built that dam and flooded us
	Historical trauma of dam Ownership	Tribe Transfer		out If the U.S. government is woirred about saving money, there's less management needed if they return the land to us and give what is off the reservation to the state When land transfer takes place, Corps funding for noxious weed program has to go
	Tribal Management	Noxious weeds		along with it Dam has caused a lot of trauma on reservation; alcoholism and popping pills are
	Historical trauma of dam Access	Tribe Fees	General	because of dam; we lost our churches Would the tribe charge fees for public access Would the United Tribes maintain the public access and land use goals now in place
	Access Compensation	Public - general Tribe compensated enough		as stated If project lands were owned by the tribe, were tribal members reimbursed for the land, either by cash or exchange of lands?
	Leases			If lands are transferred to the United Tribes would current lease holders, such as cabin owners, be reimbursed by the United Tribes for their improvements to the real property What is the status of land areas open to fee ownership?
	Ownership Ownership	Fee ownership General		What are the political, social and economic benefits of such a transfer of lands to a "sovereign" group vs. being held in public trust and owned by citizens of the U.S.A.
ayer	Ownership Access	Original owners - all Public - general		Were any of the lands in question in private ownership prior to the Garrison Project? The Tribes have never denied access; to the contrary, the Tribes have actually condemned land at Mahio Bay to provide access to the public
				We intend to improve access through the development of improved roads and related
ayer	Access	Public - general Mineral Restoration		Infrastructure Section 206(b) of the FBMRA clearly provides independent authority for the Corps to transfer Garrison Project lands to the Secretary for the benefit of the Tribe; the transfer of these lands is not from the Corps to the Tribes, but from the Corps to the
ayer	Legal	Mineral Restoration Act		transfer of these lands is not from the Corps to the Tribes, but from the Corps to the U.S. Department of the Interior The Tribes will agree to reasonable and necessary easements for lake access for
ayer	Other	Easements		The Tribes will agree to the consider and records any easements for date access of Project Purposes and will recognize existing easements and right-of-ways. The Tribes do not have any desire to obstruct your interests as we recognize that it is
ayer	Revenue	General		In the Tribes' best interest to promote economic activity on and around Lake Sakakawea The Tribes' commitment to economic development is demonstrated by: our hosting of the National Lewis and Clark Bicentennial Commemoration in the summer of 2005 and
ayer ven on 0524,	Revenue	General		new Cultural and Interpretive Center; working with ND to obtain funding for new Four Bears Bridge project; making substantial investments in the 4 Bears Casino; and working with NDGPD to settle our jurisdictional differences to enhance hunting opportunities for non-indians on our reservation
25, by Duane ven on 0524,	Access	Fees	General	Public access should be perpetual and free of charge
25, by Duane	Access	Public - general		Public access to any land that requires crossing trust land should be guaranteed in transfer documents, not left to later agreement

Comme catego	Clarifier	Clarifier	Comme
2 a	-	° N	E The members of TAT are connected to all the lands within the exterior boundary of
Ownership	Transfer		Fort Berthold Reservation mentally, spiritually, psychologically, culturally, traditionally, and historically Concerned about an entity that has no accountability to me as a citizen of the state of
Access	Fees	General	ND to impose fees for access; already forces non tribal members to purchase a tribal fishing license or access permit
Access	Fees	McKenzie Bay	Where has the money I've spent on my tribal license been going if no contributions have been made to improve the boat ramp at McKenzie Bay? Corps has an accountability to individual citizens and loses that accountability if they
Access	Public		transfer land Your time and energy needs to be focused on finding better ways to manage the water
Corps management	General Cabin owners		that remains, in order to insure that recreation remains a viable use of the lake Many private citizens along the lake have invested many dollars into making sure that there is novel lake access
Investment	General	McKenzie Bay	there is good lake access Corps, NDGF, concessionaire, and cabin owners have spent significant dollars over the years to make sure McKenzie Bay is a top destination on the lake McKenzie Bay ramp extensions paid for by Corps, NDGF, and private cabin owners at
Investment	General	McKenzie Bay	McKenzie Bay ramp extensions paid for by Corps, NDGF, and private cabin owners at the bay Corps is rightful agency to manage these sites; I appreciate everything your agency
Ownership	Don't transfer Transfer to local		has done under the current operation of the lake Why not turn the land over to one of the groups who have invested significant dollars
Ownership	entities		to improve access to the lake at this site? Recreational access sites along the lake are a very important part of the operation of the lake; you are ducking one of your major responsibilities to the lake, operation of
Project Purpose	General		access sites, by transferring land to tribe
Tribal Management	General		How much money has the tribe spent in the last three years to help defray the costs of ramp extensions at the McKenzie Bay access site due to the current drought? Zero 3 mile stretch of dirt road that finishes the trip to McKenze Bay access site has
Tribal Management	Roads		deteriorated significantly over last 6 years The river equaled life for our people, not for the last 50 years, but for the last 1500 years because there are archaeological digs that do validate that the Mandan Tribe
Historical trauma of dam	Tribe		years because there are archaeological digs that do validate that the Mandan Tribe farmed there back in 900 A.D. Property values weren't dropped after the reservation boundary was extended west to
Investment Ownership	Cabin owners Transfer		Makoti This land should be returned back to our tribe, we're the original owners of it van Hook www. van Hook recreation Area. Returion Point Public Use Area. Mickenzie
			Bay Recreation Area (Watford City Park Board and McKenzie Marine Club), Mahto Bay, Beaver Creek Recreation Area, Hille WMA. Indian Hills Recreation Area, Depenvater Bay, Depenvater WMA. Depenvater Public Use Area, Parshall Bay Recreation Area (and other recreation areas managed by others than the tribes) should not be transferred to TAT because people of ND should be able to continue to
Access Access	Fees	Don't transfer	
Access	Public		Invergence access and not purchase adoutcha permits and interfees Manto Bay Cathio Owners Association is opposed to land transfers that would affect access to developed areas within the boundaries of the Fort Berthold Reservation Van Hook Wwh, Van Hook recreation Areas, returnion Yomt public Use Areas, MixMenzie Bay Recreation Area (Watford City Park Board and McKenzie Marine Club), Mahto
			Bay, Beaver Creek Recreation Area, Hille WMA, Indian Hills Recreation Area, Deepwater Bay, Deepwater WMA, Deepwater Public Use Area, Parshall Bay
Access	Public - general	Don't transfer	Recreation Area (and other recreation areas managed by others than the tribes) should not be transferred to TAT because people of ND should be able to continue to have public access and not nurchase additional permits and licences
			have public access and not purchase additional permits and licences year Hook wave, year Hook Netweater Meets, Cell Marine Club), Mahto Bay Recreation Area (Watford City Park Board and McKenzie Marine Club), Mahto Bay, Beaver Creak Recreation Area, Hille WMA, Indhin Hills Recreation Area, Deepwater Bay, Deepwater WMA, Deepwater Public Use Area, Parshall Bay Recreation Area (and other recreation areas managed by others than the thole)
Investment	General	Don't transfer	should not be transferred to TAT because hundreds of thousands of dollars are invested in these facilities
Revenue Access	Recreation Public - general		Recreation is a very large industry in North Dakota and I feel this will suffer immensely. These lands are for all people, tribal and nontribal Hunting opportunities on private land are dwindling, loss of hunting opportunities would
Access	Public - hunting/fishing		be a big loss to sportsmen
Investment Ownership Project Purpose	General Original owners - all General		Different organziations have put a lot of money into recreational areas and WMAs All lands along lake should go back to original owners Lands are needed for recreational use and for wildlife habitat Loss of two big WMA's would cause towns like Parshal to lose revenue and possibly
Revenue	WMAs		lobs
Tribal Management	General		Tribes will mismanage areas because of a lack of resources I understand that there's been some talk about you would require some leasing agreements, but if the discussions or negotiations fall apart, what would be the
Leases	Representation of		ramifications
Tribal Management Historical trauma of dam	nonIndians		If you do this land transfer, what would the rights be for nonIndians
			The riverfront was our livelihood and it was taken from us The Corps sold lots at Mahio Bay without the knowledge of the tribe and the people who built abains there had no access; so those people who built beautiful places, it's
Investment Ownership	Cabin owners Transfer		their own fault We want our land back, and rightfully we should have it; this is our ancestral land, it wasn't something we bought
Project Purpose	General		The Corps has known that this was excess land for years A commissioner of one of the counties said he's worried, how will the land be
Tribal Management Tribal Management	General		managed? I find that so arrogant and it makes me very angry. You talk about the roads; those great big boats of yours wreck our roads and the county is not utition move into those roads.
			county is not putting money into those roads Beaver Bay is a very well-used resort area serving people from every state in the union and to lose this service to the public would be a great loss; 25 acres of Corps
Access	Public Tribe compensated		land at Beaver Bay has already been put back into trust for the tribes It's discriminatory to give this land back to the tribes, especially after being paid three times for that land and initially being given land to replace the land that was below
Compensation	enough		1854 The Park Service opposes the transfer because of the investment loss that would most
Investment	Police/fire/ambulance		likely result after the park board lease would expire We as a fire department are opposed to the transfer since we probably would be responsible for emergencies resulting on tribal lands because of proximity to our
Jurisdictional confusion	service Police/fire/ambulance service		department Would Mercer County ambulance services be required on those tribal lands and, if so, how would they support our services?
Sunsulational contrasion			We at Hazen and Beulah school boards oppose this transfer until it's fully investigated
Ownership Ownership	Don't transfer Don't transfer		and things are inoned out and make sure that things stay the way they are Original landowners should be able to purchase land if tribes can The land transfer may result in revenue loss for the school district and county
			commission through flood control or flood impact revenues that we receive; we received \$12,148 for the 2004-2005 school year and in the last five years we've
Revenue Project Purpose Project Purpose	Local General Recreation		received \$45.620 Land is needed today as much as it ever has in the past Recreation purpose of project is ongoing and is not complete
Project Purpose Tribal Management	Wildlife Management Wildlife Management	Don't transfer	Transfer would be contrary to Corps purpose of protecting wildlife habitat Concerned about overfishing on tribal lakes in Minnesota
Tribal Management Tribal Management	General General	Don't transfer	They say they won't change things, they are just saying that so everyone isn't against it
Tribal Management	General		Tribal officials don't care about economic development Drive around any reservation to see what future holds for any recreation area turned over to tribal officials There are many wildlife refuge and management areas leased from the Corps by
Tribal Management	Wildlife Management		There are many wildlife refuge and management areas leased from the Corps by NDGF, how would these lands be impacted? The NE quadrant was not part of the original reservation boundary, but came from a
Jurisdictional confusion	General		1972 court decision. Where does this factor into the transfer of lands? BIA several times ignores requests for 2-3 years and sometimes never; at least you
Other	Management Original owners - all	BIA	normally receive answer from Corps Approximately 30% of the land taken was fee land. Where does the interest of these heirs lie?
Project Purpose Tribal Management	Recreation General		Iters iter Is recreation part of the operational goals of the BIA? Will funds for recreational access go to the BIA with the transfer? Improvement of road to McKenzie Bay due to McKenzie Bay Marine Club's planning
Investment	Cabin owners	McKenzie Bay	and expense; cabin owners have invested a lot in maintaining community
			Tex Hall has said all existing leases will be honored but the key word is existing; if TAT signed and extended lease to at least 25 years would go a long way to restoring
Leases	McKenzie Bay		needed sense of security to continue advancement of McKenzie Bay Recreation Area McKenzie Bay Colony has enhanced 325 acres entrusted to it like no other area on the take; it we are granted privilege and responsibility to protect these lands, we will
Ownership	McKenzie Bay		meet this challenge
Access Compensation	Public - hunting/fishing Tribe compensated enough		I see us and all losing access to land to hunt on from what I've read so far Wasn't the Tribe compensated for the land back when the Garrison project was planned out?
Transfer Process	General		I believe this land belonged to all of the taxpayers and if the land is to be given back to anyone it should be up to the taxpayers to decide it
Transfer Process Transfer Process	Initiation of process Public Meetings		Why did this ever become an issue anyway? Why do we need to change anything? Why weren't there more locations that held these meetings, those people east and north of the lake were not included in the meeting sites?
Investment	Local Don't transfer or		north of the lake were not included in the meeting sites? Watford City Park Board and McKenzie Marine Club along with other entities have built McKenzie Bay into a premier recreation site in North Dakota
Ownership	transfer to Watford City Park Board		Watford City Park Board is opposed to any transfer of land to any other entity, we would like to keep it local and keep control of the area
			would like to keep it local and keep control of the area Corps should develop additional cabin sites, ramps, recreational airstrips, fish cleaning stations, and RV stations to allow for greater access; designated ATV areas should be immediately activities control and
Corps management	Access		Immediately established in several areas adjacent to developed sites like Charging Eagle, McKenzie Bay, and Indian Hills I am strongly opposed to the Corps working on this separately from the ongoing work
Master Plan	Corps Either don't transfer or transfer to state or		In the Lake Sakakawea master plan The Corps should continue to maintain this land, and if the Corps wants to get rid of it they should give the land to the state of North Dakota or the BLM; state has
Ownership	BLM		management experience These 36,000 acres are critical and should not be considered excess; Corps should
Project Purpose Access	General Cabin owners	Don't transfer Per Emanual Stroh	also retain lands for impation and value added development Need right to enjoy the facilities we have been instrumental in developing since 1959 Guaranteed access to McKenzie Bay area without fee should be provided
Access Corps management	Fees General	Per Emanual Stroh	Corps have been good stewards of these lands and past histories such as Pouch Point Marina prove TAT cannot manage developed lands
Investment	Concessionaires	Per Emanual Stroh	Concessionaire has investment of well over \$100,000 in McKenzie Bay Watford City Park Board, McKenzie Bay Marine Club and third party concessionaires
Investment	Concessionaires	Per Emanual Stroh	have invested \$400,000 to \$500,000 to construct recreation improvements, roads, retaining walls and install boat ramps McKenzie Marine Club, NDGF, NDD1, Dunn County, McKenzie County, and Corps
Investment	General	Per Emanual Stroh	have an investment of over \$2.5 million in roads, boat ramps, dump stations, and other public camping facilities in addition to capital expenditures, Marine Club has current annual maintenance
Investment	Local	Per Emanual Stroh	budget of \$25,000 Guaranteed long term (99 year) lease at fixed and affordable lease rates should be
Leases		Per Emanual Stroh	provided When we met with Senator Conrad on this issue we were assured Corps did not have
Legal		er cimariuai stron	authority to transfer the recretation area No agreement solely with TAT is binding; no "Separation of Powers" between Tribal Council and Tribal Count

Co	ç _	O	Typ State	τS	ç	0	Dat	0	ç	Thi	Ты	0	Con	-					•

Comment category	Clarifier 1	Clarifier 2	Comment
Ownership	Local	Per Emanual Stroh	Waterford City Park Board and current tenants at McKenzie Bay should retain existing use of developed recreation and should be protected against any negative impacts caused by a transfer of this property.
Ownership	Transfer ok if some guarantees	Per Emanual Stroh	We are not necessarily opposed to transferring excess land or even recreation area to another agency but need to be guaranteed our investment in time, labor and funds will be protected as well as privilege of enjoing the recreation area
Ownership	Transfer to local entities	Don't transfer	Let the McKenzie Bay Marine Club and Watford City Park board own and operate the McKenzie Bay Recreation Area for the cabin owners and the public as they have for almost 50 years
Ownership	Transfer to local entities	Per Emanual Stroh	If Corps is planning to transfer land above 1854, would be more appropriate to transfer McKenzie Bay Recreation Area to Watford City Park Board Transfer should include provisions for private cabin stess to be purchased from transfer should an Unit of the State
Ownership		Per Emanual Stroh	Transter should include provisions for private cabin sites to be purchased from Watford City Park Board by cabin owners; would provide additional capital for development of recreation area and reduce management expense of federal government
Project Purpose	Recreation	Per Emanual Stroh	Don't understand how McKenzie Bay Recreation Area could be considered excess
			lands when recreation is an authorized purpose of the Garrison Dam project Formally requested information on transfer and Corps' position on transfer; only information we were able to obtain is that Corps was considering the transfer and
Transfer Process	Information	Per Emanual Stroh	McKenzie Bay Recreation Area included If you decide to transfer property, please provide documentation of transfer as it unfolds and allow McKenzie Bay tenants to provide input into any details of transfer
Transfer Process	Information	Per Emanual Stroh	that affect McKenzie Bay Recreation area If transfer is an attempt to lessen Corps' management burden for area, we will also provide you with a preferred model for the recreation area that would enhance the
Transfer Process	Initiation of process	Per Emanual Stroh	potential of the recreation area and reduce the management costs to the Corps Appears Corps is trying to pit us against our TAT friends rather than objectively
Transfer Process	Representation of	Per Emanual Stroh	evaluating request to transfer land and providing a reasonable response
Tribal Management Access	nonIndians Fees	Per Emanual Stroh General	Need equitable dispute resolution measures with the new managers If it is all tribal land, an out of state or other tribal fee is likely
Corps management	General		Corps manages land more efficiently for benefit of all taxpayers than any other agency Even if leases are re-negotiated before transfer, it will eventually return all value of
Leases Ownership	State		improvements made by lessees to tribe WMAs should be managed by NDG+ experts; concerned about changes and harm to wildlife should NDGF lose control of WMAs
Access	Fees	General	Public access could be limited because of access permits No assurances of public access to recreational sites or recreational leases held by private and public entities along the shorefront under this transfer
Access	Public - general		McKenzie County has a substantial investment in promotion of recreation tourism
Investment	County Public/taxpayers		activities around the lake as well as improvements to access areas McKenzie County residents have invested private dollars into Corps leases for wildlife and recreation
Revenue	Tourism		Management change places another hurdle in front of an already struggling tourism industry waiting for a return of water and access to the lake BIA has no experience in dealing with tourism related issues and we question the
Tribal Management	Tourism		responsiveness to interests outside of the reservation I think we just need to be one nation under God, we need to forget about these things
Historical trauma of dam Jurisdictional confusion	General Survey		from our roots and carry on If they don't have surveys, I guess I'm concerned about what they are going to do
Tribal Management	Representation of nonIndians		If this land transfers. I can't do and vote in this other nation: yet that other nation any
Ownership	Transfer to local entities		we would like a long term lease arrangement to be developed for the security of our leases
			Land transfer would better serve public and private ownershp if transferred to Mountrail County; county would sell real estate to former owners or auction tracts involved to farmers and ranchers; tracts that do not sell could become established parks and recreational areas; county has done an excellent job of administering Van
Ownership Transfer Process	County		Hook Project On the maps provided on the web site, are all the lands in the boundary of the
	Website Either don't transfer or transfer to state or		reservation being considered? The land needs to stay public; if the Corps wants to get rid of it give it to the NDGF,
Ownership Ownership	BLM Original owners - all		BLM, or any public agency Giving land back to native Americans but not non-native Americans isn't fair If need be, we should provide more monies to NDGF to manage these lands properly,
Ownership	State		and to the benefit of the entire population of North Dakota To entrust more land to Tribe would be a travesty, area from Mandaree to Newtown

egory	Clarifier 1	Clarifier 2	Comment
Ownership	Original owners - all		If lands are transferred, they should be returned to the owners at the time Garrison was constructed the lands more being considered for transfer do not meet the standards imposed by the Mineral Restoration Act.e. that they are no longer necessary for the project and therefore cannot be transferred because of the very use of which the lands are
Project Purpose Transfer Process	General Public Meetings	Don't transfer Don't transfer	regularly made by the public Trave always understood me protocon to be toriowed by rederal agencies when conducting federal business in a state is to provide the governor the first opportunity to speak (as the highest elected dificial in the state). If an mistaken, please indicate the proper protocol. If I am correct, please direct proper protocol to be followed and day argonal discuss the highest pleaded dificial in the paratory.
Transfer Process	Public Meetings	Don't transfer	due respect given to the highest elected official in state government I was disappointed to see the hearing officer fail to call for any elected officials in the audience to testify There was a paucity of information provided prior to the hearing, with no indication of
Transfer Process	Public Meetings	Don't transfer	what the total maximum acreage under consideration would be or what the elevation might be under consideration
			The materials provided at the hearing suggest a pre-ordained conclusion than an MOA will result from these proceedings (for example, Phase 2 calls for a "draft MOA and final MOA" and Phase 3 entitled "Implementation" calls for a "transfer letter, FR
Transfer Process	Public Meetings	Don't transfer	notification, and transfer complete" As cabin owners we believe that if any of the land surrounding the cabins is returned
Access	Cabin owners		to the tribe, we will have access problems. At the least we will be charged for access; we will be forced to buy a tribal permit or more than likely, we will be charged every time we need to cross this land to get to the
Access	Fees Don't transfer	Access permit Don't transfer	lake We feel very strongly that this land should remain under the control of the Coms and
Ownership Access	Fees	Don't transier	the Game and Fish Department The Corps needs to keep the land and not turn it over in order to keep free access to all
Access	Public - hunting/fishing		I would hate to look for fishing elsewhere
Ownership Other	Don't transfer Miscellaneous		My opinion of the land transfer back to the tribes is it is a mistake and should stay as is Email message was blank
Compensation Corps management	Tribe compensated enough General		They were paid for the land and have no right to get it given back to them Worry about keeping water in the lake and not giving land away
Ownership	Don't transfer		Worry about keeping water in the lake and not giving land away Corps took it and paid for it so should keep it If you are going to give the Native Americans land back the other people that had to
Ownership Transfer Process	Original owners - all Initiation of process	Don't transfer	give up land should get their land back I hope this move to give the land back is not just a move by the Corps to get out of caring for the area
Historical trauma of dam Access	Tribe	General	I strongly support the return of Corps land around the lake to the Indian people from whom it was originally and unjustly taken Access would be available to anyone who is willing to pay Most people thave talked to have great misgivings about giving the tribe control of memory of the development.
Access	Public - general		Receipts would be available to anyone which swiming to pay giving the tribe control of Most people I have talked to have great misgivings about giving the tribe control of access to Lake Sakakawa I have no problem with returning the land that was taken from the tribes to them, but it
Ownership	Original owners - all		only seems fair to me to return to the private landowners land that was taken from them
Tribal Management	General Fees	Boat access	Services would probably deteriorate You take away our water, now you want to take away the land around it too, so we will
Access Tribal Management Access	General Public - general	Boat access Don't transfer	have to pay every time we want to launch our boat If you drive through Parshall, you can see how well they manage things If land was transferred to BIA it would not remain public US land, public usable land
Compensation Investment	Landowners in general compensated enough Public/taxpavers		Land holders paid before the project, then again after the project
Access Access	Cabin owners Fees	Fishing licenses	Workey for putchasing raid came non-US government, more than likely taxpayers Will we have access from our property to the water? What will be next, I have to buy a fishing license? Concerned with preserving free public access to fishing ramps
Access Access	Fees	Fishing ramps General	I ney will probably have boat ramp tees and higher cabin rental tees etc.
Access	Fees		How much fee will be charged if this land is transferred Tax money has been spent on boat ramps and camping grounds and I question
Access Investment	Cabin owners	Deepwater Bay	whether we will be able to use them at all Deepwater area has permanent trailers where people have moved in and spent money to make nice lake homes
Investment	Corps and state Police/fire/ambulance		Both the Corps and NDGF have invested our tax dollars in the area and so far have done a good job for the enjoyment of everyone
Jurisdictional confusion	service		Who will have jurisdiciton when it comes to police protection? The land along Lake Sakakawea should not be transferred; it should be left in the
Ownership Revenue	Don't transfer Concessionaires		Corps of Engineers hands for operating purposes These small local businesses depend on lake access to survive; they also create tax dollars and put money into the local economy
Revenue	Tourism		The land is used by hunters, campers and fishermen and is very important to the state of North Dakota for tourism Please consider structuring any transfer of property rights so NDGF retains control of
Ownership	Corps and state		WMA lands and the Corps, or some other agency, retains access or easement rights that insures access to public land and water
Compensation	Tribe compensated enough		Tribes have been well compensated already for the lands they are claiming If we at McKenzie Bay are to be kicked out, I feel we should be compensated for all our
Investment Ownership	Cabin owners Don't transfer	McKenzie Bay	expense and investments This land should belong to the public, not the tribes
Compensation	Tribe compensated enough		Tribes were adequately paid for land when dam built We sold my father's homestead many years ago for much less than it is worth now but
Ownership Ownership	Original owners - all Original owners - all		can we go get it? Transferring the land to the original owners or heirs of original owners, both Indian and white, would be all right
Ownership Tribal Management	General	Don't transfer	Maybe not transfer land at bays like Deepwater, Brendal's and McKenzie, etc.
Ownership	WMAs	Don't transfer	Tribe is not capable of managing the land 1100% disagree with moving WMA's to the reservation; they are vital to ND hunting Several years ago 1 had to pay \$5 to launch my boat at Pouch Point and I'm sure the same thing would be true for the land that you give to the Indians, even though Tex

Comment category	Clarifier 1	Clarifier 2	Correct
			Concerned about access to the lake for boating access as well as hunting and outdoor opportunities available on NDGF WMA's; tribe have stationed wildlife officers at the public boat ramp at Deepwater Bay in the past and have demanded that each boater
Access Ownership	Public - general State		must buy a tribal license to access the lake State should retain WMA's around Deepwater Bay since they are some of the best public land I have hundral around the state
Tribal Management	General		If WMA lands around Deepwater Bay are transferred to tribe everything will suffer from cabin owners, fishermen, hunters, the local economy, and wildlife It will not be managed right; look at how they manage everything else they have, the
Tribal Management	General	Don't transfer	state and everybody will lose Charge the various cities for the water they take out of the system and the same goes
Corps management	Water and irrigation		tor irrigation Before you transfer the land consider changing the flood control ranges and use the land the Corps already owns for the Exclusive Flood Control rather than lose the
Ownership Project Purpose	Don't transfer Flood Control		flexibility by relinquishing ownership Is this land that was flooded part of the 10 million acre feet range above exclusive flood
Transfer Process	General		and is it also the land that is being considered for transfer? What is the elevation above which land is being considered for transfer in the Garrison Reservoir areas? Is it 1860?
Access	Fees	General	If this is going to financially benefit the tribes, the only way I know of is to charge us access to the lake
Access	Public - hunting/fishing Landowners in general		The lake is one of the only positive things the state has going for it, and now on top of not letting us have any water for recreation and fishing, you're taking the access away
Compensation	compensated enough		How many times do we have to buy and pay for something? Can't see where state or US government stands to gain anything from transaction;
Ownership Ownership	Don't transfer Original owners - all		will non-tribal land owners of land taken for the dam receive the same offer of free land?
Tribal Management	General	Don't transfer	If the tribes take care of the land like they have taken care of the Butfalo and some other property around the lake is should be a total mess The general public has invested a lot of money in this project over the last 50 years so
Investment Master Plan	Public/taxpayers Tribal		and should be available for use to the ortholicy and appropriate and use of your be land should be available for use to the public as non-fee usage Corps land should not be transferred because TAT has not produced a written plan for land usage; if they have one it should be published
Ownership	Original owners - all		Transferring all of the approximately 36,000 acres to TAT would be an injustice to the non-native landowners that also lost their property to the Garrison Dam project
Tribal Management	General		I'm concerned about maintenance issues of existing facilities controlled by tribes People from all over U.S. come to fish this lake and I do not think it would be good for
Access	Public - hunting/fishing Public/taxpayers		the people and state of North Dakota to do this The general public has invested a lot of money in this project over the last 50 years so
Master Plan	Tribal		land should be available for use to the public as non-fee usage Corps land should not be transferred because TAT has not produced a written plan for land useage; if they have one it should be published Transferring all of the approximately 36,000 acres to TAT would be an injustice to the
Ownership	Original owners - all		non-native landowners that also lost their property to the Garrison Dam project
Tribal Management Access	General Public - general		I am concerned about maintenance issues of existing facilities if controlled by tribes What, if any, provisions will be made to ensure the public access to these lands and water will be continued?
Access	Public - general		In the event that provisions are made to protect the public access to these lands how
Investment	County		and other is the product of the enforcement of such provisions? Mountrail County be assured of the enforcement of such provisions? Mountrail County has spent several thousands of dollars on projects to give the general public access to Corps land and the water The Congressional Act inlended that there would be no impact on state civil or criminal
11	Commentation of Art		recreation, especially as it pertains to nunting, fishing, access to the lake, or public recreation. Mountrail County would like the Corps to clarify what will happen if a
Legal	Congressional Act		transfer to TAT occurs. Is the present use of the lands so transferred required to remain the same in the future, or can the use be changed without consent from the other stakeholders in the
Master Plan	Tribal		area? There have been several historical and archaelogical finds that have been reported to the Mountrail County Sheriff's Department in the past few years due to the receding
Other	Cultural resources		water levels in the lake. What provisions are being made to protect these sites that are being exposed, including access thereto?
Access	Fees	General	Will there be an access fee or something in that form? Land should not belong to any one group of people; would we be able to use boat
Access Compensation	Public - general Tribe compensated		ramp and water for swimming? The government paid the Native Americans for this land with taxpayer dollars
	enough Don't transfer or transfer to state or		If the government wants to sell it to individuals or the state, so be it; the money could
Ownership Ownership Access	individuals General Public		be used for maintenance of the public lake shores and environs This land should be public domain The transfer would limit access to the lake
Ownership Ownership	Corps or orginal owners Don't transfer		The transfer would limit access to the lake The land was taken from white families and should be given back to the same families or retained by the Corps Why should the Indians receive the land when they did not previously own the land?
Ownership	Don't transfer to tribe		I oppose the transfer of land around Lake Sakakawe to the tribe Prior to Garrison Dam, Fort Berthold Reservation was an allottee reservation; owned by individual members of the tribe
Ownership Ownership	General Original owners - all		by individual members of the infoe Honorable solution is to return land to its original owners; heirs have been determined by Indian probate law
Project Purpose	Recreation		Yes, there is excess land now and there will probably be more excess land as years go on; far more land was taken than was actually needed for operation of the reservoir We shouldn't need to pay a fee to access the land and lake like with the special fishing
Access	Fees	General	We shouldn't need to pay a fee to access the land and lake like with the special fishing license If the water comes up, are we going to have to pay the Indian community for the loss of
Other	Miscellaneous		their land like we have to pay the farmers for ponds that dry up for one planting season in the last 25 years
Ownership	Don't transfer		It will cost the government money no matter what we do, so we could just as well keep it Aren't we entitled to access the lake without paying a special use fee to the Indians? That is what will happen, they have already tried that
Access Compensation	Fees Tribe compensated enough	General	That is what will happen, they have already tried that Weren't the Indians paid for the land that was used? Doesn't it now belong to people who paid taxes to buy it?
Corps management	General		Hasn'the Corps of Engineers caused enough hardship by the way they have wasted our water resources over the years? Land taken from TAT should be returned to them if no longer needed for the operation
Ownership	Original owners - all		of the Garrison Project and all original owners Recreation was one purpose of the original Garrison Project, so how can land that is
Project Purpose	Recreation		currently being used for recreational purposes be transferred as land that is no longer needed for the project Don't transfer any land currently used as campgrounds, boat access, and other
Project Purpose	Recreation		recreational purposes I have senous doubts about the ability of the Tribe to manage noxious weeds; it's very expensive and government agencies often have problems getting enough funding for
Tribal Management	Noxious weeds		weed control Don't transfer; available public land is in very short supply in North Dakota right now
Access Ownership	Public State		and demand for public use is high If the Corps transfers the land, transfer it to NDGF and NDPR agencies so would be in the hands of all North Dakotans
Legal			Concerned that transfer is illegal Recreation grant program through National Park Service rquires assurance that Indian
			Hills and Pouch Point be maintained in public use in perpetuity, and if they are not, then it requires a process to go through to basically conver those and then to either
Access Access	Public Public - general		repay those grants or replace those recreation areas Public access questions remain unanswered Development within six non-Indian leased recreation areas has been accomplished by
Investment Investment	General Local	Infrastructure	local, private, state and federal costs in excess of \$1 million. What does the proposed action do to continued investment in infrastructure? Not too many years ago TAT pressure killed a bill in ND legislature that would have
Ownership	Original owners - all		requested tederal government give back land along reservoir to the original owners; Corps should return land to original owners if not needed for recreation anymore
Project Purpose	Recreation		One of stated purposes of Garrison Project was recreation I too have ancestry that was displaced by flooding of the valley; we were never compensated more than once and no one is even contemplating returning the land to
Ownership Access	Original owners - all Public		US
			surrounding it for public use The state of ND through NDSF and other government entities have invested millions of dollars on VMAs, recreation areas, boat ramps, and other facility improvements for
Investment Jurisdictional confusion	State General		use by all citizens There would be problems with the licensing and enforcement of hunting and fishing laws because of jurisdiction issues between the tribal and state governments
Ownership Project Purpose	Recreation		Land put in trust with BiA can be pulled out of trust and no longer controlled by any U.S. government agency One of the purposes for the Garrison Project is recreation
Revenue	Taxes		All the real estate taxes for the property would be lost which would hurt the local government's ability to provide services to the area I believe we the people have too much money invested; we should have just as much
Investment	Public/taxpayers		right as anyone else If there are project lands within the Fort Berthold Reservation that are no longer
Ownership	Lands outside of reservation		needed, there must be lands outside the Reservation that are not needed. If this transfer would include all lands not needed, we could support this plan. So my family is against a transfer of lands within the reservation.
Access Compensation	Fees Tribe compensated enough		Is against a trainer or lands winni the reservator. Tribes will make any recreational use by non-natives expensive or impossible Native Americans are already the biggest recipients of tax dollars in this country, and have to date been plaid three different times for the land lost to this reservoir While land owners who lost land were only paid once; shouldn't this land be
	Corps or originial		transferred back to them? Or, maybe it should be transferred to the state, or some
Ownership Tribal Management	owners or state General		other entity that will make the land useable and available to all The tribe have never been able to successfully manage what they currently have We ask that you make a potential land transfer part of the consideration during the
Master Plan Access	Corps Public - general		updating of the Lake Sakakwea master plan We request that the issue of public access to non-developed areas for the purposes of
			huriting, hiking, etc. be addressed We do not object to proposed transfer of lands from one government agency to another, we believe transfer of Corps lands in South Dakota to Lower Brule and another, we believe transfer of Corps lands in South Dakota to Lower Brule and
Ownership	Transfer		Cheyenne River Indian Reservations can serve as a model to guide any transfer of Corps lands in North Dakota We request that no native prairie will be converted to cropland, or further developed
Tribal Management	Wildlife Management		for housing or gas/oil extraction. We request that native prairie will be properly managed to limit the intestation and spread of noxious weeds, maintaining their ecological integrity and the integrity of all
Tribal Management	Wildlife Management		lands potentially at risk along the Missouri River It is only fair if the land is transferred back that it should go back to all of those who lost
Ownership Project Purpose Transfer Process	Original owners - all Recreation		land The land is needed for recreation so transfer should not take place Please do not fence each other out, be patient and fair to all people If future access was required by the Corps they would have to negotiate with the tribe
Access	Corps		to get this access Anyone wanting access Corps land across land placed in the BIA would have to get an
Access	Fees		Indian Conservation Permit
