Stuckner

Dear Mrs. Knudson:

We expect to have a conference with those people in the eastern part of North Dakota who are pushing the 1850 foot operating level of the Garrison Dam in the near future. Governor Brunsdale and I flatly disagree on the amount of firm power which will be generated by the Garrison Dam. As I recall the figure I got in Washington was approximately 360,000 kilowatts. Now the Governor claims it is only about 200,000. I wish you would get this from the Army Engineers in the form of a letter and then either send me the original or a copy.

Thanks for your usual prompt attention.

Very truly yours,

Walter O. Burk
