BURDICK ASKS FOR INVESTIGATION OF TRIBAL COUNCIL

Last Thursday, Rep. Usher L. Burdick (R-ND) introduced a Resolution requesting the Secretary of the Interior to make an investigation into the business affairs of the Fort Berthold Tribal Council. According to the resolution as reported, some Indians are complaining that the Tribal Council has:

1. Expended tribal funds in an unauthorized manner and in amounts not justified.
2. Withheld funds due some Indians from payments made by the government to compensate for flooding of Indian lands by the Garrison Dam.
3. Sold allotted lands without the knowledge and consent of the individuals affected.
4. Shown favoritism in making loans to Indians from tribal funds.
5. Refused to give some Indians information with respect to their mineral rights on lands taken over by the government.

Tribal Council members interviewed stated that the accusations were "false and foolish", but that the investigation would be "welcomed, because it would give us a chance to put an end to the rumors and wrong information that has been passed around on this reservation", and that "it's just too bad that the tribe has to spend a lot of their money to pay for the investigation; should make those guys pay."
