Directors Make Important Decisions

***Alumni, Alma Mater Solidify
'Partnership' on U Progress***

Significant developments in the progress of the University of North Dakota were noted, and important decisions, designed to further that progress, were made as the UND Alumni Association Board of Directors met in the Francis Drake Hotel, Minneapolis, Nov. 11. The partnership with the University administration that has marked all actions of the Alumni board was distinctly in evidence again as the directors counseled closely with President George W. Starcher in charting a wise course for their Alma Mater's future.

The president outlined the University's budget request of \$8,129,000 for the 1961-63 biennium. He reported that the present enrollment of 4,130 students—an all-time record—is up 6.2 per cent from last year and 90 per cent above the 1951 registration of 2,163.

President Starcher also reported that matching funds are on hand for the J. F. T. O'Connor Scholarship bequest, estimated at approximately \$350,000.

Henry Lykken, Jr., Minneapolis Honeywell Co. comptroller, gave a report on the patents being transferred from the estate of his late father, Henry Lykken, Sr., to the Alumni Association.

Dr. E. L. Grinnell, president, reported that 48 Alumni have written to express interest in the projected plans of the association to sponsor a European trip late next summer.

The tour is scheduled to begin at Amsterdam July 31, with the trip to Europe starting either by jet plane from Chicago July 30 or from New York by ship July 21.

Stops on the tour include Paris, Geneva, Nice, Rome, Florence, Venice, Innsbruck, Salsburg, Munich, Heidelberg, Berlin, Copenhagen, Oslo and London.

They're Happy--Serving U

By DR. E. L. GRINNELL, '28
President of the Alumni Association

Philosophers have been telling us for centuries that the way to be happy is to serve others. Never has that spirit of service been more aptly demonstrated than when your Board of Directors gathered in Minneapolis for the annual fall meeting. (Nov. 11)

Bricks and mortar and fancy names do not make a distinguished university. Nor is it made solely by the dedicated men and women who teach within those walls. A great university is created by a combination of many factors, one of which is the loyal alumni who serve their alma mater, not only on the Alumni Board, but in the recruiting of outstanding students, in devotedly following her interests in the state legislature, by their gifts to the Development Fund, and in countless other ways.

As I observed the members of the board—busy men like George Longmire, Judge Devitt, Gordon Aamoth, Mick Simmons, Ed Franta, Bill Micklin, Bob Eddy, Dean Lium, Jack Traynor, Jerry Skogley, and the fairer sex—Sybil Kelly and Glenna Jacobi—striving so faithfully through the long, tiring hours, I thought of one of the sage bits of advice Frederic Loomis was wont to give to his patients. "You can lighten your own load by doing something for someone else."

Yes, on a whole it was a splendid meeting. Much was accomplished. The Board was honored to have as its guest,

Mr. Henry Lykken, Jr., who graciously took time out of his busy schedule to explain the patents bequeathed to the Development Fund by his late father. The deep and tender affection held for Henry Lykken, Sr., was beautifully expressed by a moment of silent tribute with the Board standing. Phillip Brooks would have said of Henry: "No man or woman of the humblest sort can really be strong, gentle, pure and good without the world being better for it, without somebody being helped and comforted by the very existence of that goodness."

No less rewarding was the time given by three members of the staff of the Northwestern National Bank and Trust Company who discussed the handling of oil property which is to be given to the Development Fund by a prominent alumnus. Further time was devoted by these gentlemen to a careful analysis of the stocks and bonds which are held in the Alumni trust account by the bank. Their recommendations in regard to the sales and purchases of securities by the Development Fund has always proven to be trustworthy. The Fund has benefited immeasurably from their expert advice.

I am happy to report that your association is indeed in strong, capable hands. It is being well run by men and women, who as E. B. White so aptly put it, have "learned to swim in the pool of time, have tucked up their affairs so that they fit into a canoe, and, all snuggled down, have found what bird is their eagle and have climbed the tree."

Of Interest To Alumni

-DEATHS-

Joseph A. Donahue, '35, died in Bismarck, N. D., Nov. 10. An attorney, he was counsel and legislative representative for the North Dakota Press Assn. and had been first director of the North Dakota Legislative Research Committee. His wife and daughter survive. He was 49.

Miss Margaret K. Cable, former ceramics professor at the University, died Oct. 31 in a Santa Barbara, Calif., hospital. In 1926 she was selected as "outstanding woman in North Dakota." She taught at UND from 1910 to 1949. She was 76.

Albert B. Hemp, '13, of Minneapolis died there Oct. 10. He was a member of Phi Delta Theta fraternity while studying for the L.I.B. degree at the University. Mrs. Hemp survives.

-1920-

Robert Cory, '26, northwest editor of the Minot, N. D., Daily News is the author of an article analyzing the poet, Walt Whitman, in the current issue of the North Dakota Quarterly, published by the UND faculty.

University of North Dakota
ALUMNI REVIEW

The University of North Dakota Alumni Review is published monthly, except July and August, by the University of North Dakota, Grand Forks, N. Dak., for alumni and former students of the University of North Dakota in the interests of the University. Second-class postage paid at Grand Forks, N. D. Change of address and Form 3579 should be sent to the University of North Dakota Alumni Review, Grand Forks, N. Dak.

PresidentDr. E. L. Grinnell
First Vice President
Mrs. Milton Kelly

Second Vice President
..... Robert Eddy
Secretary J. Lloyd Stone
Treasurer E. W. Olson
Ath. Bd. of Control...Gordon Caldis

To 1961—Robert Eddy, Dewey Balch, George Longmire, Mrs. Milton Kelly, Arley Bjella, Dean E. L. Lium.

To 1962—Dr. E. L. Grinnell, Mrs. Reinhold Jacobi, Gordon Aamoth, John T. Traynor, Judge Ronald Davies, Gerald Skogley.

To 1963—Andrew Freeman, E. E. Simmons, Herbert Treichler, Edward J. Franta, Judge Edward Devitt, Dr. O. W. Johnson.

-1930-

Dr. Reino S. Freeman of the Ontario Research Foundation, Canada, was a contributor to the McGraw-Hill Encyclopedia of Science and Technology. He is the husband of the former Ellen Bek, '38.

-1940-

Lawrence M. Cullen, '49, has been appointed general agent for the Aetna Life Insurance Co. at Fargo. A Fargo native, he received his degree in psychology. He served with Manchester Biscuit Co. for four years before joining Aetna in 1954. He and Mrs. Cullen have four daughters.

Dale M. Nordquist, '40, formerly of Underwood, N. D., won nomination as Republican candidate for the U. S. House of Representatives from the Third District, State of Washington. He was defeated in the November final election, however. He now resides in Centralia, Wash.

-1950-

John A. Thorpe, '56, is technical supervisor with the Du Pont Co. in Beaumont, Texas. He is married and has two children—Janet 4, and David 2½.

Robert Boeder, '53, has been elected treasurer and controller of Warner Hardware Co., in Minneapolis, Minnesota. Mr. and Mrs. Boeder have two children—Jimmy 2, and Wendy 3.

A daughter, Barbara Lynne, was born to **Mr. and Mrs. Frank Strle, '58**, of Virginia, Minn., Oct. 14.

John W. Quint, '54, has been promoted to assistant manager for sales, budget and statistical work of the U. S. Gypsum Co. in Chicago. He had been stationed with the firm in Omaha.

Herbert L. Larson, '57, now is assistant manager of the J. C. Penney Co. store at Grafton, N. D.

John R. Knudson, '50, has been added to the Chemicals Department technical staff of the Dow Chemical Co., Midland, Mich. He is a UND Mining Engineering graduate.

John P. Rutten, '59, is attending the American Insti-

With Our Alumni:

They Get New Jobs, Important Honors

Donald A. Loepp, '48, has been named area manager by the Mobil Oil Co. to supervise the firm's marketing operations in the area immediately surrounding the Twin Cities. He has six salesmen under his supervision.

Don Loepp

He and Mrs. Loepp, the former Jean Orth, '49, Grand Forks, have two daughters.

* * * * *

Franklin L. Gillett, '57, has been named export sales engineer with the Robertshaw-Fulton Controls Co.'s degree in Business Administration from UND. After two years of Army service, he completed the course at the American Institute for Foreign Trade at Phoenix, Ariz.

He and Mrs. Gillett, the former Janet Campbell of Northwood, N. D., and their two sons have moved from Rockville, Md., to Richmond.

The company's international division includes plants in seven foreign countries, including a new one, just announced, in France.

* * * * *

Kent Kirby, '59, was the subject of an article in "The Minnesota Review," a literary magazine. Titled "Artist of the Midwest," the account cites Kirby's first places in oil and in water color at the 1960 Zanesville, Ohio, Art Institute. He also won a purchase prize at the second National Water Color Exhibition in Oklahoma City. Featuring the article were five pen and ink illustrations by Kirby. Since earning his M.A. degree at UND, he has been an art instructor at Muskingum College, New Concord, Ohio.

* * * * *

William S. Moeller, '28, business manager of the Bismarck, N. D., Tribune, was elected to the board of directors of the Inland Daily Press Assn. in Chicago Oct. 18. He is a past president of the Northwest Daily Press Assn., served as a Bismarck city commissioner for eight years, and a past Kiwanis lieutenant governor.

tute for Foreign Trade, Phoenix, Ariz. A Geography major at UND, Rutten will complete the course next May. He is the son of Dr. and Mrs. Herman Rutten, Devils Lake, N. D.

Capt. Albert G. Opp, '53, was married July 11 to Christa von Neufville at Frankfurt, Germany. **Capt. Opp** is in air technical intelligence and is stationed at the U. S. Air Force Base in Wiesbaden, Germany.

-1960-

Judith Ann Bensch, '60, was married recently to **James R. Winter, '59**. Mr. Winter is employed by IBM and Mrs. Winter teaches second grade at West School in Grand Forks.

Phillip R. Braeger, '60, is attending the U. S. Army Transportation School at Fort Eustice, Va., for eight weeks of officer orientation training. A second lieutenant, he is a native of Fessenden, N. D.

One of 30 in Nation

U Granted \$246,000 to Conduct Institute for Science Teachers

J. DONALD HENDERSON
To direct science program.

The University has been awarded \$246,800 to conduct an Academic Year Institute for high school science and mathematics teachers during the 1961-62 school year.

The University is one of 30 schools in the nation selected by the National Science Foundation for the year-long institute.

Forty high school teachers will be selected to participate in the institute which will run from Sept. 10, 1961, to June 3, 1962. About half of the participants will continue their study through the summer as part of a Summer Science Institute.

Notification of the grant was received by J. Donald Henderson, professor of physics and science teaching, who will direct the institute.

This grant will enable the University to continue and enlarge its program for training much-needed science teachers, Henderson said. Each summer since 1957, a grant from the National Science Foundation has enabled UND to conduct a Summer Science Institute. The first UND Academic Year Institute for science teachers was conducted in 1959-60.

Since 1957, UND has received more than \$769,980 from the National Science Foundation for these institutes, and more than 250 high school teachers with additional education in science are now in area schools.

"The University is happy for the opportunity this National Science Foundation grant affords us to extend our facilities and services to science teachers in the area, for we shall again be making a contribution of national importance in the science field," President George W. Starcher said. "We are honored that this University was selected as one of 30 universities from the entire nation to be recognized in this way," he said.

Each participating teacher will receive \$3,000, plus \$450 for each dependent and an allowance for the cost of tuition, books and travel. The grant also covers operational costs for staff members and special lecturers, direct costs such as laboratory materials and indirect costs involved in administering the institute.

The institute is designed to increase teachers' capacity to motivate students to consider careers in science, mathematics and engineering. By increasing the high school teachers' knowledge of subject matter in science, the institute aims to improve his teaching capabilities.

Participants in the institute will devote their full time to courses in science designed with this purpose in mind, and conducted by faculty members noted for competence in their fields, Henderson said.

National Science Foundation grants extend complete institution to administer and conduct the program as outlined in its proposal. Since the curriculum is adapted to individual needs, participants gain special benefits from such a program. Teachers program should apply directly to Henderson at the University of North Dakota.

Proposals for the 9-month program were prepared and submitted early this fall by Henderson, who developed the institute program at UND and has directed five previous institutes.

Henderson received B.S. and M.S. degrees from the University, and has done advanced studies at the Universities of Minnesota, Wyoming and Harvard. He joined the UND faculty in 1943.

Is YOUR Meeting on This List?

Houston — Dallas — St. Louis — Phoenix — New York — Washington — San Francisco — Los Angeles — Chicago —

These will be the gathering spots for UND's sons and daughters as they hold important annual meetings during the next few months.

Here on the home grounds at the University, the main series will be culminated Feb. 28, 1961, with the annual Founders Day observance marking UND's 78th anniversary.

Chairman of the committee arranging the annual Founders Day dinner in the Student Union is Helen M. Kjelmlyr, University alumna who is now an associate professor of management in the College of Business and Public Administration.

This is the schedule of the other meetings:

Thursday, January 12, 1961 — **Houston, Texas**, alumni meeting. Maurice Butler, National Bank of Commerce, Houston, chairman.

Saturday, January 14, 1961

— **Dallas, Texas**, alumni meeting.

Monday, January 16, 1961 — **St. Louis, Missouri**. Mr. and Mrs. James Albers, 547 S. Perrine, Centralia, Ill., chairmen.

January 3 to 11, 1961 — **Camelback Inn Reunion, Phoenix, Arizona**, Jack Stewart, chairman.

Friday, February 17, 1961 — **New York City**, Dr. George Talbert, Univ. of N. Y., 450 Clarkson Ave., Brooklyn 3, N. Y., chairman.

Saturday, February 18, 1961 — **Washington, D. C.**, annual Founders Day dinner at the Officers Club, Naval Medical Center, Bethesda, Md. Mel Christopher, 3900, 16th St. N. W., Washington 11, D. C., chairman.

Friday, February 24, 1961 — **San Francisco, Calif.**, alumni meeting at Bar Ass'n of San Francisco Lounge in Mills Tower. Larry Aasen, One Montgomery Street, San Francisco, chairman.

Saturday, February 25, 1961 — **Los Angeles, Calif.**, Hawaiian Party in Statler Hilton Hotel. Robert Finnegan, 3630

HELEN KJELMYR
Founders Day chairman.

Wilshire Blvd., Los Angeles 5, Calif., chairman.

Wednesday, December 28, 1960 — **Chicago, Ill.**, at the Palmer House. Business Education alumni attending the National Business Teachers' Convention will meet at breakfast at 7:30 a.m. Thirty reservations received to date by John Rowe, UND faculty chairman.

Numerous Veterans Too!

New Names on Camelback List As 70 Register Early for Reunion

JACK STEWART
Arrangements chief.

New faces are going to be conspicuous among the "veterans" of the University of North Dakota Alumni Assn.'s annual reunion at Camelback Inn, Phoenix, Ariz., Jan. 3-11, 1961.

A shift of dates from December to January is responsible for the large number of "first-timers" among the 72 UND alumni who have registered to date, believes Jack Stewart, Phoenix, in charge of arrangements for the eleventh annual UND event.

Many of them plan to travel great distances, with Massachusetts, Connecticut, Maryland, Texas, Virginia, Hawaii and District of Columbia all represented.

Registered for the reunion are:

Clifford Anderson, '26, and Mrs. Anderson, Longmeadow, Mass.; Dewey Balch, '32, and Mrs. Balch (Borghild Mork, '28), Minneapolis; J. R. Besse, '05, and Mrs. Besse, Silver City, N. M.;

David Boise, '06, and Mrs. Boise, Silver City, N. Mex.; Dr. L. E. Brown, '22, and Mrs.

Brown, Berkeley, Calif.; Lloyd Clark and Mrs. Clark (Dorothy Carson, '44), San Jose, Calif.;

C. L. Dawson, '14, Washington, D. C.; J. L. DeNault, San Clemente, Calif.; Dr. Solveig Thordarson Gislason, '14, and her sister, Olivia Freeman, both of St. Peter, Minn.;

Dr. E. L. Grinnell, '28, Grand Forks, and Mrs. Grinnell; John E. Howard, retired UND faculty, and Mrs. Howard, Grand Forks; Torger Kraabel, '17, and Mrs. Kraabel, Washington, D. C.;

L. C. Lazier, '25 and Mrs. Lazier, Minneapolis, accompanied by his sister; Everett Lobb, '35, and Mrs. Lobb (Josephine Lazier, '30), Bismarck, N. D.;

Michael McIntee, '40, and Mrs. McIntee (Norma Byram, '40), Darien, Conn.; Lloyd A. Myrand, '23, and Mrs. Myrand, Minneapolis; H. A. Noble, '20, and Mrs. Noble, San Diego; Commander Art Robertson, '23, and Mrs. Robertson, Chevy Chase, Md.;

Ralph Rohde, '21, and Mrs. Rohde, Grand Forks; Paul

Schmoll, '38, and Mrs. Schmoll, Whipple, Ariz.; Lt. Col. Alex Steinbach and Mrs. Steinbach (Edith Veitch, '20), La Jolla, Calif.;

Louis Tellner, '16, and Mrs. Tellner, San Gabriel, Calif.; Frederick M. Thompson, '23, and Mrs. Thompson, Arlington, Va.; Herb Treichler, '08, and Mrs. Treichler (Pauline Kneeshaw, '10), Richmond, Texas.;

Dean Wellman and Mrs. Wellman (Louise Loomis ex '39), Denver, Colo.; Theodore Wells, '12, Grand Forks, accompanied by his sister; R. K. West and Mrs. West (Mildred Veitch, '12), Great Falls, Montana;

Hugh P. Moore, '33, Burbank, Calif.; Mrs. Walter Preston, Woodland Hills, Calif.; Edward J. O'Connor, ex '33, Los Angeles; Mrs. Estelle Garvey Archdeacon, '33, and Mr. Archdeacon, Two Harbors, Minn.; E. L. Hough, '22, and Mrs. Hough, St. Louis; Dr. Min Hin Li, '20, Honolulu; R. L. Ryan, '34, and Mrs. Ryan, Inglewood, Calif.

MIN HIN LI
Hawaiian host coming.

Twamley Gift to U Explained

Circumstances leading to the gift of \$200,000 from the Fred Twamley estate to add a fourth floor to the soon-to-be-built UND administration building have recently been revealed by Miss Edna Twamley in letters to two alumni friends.

"I am not the donor," writes Miss Twamley, "I was merely the agent who had been directed by my late brother, James Frederick Twamley, to use a trust he had accumulated for placing at some time on the UND campus a serviceable memorial to our father.

"Then when I saw the architect's drawing for a new three-story administration building at the University, and knowing that a fourth floor would soon be a real necessity, I

realized that that provided an opportunity to carry out my brother's wishes, with the now expanded fund.

"Furthermore, in the meantime the projected building had already been named for my father, in recognition of his administrative service to the University in its formative years, and for his part in shaping its academic standards.

"These circumstances, coming almost concurrently, seemed to indicate that this was the opportune time for me to discharge my responsibility to my brother in establishing an appropriate memorial to our father, as well as to help provide a more ade-

quate administration building for the University.

"I am grateful that this opportunity came to me; and I am now enjoying genuine satisfaction in finding that other UND alumni are appreciating the appropriateness, the serviceability, and the permanence of my brother's gift."

Miss Twamley now resides in Coldenham, New York, with Rock Tavern as her mailing address. Her father was the late James Twamley of Grand Forks, a member for ten years of the University's first Board of Regents. The new administration building, named for him, will cost approximately \$1,050,000. Construction is scheduled to start next spring.

MASSIVE HIGHWAY IN UND'S BACKYARD

The University will have a huge interstate highway, right in its backyard, if present plans materialize.

The city of Grand Forks is considering moving its Municipal Airport to a new location south of town, and new Interstate Highway 29 would be constructed across the present airport.

This is just a few blocks west of the University's housing development, West Green.

REPORT FROM THE CAMPUS

By J. LLOYD STONE

The campus is quiet as this is being written—one of the few times during the school year that this is the case. But, right now, the students—all 4,130 of them—are home for Thanksgiving.

They'll be back in a few days and then, after three weeks be off again, for the Christmas recess.

It won't be long then until final exams start Jan. 23, the mid-year Commencement will follow Jan. 29—and another academic year will reach the half-way mark.

UNIVERSITY SERVES ITS STATE WELL

The University continues to be of service to countless professions and activities through leadership conferences and workshops held on the campus.

These are some of the more recent sessions at which experts were on hand to guide North Dakotans in their special fields.

The seventh annual Income Tax Conference, at which proposed changes in the North Dakota income tax laws were explained to attorneys and accountants.

The school for North Dakota legislators, at which valuable information in political science, economics and legislative processes were detailed for the state's lawmakers.

The annual meeting of the North Dakota Assn. of County Engineers.

A special refresher course for physicians, staged by the School of Medicine in connection with a meeting here of the N. D. Chapter of the American Academy of General Practice.

The annual workshop for editors of North Dakota newspapers.

In addition, a career day was conducted for high school girls of the surrounding area.

STATE'S ATTORNEYS COMING TO CAMPUS

Another of these service sessions, an institute for North Dakota's 53 county attorneys, will be held by the School of Law Dec. 2 and 3.

This is the first institute for

state's attorneys ever held, and it is being sponsored by the only state organization of state's attorneys in the nation, which is in North Dakota.

Purpose of the institute is the continuing education of attorneys who are serving as public prosecutors. The institute will be helpful to recently re-elected state's attorneys who will hear ways of improving the work of their offices. Newly elected state's attorneys will find the institute an orientation to their new jobs.

The sessions will center around criminal prosecution and the procedures which should be used by the state's attorneys. Collection and preservation of evidence, interviewing the complainant and witnesses, procedures leading up to and during criminal trials all will get attention.

UND BRACES FOR ENGLISH INVASION

This may, or may not, be an attempt on the part of Great Britain to win back the English Coulee.

Anyway, an English debate team from Oxford University was due to invade the campus Nov. 28 to clash with UND's debaters.

The question: "Resolved, that Red China should be admitted to the United Nations,"—with the University, of course, taking the negative view of the situation.

Prof. R. R. Kunkel is coach of the University debate team this year.

STUDENT DIRECTORY IS BIG PRODUCTION

A far cry from the miniature booklet that alumni who left UND any time up to a few years ago, the University Directory this year is almost three times the size of its predecessors—both in dimension and number of pages.

This year's directory lists 4,130 students—from Aafedt to Zundel—and approximately 500 staff members.

Total UND enrollment is up more than six per cent from last year, but the number of freshmen is more than 16 per

cent over a year ago. Also, the rate of increase for women is greater than it is for men.

Of the 4,130 enrollment figure, 2,851 are men, and 1,279 are women. There are 1188 freshman, 985 sophomores, 696 juniors, and 851 seniors, 305 graduate students, and 105 in other categories.

While the University's enrollment has been increasing, the biggest jump is yet to come. Present swollen high school classes indicate 1963 to 1965 as the period when UND can expect its biggest registrations.

WEATHER REPORT: IT'S BEAUTIFUL

It's a beautiful late fall we've been enjoying on the campus this year. We had an election day snowfall Nov. 8, but the white stuff all had disappeared a few days later. The days have been bright, sunny and crisp—no one could ask for more.

U. S. FUNDS LIKELY FOR UND CENTER

Approval of federal aid funds for an addition to the McCannel Medical Center Rehabilitation unit at the Uni-

versity has been recommended by the State Health Planning Committee.

Tentative plans call for a \$525,000 addition of a second and third floor to the center to provide in-patient service. Federal aid for any project is limited to 46 per cent of the total cost.

The architects drawings previously were approved by the Center's State Advisory Council. The proposed addition must still be approved by the State Board of Higher Education and be granted matching funds.

The two new stories would house living quarters and recreational space for patients at the Center.

The Rehabilitation Unit provides physical and occupational therapy, speech and hearing testing and therapy, psychological testing and counseling, social service, and a pre-vocational testing program.

Besides the Rehabilitation Unit, the State Medical Center consists of the Medical School, the College of Nursing, a program in medical technology, plus the State Health Department Laboratories.

INDEPENDENTS FORM SENATE ON CAMPUS

An Independent Student Senate has been organized at the University to co-ordinate student activities and to provide a nucleus of leadership for the independent student body.

Along with organizing independent student activities, the Senate aims to promote better relations between independents and other campus groups, create interest in worthy activities and promote a healthy independent student philosophy on campus. A rules committee is drawing up a constitution and by-laws which will be subject to changes by the entire group at its next meeting.

Dr. Martin Markowitz, 1933, Brooklyn, N. Y., recently had a medical article published in the magazine Hospital Topics.

R. D. Koppenhaver, (above) chairman of the Accounting Department at the University, was re-elected secretary of the North Dakota Society of Certified Public Accountants at the group's state convention in Minot.

U Cage, Hockey Teams Take Spotlight

With the football season completed, University basketball and hockey teams have taken over the limelight with stepped-up drills.

In basketball, Coach Louis Bogan has been working with 15 varsity candidates, stressing fundamentals, building an offense and setting up defenses.

Six letterwinners are among the 15 varsity cage candidates including one senior, six juniors and nine sophomores.

A breakdown of squad positions shows five guard candidates, six forwards and four centers. Co-captains are Larry Exel, Minneapolis, junior guard, and Dick Mozetti, Virginia, Minn., senior forward.

Meanwhile, in hockey Coach Barry Thorndycraft reports he is satisfied with progress of his varsity squad. In the first regular game of the season, it was Sioux 6, Estevan, Sask., Bruins 1.

While still experimenting with different front line and defensive combinations, a pair of intra-squad games gave Thorndycraft more information about his 21-man squad for when the heavy firing starts in the WSHA campaign.

John Gray, senior defenseman from Winnipeg, Man., has been elected team captain. Gerald (Jerry) Walford, senior left winger from Sudbury,

Ont., was named alternate captain.

In all, the Sioux play 28 games this season plus an exhibition here Dec. 30 against the touring Russian Nationals team.

A 23-man freshman squad is working out daily under Coach Richard Bouchard.

Playing the Winnipeg Maroons in their first game, the frosh lost 5 to 3.

Final Grid Game Is Called Off; Prospects Good

University football fans were disappointed with the cancellation of the final game of the 1960 season against Idaho State College at Pocatello, Idaho. The game at Pocatello was called off because of adverse weather conditions.

Thus the 1960 season produced four wins, three losses and a tie with a squad that was 60 per cent sophomore! The Sioux tied with Augustana for second place in final North Central Conference standings behind undefeated Iowa Teachers.

The Sioux wins in NCC action were 34-13 over Morning-side, 27-7 over University of South Dakota, 27-23 over South Dakota State and 16-7 over arch-rival North Dakota State. The Sioux dropped conference contests to Iowa Teachers by 7-3 and Augustana by 28-18. In non-conference games UND lost to Montana University 21-14 and tied Montana State, 6-6.

The North Dakota freshman squad was undefeated in three contests allowed them by conference regulation. The Sioux yearlings soundly whipped Bemidji State, 33-14, Concordia College freshmen, 44-6, and North Dakota State freshmen, 40-0.

Coach Whitey Helling loses only five seniors, including Capt. Jim Webb of Williston, a halfback, tackle Don Kaczmarek of Cokato, Minn., who has been drafted by the pro

Pictured above are University Head Basketball Coach Louis Bogan, Herman Witasek of Oshkosh, Wis., and 1960-61 Co-captain Larry Exel of Minneapolis.

Witasek, by all standards, is considered one of the greatest cagers ever to play at the University and now lives in Oshkosh, where he is in the wholesale novelty business.

A check of the records reveals Witasek played under Silent Clem Letich from 1932 through 1935. During this three-season span the University Sioux cage teams won 54 games and lost only 5, and two North Central Conference championships and placed second the other season.

Witasek, according to records kept in the athletic department, "was one of the greatest players ever to wear the University colors." His scoring records are not available.

During Witasek's playing days the Sioux lost three of 12 games to NDAC, one to the University of Nebraska and one to Creighton University.

Witasek played five years of professional basketball with the Oshkosh All-Stars after graduating from UND.

The three were pictured in front of the UND Fieldhouse trophy case—with Letich's picture hanging above them—when Witasek visited the campus recently.

Los Angeles Rams, and halfbacks L. C. Hester and John Councilman both of Minneapolis and halfback Bill Drozda of Winnipeg. It may appear the Sioux will be short of halfbacks next fall, but such is not the case with at least three seasoned varsity per-

formers returning along with three standout freshman prospects including Neil Bengtson of Hallock, Minn., Gary Horner of Minot, N. D., and Eddie Stevens of Evanston, Ill.

All in all, it appears the Sioux should be playing good football again next

fall with more experienced help around than UND has had in four seasons.

The schedule will be real tough again in 1961. Already contracted for non-conference action are Montana State and the University of Nebraska.

(Continued on Page 8)

More of the Nodak 'Success Story'

Here is more evidence that UND's earlier graduates have written records of success in the widely varying careers upon which they embarked after leaving the campus between 1906 and 1912.

These are more of the alumni who have returned forms to the Alumni Association here in the current campaign to update information on all living University grads.

Many more alumni are expected to return the completed forms later, but here is a further report on those filed to date:

—1906—

Arthur Blaine Comfort: Now in his 28th year as president and board chairman of Comfort, Davis and Blangy, Inc., Tacoma, Wash. He also is a member of the Washington State House of Representatives. He is a former prosecuting attorney and a former welfare administrator for five Washington counties. He is serving as honorary state president of Senior Republicans. After receiving his B.A. at UND, he obtained his law degree from the University of Washington.

—1910—

Frederick Albert Slyfield, a native of London, England, has practiced medicine in Seattle, Wash., for 40 years. He became a member of the Royal College of Surgeons at Edinburgh, Scotland, in 1911, and is a fellow of the American College of Physicians, and of the American College of Chest Physicians. He received his M.D. degree at the State University of Iowa after completing the UND medical course. He was married at Seattle in 1924 to the former Leona Tennant.

—1911—

Myrtle Burns Schutz: A retired school teacher, she served as Presbyterial President of the Sacramento, Calif., district for four years. She also is a life member of the Commission on Ecumenical Mission and Relations and of the Board of Christian Missions, both of the Presbyterian Church. Her husband, Walter V. Schutz, died in 1958 and she now resides in Citrus Heights, Calif.

Emma Slingsby Palfrey: She taught in high schools for three years and later served for 16 years as a deputy in the Steele County auditor's office at Finley, N. D. Her husband, Charles R. Palfrey, died in 1926 and she now resides in Minneapolis. She is a native of Hope, N. D.

Mabel M. Rethemeier Mulligan: She held an unusual position for a woman, serving for 27 years as a U. S. rural letter carrier in the Warwick, N. D., area. She is one of the alumnae of Model High School, operated at the University for many years. Her husband, James Mulligan, died in 1926.

Della M. Rees Johnston: She taught school in North Dakota and in Alberta, Canada, before her marriage in Grand Forks in 1917 to Cleveland M. Johnston. They are the parents of a son and two daughters. Mrs. Johnston was a Grand Forks High School honor student, class of '08.

Theodore Axel Gustafson: After serving as a teacher and superintendent of schools at Dickinson, Starkweather, Edmore, Cavalier in North Dakota and at Delano and Granite Falls in Minnesota, he left the education profession in 1935 to enter the life insurance business at St. Cloud. He was high man in Minnesota in 1956 in a campaign to raise money for the Heart Fund. After receiving his B.A. degree in 1911, he received a scholarship that led to his receiving the M.A. from UND in 1913. He and Mrs. Gustafson have

two sons and two daughters.

—1912—

Anna G. Nestoss Sando: She was a high school teacher at Berthold, Wyndmere and Sanborn, N. D., before her marriage in 1915 at Buxton to Otto T. Sando. She is a member of the American Assn. of University Women and presently resides in Valley City, N. D.

Adolph Earl Hylden: He was a bulk agent for Standard Oil Co. at Fordville, N. D., for 27 years. Previously, he was a farmer and school teacher. He has operated a large farm near Fargo since his retiring from his Standard Oil position in 1952. He and Mrs. Hylden are the parents of two sons and three daughters.

Walter Eli Quigley: A UND law graduate, he now is engaged in research and writing. He was a member of the Minnesota State Boxing Commission in 1934, and in 1909-'12, while attending UND, was on the staff of the Grand Forks Herald. The father of two daughters, he and Mrs. Quigley have 13 grandchildren and one great-grandson.

Howard William Stansbury: A life-long farmer in the Finley area, he presently is chap-

lain of the American Legion Post there. A graduate of UND's old Model High, he has served as director of the Board of Education at Finley. He and Mrs. Stansbury are the parents of two sons and a daughter.

Walter Matscheck: He has been director of research for the U. S. Railroad Retirement Board for 20 years. He moved in September from Arizona to Spring Valley, Calif. After completing his work at UND, he attended the University of Minnesota and received his M.A. in 1914.

Edwin Burling: After 20 years an Army chaplain, Lt. Col. Burling has retired and resides in Santa Barbara, Calif. Previously he served as a Methodist minister in North Dakota. He and Mrs. Burling, the former Lillian Lockton, have two sons, one of them is Edwin G. Burling, a UND graduate.

Raymond Alfonsus Heising: He is a consulting engineer with the Bell Telephone Laboratory, Summit, N. J. Previously, he was a radio research engineer with the company. He attended the University of Wisconsin in 1912-'14, receiving an M.S. in physics.

U Library Serves Entire State

A state university not only serves its academic community, but the people of the state as well. One such state-wide service of the University of North Dakota is its library loan service.

To supplement the library facilities in North Dakota, the University State has a lending service to mail books, pamphlets, bibliographies and other library materials to the public upon request.

County and multi-county library centers have been established throughout the state to serve wide areas. These centers operate bookmobiles, which bring the library to the people, even into the rural areas.

This "State-wide Loan Serv-

ice" of the University Library is a little-known service of UND, yet it has been in operation since the early days of the university and its library.

Although requests mainly come from North Dakota, letters have also been received from places such as Kansas, Nebraska, California, Virginia, Iowa, Minnesota, Wisconsin, Illinois, New Mexico, Pennsylvania and New York.

In the early days of the library, the statewide loan was a particularly important service to the growing state with few libraries. In 1915 the library served directly 147 towns in the state by fulfilling 312 requests with 987 publications.

Even today the service is

growing. During 1958-59 the library sent 200 publications in response to 117 requests, in comparison with the 1959-60 figures of 316 publications for 196 requests.

The importance of the library statewide loan service was recognized long ago by Clarence Summer, who was head librarian of the UND library in its early history. He said: "The University is a great reservoir of knowledge which the people should tap as the occasion demands. An intelligent cooperation between the university and the people outside of it results in making a broader and more efficient citizenship and such work is the proper function of a state university in a democratic society."

For Next Biennium:

U Asks Budget Of \$8,129,392

The University has requested \$8,129,392 as its operating budget for the 1961-63 biennium, President Starcher told the Alumni Association Board of Directors at its Minneapolis meeting.

This is an increase of approximately \$1.7 million over the 1959-61 appropriation.

Of the total, \$1,364,000 would be provided by University sources of income, including \$1,180,000 from students' registration fees. The remainder would come from the state general fund.

Also requested are three new buildings to cost an additional \$2,300,000.

The budget earmarks approximately \$5.3 million for salaries, \$1.7 for plant operation, and \$756,000 for administration.

Plant improvements totaling \$943,500 also are requested. As outlined by President Starcher, these included:

Equipment for new chemistry building, \$112,000; equipment for new library, \$200,000; remodeling old library to house the School of Law, \$200,000; remodeling and equipping the old Chemistry Building to accommodate the Department of Biology, \$200,000;

Furniture for a new men's and a new women's dormitory, \$115,000; sprinkler system for fire protection for Budge, Macnie and Davis Halls, \$40,000; removing Old Main, \$9,000; air conditioning the Education Building Auditorium to allow its continued heavy use during summer sessions, \$10,000;

Purchase of virgin prairie land in Oakville Township by botanial work, \$16,000, and special assessments for improvements carried out by Grand Forks City, \$41,500.

The new buildings requested by UND, President Starcher said, are:

A \$300,000 Service Building, to replace temporary buildings housing University services, laundry, receiving and storage.

A \$1,000,000 Geology and Mineral Industries Building

to house the Department of Geology, the Geological Survey, Petroleum Engineering and Ceramics.

A \$1,000,000 University Center, to include an assembly hall, an extension and adult education center, and a fine arts center for music, art, drama and speech.

For new departments or projects, \$210,585 is asked. These would include a Computer Center in the College of Business and Public Administration using IBM machines; a Special Education Department to prepare teachers and administrators for specialized work in North Dakota schools; Agricultural Law Research in the School of Law; a Data Processing Service Bureau in the Registrar's Office; University support for off-campus extension classes, and a coordinated honors work program.

In addition to providing promotions and merit salary increases for present staff members, the new budget would increase the faculty by 21 full time and one part time persons. This would bring the total staff total to 282 full time and 26 part time personnel.

● Final Grid Game

(Continued from Page 6)

Another non-loop game will be added to the six North Central contests.

Many local observers feel the Sioux definitely are on the way back to the top of the heap in football. With a fine coaching staff in Helling, backfield coach Paul Roach and line coach Dewey Sundby and about 50 excellent prospects the football trail for next season might find the Sioux war-whooping through the upper midwest in the same manner as in the 1930s.

Emeritus 'Club' Gains Members

Headed by President Emeritus John C. West and Medicine Dean Emeritus H. E. French, University has a growing honor roll of emeritus staff members, most of them still residing in Grand Forks.

Others now on the list Professors Emeritus George A. Abbott, chemistry; Margaret Beede, English; E. D. Coon, chemistry;

John E. Howard, band; Carol Humpstone, music; C. L. Kjerstad, philosophy; W. H. Moran, chemistry; Alice G. Richardson, business education;

Hywell C. Rowland, music; Isabel P. Snelgrove, art; Erich Selke, education; and Raymond C. Staley, mathematics.

Miss Beede resides in Seattle, Miss Snelgrove in Bremerton, Wash., and Professor Staley in St. Paul. The others live in Grand Forks.

President Emeritus John C. West (above) planned to leave soon with Mrs. West for California, after spending the summer in Grand Forks.

Also on the list is E. J. Buckingham, retired superintendent of buildings and grounds, Grand Forks.

Inside Job:

Student Union Getting Interior 'Face-Lifting'

The Memorial Student Union is undergoing an extensive interior "face-lifting," the first since it became the hub of campus activity in 1951.

Complete refurbishing of the main lounge on the second floor, at a cost of approximately \$12,000, is a major item in the program. "Danish Modern" will be the decor of the room when the project is completed.

A new game room has been formed in the Union basement through remodeling of a store-room area next to the bowling alleys. The game room on the third floor has been converted

into coffee and dance canteen, operating throughout the day.

The former TV lounge on the third floor now serves as a large conference room, and student organizations have offices in the Ridge Room.

Walls of the rooms and halls throughout the building are being redecorated and new draperies are being installed. The cafeteria's kitchen has been enlarged and new dish-washing equipment installed.

Dr. H. William Shambart, 1946, Auburn, Calif., recently opened office for the practice of general surgery.
