Class of 1915

Old Timers
Slate Reunion
April 22-23

The Old Timers Reunion, honoring the 50-year class of 1915, will be held Thursday and Friday, April 22 and 23, according to Dr. Erich Selke, professor emeritus of education and chairman of the committee planning the reunion.

Dr. Selke emphasized that members of the classes "touching" the class of 1915, that is the classes of 1912 through 1918, are also especially invited to enable all old friends to get together.

"The reunion is being held early this year in order to give the alumni an opportunity to look in on classes," Dr. Selke explained. In past years it has been held during June commencement.

Registration is set for Thursday from 2 p.m. to 3 p.m. in Twamley Hall, with the President's Tea following in the Twamley Faculty Lounge from 3 p.m. to 4 p.m.

The Annual Alumni dinner will be held at 6:15 p.m. in the University Center. President George W. Starcher will be the featured speaker. All UND alumni are invited to attend.

A conducted car tour of the campus will begin at 9:30 a.m. Friday morning, followed by a luncheon at 12 noon in Squires Hall.

A symposium of "Present (Continued on page 8)

Opening Golf Course Bids

THIS ALUMNI BUDGET COMMITTEE met in February at UND to approve low bids on the Ray Richards Golf Course irrigation system. Standing, left to right, are Leonard Marti, UND athletic director; Gerald Skogley, UND comptroller; J. Lloyd Stone, Alumni Association executive vice president; E. E. Simmons, Alumni Board member. Seated, left to right, are Dean Thomas Clifford of the UND faculty; Dale Youngern, Alumni Board representative; and Dr. Otis Simenstad, UND Alumni Association president.

Approve Watering System

The Ray Richards Golf Course at UND took a giant step toward completion with approval of low bids on the installation of a sprinkler and irrigation system.

Low bidder on the project was the George Haggert Construction Co., of Fargo with a bid of \$31,107. The firm will begin construction of the irrigation system on the nine-hole course as soon as the frost is out of the ground, with completion of the system

scheduled within 30 working days after the construction starts.

Leonard Marti, UND Athletic Director, stated that all of the rough leveling work was completed last fall, with the moving of more than 50,000 cubic feet of earth. The golf course was designed by Robert Bruce Harris, Chicago golf architect, who also planned the new 18 hole golf course at the Grand Forks Country Club.

The course will take advantage of the rolling terrain of the coulee area, with only one flat hole, and will challenge both the beginner and expert golfer. The major share of the construction of the course will be completed this year, with the course opening for play in the summer of 1966.

Made possible by a gift of land from Ray Richards of Tulsa, the course is named in his honor. It is located south of the University nearly opposite the old UND Armory.

On the Way

Development
Fund Finale
Planned for May

The checks are continuing to come in to the UND Development Fund, although the pace slackened off a little right after the first of the year, according to William Micklin, national chairman of the Fund drive.

After seeing the state rating list in the February REVIEW, many of our chairmen have gotten busy and sent out follow-up letters to the alumni in their states who haven't yet contributed (and in a few cases, by mistake, to some who had already sent their checks).

As a result of all this enthusiasm on the part of our chairmen, the state rating has been changing almost as fast as the North Dakota weather, Micklin said. Plans are to print the rating as of February 28, and the list of January and February donors in the April REVIEW.

"We expect to wind up the drive by the end of May, and if our alumni continue to contribute as well as they have,

(Continued on page 8)

UND Sioux Are
Triple Champions!

1964-65 goes into the record books as one of the greatest in the history of UND athletics. Last fall, the Sioux football team tied for first place in the conference. This winter, the Sioux hockey team captured top honors in the league, while the basketball team won the conference title, winning 12 straight league games. As we go to press, the Sioux pucksters and basketball teams are going into regional playoffs, aiming for national titles. Fight on Sioux!

University of North Dakota
ALUMNI REVIEW

The University of North Dakota Alumni Review is published monthly, except July and August, by the University of North Dakota, Grand Forks, N. Dak., for alumni and former students of the University of North Dakota in the interests of the University. Second-class postage paid at Grand Forks, N. D. Change of address and return requested forms should be sent to the University of North Dakota Alumni Review, Grand Forks, N. Dak.

Officers

President Dr. L. O. Simenstad
First Vice President John T. Traynor
Second Vice President E. E. Simons
Executive Vice President J. Lloyd Stone
Treasurer E. W. Olson
Athletic Board of Control—
Gordon Caldis

Directors

To 1965 — Dr. Robert Fawcett, William DePuy, Gerald Skogley, John T. Traynor, Judge Ronald Davies, Gordon Aamoth.
To 1966—Herbert Treichler, Edward J. Franta, Paul Bolton, Mark B. Foss, Evan Lips, E. E. Simons.
To 1967—Robert Eddy, William Micklin, Dr. L. O. Simenstad, Mrs. Stella Mann, Dr. William Durnin, Dean Thomas Clifford.

RECEIVE DOCTORATES

"Twin" doctorate degrees were presented to a husband and wife team at UND's mid-year graduation ceremonies. Mr. and Mrs. Darold Holten were awarded degrees in the same major — biochemistry, which further amplified the uniqueness of the situation. UND officials said that, while there is an occasional instance of a husband and wife receiving bachelor's degrees at the same time, such an occurrence at the graduate level is rare.

LIGNITE LAB OPERATIONS

The U.S. Lignite Research Laboratory at the edge of the UND campus will incorporate the operations of a Denver Bureau of Mines coal research laboratory, which will be shut down. This transfer will be completed by June 30, 1966. The Denver laboratory has an annual budget of \$392,000 and 31 employees. The budget would be utilized to support research at Grand Forks and other Bureau of Mines locations.

SHAKESPEARE EXHIBIT

The recent showing at UND of the choice traveling exhibit from the Folger Shakespeare Library, Washington, D. C., was termed "successful" by Donald J. Pearce, head UND librarian. The exhibit was on display in the main lobby of the Chester Fritz Library during January.

REPORT from the CAMPUS

By J. LLOYD STONE

It was in October of 1945 that I returned from the war in the Pacific. It's been almost twenty years since then, and a walk across the campus now reveals some startling changes.

The Mall is still much the same, but the fringe areas are creeping ever outward.

Farthest from the heart of the campus, toward Grand Forks, is the Charles E. Robertson Lignite Research Laboratory, built in 1950 and operated by the U.S. Department of the Interior Bureau of Mines.

Next come the Fieldhouse, which was opened in 1951, and the University Center (formerly the Student Union), built in 1951 and greatly enlarged and remodeled in 1964.

A science complex has developed between Second Avenue and the Winter Sports Building, from the Campus Drive to the Fieldhouse. New buildings in this area include Abbott Hall (chemistry), built in 1961; the Medical Center, built in 1949 and doubled in 1953; McCannel Rehabilitation Center, built in 1957 and enlarged in 1962; the Guy and Bertha Ireland Cancer Research Center, begun in 1959 and added to in 1962; Leonard Hall (geology), completed in 1964; and Harrington Hall (engineering), built in 1952.

Other new structures include the Education Building, built in 1955 to replace Woodworth Hall which was destroyed by fire in 1949; Burtness Theatre, built in 1963; the Chester Fritz Library, completed in 1961; and Twamley Hall, built in 1962 to replace Old Main.

Married student housing and ten or eleven new dorms have also been added to the campus perimeter.

Points of interest have sprung up in every area. The Carillon Americana, a 305-bell electronic carillon installed in Twamley Hall, is one of the six largest and most versatile carillons in existence.

The Oriental Room in the Chester Fritz Library contains

furniture, pictures, carved wood figurines, ivory carvings and scrolls presented to the University by Chester Fritz from his own personal collection.

A computer laboratory is located in Harrington Hall, and its facilities include both a Donner Model 30 computer, and the Pace TR-48 computer. Here basic analog computer operation is covered in regular classroom studies, and these facilities are available for individual student special studies at both the undergraduate and graduate levels.

In addition to the computer lab, there is also a data processing and computer center located in Twamley Hall. This complex includes an accounting machine, sorter, reproducer, collator and interpreter, plus keypunches, verifier, sensimatics, the computer and a cardreader. This complex is used for University business, classes, and research.

Another laboratory of recent addition is the foreign language laboratory. This lab, which accommodates sixteen students at once, consists of thirty booths with tape recorders with provisions for listening to tapes from the main console, or for listening to individual tapes, or for taping students' voices for play-back.

The Raymond Richards golf course is under construction now across the English Coulee and the Great Northern tracks on farmland donated by Raymond Richards for this purpose. The course of the Coulee is being changed in this area to provide interesting terrain for Sioux golfers. We expect to play our first round before September 1st this year.

Of great interest to alumni is the Old Main Memorial. Inspired by the "everburning torch" in the lines of "Alma Mater," the Memorial features a flame symbolizing the light of truth and knowledge surrounded by a gridlike sphere laced with 29 human figures showing the educational development of man. The flame

was lit the last day of 1963, the year of Old Main's demise.

Fine as all these new buildings are, not one of them can be considered a frill. Without them, the University could not have admitted the large numbers of students seeking college entrance. Enrollment has doubled in the past decade. Of the 21,000 persons who have received degrees from the University of North Dakota, more than one-third of them have graduated in the past ten years.

This enrollment will continue to increase (studies estimate 8,000 students by 1972), and we must continue to expand to meet it. Specialized classroom facilities are needed—in the last ten years the number of dormitory spaces has increased 300 per cent, but the number of classrooms and laboratories for students has increased less than 15 per cent.

Other needs naturally follow: more faculty members and higher salaries, increased emphasis on graduate work, new teaching devices, more emphasis on research facilities, and increased funds for the library.

With all the past and projected physical growth the basic objectives of the University — teaching, research, extension and public service — remain unchanged.

Enabling the University to continue its high standards in these respects is the responsibility of us all.

More specific information concerning the immediate past and the projected future of UND is contained in "Plant It This Afternoon," President Starcher's recently published report for the past biennium. Anyone interested may obtain a copy of this booklet by writing my office.

The University of Minnesota hockey series in Minneapolis January 29 and 30 this year turned out to be the satisfaction of all our Sioux. We won two victories after hard-fought games. It's wonderful

(Continued on page 3)

● REPORT

(Continued from page 2)

to be on the top in the Conference race!

The hockey series was a good start for the coming week for our UND alumni. I might mention some of our activities for the four days we spent in Minneapolis following the hockey series.

One morning Fred Davidson entertained us at the Gamble - Skogmo offices in Minneapolis and was host for a lunch that noon in their official board room. Fred mentioned to me that his organization was built with University of North Dakota alumni, and one of these days he is going to send me a list of graduates who have worked for that company since the beginning.

The chairman of their board, Mr. B. C. Gamble, is from Hunter, N. Dak., where his father was a partner in a general store. Mr. Gamble's experiences in business read like a Horatio Alger story. He is now head of one of the largest business corporations in this country.

The president of this company, Carl Raugust, is a graduate of Jamestown College and happened to be a room-mate of my older brother, Rev. Howard W. Stone of Indianapolis, Indiana.

We appreciate all the help the Gamble-Skogmo Company has given the University.

It was a pleasure to spend some time and have lunch with Judge Edward Devitt, who is the senior Federal Judge in Minneapolis. The Judge has co-authored a book "Federal Jury Practice and Instruction," which was recently reviewed in the Twin Cities paper.

Our Minneapolis meeting was held February 3 at the Curtis Hotel. The University Varsity Bards provided the program and were outstanding. More than 250 alumni and friends heard the Bards and enjoyed the dinner and the Reunion.

Karen Sethre did a fine job in making the arrangements. Arnold Thompson of Rochester, our University Development Fund chairman for Minnesota, was there and was of great assistance, too. Luther Bjerke spoke for the University.

Award Commendation Medal

COLONEL CHARLES L. ANDERSON (right) receives congratulations from Major General Webster Anderson of the U. S. Army Communications Zone, Europe. Col. Anderson was awarded the Joint Services Commendation Medal in ceremonies at Orleans, France, where he serves as chief of the Supply Management Division. He was cited for outstanding meritorious service while on duty in Washington, D.C. A native of Larimore, Col. Anderson earned his degree from UND in 1938, and has been in France since July, 1964. (U.S. Army Photograph)

UND ALUMNUS GAINS PROMOTION WITH GE

Clarence A. Neumann, a native of Ellendale, N. Dak., has been named manager of original equipment manufacturer sales of the General Electric Tube Department.

After serving in the U. S. Navy in World War II, he was graduated from UND in 1949 with a bachelor's degree in mechanical engineering, and immediately joined the GE staff. His GE assignments have taken him to Schenectady, Pittsfield and Cleveland. He and his wife have five children.

John H. Hanna, '34, was recently elected Potentate of Osman Shrine Temple of St. Paul, the oldest Temple in the Midwest. Formerly an East Grand Forks resident, Hanna resides with his wife, **Caroline Moore, '33**, in St. Paul, where he is president of R. M. Neely Co., managing general agent, St. Paul. He is a past president of the Twin City Underwriters Association and is very active in community, church and lodge affairs.

U TO CONDUCT PREP PROGRAMS

Five summer study institutes for high school students are scheduled at UND this summer in science and mathematics, speech, biology and engineering. Another institute is designed for gifted high school juniors. Participants will be enrolled from June 21 to Aug. 14 with regular college students and may select courses from different departments ranging from sciences to liberal arts.

High school students will have an opportunity for contact with engineering problems in the first Engineering Institute June 14-18. Total cost for the program, including board and room, is \$20.

FEES BOOST FUND

UND Alumni who attended the Camelback Inn reunion in January paid a five dollar deposit registration fee, which was in turn given to the Development Fund. The deposit fees help build the Development Fund, and we express our thanks to the individual UND alumni and to Jack Stewart for this arrangement.

U Development Fund Memorial Plans Available

Upon the death of a close relative, or perhaps a friend, many people often wish there were a better way to memorialize the individual who has gone than the somewhat superficial things which have become customary in our society.

Many schools have established such a dignified and meaningful way of memorializing friends and loved ones by setting up Memorial Funds.

An individual who wishes to pay tribute to a friend or relative through memorial funds may designate the area of the school's research, service or scholarship activities he wishes to aid. A committee is available to assist donors in choosing the particular fund that will serve the school in accordance with their wishes.

Such gifts become living memorials through their aid to scientists, teachers, staff members and students in building a brighter future. Many people find comfort in knowing that their contributions are helping scientists find a cure for the disease that struck down someone close to them, or are helping students complete their work in a field which was a special interest of the deceased.

Memorial funds sent to the University are handled through the Development Fund. Anyone wishing to set up a memorial, be it in the form of faculty grant, student loan, scholarship, or other project, should contact the UND Development Fund office. All arrangements will be made in accordance with the donor's wishes.

PRESS HONORED

Joe W. Hughes, UND Press manager, accepted a scroll on behalf of the University Press at the ninth annual Graphic Arts Clinic in Fargo recently. The scroll was presented in recognition of the Press production work in printing two successive All-American Dacotah Annual yearbooks as rated by the Associated Collegiate Press. The Leslie Paper Co. sponsored the clinic and the award.

SHORT SHORTS

UPSON SERIES SPEAKER

Dr. Paul Goodman, well-known critic of society and its educational system, appeared March 1 as the second Maxwell M. Upson Lectureship series speaker. The series was made possible through a gift of \$100,000 from Maxwell M. Upson, New York City, an 1896 UND graduate. Purpose of the series is to bring to the campus outstanding lecturers in the various academic and professional fields.

FINE ARTS FESTIVAL

Performances by guest artists from the Royal Winnipeg Ballet, an exhibition of unusual pottery, and a single painting which occupies an entire gallery are features of the 1965 Fine Arts Festival at UND March 12-28.

SMALL SCHOOL STUDY

Sixteen educators from North Dakota, including four UND faculty members, will visit Texas, Colorado, New York and Illinois in March to collect data on new instructional programs being used in various small schools there. The visits will be summarized at UND during the second annual workshop to study problems of small schools June 21-July 17. Educators who participate in the travel study will assist the workshop by presenting their findings to teachers and administrators in the workshop.

TWO-YEAR ROTC PLAN

A new two-year Reserve Officers Training Corps (ROTC) program will go into effect September, 1965, at UND. The new program will enable students with a minimum of two years of college remaining before graduation to complete the regular four-year ROTC program in two years and to qualify for an officer commission in the Army or Air Force. The program will be open to students completing junior college, to graduate and transfer students, and also to students attending a college within commuting distance of UND.

Fargo Doctor Featured In National Magazine

A five-page story in a December issue of the Saturday Evening Post features Dr. Laurence Gesner Pray, former UND student who is now senior pediatrician and chief of the St. Luke's Hospital medical staff in Fargo.

Dr. Pray, whose father was a doctor in Valley City for 45 years, attended UND and the University of California, from which he graduated in 1926. He obtained his medical degree in 1935 from Washington University in St. Louis.

Dr. Pray trained in pediatrics at Johns Hopkins for three years under Dr. Edwards A. Park, a distinguished pediatrician. He also trained under Dr. Rustin McIntosh at Columbia Presbyterian's Babies Hospital in New York.

Dr. Pray was offered a posi-

tion at the Fargo Clinic in 1941 when his brother Ralph, also a pediatrician, resigned from the Clinic.

Active in civic affairs, Dr. Pray is a member of the Kiwanis, vice president of the school board, past president of the Cass County Mental Health Association, and active in the Fargo-Moorhead Opportunity School. Ten years ago he led a successful fight for fluoridization of the Fargo water system. He was chairman in 1960 of a committee on North Dakota children's emotional needs. He attended a National White House Conference on the same subject in 1960 also.

Pray is married and the father of two sons, both studying medicine.

U GRADUATE WRITES BOOK OF SERMONS

Dr. Clifford B. Holand has completed a book titled "Good Morning! And Other Sermons" which includes his 1958 UND Baccalaureate sermon, the year UND observed its 75th anniversary. Dr. Holand presented a facsimile of a Gutenberg Bible, prized possession in the book world, to the University last fall. It is on display at the Chester Fritz Library on the UND campus.

ALCOHOL STUDIES

The North Dakota School of Alcohol Studies will become the first international school of alcohol studies in North America at its first meeting at UND June 13-18. For the past six years, the school was conducted at UND through the joint efforts of the North Dakota Commission on Alcoholism and the University. The school has received national recognition and has been attended by students from many surrounding states and Canadian provinces as well as North Dakota.

Seven UND students will study foreign languages in Europe and Canada this summer or during the 1965-66 academic year as recipients of the John G. Arneberg language awards totaling \$8,000.

RANKS THIRD IN NATION

The UND Business Education Department ranks third in the nation in the number of master's theses selected for publication in the "National Business Education Quarterly," published by the National Business Education Association, according to a recent issue of the quarterly.

The National Business Education Association invited Dr. Dale D. Atwood, chairman of the division of business education at Minot State College and formerly a business education instructor at UND, to present an abstract of his UND doctoral thesis at the Association's meeting in Chicago.

MICHIGAN PROFESSOR

Dr. Robert W. Parry, professor of chemistry at the University of Michigan, was on the UND campus Feb. 19-20 as a guest lecturer in the Abbott Lectures series. This lectureship was established by chemistry alumni.

CORRECTION

Lowell J. Mitchell, '51, is principal of Hawthorne Elementary School in Fargo and has held this position for the past eight years. Through error, the January ALUMNI REVIEW listed Dr. Richard E. Hicks as principal.

Co-author

Devitt Writes Volume on Jury Instruction

Judicial instructions to the jury have been described as "grand conglomerations of garbled verbiage and verbal garbage."

This pointed quotation, credited to playwright Channing Pollock, is contained in a newly published book written by Judge Edward J. Devitt, chief judge of the U. S. district court of Minnesota, and his contemporary, Judge William C. Mathes of the southern district of California.

This 700-page volume, entitled "Federal Jury Practice and Instructions," is aimed directly at the art of properly instructing the laymen who sit on our juries and determine the outcome of lawsuits.

The co-authoring jurists hold that proper preparations and delivery of instructions to jurors "is a much-needed but long-neglected aspect of effective jury trials."

Judge Devitt has received two degrees from UND, an LL.B. in 1935 and a B.S.C. in 1938. He was originally from East Grand Forks, Minn.

IOWA U PHYSICIST

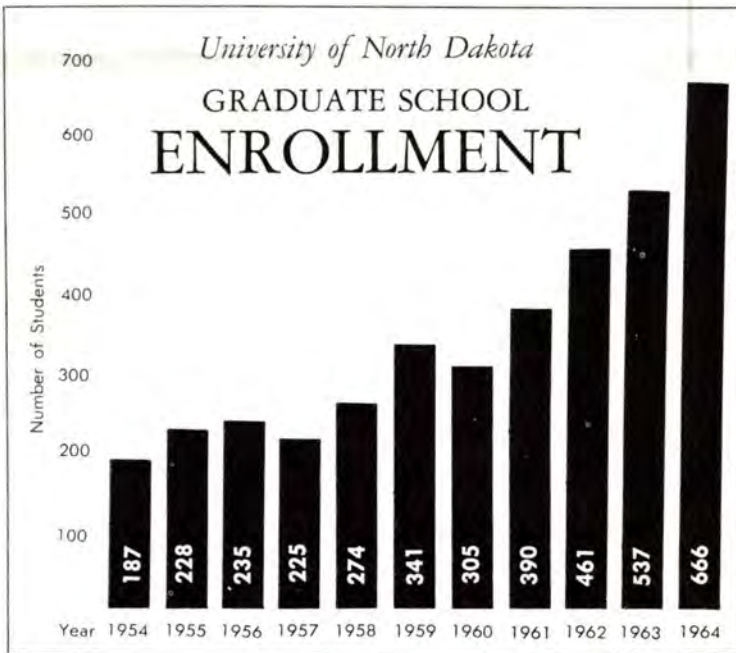

Dr. David W. Lynch, associate professor of physics at Iowa State University, Ames, Iowa, was a visiting lecturer at UND Feb. 24 and 25. He visited under the auspices of the American Association of Physics Teachers and the American Institute of Physics as part of a broad, nationwide program to stimulate interest in physics.

NUREMBERG RECORDS

The UND Law School has received a gift of the complete records of the Nuremberg proceedings of the prosecution for war crimes of the I. G. Farben Industrie, A. G., after World War II. The collection was donated by Judge James Morris, recently retired Chief Justice of the North Dakota, now of Bismarck, who presided at the trials as a member of the Major War Crimes Tribunal at Nuremberg, Germany, from 1947 through 1948.

UND ALUMNI IN ARIZONA: Enjoying a sun-break at Camelback Inn in Phoenix are these UND alumni, who were holding a winter sales conference on a business-vacation trip. The conference was for the company executives and highest 20 sales persons of Northern Founders Insurance Company during early February. Left to right are Mr. and Mrs. Gene Schwartz, Grafton; Mr. and Mrs. Vic Werlinger and Mr. and Mrs. Al Peterson, all of Bismarck; Junior Executive Dicky Arneson with his parents, Mr. and Mrs. Del Arneson, Chicago, and Host Jack Stewart.

GRADUATE ENROLLMENT MAKES 13% INCREASE: The demands for graduate work are increasing throughout the country, and UND finds its Graduate School growing to keep pace, with a 13% increase this year, while the overall enrollment rose by 10%. Dr. C. J. Hamre, dean of the UND Graduate School, states that business, industry, government and education look more and more to the specialist with advanced degrees, and sees continued expansion of the Graduate School. It is interesting to note that UND has awarded 82 of the 84 doctor's degrees given in North Dakota from 1953 to 1963.

Joseph A. Zahradka has been elected president of the Wilshire Chamber of Commerce for 1965, having served in several offices in the chamber in previous years. A native of Lawton, N. Dak., he received his degree from UND in 1933, and is a senior partner in the law firm of Zahradka, Glines and McNeil in Los Angeles. Active in civic and community affairs, he and his wife make their home in San Marino, Calif.

Dr. Rollon O. Bondelid is in charge of a new cyclotron project, and participated in ground breaking ceremonies for the new facility at Bolling Air Force Base. Dr. Bondelid has been spearhead of this project from its inception with the U. S. Naval Research Laboratory. A guest speaker at the ground breaking ceremony was Dr. Glenn Seaborg, chairman of the Atomic Energy Commission. Dr. Bondelid was graduated with a B.S. degree from UND in 1945. Research scientists are looking forward to completion of the new cyclotron facility in 1966.

J. C. Allen, '29, has been appointed manager of the Chile Exploration Co., as of October, 1964. He is a brother of Mrs. Paul Owens of Grand Forks.

C. R. Grimme, '58, has accepted a position of Export Sales Manager for the Kawneer Division of American Metal Climax in Rheydt, Germany. He recently resigned as divisional purchasing agent of Westinghouse in Grand Rapids, Mich., to accept his new position. He and his wife are looking forward to an "exciting living experience" in Germany for the next few years.

Frances Vejtsa of San Jose will teach in the literacy department of a "world university" for which land has been purchased near Tucson, Ariz. Miss Vejtsa holds a B.A. degree from UND and for the last four years has been an officer of LARK (Literacy for Adults and Related Knowledge) in Yakima, Wash. The information is supplied by her sister, **Emelia Vejtsa**, who received her master of education degree from UND in 1962, and who is a fourth grade teacher at Belmont School in Grand Forks.

Robert A. Holmes, '61, '63, is a medical school student at Temple University in Philadelphia.

Dennis Kroke, '61, is a first lieutenant in the U. S. Army, and is stationed at Augsburg, Germany.

70 Attend Denver Meet

The Denver Chapter of the University of North Dakota Alumni had a dinner dance on January 12 at the Builders Showcase and the 70 plus people that attended had a grand time.

We were glad to have the Lloyd Stones and the Milton Kellys stop on their way home from Camelback and join us for the evening. Short talks were given by Lloyd Stone and Sybil Kelly to tell us how things are progressing at the University and to rekindle our enthusiasm.

Election of officers was held and Jim Wickham was elected the new president for 1965. The other officers are Bob Zimmerman, vice president, and Jim Mahon, secretary-treasurer. Jim Mahon is also the hockey ticket chairman.

Those in attendance were:
Mr. and Mrs. Pete Baukol, '33;
Mr. and Mrs. Jim Carrigan, '53;
Mrs. Mabel Castella, '19;
Mrs. Florence Kloster, '19;
Mrs. Ben Cherski, '55; Mr. and Mrs. Ben Coleman, '58; Mr. and Mrs. Doug Dunahay, '57; Mr. and Mrs. Jim Ebentier, '59, '58; Mr. and Mrs. John Gardner, '52; Mr. and Mrs. Dick Glanzman, '59, '59; Mrs. Jean Gunness, '46; Mr. and Mrs. Hank Hannis, '52, '53; Dr. and Mrs. Harold Haugen, '49; Mr. and Mrs. Richard Hill, '57; Mr. and Mrs. Bob Hoghaug, '50; Mr. and Mrs. Richard Hoovestall, '52; Mr. and Mrs. Don Johansen, '49; Mr. and Mrs. Clifford Johnson, '21; Mr. and Mrs. Russ Kramer, '32;
Mr. and Mrs. Don McCarthy, '32;
Mr. and Mrs. John Mack, '49;
Mr. and Mrs. Jim Mahon, '59; Mr. and Mrs. Clarence Mahon; Mr. and Mrs. Robert Miller, '50, '51; Dr. and Mrs. Robert Nicholls, '53; Mr. and Mrs. Harold Nordness, '54;
Mr. and Mrs. Ken Peterson, '42;
Dr. and Mrs. Dan Pletsch, '53;
Miss Annette Rector, '60; Mr. and Mrs. Tom Sullivan, '56; Mr. and Mrs. Wes Sando, '50; Miss Barbara Thompson, '63; Mr. and Mrs. Dean Wellman, '39; Mr. Lyle Wood, '57;
Dr. Dale Kemp, '57; Mr. and Mrs. Bob Zimmerman, '60, '60; Mr. and Mrs. Lloyd Stone; Mr. and Mrs. Milton Kelly; Mr. and Mrs. Jim Wickham, '59, '59; Mr. and Mrs. R. P. Traynor.

TWO NEW GRANTS

UND has been awarded additional funds by two federal agencies for the education of graduate students. The U. S. Public Health Service awarded UND's anatomy department a supplement of \$8,080 per year for the next two years. The National Science Foundation awarded two new traineeships to the University which have been assigned to the geology and chemical engineering departments.

NEWS NOTES

Eugene Hegland, '54, a member of the Air Force Reserve Officers Training Corps detachment at NDSU, has been promoted to the rank of Major in the U. S. Air Force. Hegland has been at NDSU since 1961, where he is on the instructional staff in the air science program. Hegland is married and has one son.

Elizabeth (Streck) O'Donnell, '58, completed her education at the University of Hiedelberg, Germany. In 1962 she married Lt. Patrick J. O'Donnell, USAF West Point Military Academy, class of 1960. They have a year-old daughter and reside at Naha, AFB, Okinawa.

William Fletcher Streck, '59, is in his fourth year of medicine at the University of Hiedelberg, Germany. He married Bettie Johnson of Sugar City, Idaho in 1963 and they are living in Kirchheim, Germany.

Morley Glickin, '62, has been assigned the responsibility for the development of research tools and for creation of casework and group work programs under a \$300,000 federal grant to test the effectiveness of multi-disciplinary treatment of young adult parolees. Glickin is a psychiatric social worker on the staff of the Minneapolis Rehabilitation Center, a private social and vocational agency.

Norman H. Cruse, '60, is now assistant secretary for the Minnesota Petroleum Council, Minneapolis. He was formerly city editor for the Dickinson Press, Dickinson, N. D. The Cruse family moved to Bloomington, Minn., in August, 1964.

Irv Letofsky, '54, has been promoted from staff writer to assistant editor of the Minneapolis Tribune. Prior to joining the Tribune in 1963, he worked for the Bismarck (N. D.) Tribune and for the St. Paul (Minn.) Pioneer-Press.

Duane H. Neuenschwander, '34, is with the Standard Oil Co. of California and resides in Guaynabo, Puerto Rico.

Judith Ann Morris, '61, is married to Warren D. Wick and works as a case aide at the Medical Center Rehabilitation Unit, UND.

Howard A. Larson, '60, is a mathematician for the Phillips Petroleum Company, Atomic Energy Division. He is presently working at the National Reactor Testing Station in Idaho Falls, Idaho.

Duane R. Loven, '63, has completed an eight-week officer orientation course at the Army Infantry School, Fort Benning, Georgia. He is now stationed at Fort Jackson. He and his wife, the former **Arlene Kay Prosser, UND '62**, reside in Columbia, South Carolina.

Orley Iver Holtan, '60, is a part time instructor while working toward a Doctor's Degree at the University of Minnesota, Minneapolis, Minn.

Ronald Milo Purinton, '58, served in the U. S. Navy in Antarctica and on a guided missile testing ship as Aerographer. He was a Scout Master and Scout leader to the National Boy Scout Jamboree, is now an Accountant and Teller with the First Federal Savings and Loan Association in Brainerd, Minnesota.

Mr. and Mrs. Leslie Pavek, '52, '60, reside in Fargo, and are both in education. Les is counselor in the public school system and his wife, Bernice, is physical education instructor at Concordia College. They have three sons.

Larry Martin Danielson, '61 is now an Ensign with the U. S. Navy, is on the ship U.S.S. Providence.

Donald Jerome Pfau, '58, graduated from Pacific University at Forest Grove, Oregon, with a Doctors Degree in Optometry. He will be working part time for an Optometrist in Minneapolis, Minnesota, while preparing to write the State Exams which will begin in May. He plans to practice in North Dakota, Minnesota, or Wisconsin.

Rebecca Adair Olson, '58, married Richard Appelgren, is a part-time office worker for Keely Girls of Minneapolis.

Robert John Colliton, M.D., '60, is a medical doctor in West Hartford, Conn. He graduated from the University of Kansas Medical School in 1962.

Mrs. Florence Tryhus, '30, has been director of the medical record department at Palo Alto-Stanford Hospital Center, Palo Alto, Calif., since last July.

Chemical Engineers Get Top Salaries

Chemical engineers received the highest average salaries of 1964 University of North Dakota graduates, according to a job placement summary published by the UND office of the North Dakota State Employment Service.

The summary points out that chemical engineers of the Class of '64 received an average starting salary of \$617.77 a month while students entering social work received the lowest average monthly wage, \$380.63.

Starting salaries in all fields climbed in 1963-64 on an average of three to eight per cent over the previous year, according to Ronald Betts, director of placement services at UND.

Students most in demand were in engineering, business, marketing, education, management, accounting, physics, mathematics and chemistry, Betts said.

The summary includes only the graduating 1964 seniors who were interviewed or were employed with assistance from the placement center. Betts cautioned that the statistics in his summary may therefore not be an accurate reflection of all seniors employed after graduation. Use of the office is voluntary.

Betts said 159 recruiting companies and 70 schools conducted interviews at UND in 1963-64. More than 3,000 interviews were completed and 574 students found jobs. This is a 105 per cent increase from 280 in 1962-63. The University graduated about 1,100 students in 1964.

The University Placement Center began in 1961 as an employment bureau for graduating seniors and UND students seeking part-time work. It assumed responsibility for teacher placement in 1963. It also helps student wives find jobs and provides employees for UND administrative offices.

William E. Nuessle, '27, has been named a director of the National Dairy Products Corporation. He was elected at the 40th annual shareholder meeting of the firm, which reported the highest sales in history for the first quarter of 1964. Nuessle is vice president and general counsel of National Dairy.

UND NODAKS on the Go-Go-Go!

Dennis Opland, '61, is employed by Waldorf Paper Co., St. Paul, Minn., as a chemical engineer. He was married this summer.

Harry L. Salisbury, '53, is principal at Valley City Central High School. He was recently elected president of the North Dakota Principals' Association at the N.D.E.A. Convention in Grand Forks.

Kenneth L. Gilchrist, '57, has been named petroleum landman in the oil and mineral section of the trust real estate division of continental Illinois National Bank and Trust Company, Chicago, Ill. He previously held the same position for seven years with Humble Oil and Refining Co. in Pittsburgh.

Lyall A. Bjornson, '64, is a student of medicine at Bowman Gray School of Medicine, Winston-Salem, N. C. He spent the past summer in Nigeria as a medical student under the Experiment in International Living.

Dr. Daniel Henry Slemmons, '56, is a physician at U. S. Naval Hospital, Camp LeJeune, N. C. His field of specialization is otolaryngology.

Donn R. Pepke, '39, was recently promoted to the rank of Brigadier General. He had been stationed in Hawaii and is now on the staff of Admiral U. S. G. Sharp, CINCPAC.

Larry Aaron Olson, '61, is with the North Dakota State Highway Department. He resides at Bismarck, North Dakota, where he is a Design Engineer. He is married to the former Sandra Gerding of Mandan, North Dakota.

Nellie M. Whaling, '26, is presently a dietitian at the Southeast Florida Tuberculosis Hospital, Lantana, Florida.

John Joseph Ziegler, '59, resides in Fargo, North Dakota, where he is a counseling and guidance director at the Ben Franklin High School.

Thomas Theodore Butson, '60, is a high school principal at Baudette, Minnesota.

Robert Lee Wagner, '60, has been promoted to Chief Accountant and Office Manager for the Long Beach branch of Bekins Van and Storage in Long Beach, California.

Charles Joseph Rosenberg, '59, resides in San Francisco, California, where he is employed as an engineer.

Ronnie Lee Oltmanns, '61, is a staff sergeant with the United States Air Force Singing Sergeants. He is working on a Master of Music Education at the University of Maryland. He is tenor soloist with the Mt. Vernon Place Methodist Church, Washington, D. C., and is a chorister in the Washington Opera Society. His wife is the former Sherri L. Bean. They have one daughter.

Willard M. Purath, '48, raises registered Angus Cattle at Red Lake Falls, Minn.

Delphine Mae Herman, '60, is teaching at the Yankton High School, Yankton, South Dakota. She was married last August to Lawrence Peterson.

Larry D. Knutson, '61, has accepted a position as a Social Worker for the Catholic Welfare Office in Grand Forks, North Dakota. His wife is the former Marion Walstad, '58, who is now Assistant Professor of Nursing at UND.

Donald Gene Norland, '60, served for two years following graduation as an accountant for Southern Pacific Finance Company. He is now an accountant for a Cotton firm in Los Angeles, California.

Ronald A. Apanian, '58, assistant professor of civil engineering at UND, has been awarded an \$11,100 National Science Foundation Faculty Fellowship. Apanian, on the UND faculty since 1957, received his bachelor's degree in 1956 and his master's degree in 1958.

Frank J. Kosanda, '51, Grand Forks attorney, was unanimously endorsed by local American Legion Post 6 recently for department commander of North Dakota.

Gerald J. Gervino, '64, has been given a Rotary International fellowship award. This award is made annually to 125 graduate students. The scholarship will pay all expenses for study at the University of Khartoum in Khartoum, Sudan, during the 1965-66 year. Gervino is presently attending Harvard Law School, where he plans to return after his year of study in the Sudan.

William N. Gahr, '29, is chief engineer for the Colorado State Department of Public Health, a position he has held since 1950. He and his wife, **Frances A. Novacek, '40**, have two sons.

Ted Weisenburger, '56, is now handling life insurance sales in the Bismarck-Mandan area for the Northwestern Mutual Life Insurance Co.

Vernon A. Hansen, '62, has accepted a post as high school head football coach at Forest Grove, Oregon.

Larry G. Nason, '62, of St. Paul, has co-authored a book which has as its main thesis that human population has outgrown earthly resources. It is being published by Burgess Publishing Co. of Minneapolis.

Dr. Vernon L. Yeager, '55, associate professor of anatomy at UND, has received an \$11,426 one year renewal of a research grant from the U. S. Department of Health, Education and Welfare. Yeager has been on the UND staff since 1955.

Lester J. Schirado, '63, has assumed duties as Morton County justice. He was elected to the post in November. During the past two years, he has been in partnership with Ted Boutrous in a Glen Ullin, N. D. law firm. He is married and has a young daughter.

Adrian O. McLellan, '37, has resigned as president of the Merchants National Bank and Trust Co. of Fargo to become president of the First National Bank of Great Falls, Mont. He has degrees in both commerce and law from UND. He and his wife have three daughters.

Lester R. Pinks, '62, assistant trust officer of the First National Bank in Grand Forks, has resigned from that position to accept the position of trust officer with the National Bank and Trust Co., Melbourne, Fla. Pinks and his wife have four children.

William C. Pierce, '60, is a programming supervisor in the Data Processing Department of Connecticut General Life Insurance Co. He and his wife, the former **Joanne Bena, '59**, have three children.

Marvin A. Bloom, '59, assistant administrator of Bismarck Hospital, was elected president of the Bismarck Exchange Club recently.

Irwin S. Johnson, '57, is a geologist with British Petroleum. He is now with a crew doing oil exploration work in the Arctic Circle, Alaska.

Walter Schutte, '63, is with the Department of Psychology at the University of Manitoba. His wife, **Shirley Schutte, '63**, is acting department head at the Speech and Hearing Clinic at Children's Hospital in Winnipeg.

Duane R. Nedrud, '50, a former state's attorney at Minot, was named to be executive director of the National District Attorneys Association. He was selected from 40 attorneys who applied for the newly-created post. Nedrud has been a law professor at the University of Missouri for the past five years and recently returned from the University of Exeter in England where he was a visiting lecturer.

Leo P. A. Sweeney, '22, was recently re-elected president of the Illinois Medical Service (Blue Shield) and chairman of its Board of Directors. He is actively engaged in private practice of ophthalmology.

James L. Pester, '63, is working in the Research and Development Division of the Plastics Department of E. I. DuPont Co., Wilmington, Delaware.

Donald R. Hiestand, '40, has been appointed manager of industrial relations at the East Pittsburgh divisions of Westinghouse Electric Corporation. He has been assistant manager of industrial relations at the large East Pittsburgh plant since last April. Hiestand is married and has one daughter. His wife is the former **Alba Halverson, '41**.

George Fors, '54, a Mandan high school teacher, has been named Consultant in Science and Mathematics for the State Department of Public Instruction in Bismarck. He will take over the position at the end of the current school term. Fors has 26 years of teaching experience in North Dakota. He and his wife have two sons.

Jon G. Norem, '62, is an accounting instructor at Eastern Illinois University in Charleston. He and his wife, the former **Jean M. Dailey, '62**, have two children.

William Frank Flemming, '61, is an engineer with North American Aviation and resides in Downey, Calif.

John P. Gray, '61, is teaching in Grand Forks, N. D.

IN MEMORIAM

Laureat L. Martineau died at the age of 80 at his home in Glen Burnie, Maryland, on September 26, 1964, following a long siege of heart ailments. Martineau earned his law degree in 1905 from UND, and was a native of St. John, North Dakota. He was a classmate of the late William Langer, and served as Colonel on the governor's staff. After 38 years in the U. S. Civil Service, Mr. Martineau and his wife, the former Mattie Jones, retired to Maryland to live near their three children.

Glen Daniels passed away in October, 1963, in Beaumont, Texas, where he was owner of the Daniels Landscape Co. He attended UND in 1923-24, and resided in Valley City until moving to Texas in 1941.

Coy Gibson died in the University of Minnesota Heart Hospital on Jan. 6, 1965. He had received his Master of Education degree from UND in 1961, and was principal of the high school in Guymon, Oklahoma. He was married to the former **Ardis Nasset**, '52, who survives with one daughter.

J. Dewey Ryan, died on January 14, 1965, in a Chicago hospital. Mr. Ryan earned an engineering degree from UND in 1921, and worked for Bethlehem Steel Co. until his retirement two years ago. He is survived by his wife, one step-daughter, seven grandchildren, and two sisters.

Raymond A. Heising died at the age of 76 in Summit, New Jersey, on January 15, 1965. Mr. Heising received a degree in electrical engineering from UND in 1912 and was a radio and patent engineer for Bell Telephone Laboratories in New York. He was credited with many important inventions in radio transmission systems which are in wide use all over the world.

Dr. Carl A. F. Holler passed away Jan. 25, 1962, in Gadsden, Alabama, where he was serving as County Health Officer. He received his B.A. degree from UND in 1919, and served in World War I as a medical officer in the Pacific Theater. Dr. Holler was honored as "man of the year" by the Civitan Club in 1949, and a fine public health center was built under his administration in Gadsden.

Mrs. Lucile B. McDermott, wife of Edward H. McDermott, Chicago attorney and civic leader, died on January 15 in Chicago. She is survived by her husband, two sons, three grandchildren and her father. Mrs. McDermott was very active in club work.

Dr. Edgar Houser died at the age of 68 in Steilacoom, Washington, in January, 1965, where he was resident dentist at Western States Hospital. A former basketball coach at Bismarck, Dr. Houser was active in athletics, and was a basketball star at both NDSU and UND. He received his degree from UND in 1922 returning in 1924 to complete his pre-medical education. He is survived by his wife, one brother and two sisters.

Mrs. John H. Bakke died at the age of 58 in Grand Forks, where she had been hospitalized for a long period. The former Evelyn Soes of Climax, Minn., Mrs. Bakke attended UND, served as a post-mistress for several years before her marriage in 1941. She is survived by her husband, a daughter, Laurel, a UND student, and her mother.

Dr. Perry C. Arnold, retired dentist in McVille, N. Dak., died on January 17, 1965, at the age of 79, in Carmel, California, where he had been visiting a daughter. A native of Portland, N. Dak. Dr. Porter attended UND, and retired from dentistry in 1957. He is survived by four daughters, a brother, three sisters, and 14 grandchildren.

CORRECTION: The death of **Herbert D. Swett** was incorrectly announced in the January issue of the ALUMNI REVIEW. He is now in the Foreign Service, living in Santiago, Chile. His father, Herbert F. Swett, died in July, 1964. We regret the error, and apologize for the misunderstanding.

Mary M. Dunlap died January 1, 1965 in New Haven, Connecticut at the age of 70. She earned her B.A. degree from UND in 1916, her master's degree from Columbia University in 1938. She was instructor and associate professor of public health nursing at the University of Chicago from 1938 to 1955, when she retired to Connecticut.

Military Meal

Captain William S. Mahler, '54, prepares a meal during the final phase of training at the U.S. Air Forces Southern Command Tropic Survival School at Albrook AFB, Canal Zone. He is being re-assigned to a Pacific Air Forces unit in Viet Nam, where he will help train Vietnamese forces in air tactics and techniques for combat. His parents, Mr. and Mrs. William Mahler, now reside in Decatur, Georgia, and were formerly residents of Grand Forks. He is married to the former **Marlys Swanson**, '52, and they have a boy and a girl.

● Old Timers Reunion

(Continued from Page 1)

"Day Trends" will be held at 1:30 p.m. in Burtness Theatre. Speakers are Dr. William Koenker, professor of economics and vice president for academic affairs; Thomas J. Clifford, dean of the College of Business and Public Administration and vice president for finance; and Dr. Milton Larson, dean of the College of Engineering.

The Annual Old Timers Dinner is scheduled for 6:15 Friday at the University Center.

Committee members working with Dr. Selke are Dr. C. L. Kjerstad, Dr. E. D. Coons, Dr. George Abbott, Dr. John Hundley, Hywel C. Rowland, Dr. W. H. Moran, and J. Lloyd Stone.

ALUMNI REUNIONS

Ft. Lauderdale, Florida — March 12. Contact **Harry Schwenke**, P. O. Box 1, South Andrews Station, Ft. Lauderdale, Florida.

Des Moines, Iowa—March 27, at the **Kirkwood Hotel**. Write **Gordon Sundby**, 685 Ronwood Drive, Des Moines, Iowa.

UND Campus, Grand Forks—April 22, 23, and 24. **Old Timers Reunion, Class of 1915**. Write **Dr. Erich Selke**, University P. O. Box 8157, Grand Forks, North Dakota 58202.

New York—May 4, 1965. **Bon Voyage Party**. Write **Lambert Huppeler**, 400 Park Avenue, New York 22, New York.

European Tour—May 5 to 27, 1965.

UND Campus, Grand Forks—June 4, 1965. **Alumni Board meeting**.

Lake Tahoe: June 23-27. Contact **Mr. Bob Stevenson**, **Stevenson's Holiday Inn**, Lake Tahoe, P. O. Box 235, Kings Beach, California.

Milwaukee: June 23, 1965; for details, contact **Paul Larson**, 2100 Hollyhock Lane, Elm Grove, Wisconsin.

ADDITIONAL LOAN FUNDS

Additional funds have been made available to UND for National Defense Education Act loans for the second semester and summer session. UND will receive \$123,383. This is in addition to \$320,040 already received for the current fiscal year.

● Development Fund

(Continued from Page 1)

"we'll meet our goal," Micklin stated.

The proposed budget for the Development Fund has been set at \$74,249, the largest in history, to be used for scholarships, student loans, faculty grants, University publicity, and operating costs.
