4.

The following announcements were made:

- a. Mr. Petros gave a Council of College Faculties (CCF) update regarding granting tenure to presidents. The Chancellor wants to be able to grant tenure as a recruiting tool. CCF took a stance against the proposal. It will go for a second reading to the State Board of Higher Education. Mr. Petros stated that there is a fair amount of opposition to the proposal.

- b. Mr. Clauson gave a Staff Senate update. He reported that Staff Senate will have a 20-year reunion celebration in December 2018.
- c. Mr. Hanson gave a Student Government update. He reported that the vote on a new Memorial Union will be held on November 20, 2018. The building will be a brand new building on the existing footprint, not a renovation, and that is what they will be voting on. Mr. Hanson stated that Student Government supports this project and vote.
- d. Mr. Zerr gave an update on the new Essential Studies requirements to be implemented fall 2020. He reported that the current requirement for Global and United States Diversity will change to a new goal: Intercultural Knowledge & Skills, Special Emphasis Area #1: The Diversity of Human Experience and Special Emphasis Area #2; Analyzing Worldview. More information can be found on the Essential Studies web page at: <https://und.edu/academics/essential-studies/es2020.html>. Mr. Zerr also stated that December 1 is the deadline to submit courses to count toward these new categories.
- e. The Parking and Transportation Committee is needing to fill two faculty committee member slots.

5.

Quorum was established.

6.

Mr. Todhunter called attention to the minutes of the October 4, 2018, meeting. Ms. Alberts introduced a correction regarding her question on remote access software and IRB-approved research protocol. The minutes were approved with the revision.

7.

Mr. Todhunter reported on the work of the Senate Executive Committee:

- a. An update was given on the process for evaluating administrators with a new professional development survey by Nancy Vogeltanz-Holm. She stated that in addition to yearly evaluations by the provost and the president, Deans and Vice-Presidents will also be evaluated every three years for professional development purposes, including getting input from faculty, staff, and student leaders. NVH said that a new instrument developed at the University of Minnesota will be used and ongoing work is occurring to develop the best process for the professional development evaluations. She believed that the first round of surveys will be sent in spring 2019.
- b. Mr. Todhunter reported that the Faculty Handbook Committee is working on Section III: Teaching Policies and Procedures. This section will be forwarded to the Senate Executive Committee and then brought to the University Senate for review and a vote.
- c. Mr. Todhunter reported that Multi-Factor Authentication for Office 365 will be implemented in summer 2019. He stated that the process is similar to logging into HRMS.
- d. Mr. Todhunter gave a SELFIE update. He stated that the SELFIE working group is working to roll out a plan for the implementation of this product. The group has followed through on recommendations to get the evaluation form up and implemented. Everything that they are doing is being taken from the report and they are hoping to roll out the product in the near future.

8.

The twenty-minute question period opened at 4:01 p.m.

Mr. Shivers responded to a question from the October meeting regarding recycling on campus.

Mr. DiLorenzo responded to a question from the October meeting regarding who will be teaching UNIV 101. At this point in time, the details have not been determined.

Mr. Petros made the following comments regarding SELFIE:

- a. If the response rate to SELFIE is below 60%, they are not scientifically valid. He asked why it is that the faculty are responsible to provide the survey and why students are not required to complete the SELFIE.
- b. Mr. Petros felt the SELFIE was decentralized. He attended a seminar where groups reviewed the SELFIE to see what the data meant and how you define what we mean by these concepts. He asked how to keep it consistent across the evaluation.

Mr. Holm responded that the SELFIE working group looked at several instruments and they chose this evaluation to use as the most effective.

Ms. Alberts asked how FERPA affects the privacy of students teaching the course and, if teaching is part of their course of study, are they treated as a student or employee. She also asked what the incentive is to watch the SELFIE training video.

Mr. Hanson recommended that faculty talk to their students about what would encourage them to watch the video, e.g., extra credits, etc.

Ms. Rogers asked if the SELFIE is anonymous, how do you know who to give extra credit to, and why are we rolling it out if it is not ready to go. She also asked who has access to the summary. It was stated that currently enrolled students, advisors, and anyone with a valid UND ID would have access. It is being rolled out now because it has been in the works for a long time and we need to start somewhere.

Mr. Hanson suggested using a percentage model to protect student's anonymity, e.g., if 55% take the SELFIE, everyone will get two points.

Mr. Wood stated that SELFIE is an open record and how do you deny an open records request? Mr. Todhunter responded that it would be something for the SELFIE group to investigate.

Ms. Alberts stressed that graduate students need to be considered regarding the SELFIE as well. She encouraged asking for their input.

Mr. Munski moved to extend the question period for five minutes. Mr. Zerr seconded the motion and the motion carried.

Ms. Bjerke reported that during early registration many students were given priority registration. The new groups being added were Honors Program students and Veterans. This caused issues for Aviation seniors, etc., who can't register before those students.

Mr. Matz asked if there will be a minimum response rate for each course for the SELFIE. He also stated that it depends on how public the information is and who has access to the information.

Mr. Mochoruk inquired about the changes to the Essential Studies office. Mr. DiLorenzo stated that there will be a support person and a point person who will handle the processes. The new job description does not cover the percentage of time that should be given to the position.

The question period ended at 4:27 p.m.

9.

Mr. Todhunter called attention to the Honors Program Annual Report. The report was accepted and filed.

10.

Mr. Todhunter called attention to the Standing Committee on Faculty Rights Annual Report. The report was accepted and filed.

11.

Mr. Zerr presented the Essential Studies Committee report to the Senate. Mr. Holm made a motion to accept the report as written, Mr. Zerr seconded and the motion carried.

12.

Mr. Todhunter called attention to the University Curriculum Committee report. Mr. VanLooy moved to accept the report. Ms. Laguette seconded and discussion followed. The motion carried.

13.

The meeting adjourned at 4:35 p.m.

**University Senate Library Committee
Annual Report for 2017-18 Academic Year
Fall 2018**

Membership

Marcia Mikulak (Chair – Anthropology), Dawn Denny (Nursing), Cristina Oancea (Medicine), David Haberman (Head of Student Services, Thormodsgard Law Library), Mark Jendrysik (Political Science), Forrest Ames (Mechanical Engineering), Mary Baker (English), Michael Dodge (Space Sciences), Michaela Moen (Undergraduate Student)
Ex-Officio: Stephanie Walker (Dean of Libraries & Information Resources)

Committee Activities

- The committee elected Marcia Mikulak as Chair of the USLC for 2017-18. This is her 3rd and final year serving as Chair, and the Committee would like to express its appreciation and thanks to Dr. Mikulak for her exemplary service.
- The committee met approximately monthly to discuss library issues, several of which are detailed below.
- The committee discussed and participated in the Chester Fritz Library's development of their first Strategic Plan since 2004. SWOT analyses were done by members of the USLC, and the Library also asked numerous faculty liaisons to participate. The Library also did SWOTs, by unit and by committee, and held several brainstorming and discussion sessions. The USLC participated first in the development of an Alignment Plan (of the Library with OneUND, the University Strategic Plan). Then a draft Strategic Plan was created and shared, for additional work and input. After several additional steps, the end result was the creation of a final Strategic Plan, posted on the CFL website at <https://library.und.edu/about/strategic-planning.php>. This is currently just the text; CFL is hiring a graphic design student to assist with the graphic design of the final plan, in accordance with UND standards and branding.
- Dean Walker created a LibGuide, based on feedback and input from the USLC, that includes extensive documentation on UND libraries, library budgets, and other materials, intended to serve as an orientation to the USLC and to academic library issues in general. Some things included on the site are the *Roadmap to a Sustainable Library Budget*, a white paper on academic libraries and scholarly publishing and budgets, an organization chart, articles discussing various issues in academic libraries, and more. It will be updated shortly with the Strategic Plan and more materials. It is under Research Guides/All Guides/About the Library.
- After much activity regarding ODIN, including a letter from UND and NDSU and various discussions afterward, major changes were made to the services and pricing received from ODIN. UND had been very unhappy with:
 - the Aleph integrated library system (which is dated and will shortly no longer be supported by the vendor, Ex Libris);
 - our (in)ability to have any customization appropriate to research libraries or even any differences between interfaces for public and academic libraries, which have entirely different user bases and needs;
 - communication pathways available and our (in)ability to effect change or provide meaningful feedback;

- the price charged to UND CFL for technical support and maintenance of our library system;
- the lack of meaningful information on the bills;
- and other areas.

The CFL leadership strongly considered withdrawing, and in fact, absent any meaningful change, planned to work toward doing so. However, activities and changes made within ODIN over last year and this year have meant that all of the issues have been resolved to our satisfaction, and in fact, greatly to our benefit. Changes made include:

- personnel changes at ODIN, including reporting to an NDUS executive, Jerry Rostad, retirement of the long-time Director and his replacement with a new Director, and filling of several other positions to improve services;
 - creation of a new strategic board, with membership for a research library (UND at present), to do high level planning and address major issues;
 - willingness of ODIN to support potentially 2 different library systems or system configurations, to meet the vastly different needs of academic and public libraries;
 - massive improvement in communications;
 - creation and issuance of RFPs for a new library system, which resulted in the academic libraries (which went first) signing a contract with Ex Libris for their Alma product, and beginning preparations for migration to the new system (which will take at least 18 months, and require extensive training);
 - representation for UND on the RFP and systems conversion committees;
 - extensive and thorough analysis by Jerry Rostad of the bills sent to each library, and why they were what they were, which led to bills that were clear and made sense, as well as a permanent reduction in UND's share from \$152,000 annually to \$91,000 annually;
 - and more.
- Major Library renovations were a major topic of discussion. Some areas discussed included handling the art during the renovation; renovation budgets and costs; areas to be renovated; the possibility of some IT staff, particularly student-facing IT such as that in the Memorial Union, moving into the CFL basement; how the renovations will improve wayfinding in the Library; the complications due to the front and back entrances to CFL being at different grades, with a difference of over 20 inches between them; accessibility; deferred maintenance; sprinklers in the Library (it currently has no sprinkler system); potential floor plans; and more. Dr. Mikulak attended a conference call with the architects to provide additional input.
 - Smaller Library renovations were also a major topic of discussion. This year, the Library worked on the creation of a One Button Studio on the 2nd (main) floor. The studio was ultimately opened in Fall 2018, although planning and construction were ongoing during the 2017-18 academic year. This was fully funded by savings from the renegotiation of the ODIN agreement mentioned above. As well, some remaining funds were also used toward creation and equipping of a temporary Visualization Lab and Virtual/Augmented Reality Studio, 2 technology spaces to support current and emerging student and faculty needs. Initially, the plan was to place these 2 spaces within Room 305, but this proved to be in the midst of the construction zone for the major renovations. Alternatively, a space was identified on the 3rd floor that will be built as part of these major renovations. This

will ensure services continue for students who need these facilities for their current work for the next year. Temporary spaces were created in Rooms 220 and 221, the former Library Systems offices; this division in the Library relocated over a year ago to the first floor, and now shares space with Periodicals and Government Documents. The temporary space is not fancy, but the equipment for the Visualization Lab is largely in place, except for 2 large TV screens that still need to be mounted, and the equipment for the VR/AR Studio is on order. These spaces are being designed with assistance of Aaron Bergstrom of High Performance Computing, and much of the equipment comes from a former Visualization Lab that had previously occupied space in O'Kelly, which had to be removed for renovations in that building. Equipment is largely otherwise funded by Prof. Bergstrom's grants, and Prof. Bergstrom has also hired student assistants, and will be expanding services. Computer Science graduate students have already begun using the not-quite-finished temporary space. The Library will be collaborating with High Performance Computing and IT in the design, equipment, and staffing of the final space. The Library is largely providing the space, and possibly some equipment, and we are all leveraging our resources, and combining them to better serve students and faculty.

- The USLC repeatedly discussed the Library's budget and the rising cost of scholarly journals. Due to past "frozen" budgets, which were effectively cuts due to the rising costs of journals, the Library had been in a long-term difficult budget situation. When Dean Walker began at UND in 2015, the Library had been relying on "one-time" transfers from the Office of the Provost for about a decade. These "one-time" transfers had increased annually and had reached over \$1.3 million. Meanwhile, several open positions went unfilled (current staffing at CFL and the 3 branches is 39.1 staff; comparator institutions of our size and scope average 52 staff), equipment was not purchased, furniture was not replaced when it broke, and professional development was curtailed. Provost DiLorenzo has been very supportive of efforts to improve the situation. President Kennedy has also been very supportive, and a strategic investment of \$1 million was made first on a one-time basis, and then became a permanent part of the Library's base budget in 2018-19. Additional funds have been provided, first on a one-time basis, with the intention that these will become permanent. Dean Walker has also found some areas in which to save, including cancellation of (overpriced) equipment maintenance contracts, withdrawal from one resource-sharing (ILL) collaborative in which we were an extreme net-lender (and thus over-contributed postage and labor), cancellation of leases for several little-used photocopiers, the aforementioned ODIN cost reductions, etc. The Library had submitted spreadsheets of what various levels of budget reductions would look like in April 2016, along with every other unit. However, due to the long history of other de facto cuts and journal cancellations, there is little remaining flexibility, and the remaining option to come up with the funds required would have been to cancel either Wiley (almost \$500,000 annually, for over 2000 journals) or Science Direct (\$800,000+ annually, for over 3000 journals). Neither option was attractive, and both would have severe results for research. The USLC had written an email supporting the Library, and the Provost and President have been making the aforementioned strategic investments in the Library, and working to improve our ability to support faculty and students.
- The USLC researched Open Access policies across North America, and developed its own *Open Access Statement of Support*, which the USLC approved at its April 20, 2018

meeting. The statement was brought forward in September 2018, approved by the University Senate Executive and then brought forward to the University Senate at the October 5 meeting, where it was approved. The document is available on the CFL website at <https://library.und.edu/research/scholarly-communication/oa-statement.php>.

- Guests came to address the USLC, including Zeineb Yousif, Digital Initiatives Librarian, who discussed the UND Scholarly Commons; Sara Kuhn, Social Sciences & Scholarly Communications Librarian, who spoke about scholarly publishing; Jessica Gilbert-Redman, Web Services Librarian, who provided an overview of the CFL website and discussed plans for improvements; and Sarah Heitkamp, UND Art Collections assistant (later Curator), who provided an overview of UND Art Collections inventory online. The Dean of Libraries & Information Resources now also partially oversees the UND Art Collections: for several months, Sarah Heitkamp reported directly to Dean Walker, with a dotted line to the Chair of Art & Design, Prof. Donovan Widmer, and then as of Fall 2018, Ms. Heitkamp reports to Prof. Widmer, with a dotted line to Dean Walker, especially re/the online inventory and potential future “Magic Box” digital displays.
- The USLC discussed “Magic Box” exhibits. In February 2018, the first exhibit was created using this tool: it was entitled *Elwyn B. Robinson and the History of North Dakota: A Multimedia Exhibit*. Over 60 people came to a reception in honor of 4 things:
 - the fact that the Library has purchased rights to create an Open Access digital edition of this seminal work, and has done so;
 - the fact that this digital edition is actually an expanded work, which was made interactive by adding links to websites and resources for various historical sites listed in the book’s bibliography, and which was also linked to large collections of relevant images and other resources from UND archival collections;
 - the fact that the volume is now available, along with over 13,000 other items (a number which grows daily!) on the UND Scholarly Commons; and
 - the inaugural exhibit using the Magic Box itself, which was purchased using funds from the *Colonel Eugene Myers Foundation*.

The *Grand Forks Herald* and *UND Today* were in attendance, along with local and UND dignitaries.

- USLC discussed library staffing, and in February 2018, an Evening Supervisor, Jay Gillen, was hired, putting an end to the practice of having only students working alone in late evenings. Jay’s shifts are generally 4 pm – 12 midnight, Sunday – Thursday, during the academic year, with daytime hours during the summers, when the CFL does not remain open late.
- USLC discussed the success of the UND Open Educational Resources Working Group initiatives. Open Access resources have saved UND students over \$6 million in 3 years, and have had numerous events and workshops.
- USLC discussed the need for a graduate student on the committee, which has been approved by the Senate, but is sometimes a difficult position to fill.

This summarizes the activities of the USLC for the academic year 2017-18.

Senate Online and Distance Education Committee
Attn: Heather Terrell

RE: Librarian membership on committee

Dear Dr. Terrell:

I'm writing to support a suggestion made regarding membership in the Senate Online and Distance Education Committee – namely, that two additional librarians be permitted to serve as Ex Officio members, one each from the School of Medicine Library & Information Resources (formerly known as the Harley French Health Sciences Library, which, for the sake of convenience in this letter, I'll continue to call the Health Sciences Library) and the Thormodsgard Law Library.

I believe the suggestion is excellent. Janet Rex, of the Chester Fritz Library, is currently the sole representative for UND Libraries on this committee. Janet's an excellent representative; she does her best to share information with all, and to bring information from the Libraries to the committee. However, it's frankly impossible for any single representative to do this for all campus libraries. This is especially true for the Health Sciences and Law Libraries, because of their unique reporting structure. The Health Sciences and Law Libraries don't report to me. I'm the Dean of Libraries & Information Resources for UND, but that doesn't include the Health Sciences and Law Libraries, which, under American Medical Association (AMA) and American Bar Association (ABA) accreditation rules, must report to their own Deans. Also, though we do collaborate with the Health Sciences and Law Libraries, the Chester Fritz Library has very little – virtually no – interaction with the Schools of Medicine and Law, especially when it comes to teaching. We share some licenses. But Janet has no way of knowing what's happening in the Schools of Medicine or Law in terms of their needs for curriculum support, or how their libraries are being tasked with supporting their initiatives. She also has no means to report back to them – she doesn't attend their library or department meetings, whereas she does attend Chester Fritz Library meetings. Also, the Chester Fritz Library has strong liaison relationships established with all other academic departments, units, and centers, and our Head of Collections sits on the Curriculum Committee. This is not true for Medicine and Law.

I do not seek voting representation for additional library representatives. I wish to avoid any situation whereby the Libraries might be seen as having undue influence. However, awareness is critical – and Janet alone has no means of handling awareness of Online or Distance Education issues with the Medical or Law Libraries. I also do not believe that simply allowing librarians from Health Sciences and Law to "sit in" as guests is adequate: this leaves their attendance to chance, rather than making it official. I believe that it is important that librarians be appointed from these libraries to the Senate Online and Distance Education Committee. Thank you.

Sincerely,

Stephanie Walker
