Top Speakers Scheduled On Campus

Many top speakers are scheduled to appear on the UND Campus this spring, appearing at convocations and other special events.

Among the speakers are John MacVane, ABC commentator and UN correspondent; Millard B. Rogers, director of Center for Asian Arts from the University of Washington; Dr. Roger Hilsman, assistant secretary of state for Far Eastern affairs during the Kennedy administration; Jesse Stuart, prize-winning poet-author from Kentucky.

Sir Tyrone Guthrie, Minneapolis theatre director; Carl Rowan, newspaper columnist and former head of the U. S. Information Agency; Dr. Arthur Larson, director of the World Rule of Law Center at Duke and former special assistant to President Eisenhower; Robert Galvin, chief executive officer of Motorola, Inc. of Chicago.

UND Attracts Superior Students

UND is attracting students of high calibre. Students at the UND Counseling Center indicate that most incoming freshmen rank above the national average.

The studies are based upon the performance in the American College Testing program by freshmen who have enrolled at UND as compared with national college-bound high school seniors.

Proportionately, fewer UND students come from the lower range of scores. Conversely, the proportion of UND freshmen in the top end of the scale was nearly double that of the national figure.

Comparison with seniors from North Dakota yields similar results as they tend to have a distribution of scores very similar to national college-bound high school seniors.

Why is UND attracting better quality freshmen? One factor may be the presence of

UND Installs New Computer

A new computer system has been installed at UND to keep up with the "population explosion" and the "knowledge explosion." An increase in enrollment as well as in the body of information to be passed on to students requires incorporation of new methods. Modern computers are giving new horizons to the field of education just as they have changed the worlds of business, government and science.

UND obtained its first electronic digital computer in 1961, one of the first high-speed computers in North Dakota. It has been used for business calculations and scientific problem-solving on the campus, as well as for aiding state agencies and other educational institutions.

New Laboratory Will Research Nutrition Need

A U. S. Department of Agriculture laboratory that will be constructed on the UND Campus will help meet a "great need for an expanded program of research in nutrition," stated Dr. W. E. Cornatzer, chairman of the UND biochemistry department at a farm and home forum meeting held in Grand Forks this spring.

Despite some 70 years of nutrition research, knowledge of foods and human nutrition is still extremely limited, he said, and the new laboratory, which is expected to be under way in 1968, will play a valuable role.

The nutrition building for which Congress has appropriated \$638,000 will be located on the far east side of the campus, and will have a total staff of 50 to 60, who will have appointment in the UND Graduate School.

UND WINS TRIPLE CROWN

UND coaches have continued their winning ways as Bill Fitch's basketball team cinched the North Central Conference championship February 24 by defeating State College of Iowa, with Phil Jackson setting a new conference scoring record of 50 points during the game. Bill Selman's hockey team took a day longer to win their title as they defeated the University of Michigan February 25 for the Western Collegiate Hockey Association championship. Coach Marv Helling drew first blood by winning the North Central Conference football championship last fall.

Long Range Committee Studies Goals

Dr. GEORGE W. STARCHER
University of North Dakota
President

The University of North Dakota is at a critical juncture in its history.

Its future can be determined by no one group alone. It will require understanding and the concerted effort of all those who have anything to do with it—taxpayers and their elected representatives in Bismarck, alumni, students, faculty and administrators.

The critical nature of our predicament is not completely described in the broad general terms of expanding enrollment, increasing knowledge, demand for more education at higher levels, or rising dollar costs. We are confronted with specific critical demands now for more space better suited modern techniques of learning and instruction, problems of recruiting and retaining outstanding personnel, curricular change and innovation, quality performance at all levels and research.

Funds Lacking

The University has never had substantial, or even reasonably adequate, funds to undertake one important dimension of its functions as a state university, namely, public service.

Because of the state's small population and large number of state-supported institutions—those for higher education as well as those which provide other services—we must operate as efficiently as possible and seek outside funds wherever possible to support appropriate research and public service activities.

This we work at very hard. Because of the quality of our faculty we are currently re-

Add New Fraternity

The Interfraternity Council and the UND administration have approved and invited the Pi Kappa Alpha fraternity to establish a colony and eventually a chapter on the University Campus. The invitation has been accepted and their rushing has already begun.

The "Pikes" were chosen from among several national fraternities who sent representatives to the campus. Pi Kappa Alpha, which will celebrate its 100th anniversary next year, was founded at the University of Virginia. It has over 76,000 members, including such distinguished alumni as Sen. Everett Dirksen, Richard Evans, producer of the Mormon Tabernacle Choir, Sen. John Sparkman, and John Horne, chairman of the Federal Home Loan Bank Board.

Report from Campus

By J. LLOYD STONE

There are many fine letters that arrive at the Alumni office. One of them was recently received from Evan J. McIlraith of the class of 1907, who writes from his retirement home in Southern California.

He was the second UND man appointed to Cornell, following Mark Lovell, who was the first. During his years at UND, McIlraith made dozens of charts and drawings for Dr. Libby that were hung in the North Dakota exhibit at the St. Louis Fair in 1904. During the summer vacation months he worked for Grand Forks architects and was an assistant to the superintendent of construction for a new chemistry building and gymnasium, plus interior remodeling of Davis Hall. He also was involved with the building of the dam in the English Coulee, and the first concrete sidewalks. He recalls that Henry Lykken was the contractor who built the sewer line from Grand Forks to the campus.

While working summers at the City Engineer's office in Grand Forks, McIlraith made a re-survey of city maps and

land-lines and was responsible for a very detailed and accurate map of Grand Forks.

From his years at UND he remembers some of the "very finest people one could know," including Steffanson, Lemke, Traynor, Burtness, Williams, the Boise brothers, Dan Bull, Tom Campbell, Frank O'Connor, Lykken, the Conmy brothers, Brennan, Richards and dozens of others who gained prominence in later years.

During his senior year he had the title role in the class play which showed in about ten towns after commencement.

Now 80 years of age, McIlraith is still very spry and plays a good 18 holes of golf. When he was 78 years old, he shot a score of 78 that was written up in the Los Angeles Times.

Mr. McIlraith writes a very fine hand, and is not only a much better penman than I, but I would hesitate to meet him in a golf match!

It's a wonderful letter, and typifies the warm memories that our far-flung alumni have for their cherished Alma Mater.

ceiving more than half a million dollars each year for these activities from outside sources, principally federal funds. But often federal agencies require evidence of effort by the state.

Matching Necessary

Funds for buildings require that the state provide matching funds. Private donors have offered to help if we have something to use for matching their gifts.

It is impossible to so organize a university composed of faculty who need offices and laboratories for research, students who spend only about one-third of their time in scheduled classes and a host of scheduled meetings and activities that make up important segments of a total collegiate educational experience, so that every room is used every hour of the day.

The typical American family does not utilize every room in the house at 100 per cent occupancy level. The only way that could be achieved would be to have only one-room homes. The legislative halls and other public buildings cannot be utilized 40 hours a week every week in the year.

Despite most careful scheduling, we are now at a point at which classes must meet in dormitories at certain hours, seminars meet in offices that are too small and widely varying classes meet in the same room appropriately equipped for certain classes but not for

others. The faculty needs office space, research grants are turned down because of lack of space and many kinds of activities simply are not scheduled because there is no adequate space for them.

The most important task we have at the administrative level is the recruitment of personnel who will be responsible for maintaining quality and an up-to-date academic program that will command the respect of students, faculty colleagues and the academic world. More money is required for expanding and improving our faculty.

We are making progress in space—the new mathematics-physics building to be started soon will be another step forward. We have the best faculty we have ever had and we are already making some appointments of good promise for next year.

A long-range planning committee, assisted by more than a dozen task forces manned by more than 100 members of the faculty and some 45 students, is studying every major operation in the University with a view to improving the curriculum, organization and overall quality of the University, looking ahead for the next ten years. Their report will be ready by the close of the school year. Such studies contribute to the most efficient operation possible as we continue to strive for excellence in all that we do.

Keith W. Blinn, who was a law professor at UND from 1946 to 1952, has been elected vice president and general counsel of the Continental Oil Co. He is a resident of New Canaan, Conn.

—UND—

Martin G. Kruse of Kindred has been reappointed by Gov. William L. Guy to the State Board of Higher Education to serve a regular seven-year term. He was first appointed to the board in 1955.

—UND—

Dr. Ronald E. Barnes, dean of students at UND, has been re-elected by the Division of Higher Education of the Methodist Church to serve a two-year term on the editorial board of "Motive" magazine, the official publication of the University Christian Movement.

—UND—

A total of 237 persons were candidates for degrees at the mid-year commencement exercises at UND during January. About 21 percent of those awarded were advanced degrees.

NAME ASSOCIATE DEAN

Dr. James F. Herndon, coordinator of the Honors Program at UND, has been named associate dean of the College of Arts and Sciences. Dr. Bernard O'Kelly, dean of the College of Arts and Sciences, said that Dr. Herndon would assist with the college's growing enrollment and program.

NAME CHANGE

The College of Science, Literature and Arts at UND is now operating under a new name. On February 1 it became the College of Arts and Sciences, and the change of name was made with permission of the Board of Higher Education.

NAMED TO COMMITTEE

Harold "Pinky" Kraft, assistant professor of health, physical education and recreation at UND and head baseball coach, was named to the executive committee of the American Association of College Baseball Coaches during January in Houston, Texas.

Science Fair Scheduled On Campus

The Science Fair, for students in grades 7 to 12 in Northeastern North Dakota Counties, will be held on the UND Campus March 18. It is the first of three science and engineering events planned this spring.

The second will be the Midwestern regional JETS exposition and conference on April 21-22, with JETS members from 14 states eligible to compete with projects and technical papers. JETS is a national organization through which industry, professional societies and educational institutions work together to educate future engineers and technicians by supplementing high school programs.

The UND College of Engineering will conduct its annual engineers open house on April 21-22. Exhibits illustrating the aims and accomplishments within the college are open to the public.

NEED ALUMNI HELP

The Chester Fritz Library at UND is still seeking past issues of the DAKOTA STUDENT to round out their files in preparation for microfilming, according to Donald J. Pearce, head librarian.

The past issues could be donated to the library or loaned for the period of microfilming.

Issues of the Student which are needed are: Jan. 1892; Oct. 1, 1908; Oct. 8, 1915; Feb. 18, 1916; June 9, 1916; Oct. 19, 1917 through June 7, 1918; Sept. 26, 1919; Oct. 3, 1919; March 12, 1920; June 15, 1920; Oct. 1, 1920; Oct. 8, 1920; Feb. 2, 1921; Feb. 22, 1922; March 1, 1922, Dec. 6, 1922; March 21, 1923; Dec. 7, 1928; Dec. 3, 1937; March 11, 1938; March 25, 1938; and April 22, 1938.

OFFERS BOOKLET

Theta Sigma Phi, women's professional journalism fraternity at UND, has printed a booklet entitled "One Magic Hour," which is a pictorial chronological account of the late President John F. Kennedy's visit to the campus shortly before his assassination.

Copies are available from the University Bookstore and can be obtained by mail. The cost is \$2 per copy.

PAST YEAR-BOOK COPIES AVAILABLE

A limited number of past copies of the Dacotah Annual Yearbook are available, on a first-come basis. The books on hand are for the years of 1956, 1958, 1959, 1962, 1963, 1964, 1965 and 1966. They are available at \$6 per copy by writing Dacotah Annual, Box 8003, University Station, Grand Forks, N. Dak. 58201

New Dean Named As Head of Graduate School

Dr. A. William Johnson, who was on the UND chemistry faculty from 1960 to 1965, will assume new duties as Dean of the Graduate School on June 1. He succeeds Dr. C. J. Hamre, who will retire from the graduate dean position which he has held since 1958. Under the direction of Dr. Hamre, the UND Graduate School has made record growth and is the fastest growing unit of UND's 10 principal academic divisions.

The graduate department became a separate division in 1927 under the directorship of Joseph V. Breitweiser and was advanced to the status of a school in 1951, with Dean Daryle Keefer at the head.

APPLICATION OPEN

Applications are being accepted for a summer history institute at UND. The National Defense Education Act institute starts June 19 and will concentrate on "The Adjustment to Industrialism in the Western World." It is designed for those who teach high school history without a history major. A maximum of 36 persons will be selected from an area including North and South Dakota, eastern Montana, Wyoming, western Minnesota, and Iowa. Interested teachers should contact D. Jerome Tweton, chairman, NDEA Institute, University of North Dakota, Grand Forks, N. Dak. 58201.

COACH RESIGNS

Gary Grouwinkel, assistant UND football coach, has resigned to accept a post at the University of Arizona. He was a former guard on two Iowa University Rose Bowl Teams.

Opportunities Unlimited

Scholarships, Fellowships Available

WELK SCHOLARSHIP

A Lawrence Welk music scholarship has been set up at UND, with the first award to be given in the fall of 1967 to a University freshman in need of financial aid and who shows promise in the field of music.

The first scholarship will be in the amount of \$500, and applications may be sent to the University music department.

Welk is an honorary alumnus of UND. In 1958 he was awarded the Distinguished Service Citation by the UND Alumni Awards committee, and the presentation was made by John E. Davis, then North Dakota Governor, on a national television show.

Judge Edward O'Connor, UND alumnus now of Los Angeles and a golfing partner of Welk, said "It pleases me to know that the Lawrence Welk scholarship has been established. Mr. Welk is proud of his University connection and is vitally interested in its progress."

JOHNSTON SCHOLARSHIP

The first Bertha M. Johnston Memorial Scholarship stipend has been awarded to Mary Lynn Kittelson of Grand Forks, a junior in the Honors Program. The memorial was established at UND with funds from the University YWCA through the efforts of Mrs. Margaret L. Barr, UND assistant professor of business education, and Mrs. Sewell Mason, Grand Forks school teacher whose late husband was a UND faculty member. Mrs. Johnston served for many years as an instructor in the English Department, and was faculty advisor to the UND YWCA.

ALGER SCHOLARSHIP

The first award of the Diane Cynthia Alger Memorial scholarship for medical students has been given to Donald Moline of Rolette, a second-year medical student.

The scholarship has been set up by Dr. John R. Alger of Tacoma in memory of his sister and is to be an annual one of \$350. Dr. Alger earned his B.S. degree in medicine in 1951 at UND. The fund has been established through the UND Alumni association.

TRAINEESHIPS

National Aeronautics and Space Administration traineeships will be available to two students for study at UND for a three-year period, according to Dr. Christopher J. Hamre, dean of the UND Graduate School. Applications for the grants may be obtained from the UND Graduate School office and training will begin next September. Candidates must be working in at least one field of anatomy, biochemistry, biology, chemistry, geology or physiology-pharmacology.

FELLOWSHIPS

Three fellowships for graduate work leading to the master's degree with a major in speech and hearing are available at UND for graduate study in 1967-68. Applications may be obtained from the Graduate School office.

NEWS NOTES

Scott Park, ex'59, is manager of the Grand Forks office of WDAZ-TV, new NBC station in eastern North Dakota. A native of Hamilton, Park has been associated with television stations for several years.

Mike J. Tschida, ex'53, of Dickinson, has been awarded the silver wings of an American Airlines flight officer. He served in the U. S. Air Force from 1954 to 1966 as a captain. He and his wife and two children make their home in Washington, D. C.

Vernon J. Feil, M.S. '56, is among those listed in the 1966 edition of Outstanding Young Men of America. He holds five patents in the field of medicinal chemistry and is presently doing research work at the U. S. Chemical Research Laboratory in Fargo.

Vine D. Lord, ex'14, recently observed 50 years in the insurance business in Cando, N. Dak. To commemorate the event, he has been driving a 1966 gold Cadillac with license plates of 1916-1966. As a more lasting memorial to his 50 years of business in Cando, the Lord Insurance Co. has broken ground and is constructing a new office building.

Mrs. Linda Swanson Juhala, '63, will graduate next July as a Reading Research Specialist at Southern Methodist University. **Curt Juhala, '63**, will receive his M.D. degree from Southwestern Medical School in Dallas next June.

Marjorie Stewart Johnston, '52, is a home economist in the General Mills Betty Crocker Kitchens and is currently testing recipes for a new cookbook to be published next year.

Upson Lecture Series Starts

Dr. Roger Hilsman, a former assistant secretary of state for Far Eastern Affairs in the Kennedy administration, is scheduled to open the 1966-67 Maxwell M. Upson Lecture series at UND. Dr. Hilsman is professor of government at Columbia university and will speak on "Asia: Its Problems Inside and Out."

Other Upson Lecturers this year will be Dr. Arthur Larson, director of the World Rule of Law Center at Duke university and former special assistant to President Dwight D. Eisenhower, and Robert W. Galvin, chairman and chief executive officer of Motorola, Inc. of Chicago.

Now in their third year, the Maxwell M. Upson Lectures bring scholars, artists or representatives of the professions to UND for public lectures, seminars and faculty and student discussions. They are made possible through a \$100,000 gift in 1964 from UND alumnus Maxwell M. Upson, construction engineer and honorary chairman of the board of Raymond International, Inc. of New York City. Dr. Upson is an 1896 UND graduate.

RECEIVES GRANT

Athletic Director Leonard Marti was awarded a \$200 Gamble-Skogmo Faculty Grant to attend meetings on the west coast dealing with health and physical education, according to Dean Thomas J. Clifford, who heads the UND athletic committee. The Gamble-Skogmo Corporation has granted \$40,000 to the UND Development Fund for awarding to faculty members, enabling them to attend special conferences and meetings designed to help upgrade various programs at UND.

Charter Member

Dr. George W. Starcher, UND president, has been presented with a charter membership in the North Dakota Council of Teachers of Mathematics. The state council is in its first year and has a membership of more than 200. Before coming to UND in 1954, Dr. Starcher taught mathematics at the University of Illinois for two years and then went to Ohio University where he taught mathematics for 15 years.

Are You on It?

Plan Alumni Honor Roll

Making the honor roll is not easy.

It's a real challenge in education, from kindergarten to the post-graduate level.

There's an honor roll being prepared that will list loyal UND alumni. Your name should be included.

You have already been made eligible by attending UND or by your friendship to UND.

It takes only one more thing: Mail a contribution to the UND Development Fund.

It takes just a minute or so. The amount you give is up to you. You have probably already given to your church,

your favorite charity, your United Fund and to other deserving causes.

The UND Development Fund merits your support, too. It provides scholarships for needy students, faculty grants, University promotion, and makes it possible to send you the ALUMNI REVIEW.

So, we invite you to join the UND Alumni "Honor Roll." Your contribution in the mail will list your name with other alumni who are proud to give their Alma Mater their support.

Please print your name plainly. We don't want to misspell it on the Honor Roll.

NEW RECORD FEATURES UND MUSIC GROUPS

A stereophonic long playing record has been released by Century Records Co. which features performances by three UND music groups. The selections were recorded at concerts given last year by the Varsity Winds, the Choral Union and the Wind Ensemble.

NEWS NOTES

Benny A. Graff, '61, '64, has become a partner in the Mandan law firm of **Robert Vogel, '39,** and **Bruce B. Bair, '50,** after being an associate for the past 2½ years. He is married and has one daughter.

Judge B. F. Whipple, '34, has retired after nearly 30 years of service as Wells County Judge and has been succeeded by **Samuel D. Krause, '51.** A special retirement ceremony was held which "sentenced" Judge Whipple to many carefree years of retirement.

Frank Setter recently was graduated from a VISTA training program in Boston and will spend one year working with the Roxbury Federation of Neighborhood Centers in Boston. A native of Crary, he interrupted his college career to join VISTA; he expects to receive his degree from UND in 1967.

Ruth Sorlie Edick, '39, and **Rollis Nelson, '33,** are serving on the Washington staff of Representative **Thomas S. Kleppe** of North Dakota. Mrs. Edick is the daughter of the late Gov. A. G. and Mrs. Sorlie and will serve as appointment secretary. Nelson, who has edited weekly papers in North Dakota, served for the past 11 years as director of the farm division of the Republican National Committee.

Francis J. Schulte, '65, is serving as one of four geologists on an expedition to the Pole of Inaccessibility, high on the Antarctic Polar Plateau. He accepted the offer from the New Zealand government, where he has been working as a Fulbright scholar. He expects to return to UND in April.

Donald H. Reinarts, '38, is the new superintendent of mails at the Minot Post Office, where he has been employed since 1939. He is married and has four children.

Larry M. Lagrave, '65, was the set designer and technical director of "The Firebugs," a play presented by the Ohio University Theater, where he is in his second year of study for a master's degree in theater arts and speech.

Charles L. Greenwood, '62, has opened an office in Cavalier as a certified public accountant. He was formerly an examiner with the States Securities Commission in Bismarck and had been a comptroller for a grain firm in Moorhead. He is married and has two children.

Mrs. Loren Torkelson (the former **Merle Sorensen, '63**) is a grade school teacher in Merced, Calif. Her husband, **Lt. Loren Torkelson, '63,** is stationed at DaNang AFB in Viet Nam.

Hugh R. Putnam, '17, has retired as bookkeeper of the North American Creamery firm in Carrington, N. Dak., where he has been employed the past 20 years. A long-time resident of Carrington, he served in World War I and was a charter member in the local post of the American Legion and the VFW. He and his wife plan to do some traveling in their retirement years.

Ronald G. Volk, '61, is a registered representative with the newly opened office of Piper, Jaffray and Hopwood Investment Co. in Bismarck. He and his wife have two children.

Walter J. Pederson, '55, of Devils Lake has been promoted to district sales manager for a book publishing firm; he was formerly a teacher and hockey coach. He is married and has three children.

Bob Krick, who earned his law degree from UND in 1937, is featured in a recent article in the McAllen, Texas, newspaper. Krick spent 18 years in the FBI, primarily on criminal cases in New York City, before suffering a stroke in 1964. He moved to McAllen last year for therapy treatments, and has recovered sufficiently to run a copy service for small businessmen in that city.

James E. Sauer, '56, was featured in the December issue of the magazine, HOSPITAL TOPICS, published monthly in Chicago. He is assistant administrator of the Children's Orthopedic Hospital and Medical Center of Seattle, Wash. Sauer is listed in the 1966 edition of Outstanding Young Men of America and is a nominee in the American College of Hospital Administrators.

Building Loan Gets Approval

A UND request for the reservation of loan funds in the amount of \$1.8 million for the construction of a five-story residence hall and a central food service building west of the campus has been approved by the Housing and Home Finance Agency of the U. S. Department of Housing and Urban Development. The loan will be repaid through self-liquidating bonds, as have construction costs of many residence halls on the campus.

Target date for initial use of the dormitory and food service buildings is September, 1968. Final plans must be presented for approval before the loan will be formalized.

AWARD CONTRACTS

Contracts for construction of a mathematics-physics building at UND were approved by the Board of Higher Education. The total was \$1,030,530 for the building which will be located on the eastern part of the campus, between Abbott and Leonard halls. It is being financed by \$416,667 in federal funds and the balance in state funds, appropriated during the 1965-67 biennium. Construction will start this spring on the three-story, 55,000 square foot structure.

Poems Published

Dr. Richard Beck, UND professor of Scandinavian languages, is author of a new book of poems, just published in Winnipeg. The 50-page book contains 21 poems, several of which appear in book form for the first time, including tributes to President John F. Kennedy and Sir Winston Churchill. It is the 15th book which Dr. Beck has authored or co-authored since coming to UND in 1929. He was honored at the Founders Day banquet during February on reaching the retirement age.

Grant Approved

A federal share of \$120,725 for the costs of a classroom and academic building at the UND-Williston Center has been approved. Under the Higher Education act the funds will pay for part of the estimated cost of \$1,690,699 for the building, the first new one at the Center. Completion of the structure is expected this year.
