## Graduate Total Soars to 456

### *Governor Lands Union*

(Lee-Evanson Photo)

Governor Norman Brundsdale, paying his first official visit to the University since his inauguration, lauded the new \$600,000 Student Union building. He told President John C. West it should be a "wonderful" addition to student life here on the campus. He noted especially that the building had been constructed and equipped through contributions from students, alumni and friends of the University, and hadn't cost state taxpayers one cent. The governor (left) is shown above with President West on the Union patio, in front of the main entrance. The new structure was opened to the student body for the first time for last semester's Junior-Senior prom. Since the opening of summer school, all facilities have been made available to the student body.

### **All Records For Advanced Study Broken**

By A. L. MONROE

This summer's Graduate division is setting a new all-time high record enrollment. Its 465 students furnish more than half of the entire University student body. The 422 men and 34 women come from the Middle West and as distant states as Washington, Oregon and California.

**Dr. Overn**

From the greatest distance is Jen Chi Chang of China, doctoral candidate. He is making a comparative study of the provisions for rural educational opportunities in China and the United States and the educational philosophies of the two nations. Olger Myhre will have interesting findings to report on the Pembina Plan, a new departure in education.

(Continued on Page Three)

### **A'low Single Day Recess for July 4**

The July 4 vacation, the only break in the summer session, will only be one day this year, according to the registrar's office. Last year a three day vacation, July 2, 3 and 4, was allowed.

No penalties, other than those imposed by the individual instructors will be levied against students missing classes before and after the vacation, the dean of women's office announced.

*Editorial:*

# Let's Give It a Try!

This summer session's recreation program is probably one of the best ever arranged for summer students at the University. Students don't seem to know what they are missing by failing to participate.

There is something for everybody! For the musically minded persons, there are the band, chorus and the band concerts. For the athletic, there are bike-riding, canoeing, tennis, square dancing, swimming, horseshoes, croquet and archery layouts. Convocations arranged for the session are at the top in entertainment.

Over half of the students this summer are in the graduate division. Perhaps that is the reason that so few students have been participating in the recreational activities. However, these students should realize that a certain amount of relaxation and recreation is necessary and our campus is prepared to provide it.

Recreation Director John Quaday has spent a lot of time preparing this summer's activities. Why not try some of them out?

\* \* \* \* \*

Each year about this time the topic of DO NOT WALK ON THE GRASS is brought up. Don't. We have a beautiful campus and let's try to keep it that way. The buildings and grounds department is trying to do something about this by building sidewalks where students have made paths. Maybe this will be the answer to the problem. DO NOT WALK ON THE GRASS.

— M. A. H.

## Campus Banter

One class was disturbed by a bee this week. The instructor tried to calm his students by saying "They say you're not supposed to show your fear of these things," and continued to dodge the bee the remainder of the period.

\* \* \*

**Heard in a classroom: A Myth is a female Moth.**

\* \* \*

Summer seems but a fable with predominating cool weather. However, a Californian visiting on campus the other day remarked that he'd rather stay here than return to his sunshine state. Of course, one of the selling points of the University summer session could be "ideal weather for studying."

\* \* \*

Good news: Repaving of bumpy University avenue about to become a reality! Then if they get that other "proving ground"—Second avenue North from the campus to Columbia Road!

\* \* \*

Quick—where's that stamp?

This might be ONE way to eliminate those registration lines. The University of New Hampshire allows its students to register by mail!

## By the Staff

A man on campus was asked the customary, "How are you?" "Not so good. I ate lunch and it went to my stomach," he replied.

\* \* \*

**What's this? They're going to put in a WAC camp down in Alabama, close to Camp Rucker where UND's finest troops are in training. Army life may be picking up!**

## Life Magazine Art Display Starts Monday

The "Age of Enlightenment" will be shown in the Art department on the third floor of the Law building Monday. The scientific, social and cultural life of France in the 18th Century is shown at this art exhibit by portraits, cathedrals and maps. Life magazine has prepared this interesting display.

## THE DAKOTA STUDENT

Published each Friday morning during the summer session at the University of North Dakota by students in journalism.

EDITOR, this issue:  
MARY ANN HEDER

STAFF MEMBERS: A. L. Monroe, Sam Meblin, Richard Gorrell, Elizabeth Spickler, Robert Rystad, Venoy Draper, Don De Krey, Robert Bustin.

PHOTOGRAPHER: Harold Rose.

ADVISER: Alvin E. Austin

## Bulletins

### UND Activities

**VACATION**—No school Wednesday, July 4. Classes resume at 7 a. m. Thursday.

**SPORTS**—Archery, canoeing, bike riding, horseshoes, croquet, across coulee bridge, 3 p.m. daily.

**BAND**—Rehearsal, 1 p.m. daily except Wednesday, Armory.

**CHORUS**—Rehearsal 7 p. m. Monday, Robertson hall.

**MOVIES**—Union ballroom, 7 p. m. Tuesday.

**DANCE**—Union ballroom, 8 p.m. Thursday.

**CONVOCATION**—Student Union, 11 a.m. Tuesday.

**SOFTBALL**—6:45 p.m. Wednesday.

**RADIO**—KFJM on air 3 to 5 p.m. daily.

## Complete Casting For Summer Play

A cast of six students was selected Thursday by S. Donald Robertson, director, to take part in "Papa Is All," summer session dramatic production scheduled for July 26-27.

Mama Aukamp will be played by Lenora Johnson of Ada, Minn., and opposite her Burchard Hays of Mahanomen, Minn., will act the part of Papa Aukamp.

Portraying Emma Aukamp will be Arlene Dammel of Medina. A Grand Forks girl, Arlene Dippe, will take the part of Mrs. Yoder. Howard Osburn was chosen for the part of Jake Aukamp. John Willmot from Carnduff, Saskatchewan, will play a state trooper.

The play will be staged in West school auditorium.

## HOWARD PRESIDES

John E. Howard, University bandmaster, presided over the district assembly of Rotary International at Detroit Lakes, Minn., Monday and Tuesday. This was Professor Howard's first duty as governor of the 173rd district which consists of 35 Rotary clubs in North Dakota; northern Minnesota; Superior, Wis., and Fort Arthur and Fort William, Ont.

## Smorgasbord, Union Style

—Dakota Student Photo By Harold Rose

Attendants at the first family night smorgasbord in the Student Union "chow down" in the cafeteria. The smorgasbord was served through the regular cafeteria line (background).

*Begins this Fall:*

## ROTC Adds Flight Training

Beginning with the fall semester of 1951, the air force ROTC program will offer a flight operations course in addition to the comptrollership and armament training options already offered.

Ninety hours will be devoted to instruction in principles of flight, aircraft engineering, aircraft instruments, air navigation, and meteorology.

The flight operations course will be open to juniors in the college of SLA, who have completed two years of basic ROTC or the equivalent of one year of active duty. Special consideration will be given those enrolled in other than SLA.

Applicants must be under 26½ years old at graduation, and must agree to participate in actual flight training when and if it is offered.

Physical requirements for flight operations will be more stringent than for other air force options. Color blindness will not be accepted, and general visual qualifications are higher. Final physical examinations will be given later in the term.

All students who do satisfactory work in ROTC are deferred by government contract to complete their college courses.

## Grad Club Active Throughout Year

Functioning this summer, as it does throughout the year, is the University Graduate club.

The club's president, William Kupper, also is on the Student Union staff and is eager to make the Union available to all graduate students.

The club has contributed liberal sums to graduate scholarships and to the Breitwieser Memorial Loan fund for graduate students.

Secretary of the club, Annabelle Cruickshank, has accepted a position in the Winona, Minn., school system for next year.

## Graduate Enrollment Sets All-Time High For Any UND Term

(Continued from Page One)  
tional organization, when his doctoral thesis work is finished.

### Overn Directs

Dr. A. V. Overn, director of the Graduate division, has had a varied educational career. Trained at Manitoba and Columbia universities, he has spent the past 21 years chiefly as professor at the University of North Dakota, but has been visiting professor at South Dakota State college, Duke university, Pennsylvania State and the University of Michigan.

In 1942 he was called as consultant to the Minneapolis school board on organizational and financial problems to clear up a deficit in the budget that had been taken out of teachers' salaries for the previous ten years. He has published six books, contributed to the the Encyclopedia Britannica and the Encyclopedia of Modern Education. Thirteen educational journals have published more than 200 of his articles and reviews. Yet, Doctor Overn has found time for hobbies of oil painting, cameras, travel and gardening.

### Students Loyal

The graduate students, according to Doctor Overn, are of high caliber and are loyal in bringing others to the University. They have developed one of the finest graduate club organizations in the United States.

The aim of the graduate office is to ascertain the occupational preferences of prospective graduate students and to bring the facilities of the University to their aid in developing a reasonable instructional program that will contribute to their purposes. This broad aim sometimes leads to unconventional study programs to meet the changing demands of the occupational world.

The graduate director is ably assisted by Mrs. Mary Deason, full-time secretary, whose husband, Kenneth Deason, has just completed his law course at the University; and by Zane Fleischman, part-time clerk for the summer, who teaches at Grafton in the winter and is studying toward an advanced degree.

# 2d PTA Workshop Closes Today

## Summer Session Movies Success At Student Union

Over 100 persons attended the first movie program of the summer session recreation program in the Memorial Student Union Tuesday night. John Quaday, recreation director, said the acoustics and conditions for movies in the Union ballroom are excellent. He also said that comedies will be included in all forthcoming programs.

The next movie program is scheduled for Tuesday, July 3. Movies that will be shown are: "Pueblo Boy," a factual film of Indian life in Southwestern United States, "Meeting the Challenge," about the route of America's oldest railroad, "Big Ten," a cartoon story of a roller bearing train, and "Heads Up," a swimming movie. A comedy will also be shown.

All movies are shown in the ballroom of the Union building. All are sound and predominately in technicolor.

## Summer Session Dances Are Proving Popular

Weekly summer session dances in the Student Union ballroom are being very well attended, according to John Quaday, recreational director. All types of dancing are held, including square dancing, group dancing, couple dancing and social dancing. Dances will be held every Thursday night throughout the summer session, and all students and faculty are welcome to attend free of charge.

## HEADS FIELD TRIP

Dr. Wilson Laird, head of the University geology department, was in the western part of North Dakota this week, conducting a three-day field trip of petroleum geologists. Geological formations in the Dickinson and Mandan areas were studied.

## Campus Sessions Stress Home-School Co-operation

Winding up the second annual Parent-Teacher Conference Workshop will be the evaluation and summary meeting at 11 a.m. today in the Student Union.

Presiding over the final meeting Dr. Ben Simmons, director of the campus school and teacher placement bureau of Minot state teachers, evaluated the constructive advancement made by the 150 delegates along the conference theme of "Parent-Teacher Leadership and Home-School Co-operation."

The group composed of Mrs. Loyde Richmond, secretary of the N. D. PTA; Mrs. H. A. Belcher, president of the Fessenden, N. D. PTA; Mr. C. C. Springer, first vice-president of the N. D. PTA Congress;

and Mr. D. J. Robertson, chairman of the 1950 conference workshop. Recommendations for the 1952 PTA conference and workshop, summarized conference accomplishments.

The topic "My P. T. A. Problems and Lay Leadership" will be discussed at the 9 a.m. meeting with Dr. A. J. Bjork presiding. The conference will discuss home-school co-operation at a 10 a.m. panel under the co-chairmanship of Dr. Elroy Schroeder, superintendent of Grand Forks public schools and Mrs. Fred Spencer, president of District I, of Manvel.

This year's two day conference was sponsored co-operatively by the University of North Dakota and the North Dakota Congress of Parents and Teachers.

## Give 'U' Avenue Paving Plans To Grand Forks City Council

The paving of University avenue will be initiated Monday when the plans and specifications are submitted by the consulting engineer to the Grand Forks city council.

Present plans call for widening the avenue from 40 to 46 feet from the Kedney warehouse at Tenth street to Twentieth street and resurfacing this with asphalt.

From Twentieth street to Prince-

ton, the concrete strips on the sides of the center berm will be widened from 16 to 26 feet and the berm will be narrowed from 31 feet to 11 feet. The avenue will then be resurfaced with asphalt and grass and flowers planted on the berm.

The contract for the project will be let August 6 with work to begin soon after, City Engineer Byron Rockwood said.

## Press Completes Booklet On Campus Religious Life

The University Press has completed a religious booklet entitled, "Put Religion at the Center," which will be sent to all students planning to enter the University this fall.

The booklet, sponsored by the Religious council, contains information of religious groups and their activities here and a directory of churches in Grand Forks and East Grand Forks.

## Convocation Program Scheduled Tuesday

It will be "convocation as usual" Tuesday at 11 a.m. in the Student Union ballroom. Details, however, were lacking as this issue of the Student went to press, but Convocation Chairman John Howard promised that a worthwhile and entertaining program was being arranged. Conflicts with the July 4 schedule was delaying final arrangements.

## Large Enrollment Complicates UND Housing Problem

Unexpectedly large summer school enrollment resulted in opening of the Hospital dormitory and Princeton hall for single and double rooms, Loren Swanson, housing director, said.

Married couples and families have completely filled University housing facilities, Swanson said. Approximately 70 families have taken hutments and trailers for the summer session. All sub-lets and temporary rentals were handled through the housing office.

Students interested in obtaining family-type housing for the 1952 summer session are urged to contact the housing office anytime after July 16. Both sub-let and temporary housing plans will be available. By completing the housing application and making the \$10 deposit early, students are assured now of obtaining adequate housing for the 1952 summer session.

Swanson said space is still available in all dormitories for the fall semester. Students can reserve rooms by applying now and making their \$10 deposit.

Budge, Macnie and Princeton halls will house upper classmen while East hall will be reserved for freshmen. Princeton hall, Swanson added, is no longer reserved for veterans.

### Official to Visit Pi Lambda Theta

Pi Lambda Theta, honorary organization for professional women in education, will play host to their national vice-president, Miss Thelma Chisholm of Seattle, August 2 and 3, Mrs. Olson, adviser, said. Miss Chisholm will take part in the installation of the UND alumnae chapter August 2 and speak at a Pi Lambda Theta banquet the same day. Pi Lambda Thetans who wish to attend the installation ceremonies or the banquet are asked to contact Mrs. Olson at their earliest opportunity.

## English--The Easy Way

—Dakota Student Photo By Harold Rose

Summer session pool sharks try their skill on the gleaming new tables in the Memorial Student Union. The game room on the third floor of the Union has three regular pool tables and one snooker table as well as a ping-pong table. The game room is open from 12:30 until 10 p.m. daily.

## At Turn of Century--

### It Was 'Winter School'

It was winter school instead of summer school at the University from 1899 to 1905.

### Marketing Class Hears Catalog Production Talk

Mrs. Kenneth R. Dye (Jean Morrow), catalog manager for Aldens in Chicago, Illinois, told members of the marketing classes, Tuesday how a mail-order catalog is produced. She explained how the thousands of items are selected for the catalog and how the 1000 page book is produced and distributed throughout the nation. Mrs. Dye finished at the University in 1942 and took a masters degree from Northwestern university the following year. At the present time she is visiting her mother, Mrs. William Morrow, 409 N. 4th Street, here in Grand Forks. Mrs. Dye's husband is in the navy and is presently stationed in Japan.

Teachers attended a three month winter session during those years under the direction of the normal department. Previous to that time, a four week summer session was held.

The winter school was considered to be more effective, according to the 1900 catalog which stated, "It is, too, during a season of the year when most country schools are closed and when teachers can conveniently attend."

Only teachers, or those intending to teach, were admitted to the classes planned for the winter period.

### Close Bookstore Here

The University Bookstore will be closed all day Saturday, June 30, for inventory, according to Milton Wennerstrom, manager. It will be open Monday at the regular hours.

## Sioux Gridders Slate 7 Games; Open At Iowa

By VENOY DRAPER

Seven games are on the 1951 Sioux football slate, with one of the toughest opponents—Iowa State Teachers—scheduled as the opener at Cedar Rapids September 22.

The rest of the schedule, according to Head Coach Frank Zazula, follows:

Sept. 22—Iowa State Teachers college—there.

Sept. 28—Morningside—here.

Oct. 5—Open Date—.

Oct. 13—South Dakota State—here. (Homecoming)

Oct. 20—Beloit—here.

Oct. 26—North Dakota State—there.

Nov. 3—Augustana—here. (Dad's Day)

Nov. 10—South Dakota University—there.

Coach Zazula said he has lost thirteen seniors plus twenty-five varsity and frosh prospects to the National Guard and enlistments. The number lost to the draft this summer is not known.

Zazula said that fall practice would start August 27. Seniors Cy Ducharme and Boom Hallada are co-captains. Bill Richter of Valley City Teachers replaces Roy Hausauer, who is in the National Guard, as backfield coach.

## Announce Summer Library Schedule

The University library will be open from 8 a.m. to 6 p.m. and 7 p.m. to 10 p.m., Monday through Thursday, during the summer session, according to Miss Della Mathys, librarian.

Friday and Saturday the library will close at 5 p.m. and will be closed Sundays and holidays.

## TO BEGIN INTERSHIPS

Two June home economics graduates leave July 1 to begin internships in dietetics. Margaret Haugen will go to Oakland, Calif., to interne in Alameda county hospital. Ethel Sundquist goes to Memphis, Tenn., to interne at the Veterans hospital.

# Fourth UND Coaching Clinic Scheduled August 16-18

By DON DE KREY

UND's fourth annual coaching clinic will take place August 16, 17 and 18, Athletic Director Glenn Jarrett said today.

This year's clinic will consist entirely of movies and lectures on football and football rules. The season of the year and lack of interest in hockey, Jarrett said, caused the game to be dropped from the clinic. Basketball was left out to give more time to the discussion of six-man football.

## S-Ball Tourney Needs More Teams

The summer session inter-school softball tourney will get under way as soon as all teams have entered, according to John Quaday, recreation director.

Dick Hovet, student assistant in charge of softball, is contacting all houses and halls to enter teams in the tournament. Any team wishing to enter is asked to contact either Quaday or Hovet.

Quaday also stated that any persons who are regular students during the year but are not attending summer school are eligible to play on teams.

Six teams will make up the tourney roster and a full schedule can still be played until the end of the summer term.

## Many Use Coulee Recreation Facilities

Many summer session students are taking advantage of the afternoon recreation program across the coulee, where archery, bike riding, croquet, horseshoes, and canoeing are offered free of charge. A dock is being built for the canoe, and will be completed soon. Three bicycles are available, and archery, croquet, and horseshoe equipment is plentiful. The program is in progress from 3 to 5:30 p.m. Monday through Friday with student assistant Don Layton in charge.

Featured speakers will be Frank Zazula and William Richter of the University sports department staff and High School Coaches Larry Nyjordet of Hebron, and N. E. Anderson of Wishek.

Zazula will take lectures and discussions on the T-formation, while Richter will handle discussion of the single wing.

Nyjordet and Anderson have proven themselves able men in the field of six-man football and will take over that phase of the clinic.

A football rules discussion by a representative of the National Federation sponsored by the North Dakota High School league will be one of the high points of the clinic, Jarrett said.

Jarrett stressed that the coaching clinic is open to anyone who cares to attend. It is possible, he said, to obtain two college hours of credit in football by attending the clinic and working through the division of correspondence. Attendance at the clinic takes the place of the correspondence lessons. This leaves the student only the final examination before receiving credit in the course.

Judging from past registration, Jarrett expects a minimum of 75 students to attend this year's coaching clinic.

## Music Department Head Directs Camp Music Program

Prof. Hywel C. Rowland, head of the music department, has been serving as music director at Pilgrim Park camp, Congregational summer camp located north of Bottineau, this week. His summer session classes will resume Monday.

## TEXTS ON DISPLAY

First of several scheduled textbook displays, for elementary and high school students, was on display on the first floor of Merrifield Tuesday and Wednesday. The exhibits are aimed at teachers taking graduate work here.

## Chicago Quartet Offers Pleasing Convo Program

By MARY ANN HEDER

Outstanding talent and excellent training were revealed by the Chicago Philharmonic quartet in their interpretations of the high lights of classical and light operas at convocation Tuesday.

The quartet performed both as soloists and ensembles. Miles Nekolny, baritone who played a lead part in the New York company of "South Pacific" until the end of May, sang the popular "Old Man River" as one of the highlights of the program.

Soprano Bernice Celese and Tenor Richard Knool acted as pianists for other members of the group. Rena Gould, contralto, put herself into character for her rendition of a Latin American number.

The entire program was highly entertaining with the quartet assuming a rather informal stage manner. The famed foursome is under the direction of Eleanor Randalles of Milwaukee.

## It's Weather!

### Weather You Like It or Not

A lot of songs could be and have been written about the weather, and the familiar, June moon theme runs through many melodies, but for the suggested title to depict summer session atmosphere we pick a new hit for January in June . . .

"Baby It's Cold Outside" could have been the tune for summer session students yesterday as temperatures recorded at Grand Forks International airport dropped to a cool 47 degrees.

The cold twist of the overcast coolness appeared in mens attire. Jackets and topcoats are rather novel, but North Dakotans decked out in them to rebuke the June blast. So, weather—you like it or not . . . this is still the coolest college campus in the states.

As the Mexican said, "Chili today—Hot Tomali."

## 22 Sessionites Practice Teaching at Central High

Twenty-two summer session students are practice teaching at Central high school, Grand Forks, Dr. Garold Holstine, dean of the school of education, said this week.

Five of those teaching are graduate students, four are from the college of science, literature, and arts and the remaining 13 are education majors, he said.

## Grounds Office Landscapes 'U'

Redecorating of buildings, landscaping and grass planting and building of sidewalks are part of the campus face-lifting job conducted by the buildings and grounds office this summer.

A work crew is completing the painting of the halls and stairways in the law building. The crew will move next to the armory where it will redecorate it for army and air force officers who will take it over this fall. Partitions will be put in the armory to make more office space.

About a mile and a half of sidewalk is being built on campus where students have been making paths. One new sidewalk will run from the campus to the fieldhouse on the south side of Second avenue while one is being constructed to the Student Union.

Landscaping and grass planting at the new building sites will also be completed this summer.

## Summer Sessionites Pass Up Winnipeg Tour

University summer sessionites just aren't tourists!

Even the low price of \$2.50 "round trip" to Winnipeg couldn't lure them off the campus last weekend.

Not enough signed up for the jaunt, so the recreation department decided to cancel it.

Big recreation events coming up are the campus picnic July 10 and the Arvilla outing July 22.

Instructing in English are Walde-mar Affeldt, Darlene Levorsen and Anna Peterson, of the school of education; O. Thinglestad and William Raaen, graduate division; and John Webb, science, literature and arts.

Education majors teaching social studies are Jack Cripe, Donald Fellows, Clifford Herman, Herbert Messmer, Alton Shipman, Corrine Helland and Catherine Pirro; Mrs. Joan Russell and George Paulson, science, literature and arts; and graduate student Josephine Hoesley.

Mathematics instructors from the graduate division are Emerson Robertson and Mary Ketter; from science, literature and arts, Pat Rae Knox; and education majors Rich-Biwer and Vernon Frankfurth.

## Have \$4,174,027 For New Biennium

July 1 marks the beginning of the new fiscal year here, and University officials have appropriations totalling \$4,174,027 for the 1951-53 biennium. The figure includes estimated institutional income.

A total of \$600,000 is available for an education building to replace Woodworth hall, which was destroyed by fire. This figure includes an appropriation item of \$480,000 plus \$120,000 in insurance funds.

The rest of the appropriation is to be spent on educational services, buildings and grounds, and general maintenance and repair.

## 3 from U Attend Mayville Conference

Three members of the University staff—Dr. Garold Holstine, dean of the education school; Prof. A. J. Bjork and Physical Education Director Leonard Marti—went to Mayville this week to participate in a Parent-Teacher conference at Mayville State Teachers college.

## Speech Clinic Adds 6 New Students; Expect More Soon

Six persons enrolled this week in the summer session speech clinic, according to Roy Sanford in charge. More articulation enrollments are expected soon, with three stutterers in the class at present.

Integrated play therapy is used, the theory being that children play out their conflicts if given a chance, Sanford said. The policy of the clinic is to meet the particular needs of each student, he added.

Sanford said the clinic is willing and capable of beating most speech defects. Only one University student is taking advantage of the opportunity to enroll in the clinic. Sanford emphasized that more students could use corrective speech training. Most common trouble with college students is stage fright which is fairly easy to deal with, Sanford said.

## 14 Air ROTC Men Get Honor Title

Fourteen juniors in the Air Force ROTC unit at the University this week were awarded the honorary title of distinguished military students.

The 14, who are in the upper third scholastically of their ROTC class and the upper half of their major subject, thus will be eligible to apply for a regular Air Force commission up on completion of the ROTC course.

The 14 to win the award are:

Bruce B. Bair, Jr. of Flaxton, Richard Dobronvolny of Ross, William J. Erickson of Park Ridge, Ill., Olaf S. Helland of Minot, Marvin W. Hopewell of Cooperstown, Ralph W. Leidholdt of Baraboo, Wis., Robert F. Middleton of Manvel, Curtis L. Orr of Hazen, Donovan R. Tschider of Solen, Alan P. Zimmerman of Carrington, and Lawrence C. Ekren, Duane E. Henry, Robert J. Nelson and Kenneth J. Schumacher, all of Grand Forks.

## Work on 3 New Buildings Progresses on Campus

Work on three buildings at the University is progressing with the weather providing ideal working conditions, while work on one building has been temporarily held up and three other buildings are in the planning stage.

The brick work of the \$400,000 girls dormitory, located west of the

President's house, is reported by John C. Beebe and his crews completed except for the lounge. Workmen will be ready to pour the concrete floors this week.

Several weeks of brickwork on the exterior of the fieldhouse portion of that building remains. This part of the \$750,000 building which includes the rear of the structure is expected to be completed this fall.

Crews of Johnson-Gillanders Co., contractors for the fieldhouse engineering building and boys dormitory, have poured the concrete for the second floor of the engineering building and are doing preparatory work to pouring the second story columns. This building is scheduled to be completed next spring.

The first floor slab of the boys dormitory, west of the Wesley college campus, has been completed but work on the \$350,000 project has been temporarily held up until base stone arrives for the start of brick work.

The board of higher education has authorized a 200,000 cubic foot addition to the medical building. The Medical Center Advisory council has recommended, however, that the size of the addition be increased.

Engineers are working on plans and specifications for an addition to the power plant while the architectural plans for the replacement of Woodworth hall have not been made. These two buildings will be started as soon as plans and arrangements are completed.

Two other large buildings are being constructed in the University area. The \$3,000,000 St. Michael's hospital is progressing rapidly with the skeleton of the T-shaped structure completed and work continuing in the exterior brick work. The hospital will work with the University nurses training program when completed.

The two-story chapel for the Newman foundation at the University, located at 412 Cambridge street, is practically all enclosed with brick. McGough Brothers plan to have this \$250,000 structure completed early this next semester.

## Family Affair!

### Mr. and Mrs. Take Classes

Marriage is a "double-study" affair for five husband-wife combinations enrolled in the Graduate division this summer.

Husbands and wives taking graduate work simultaneously are:

Abraham and Jeanne Tucker, Gerhardt and Arlene Dammel, Donald and Crystal Peckham, Fred and Edith Herman, Warren and Dolores Loberg.

## Student Union Building Accepted by Directors

Official acceptance of the new Student Union building from the contractor, the Fred Comb Co. of Minneapolis, was negotiated last week by the Union board of directors. While some minor finishing work remains to be done, the structure now officially has been taken over by the corporation which built it. The corporation, in turn, turns the building over to the University for use of the student body. Students still contribute at registration each semester toward paying off the \$350,000 bond issue which was floated to partially finance the building.

## ATTENDS MEETING

Miss Mildred Davis, Home Economics instructor left Monday to attend the National Home Economics association meeting in Cleveland this week.

## Summer Band Plays 1st Concert To Large Crowd

In spite of the cold weather, a large crowd of University students and friends gathered to hear the first outdoor concert of the University summer session band under the direction of John E. Howard, Wednesday evening on the campus between Old Main and the armory.

Selections included in the program were "Mexican Overture" by Issac, "Moods Americana" by Hummel, "March of the Little Lead Soldiers" by Piernce, Theme from the "Piano Concerto" by Tschaiakowsky, "Joshua," a novelty tune for band, by Paul Yoder, and "Alouetta" by Fred. Popular marches which completed the program were "Officer of the Guard" by Jewell, "The American Ranger" by Richards, and "The Klaxon" by Filmore.

The Summer session band includes several regular year University players who are in Grand Forks this summer as well as some alumni who have volunteered to play the series.

Members of the summer session band are William Frances, New Rockford; Harry Hildebrecht, Bakersfield, Calif.; Kenneth Peterson, Elgin; Warren Payntor, Argyle, Minn.; Grace Mathre, Oslo, Minn.; Harold Gulbrandson, Mayville; Joe Silovich, Eveleth, Minn.; Garfield Reichert, McIntosh, Minn.; Kenneth Iverson, Hampden; Donald Larson, Grenora; Francois Delzer, Aneta; Elvin Thompson, Leeds; John Snowfield, Langdon; John Heggvik, Westhope; Robert Solazzi, Hardin, Mont.; Ann Holmes, Jamestown; Allen Gillespie, Minto; John Harchanko, Minnot; Ragna Perrin, East Grand Forks, Minn.; Donald Paul, Lloyd Weston, John Gooselaw, Zane Gray, Richard Korfhage, Norma Gilbertson, Sam Meblin, Marilyn Miller, and Eileen Simonson, Grand Forks.

Two outdoor band concerts, scheduled for July 11 and 25, will complete the series.

### HOLD TEA AT UNION

A tea for wives of summer session faculty members and students, as well as women staff members and students, was held at the Union.

*Bid for Title:*

## See Possible Champs In '51-52 Pucksters

By BOB BUSTIN

No N. C. A. A. hockey championship has ever been won on paper or before the season has started. The University of North Dakota hockey teams in the past have all been destined to achieve that spot before the season has started by their overzealous followers.

Each year these fans have been disappointed as the final goal of the national championship has not been achieved; but once again with the hockey season not far off, they are anticipating great things of the Sioux hockey team.

It could possibly be that this coming season will find the Sioux making the greatest bid for the

national title. As the old adage goes, "Time will tell."

It will be impossible to recognize the players without a program for the first game this year if reports are right as to the make-up of the team this season. There will be many new faces in the lineup this year. Not every face will be new but there will probably be more new than old faces in the lineup this season.

**PUCK SHOTS**—John Noah, Sioux All-American has an excellent chance of gaining a berth on the 1952 United States Olympic Hockey Team. This chance was greatly enhanced by John's play on the Crookston National Champion amateur team this year . . . Other possible Olympic selections are two former Sioux players, Prince and Buzz Johnson . . . The top young professional prospect in the United States today is probably Kenny Purpur, who will be suiting up for the Sioux this season. Ken's ability has been proven in the past seasons, where he has starred for the Grand Forks Amerks against some of Canada's best players . . . There is a possibility that the Sioux will play an exhibition game with Yale at Sioux City, Iowa, this season . . . Vic Heyliger, University of Michigan coach rates the Sioux and Colorado College as the teams to beat this season in a pre-season prediction.

### Hockey Schedule

Dec. 14 & 15—Winnipeg Canadiens (tentative)

Dec. 21 & 22—University of Saskatchewan (tentative)

Jan. 4 & 5—University of Michigan here. N.C.A.A. champions .

Jan. 8 & 9—Michigan Tech there.

Jan. 11 & 12—Michigan State there.

Jan. 18 & 19—Michigan Tech here.

Jan. 25 & 26—Minnesota here.

Feb. 8 & 9—Brandon College here.

Feb. 15 & 16—Minnesota there.

Feb. 19 & 20—Denver University there.

Feb. 22 & 23—Colorado College there.

## Home Ec Department To Move to Commons

The Home Economics department hopes to move from Davis hall to the old Commons building before opening of the fall semester. After remodeling of the Commons and the installation of some new laboratory equipment, the Home Economics department can be moved to its new quarters. The home management house will remain in Davis, however. The University cafeteria recently vacated the Commons, moving to the new Student Union. Before 1928, the Commons building served as the University library.

## Ex Dean of Men Visits University

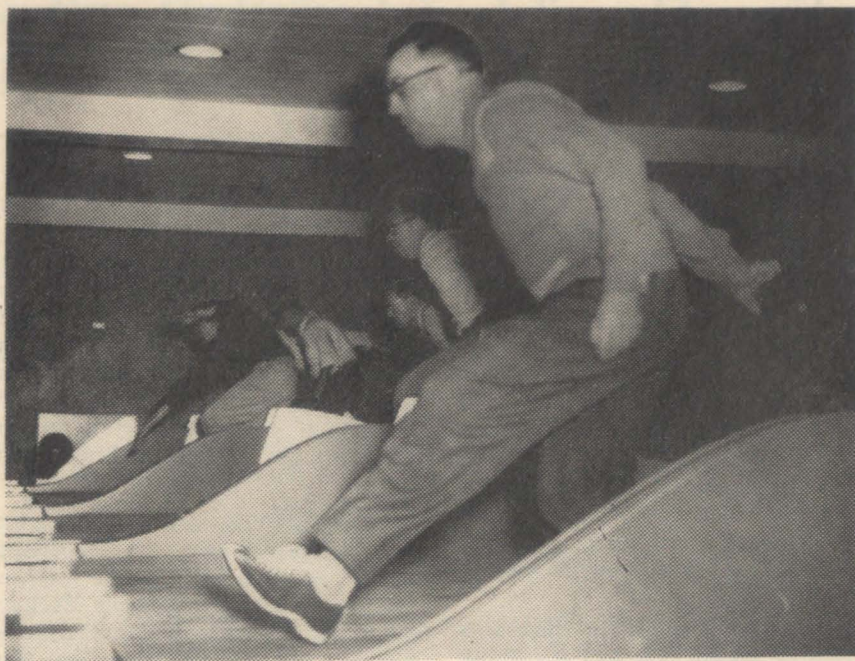

Capt. W. W. Renke, dean of men at the University until leaving for military service with the 164th Infantry last January, was on the campus Wednesday.

He flew here from Camp Rucker, Ala., to take oral examinations for his doctor's thesis.

Capt. Renke commanded the Guard medical detachment which was stationed on the campus, but now has moved up to become a regimental staff officer.

## Alley Acrobats

— Dakota Student Photo By Harold Rose

Eight campus moguls Friday heave "first balls thrown" as the Student Union bowling alleys officially opened. Included in the group are Dr. Garold Holstine, dean of the school of education; Dick Chapman, prominent Grand Forks bowler; R. B. Witmer, dean of the college of Science, Literature and Arts; A. L. Monroe, former editor of the Dakota Student; J. B. Bridston, president of the alumni association; Prof. A. E. Austin, president of the Student union board of directors (he rolled the night's "high" score of 165); and George Longmire, a director on the union's corporation board.

## Next Draft Test Saturday

You might do well to "Brush Up On Your Shakespeare" if you're one of the expected 40 students who will be taking the Selective Service College Qualification test Saturday.

The test, on which draft defer-

ment is to be based, will be given tomorrow morning in Room 116, Merrifield hall, and applicants are urged to be present at 8:30 a.m. according to Dean R. B. Witmer, who will administer the test.

## Discuss Lignite Defense Effort

Lignite and the defense effort were discussed Wednesday and Thursday at the June meeting of the interior department's Missouri basin field committee in the lignite research laboratory here.

The meeting represents the first time the committee has convened in the Grand Forks plant. The group's primary function is to coordinate all interior department agencies concerned with Missouri basin development.

## Wesley Facilities Open for Summer Term

The Wesley college speech, religion and music departments are in operation for the summer months as well as the Sayre Hall dormitory for men, Dr. Birrell, Wesley college president stated. No plans have been made as yet for Wesley foundation summer activities.

Topics discussed included activities of the laboratory, diversion of the Missouri river for irrigation purposes, development of the James river basin and the wildlife program in the Missouri basin.

## Enrollment Rises To 2d Highest In UND History

By RICHARD GORRELL

The second largest number of students ever to attend summer session here, 890 of them, completed enrollment this week, according to registrar Ruby R. McKenzie.

Included in the total is a record-shattering 456 graduate students, 331 of them veterans. Some 458 veterans have enrolled in all colleges for the summer term, Miss Lessel Abbott, supervisor of the veterans record office here said.

Dean A. V. Overn, head of the graduate division, said that the number of students taking graduate work has been increasing over the past five years. Last summer term's graduate enrollment totalled 343, an increase of 40 per cent over 1949, he said. He estimated that 80 per cent of the graduate students are teachers.

The large veteran enrollment, which is more than half of the total, is attributed to the July 25 deadline on veteran's educational rights under the G. I. bill of rights, Miss Abbott said.

The enrollment by schools, as tabulated by the registrar's office is:

Science, Literature and Arts, 226; Education, 68; Commerce, 53; Engineering 29; Law 46; and Graduate Division 456. Eight students are enrolled as specials or unclassified, Miss McKenzie said.

## 3 New Programs Listed for KFJM

Three new programs have been listed on the weekly schedule of KFJM, the University radio station, according to S. Donald Robertson, station director. "Music for the Connoisseur," a program of classical music will be heard at 4 p.m. starting Tuesday. Thursday at 3:15 p.m. a program called "Excursions in Science" will be broadcast, and "New World of Atomic Energy" will be heard on Wednesday at 3:45 p.m.
