759 Enroll, More Coming

First Convoc Tonight:

'Balladeers' Sing at Union

Shown here are the Balladeers, mixed quartet, which will sing tonight in the Union ballroom. The members, from left to right, are Gordon Griebenow, Katherine Hennig, Russell Miller, Adylene Johnson and Accompanist Marjorie Christensen.

405 of Total Taking Courses In Grad Division

Registrations for the 1952 summer session reached a total of 759 as of Tuesday according to Miss Ruby McKenzie, registrar. Registration was continuing steadily.

Miss McKenzie emphasized, however, that complete enrollment figures would not be available until late today. Total enrollment is expected to be considerably lower than that of the preceding years. This is not true at UND alone however, Miss McKenzie pointed out, since national college enrollment is down from 20 to 30 per cent.

Of the total enrollment so far, 405 are graduate students. The registrar did not expect the final grad student enrollment to reach the 1951 high of 456.

A big influx of additional students is expected by the registrar's office over the week-end.

A breakdown of students enrolled in the various departments will be available at the end of next week when registration is expected to be completed.

Quartets from familiar opera and musical comedies, mixed with colorful solos and duets will be heard in the Student Union ballroom at 8 p.m. tonight when the Balladeers, a versatile mixed quartet is presented by the University convocation committee. John E. Howard is committee chairman.

Members of the quartet are Katherine Hennig, soprano; Adylene Johnson, contralto; Gordon Griebenow, tenor; and Russell Miller, baritone.

Miss Hennig is a native of Minneapolis where she studied voice and music at the University of Minnesota. She has sung in such New York productions as "Allegro" and "Arms

and the Girl." She has been soloist with the Minneapolis Symphony.

(Continued on Page Seven)

July 4 Recess Scheduled

Summer sessionites will have the benefit of a three-day holiday over July 4, 5 and 6 according to Registrar Ruby McKenzie. The decision to give a two-day recess was reached at a meeting of the administrative board Wednesday.

This will be the only break during the eight-week term.

Many sessionites already are planning trips home, excursions to nearby lakes, or just relaxation for the time-off from classes.

Summer students had only a one-day recess in 1951 after hitting a three-day jackpot in 1950. Since the holiday falls on Friday this year it was decided to give the following day off also.

Because of the holiday the DAKOTA STUDENT will be distributed Thursday morning instead of the usual Friday, the staff announced.

The Fourth will be quieter this year. A new state law bans explosive fireworks.

Fulbright Awards Available to UND Graduate Students

Opportunities for approximately 800 Americans to undertake graduate study or research abroad during the 1953-54 academic year under the terms of the Fulbright Act were announced today by the Department of State.

Countries in which study grants are available are Australia, Austria, Belgium, Burma, Denmark, Egypt, France, Greece, India, Iran, Iraq, Italy, Japan, the Netherlands, New Zealand, Norway, Pakistan, the Philippines, Thailand, Turkey, the Union of South Africa and the United Kingdom.

The awards will enable students in all fields of graduate work and those with specialized research projects to study in foreign institutions and universities under renowned professors and specialists. Grants also are available to students with records of accomplishment in such fields as music, art, architecture, and drama. A few opportunities in workers' education and social work are provided in the United Kingdom.

The grants are made under Public Law 584, 79th Congress, the Fulbright Act, which authorizes the Department of State to use certain foreign currencies and credits acquired through the sale of surplus property abroad for programs of educational exchange with other nations. Grants are made for one academic year and generally include round trip transportation, tuition, a living allowance and a small amount for necessary books and equipment. All grants under the Act are made in foreign currencies.

Interested students presently enrolled at the University should request application forms from Dean D. J. Robertson, Room 110, Old Main, Fulbright Adviser. The closing date for receipt of applications by the Fulbright Adviser is October 31.

Persons not enrolled in a college or university in the spring or fall of 1952 should direct inquiries and requests for applications to the Institute of International Education, U. S. Student Program, 1 East 67th

40 At Opening Session Of Education Fraternity

More than 40 persons attended the first summer session meeting of Phi Delta Kappa, men's professional educational fraternity, Wednesday evening in the Student Union.

Included in the program were progress reports by Deans Garold Holstine on the department of education and Daryle Keefer on the graduate division. Four new faculty members, Professors Steeves, Aarnes, King and Ahrens were introduced to the members.

Softball League Possibility to Be Discussed Today

Plans for a summer softball league will be discussed at a meeting to be held at 12:30 p.m., Friday, June 26, in the Fieldhouse club room.

The program will be under the supervision of Leonard Marti, director of summer recreation, and Arnold Bakke.

Both individuals and groups are invited to attend. If sufficient interest is shown, a league operating on a regular schedule will be formed.

Participants are urged to forget about .300 batting averages. Teams will be balanced according to available talent and fun is promised for all.

Rehabilitation Sessions Scheduled at Saskatoon

Scheduled at Saskatoon, Sask., July 10-12 is the second annual International Northern Great Plains Conference on rehabilitation and special education for handicapped children and adults. Educators from North Dakota as well as six other provinces and states will attend. The 1953 conference is scheduled to be held on the University campus here.

Street, New York 21, N. Y. The last date on which applications will be issued by the Institute is October 15.

Plans for the summer program were discussed and it was decided that programs will be built around panel discussions of subjects of interest to teachers on the campus this year.

Prof. A. J. Bjork, faculty adviser of the fraternity, announced anyone wishing to sponsor initiates for the initiation July 9 should have their names in by July 2.

Meetings will be held every Wednesday night in the assembly room across from the Student Union cafeteria.

Any information or questions should be referred to Prof. Bjork, Room 3, Merrifield hall.

Phi Delta Kappa is a men's professional fraternity with the purpose of promoting research, service and leadership in the field of education. Robert Gibbons is president of the University chapter, Robert Sands is vice president and Carl Peterson is secretary-treasurer.

3 More Convocation Programs Scheduled

Following the opening program tonight, three convocations are scheduled for the remainder of the summer session.

On Monday, July 7, Fredric Vonn, talented composer-pianist will appear here to give a program consisting of everything from Chopin to Chopsticks. Vonn is well known to radio and television audiences. The Vonn concert will be held in the Student Union ballroom beginning at 9:45 a.m.

Noted lecturer Molly Imlach will speak here at 10:35 a.m., Tuesday, July 15, on the topic, "The British Picture Today." Born an educated in England, she now is with British Information Services.

Last to appear, on July 22 at 11:25 a.m. will be the Serenaders, a trio composed of mezza-contralto Evelyn Reynolds, baritone Miles Nekolny and George Kreamer, accompanist. The program will consist of standard and light opera selections.

Editorial:

It's What You Make It

It is interesting to note the new and old faces that appear on the campus for the summer session each year. The graduate student has his innings at that time and not many undergraduate faces are in evidence except for recent high school grads who wish to get an early start and older undergrads who wish to hasten graduation day.

To those who are after their masters degree the session seems to be something of a lark, even though there is more than enough to keep their minds occupied. The undergrad often tends to wear a long face over the whole thing.

The point is, why not enjoy yourself during the summer session? True, it does seem like drudgery at times, to sit in the classroom while the world outside beckons. This isn't necessarily the case, however.

A fine program of entertainment and recreation has been planned for this summer session so there is no reason to call it a drudge without reservations. The summer session is what you make it and the programs planned for your benefit will go a long way toward making it a pleasant time if you take advantage of them. And you will make those who planned the recreational and entertainment programs feel that their efforts have been worthwhile and appreciated.

—V. M. D.

Campus Banter

By the Staff

Checking through the second issue of last summer's Student, same column, the editor found an item called good news concerning the repaving of University avenue. One of your editor's first assignments this year was—you guessed it—check to see when the city is going to start resurfacing University avenue.

x x x

Then there was the history instructor who promised his students he wouldn't hold them during the whole period on opening day of the session and forgot his promise until five minutes after the bell rang.

x x x

It was all Greek to him. A graduate student had to stay at a downtown hotel one night, all because he thought it was in the SIGMA Chi house he had rented a room. Actually, he was booked in the LAMBDA Chi house.

x x x

Last year Mary Ann Heder's editorial contained a plea to use the sidewalks. This year the buildings and grounds crew is building a new walk from Old Science to Second ave. across the same plot of lawn on which Mary Ann editorialized last year.

The start of summer vacation was taken rather seriously this year by an already lazy weatherman, and the unusually early start crops received as a result of the early flight of winter seemed to be completely offset by lack of rain. The hurry and scurry of registration day apparently shamed the weatherman into action, however, and we hope the inch and a half of rainfall we received on that day will let the crops graduate with the students.

PLANS FOR 1953

Dates already have been set for the 1953 summer session. It will open June 22, and continue through August 14.

GRADUATION AUGUST 14

The annual summer session commencement exercises will be held Thursday, August 14. Final exams August 14-15 will conclude the eight-weeks term.

THE DAKOTA STUDENT

Published each Friday morning during the summer session at the University of North Dakota by students in journalism.

EDITOR, this issue:

VENNOY M. DRAPER

STAFF MEMBERS: John Rhodes, Dick Buckingham, Orville Williamson, Floyd Rolfe and Bayard Lewis.

ADVISER: Alvin E. Austin

Bulletins

UND Activities

Convocation—8:30 p.m. today, Union ballroom, featuring "The Bal-ladeers," mixed quartet.

Softball—12:30 p.m. today, Field-house-Gymnasium clubroom, meeting of managers.

Sports—3 to 5:30 p.m., daily except Saturday, on English coulee banks. Archery, canoeing, bike riding, horseshoes, croquet, box hockey, tether ball.

Band—1 p.m. Monday through Thursday, rehearsal, Women's gym.

Buffet Supper—5 to 6 p.m., Student Union, for entire family. Entertainment in ballroom, 6 to 7 p.m.

Movies—7 p.m. Tuesday, Union ballroom.

Music Hour—8:30 p.m. Tuesday, Union Spinner's Sanctum.

Chorus—7 p.m. Monday, rehearsal in Robertson hall auditorium.

Orchestra—7:30 p.m. Wednesday, Women's gym.

Radio—KFJM on air, 3 to 5 p.m. daily, 1440 on dial.

Dance—8 p.m. Thursday, Union ballroom.

Big Events on Campus Schedule for Summer

Big events still are ahead on the University's summer schedule.

Some of them are:

July 9, 23 and Aug. 6—Outdoor band concerts.

July 14-18—Summer band clinic.

July 14-18—Annual textbook exhibit.

July 14-25—School administrators conference-workshop.

July 15—All-University picnic.

July 22—Conference on education for handicapped persons.

July 24—Splash party, Riverside park.

July 27—Picnic at state park near Arvilla.

July 30—Leadership training program.

July 30, Aug. 1—Summer session play.

Aug. 14—Summer commencement.

919 LAST YEAR

Last year, 919 students enrolled for summer session, of whom 719 were men and 200 were women.

Schoolmen Meet Here July 14-25 For Conference

With a great variety of discussion subjects on the schedule, the Administrators conference, under the general chairmanship of Dr. A. L. Gray, will get underway here July 14 and continue through July 25.

Administrators may enroll for either or both weeks, depending upon his desire to do the work. The program is designed to be practical for all school administrators, current or prospective. Discussion periods will be arranged so as to accent one major area each day. Administrators may select days which have greater interest.

Sample discussions subjects to be aired during the two-week conference are reorganization, certification, school finances, school building and construction and maintenance, legal problems and procedures, school and community relationships, education of the handicapped child and adult, standardization testing, administration of extra curricular activities and improvement of the educational program.

The conference is arranged so that administrators will have discussion and coffee-chat periods alternating throughout the day with a two-hour recreational setup.

All inquiries should be addressed to Dr. A. L. Gray or Dean Garold Holstine, University of North Dakota. Housing requirements should be indicated with advanced enrollment.

UND Biochemist Wins Free Trip to Europe

Dr. William E. Cornatzer, head of the University biochemistry department, will leave New York by plane July 19 to attend the second International Congress of Biochemistry in Paris July 21-27. Dr. Cornatzer was awarded the expense-free trip to Paris because of his research work by the National Science Foundation. His research has been in the field of radioactive isotopes, a form of atomic energy. Mrs. Cornatzer will accompany him to Paris.

PTA Workshop to Close Campus Session Tonight

The annual Parent-Teacher workshop ends today with the remainder of the program taking place in the Old Commons building under the direction of Mrs. Ellen Dell Bieler, field consultant for the National Congress of Parent-Teacher association.

The two-day program will be climaxed tonight at 7 with a fun-fest and tour of the fieldhouse-gymnasium under the direction of Leonard Marti and staff. Games and folk-dancing will be the major diversions.

Thursday's program scheduled in Merrifield hall and today's confab revolved around the theme "Meth-

ods and Procedure for Effective Parent-Teacher Leadership."

Those taking part in the discussions today were PTA members from all localities and administrative leaders. Thursday's program was designed mainly for students here at school with leaders and PTA members invited to both sessions.

The annual workshop was held at Minot June 16-17; Dickinson, June 18; Valley City, June 19-20; and at Ellendale on June 23. Following today's session the workshop will be at the Agricultural college at Fargo for a similar meet.

The meetings are sponsored cooperatively by the North Dakota Congress of PTA and the schools taking part.

'U' Speech Clinic to Begin Practical Work Next Monday

The 1952 summer session speech clinic opened its doors this week under the direction of Ralph C. Vorhis of Marshall, Missouri.

The clinic will operate from 10 a. m. to 3 p. m., with periods of therapy, rest and recreation. The fee for the entire clinical program is \$25.

Applications for clinical speech therapy should be made to the De-

partment of Speech, University of North Dakota.

This opening week has been devoted to enrolling applicants, with clinical work to begin next week.

So far the applicants range in age from four to 22 years.

Vorhis took his undergraduate work at Northwestern university and later received his masters degree in speech correction from the University of Missouri.

In the fall, Vorhis will return to Marshall, Missouri, where he is speech therapist for the Marshall public schools.

Free Movies Scheduled For Summer Sessionites

Movies for the whole family—free, too—will be shown each Tuesday night at 7 p. m. in the ballroom of the Memorial Student Union.

A varied program will be offered, including sports, travel, nature and comedy. Scheduled for Tuesday, July 1, are: "Fresh From the Garden," "Helpful Henry," "Making of a Shooter," "Three Little Bruins in Mischief," and "Canadian Cruise."

The list of pictures for each week will be released by Arnold Bakke, assistant director of summer recreation, and published in the Dakota Student.

Watch this newspaper for the schedule.

Construction Progresses On New Medic Building

Construction on the new \$600,000 addition to the Medical building progressed this week to the point of pouring concrete for the basement walls. Scheduled for completion by 1954, the new structure will more than double the present medical school and medical center facilities. The public health lab will move from Science hall to the new building when it is ready.

Grad Enrollment Tops Expectations

West Welcomes 'Forty-niners'

President Praises UND Progress, Atmosphere

The University' president, Dr. John C. West had this to say to the 1952 summer sessionites:

"Welcome to the forty-ninth Summer Session at the University of North Dakota. It is indeed a pleasure to see so many of you returning to the campus this summer.

"Those of you who have not been at the University during the past year will see evidence of continued growth and progress. We have just

moved into beautiful Johnstone hall, our new women's dormitory, and Hancock hall will be ready for men students in the fall. School men will be pleased to know that plans are being completed for a fine new Education building.

"Although the University is growing rapidly, we hope that we never lose the small-campus atmosphere of friendliness. We have made special plans for a recreation program this summer so that you may enjoy the good fellowship which goes along with the regular work during summer school.

"We are all looking forward to one of the best sessions we have ever had."

50 Candidates For Advanced Degrees Expected

Graduate enrollment for the 1952 summer session is well above that expected in planning the session, Dean Daryle Keefer announced.

With registration far from complete Tuesday enrollments had reached 386 and Keefer expected the final tally to equal, if not break, the 1951 record of 456. Registration was proceeding steadily at mid-week.

Keefer said approximately 50 would be candidates for masters and doctors degrees at the end of the session. This compares favorably with the 1951 all-time high number of awards.

Enrollment in education is heavier than other fields, with history, psychology and physical education following in that order. The new Master of Education program is proving very popular with school administrators and graduate students who wish to become better teachers, Keefer stated.

In addition to unexpectedly large graduate enrollment Keefer noted that an unusually large number of states in the union are represented. He observed, however, that the linguistics group now working on the campus has a definite effect on both enrollment and the number of states represented among this year's sessionites.

'Alley' Hours Set For Union Bowling

Bowling enthusiasts may keep their "timber" eyes in condition at the bowling alleys located in the basement of the Student Union.

Summer session hours will be from 4 to 10 p.m., according to Amos Martin, Student Union director.

A bowling tournament will be held during the summer session.

Plans have been made to conduct a recreational bowling league and those wishing to participate may sign up at the Union office.

U Correspondence Division In Operation Since 1901

The University Correspondence Division was established in 1901. Last year it had a total of 1,540 students. Many summer session and regular term students now are taking extra work by "mail order." Mrs. Eva C. Ball is division secretary.

57th SUMMER TERM

This is the 57th year of the University's summer school. The first session was held in 1895 under the direction of the late President Webster Merrifield.

Invite More Students To Join Summer Chorus

First meeting of the summer school chorus was held Tuesday evening, in Robertson hall auditorium, under the direction of Professor H. C. Rowland.

Beginning next week, the chorus will meet each Monday night at 7 p.m., in Robertson hall.

Anyone interested in singing is invited to join the group. Those students wishing to do so, may enroll in the course through the registrar's office for half a credit.

Professor Rowland stressed the fact that students do not have to enroll in the course. Anyone may attend on a non-credit basis.

HOLD TEA SESSION

A tea for wives of summer session students was given by the University wives and Associates Thursday, at the Memorial Student Union first floor meeting room between the hours of 3 and 5 p.m. Mrs. Robert Caldwell, chairman of the University Wives, presided.

U Homecoming Event Slated October 24-25

The University will combine its annual Homecoming and Dad's Day celebration next fall. Dates for the big events are October 24 and 25, with NDAC as the Sioux football opponent. Allan Richards is Homecoming chairman.

SET FRESHMAN DAYS

Freshman days at the University are scheduled for September 15 and 16. Entering first year students will register September 17.

Big Demand for Housing Successfully Solved by 'U'

By BAYARD LEWIS

The problem of summer housing for a long list of temporary students has at last been solved.

According to Housing Director Loren Swanson, 100 names were on the list which was started immediately after the summer session last year and closed this May 15.

The possibility of subleases turned out to be of very little help, since few of the occupants of the various units were leaving during the summer months. The housing committee rule requiring a veteran to enroll for at least six credits during the summer before being permitted to move in was of some help, since it enabled Swanson to assign a hut to a family for the summer, even though it was reserved for a veteran with prior claim who was not enrolled in summer school and could not therefore move in until fall.

Although considerably less than 100 units were vacated, Swanson was able to place all the summer students. The original list has a high mortality rate since many of the prospective students did not actual-

ly enroll. This summer the actual enrollment of those seeking temporary housing decreased from 100 to 60 persons. A list of downtown apartments helped in the final solution.

Swanson stressed the fact that all applicants are placed on the list according to date of application and that housing units are assigned from this list.

Johnstone Hall, the new women's dormitory, was ready for Girls State on June 12, and that night it was filled to capacity with 135 people. Friday, June 20, Girls Stated moved out and by noon of June 22 the new dormitory was ready for summer school. At present Johnstone Hall is not filled to capacity, but applications are coming in and the start of the fall semester should find all rooms occupied.

The housing problem was a little more acute this year due to an additional 100 people attending the Summer Institute of Linguistics on the University campus. These people are and will be occupying Davis Hall and the Hospital Dormitory until September 1.

Open Fieldhouse To Sessionites

For the first time, the University Fieldhouse facilities will be available to summer session students, according to an announcement by Leonard Marti, director of summer recreation.

Marti stated that equipment may be used through purchase of a gym card. Cards are available at the business office for the nominal fee of \$1.50.

Recreational variety is offered in badminton, volleyball, indoor tennis, handball, and basketball. Shower and towel service will be available to all participants.

Both men and women are invited to take part; however, dressing rooms for the women are not yet available and it will be necessary that the ladies come dressed in gymnasium attire.

KFJM to Stay on Air, Seeks More Personnel

The University radio station, KFJM, which broadcasts during the regular school year under the direction of S. D. Robertson, will continue to broadcast during the summer session under the direction of Andrew J. Kochman.

KFJM, with studios in the Press building on the University campus broadcasts daily from 3 to 5 p.m.

Included in the summer staff are S. D. Robertson, Shelley Hanna and Bob Claypool.

Anyone interested in radio work is invited to stop in at the studios any day during the broadcasting hours from 3 until 5 p.m. The staff is mainly interested in contacting students interested in taking acting parts in radio plays.

There are 113,000 books in the University library.

New Sidewalks, Parking Lot Keep UND Crew Busy

"Busy" was the word given by E. J. Buckingham, building and grounds superintendent at UND, of his buildings and grounds crew this summer.

A new parking lot east of the Student Union and new sidewalks are tops on the building agenda, Buckingham said, with a new grandstand in the west end of the Winter Sports building running a close second.

Other projects include making lawns at the Union, leveling the dump grounds west of the Coulee for additional playground space, clearing out excess cottonwood trees to make room for hardwoods, painting and caulking windows and trim on University buildings, repairing and checking the steam line and cabinet making in the medical, chemistry and home ec buildings.

Buckingham said the new parking lot was being built over fill from the medical building basement and will hold over 500 cars when complete next fall. It begins about 60 feet from the east of the Union and runs all the way to the Fieldhouse and is on the north side of Second avenue.

He noted that walks are being built at strategic places on the campus wherever students tend to cut corners to save time and distance. Two walks have been completed or are in late stages of completion. One of these is from the Union to University avenue and the other is from Old Science building to the Law building, obliterating an unsightly path which has been worn across a plot of lawn which was seeded only last summer.

The new grandstand in the Winter Sports building will increase seating capacity by 1300 and the capacity of the warming room there has been doubled, "Buck" concluded.

TRAYNOR RETIRING

Fred J. Traynor of Devils Lake, veteran member of the State Board of Higher Education, is retiring from that post when his term expires June 30.

Mixed Quartet To Sing at First Convo Tonight

(Continued from Page One)

Contralto Adyline Johnson, recent winner of the auditions conducted by Associated Concert Bureau, is also a native of Minneapolis. She has appeared frequently as soloist with the Minneapolis Symphony, has sung in New York's Carnegie Hall. Next season she will be in Europe on a Fullbright grant.

Gordon Griebenow, the ensemble's tenor, has a master's degree in music from the Sherwood Music school, Chicago. He has appeared as soloist in Northrop auditorium, Minneapolis.

The group's baritone, Russell Miller, lives in New Ulm, Minn. He has sung as a leading oratorio baritone and as a member of Shiek's Sextette in Minneapolis.

Accompanist is Marjorie Christensen, Upper Midwest pianist who has frequently been heard in recital in this area.

No charge for admission will be made and the public is invited.

6 Major Divisions Give Summer Work

Six major University divisions, offering more than 20 courses, are open for classwork this summer.

Open are the college of science, literature and arts; the schools of education, law and commerce and the graduate division.

Students may obtain a total of one-half of one semester's work during the summer session. In all 21 University departments are participating in the academic phase of the work.

'Future Teachers' Will Organize Chapter at U

Organization of a chapter of the Future Teachers of America on the University campus is scheduled for the opening of school next fall. Approval for the UND unit has been received from the national organization. Prof. Lloyd King will be the adviser of the new FTA chapter.

UND Expansion Continues As New Buildings Progress

The post-war facelifting at UND continues into the summer session of 1952, as the building program goes on and on.

The latest projects under construction are the addition to the medical building and the new power addition, both of which were begun during the second semester of 1952.

Contract for the power plant addition was let December 25, 1951 and the medical building contract was let March 21, according to E. W. Olson, University business manager. Completion dates for the two projects were not given by Olson.

U Avenue Finally Due for Repaving

Those UND'ers who have nightmares of broken-down jalopies, huge repair bills and junkyards after a day of driving back and forth on University avenue can sit back and relax—it is going to be repaved this summer, after all.

Grand Forks City Engineer A. F. Hulteng said today the avenue will be resurfaced with blacktop beginning about the second week in July. He said that while the blacktopping is in progress motorists will be asked to use Second ave. North and Fourth ave. North.

The resurfacing project will affect University avenue from the Great Northern tracks near North 10th street to 20th street. The boulevard from 20th past the University was repaired in 1951, while the rest of the avenue from 20th to the tracks was widened in preparation for blacktopping last summer.

Chemistry Department To Get New Director

Dr. Richard E. Holmes, a native of Ohio who has been doing research work in California, will become head of the chemistry department in September. He will succeed Dr. Leonard Miller, who is returning to the University of Illinois after holding the position since January, 1951.

Buildings begun in the past year are nearing completion, or inside work is in progress while at least one building was put into use this summer. Johnstone hall was used to house Girls' State representatives earlier this month for the first time, while interior work is progressing on the new men's dorm and engineering building.

Olson said work will probably begin on a new education building to replace Woodworth hall before the end of summer. At present the firm of Wells and Denbrook is working on plans and specifications and bids will be taken and work will begin about 30 days after these preliminaries are over, Olson said.

The education building will not have an auditorium, as did Woodworth hall, but will have an assembly room. Considerable controversy took place during the past semester over this, with plans now calling for addition of an auditorium later.

The Education building will be located between the new Engineering building and Chemistry, Olson said.

Thursday—Dance Day In Union Ballroom

Thursday night is dance night at the Memorial Student Union ballroom for both students and faculty members.

The calendar lists four more dances to be held on the following dates: July 3, July 10, July 17, and August 10.

Music will be provided by record player, with the exception of the dance on July 10, when an orchestra will be featured.

Fun for all is promised with a program of modern social dancing and some folk dancing. Admission is free except for the July 10 dance when a charge of \$.50 will be made to cover orchestra expenses.

Mrs. Grace Rhonemus and Amos Martin are in charge of arrangements.

Three Professors Added to UND Summer Staff

By ORVILLE WILLIAMSON

Three visiting professors have been added to the staff of the School of Education for the summer session according to Dean Garold Holstine.

Dr. Hale Aarnes will teach audio-visual education, methods of educational research, and school administration. He received his doctor's degree in education from the University of Missouri in 1949 and is now director of radio education at Stephen's College, Columbus, Mo.

Teaching courses in library education for both elementary and secondary teachers is Miss Anne Haugegard, principal of McCluskey, N. D., elementary schools. She will also provide instruction in utilization of library facilities and resources for student teachers at Grand Forks Central high school during the summer term. Miss Haugegard holds a B.A. degree in library education from the University of Minnesota.

From Dyer, Indiana comes Dr. Alvin Ahrens who will instruct courses in secondary education, tests and measurements, and supervision of secondary education. Dr. Ahrens received his Ph.D. degree from Wisconsin university in 1945 and is now superintendent of schools at Dyer.

He is a former school administrator in Illinois and Wisconsin schools and is a specialist in teacher education. He also served as a member of the five man Guidance Committee at the University of Illinois.

Engineering Staff Expects to Move Soon

Members of the College of Engineering staff soon will move into their new \$400,000 building, Harrington hall. Exterior work on the structure is complete and inside work is progressing rapidly.

Progress also is reported on Hancock hall, the new \$350,000 men's dormitory. Brick and stone work on the exterior of the three-story building is now almost finished.

Playmakers Pruning Persons For 'Peter, Peter' Production

"Peter, Peter, Pumpkin Eater", a song well known to people of all ages, forms the basis for the next play scheduled to be given during the summer session by the Dakota Playmakers.

The play having the same title as the song, is written in three acts by Martha B. King. Although not a musical, the play includes both music and dance.

Outstanding in the scenery department will be a giant pumpkin, set in the middle of the stage.

According to Andrew J. Kochman, director of the Dakota Playmakers, the play is scheduled to show on the Campus knoll July 31 and August 1. Many students probably will remember the last play to show on the campus knoll "Noah", in 1949.

The play "Peter, Peter, Pumpkin Eater" will include a cast of six women and two men.

Tryouts for the cast and production staff were held in Room 19, Merrifield hall Wednesday and Thursday of this week. Selections have not yet been announced.

Learning the Lingo:

Language Men Study Here

Something new on the curriculum for students attending the University is the Linguistic Institute, being held June 23 through September 5. The 11-week program is co-sponsored by the Summer Institute of Linguistics Inc., of Glendale, Calif.,

and the University. It is the second such institute in the United States, the original being held at the University of Oklahoma.

Courses offered are designed for those preparing to be missionary pioneers or to do some specific linguistic task. It presents the fundamentals necessary for an individual who must learn unwritten or little-known languages.

First-year students may enroll in Linguistics 401, Phonetics and Phonemics, or Linguistics 402, Morphology and Syntax. Second-year students who qualify can sign up in Linguistics 503, Advanced Linguistic Analysis and Linguistic 504, Intensive Study of Tagalog or Other Philippine Languages. Five semester hours credit will be given for each course.

Laying the ground-work to set up the institute here was Dr. Garold Holstine of the school of education. There are about 105 in the institute at present, 80 being students and the remainder children.

Directing the institute is Richard Pittman who is working on a doctor's degree from the University of Pennsylvania. Howard McKaughan of Cornell University is assistant director. They will be aided by Mr. and Mrs. Harwood Hess, Miss Jan Foster and Miss Catherine Meiklejohn.

Monthly Education Periodical Issued

The June issue of the School of education Record is off the press and now is being distributed to subscribers.

Featured in the issue, which is edited by Dean Garold Holstine of the school of education, is a full account of the fourth annual conference on "Administrative Leadership Through Community Schools" which was held in Fargo April 20-22.

The summary was prepared by 14 graduate students in education, working under the supervision of Prof. A. J. Bjork.

Another article, written by Elroy Schroeder, Grand Forks superintendent of schools, declares that a teaching future is assured for elementary teachers.

UND has been headed by eight presidents in its 68 years.
