8 Win Recognition

Eight members of the junior class chosen as ushers for the 1953 summer session commencement exercises are pictured above. Back row, left to right are: Arthur C. Torgerson, Parshall; Eldon D. Roberts, Garrison; Robert A. Boeder, Hope and Russell H. Stebleton, Towner. Front row: Pauline Power, Crosby; Marilyn Ann Miller, Grand Forks; May J. Barrett, Lakota and Jacqueline F. Larson, Grand Forks.

Belsheim to Speak As 141 Receive Degrees Thursday

Edmund C. Belsheim, dean of the School of Law at Nebraska university, will deliver the commencement address to 141 graduating seniors at the 1952 summer session commencement exercises Thursday at 10:15 a.m. An honorary Doctor of Laws degree will be conferred upon Dean Belsheim by the University at the graduation ceremony.

Belsheim came to the University in 1923 following two years of rural school teaching after his graduation from Dickinson high school in 1921. He received his diploma from UND in 1927. While an undergraduate, Belsheim was editor-in-chief of the *Dacotah* annual in 1927; cadet lieutenant colonel in 1926 and a member of Phi Beta Kappa national honorary scholastic fraternity.

He took further degrees at Oxford university as a Rhodes scholar and at the University of Chicago. Belsheim practiced as an attorney-at-law in Illinois and New York and later became teacher of law at the University of Tennessee, Virginia and Nebraska. At Nebraska he was appointed dean of the School of Law in 1949.

Following the main address, the class of candidates will be presented by Registrar Ruby McKenzie and President John C. West will confer the degrees. Those to receive Masters and Doctors degrees will be decorated with hoods.

President West will preside and introduce special guests including Merle Kidder of Towner who will represent the State Board of Higher Education.

(Continued on Page 3)

This Is Final Student Edition

Another summer session Dakota Student is history with this, the seventh and final issue. Orville Williamson was editor of this issue.

It was a pleasant chore for Student staff, however. News and column items have been plentiful from the various sources and co-operation has been good.

The staff was composed of Bayard Lewis, John Rhodes, Richard Buckingham, Venoy Draper and Orville Williamson with Prof. Alvin E. Austin as faculty adviser. Robert Bruns, a graduate student drew the

cartoons. The paper is published as a project of the reporting and Editing and Copyreading classes.

Rhodes, Buckingham and Draper are seniors while Williamson and Lewis are sophomores. The 1952 staff was only about half the size of the 1951 staff but the content of the paper was not diminished.

Dean Garold Holstine said the 1952 Student, in his estimation, was one of the best published here. He added that the attitude of the staff and the items contained in the paper were most commendable from every standpoint.

Varied Selections Mark Final Band Concert of Term

The final band concert of the 1952 summer session was presented Wednesday night on the Student Union terrace by the summer session band, directed by John E. Howard.

Howard's musicians combined overtures, marches and novelty selections in presenting the finest concert of the summer program before an enthusiastic audience.

Concert numbers included: "Donna Juanita," overture, by Suppe; tone poem "Summer Memories," Johnson; "The Whistling Bobby," by Alman, featuring piccolo; Isaac's "Mexican Overture"; "Menuetto," by Beethoven; selection from "Rio Rita," by Bennett.

"The Highlander," by Irons; "Li'l Liza Jane," by Fred; "Billboard March," by Klorh; "The Blue and Grey Patrol," by Dalbey; and "Slippery Gentlemen," played by the trombone trio featuring Jerome Hager, Everett Frederic and H. Leon Prather.

Mu chapter of Kappa Kappa Psi, honorary college band fraternity, sponsored the program with Brian Klitz, chapter president in charge of arrangements. A social hour at the Student Union followed the concert.

Veterans' Leave Pay Due At End of August

Veterans who have applied for leave pay will get the checks at the end of August, said Miss Lessel Abbott, of the Veteran's Records office.

Payments for subsistence run through the end of the summer session and, as the leave pay dates from the close of the session, the check, will not be due until the end of the month.

Miss Abbott cited the importance of filing any change of address since government checks cannot be forwarded from one post office to another.

GUIDES AVAILABLE

Guide service is available for visitors who are always welcome on the UND campus.

11 New Faculty Members Appointed for Fall Term

Replacements for nine faculty who have left the University and appointment of two new instructors have been announced by President John C. West. Some of the instructors have been at UND since the beginning of the summer session.

Dr. Richard Holmes, professor of chemistry, replaces Dr. Leonard E. Miller, who has left UND. Dr. Holmes is recently of the University of Illinois.

Martin K. Nurmi, who replaces Warren S. Owens in the English department, has done graduate work at Chicago and Minnesota universities. He is, at present, seeking his doctorate.

Eaden F. Kieth, instructor of pharmacology, won his masters degree from St. Louis university and until he came to UND taught in the pharmacology department at that university. He is an addition to the Medical school staff here, and does not replace a departing instructor.

H. E. Ederstrom, professor of physiology, is a Northwestern graduate and comes to UND from St. Louis university. He will assume some of the duties of Prof. W. R. Koons, who is no longer here.

Paul C. Matthews replaces Prof. Keith Blinn in the Law school.

Final Graduate Club Meeting Slated Tuesday

All graduate students on campus are invited to attend the final meeting of the Graduate Club Tuesday, in the Student Union. The program includes a "Dutch" cafeteria lunch at 5 p.m. followed by the business meeting at 6 p.m. Featuring the program will be an address by Dr. Daryle Keefer on "The Educational System of Peru." All unfinished business will be considered, H. C. Retzlaff, chapter president, said today.

JOINS HERALD STAFF

William Hyvonen, 1949 UND Journalism graduate, has joined the Grand Forks Herald staff. He has been with the Marshfield, Wis., New-Herald for the past two years.

Matthews is a Chicago university law grad and taught at Montana U before coming here.

Thomas P. Hughes is the new instructor of physical education and hails from Purdue. He is also assistant football and basketball coach and head trainer for UND athletic teams, replacing William Richter, who has returned to Valley City, N.D. to take his own position on the athletic staff at the teachers college there.

Mildred Riedesel, who replaces Tilda Natwick, retired, as head of the UND Home ec department, got her masters degree at Iowa state and her doctorate at Florida state, where she taught before coming to UND. She also taught in Hawaii.

Laura Wright, replacing James Cavanaugh in the speech department, will be in charge of speech correction work here. She is recently from Wisconsin university.

Two men have been named to the History department to replace instructors who are leaving and on leave of absence. John Harnsberger got his masters degree from Minnesota university and is temporarily replacing George Lemmer, who is on leave of absence for a year to work as air force historian at the Pentagon in Washington, D. C. Harnsberger is from St. Paul.

Jerry Dewitt, who is working for his doctorate at Yale, is from Jackson, Mich., and has recently returned from France, where he has been gathering material for his thesis. He replaces John Parker, who left UND to study for his doctorate in Michigan.

In addition to the above, Frank Steeves is instructing during the 1952 summer session and will stay for the 1952-53 term. He is formerly of St. Cloud Teachers college.

Tentative replacements for Daniel G. Dittmer, former head of the Psychology department, and Sam Hagen, head of the UND Economics department have been submitted to the board of higher education for approval and will be announced at a later date, President West said.

Speaker

EDMUND C. BELSHEIM
U to honor alumnus.

Belsheim to Talk At Commencement

(Continued from Page 1)

The invocation and benediction will be pronounced by Dr. M. J. Birrell of Wesley College.

Commencement music will be furnished by the summer chorus directed by Hywel C. Rowland and the summer session band directed by John E. Howard, chairman of the commencement committee.

The chorus will offer a group of three numbers including: "Sing We and Chaunt It," by De Pearsall; "Since First I Saw Your Face," by Thomas Ford and "Dance a Cachucha" from the "Gondoliers" by Sullivan. The band will present the "Mexican Overture" by Isaac.

Candidates, deans, speaker and those participating in the exercises will meet in the room across the hall from the Student Union cafeteria to organize the line of march into the ballroom and to receive a memorandum of instructions for use during the exercises.

Ushers will meet at 4 p.m., Wednesday, in the Union ballroom to receive instructions regarding their duties. Members of the Junior class chosen on the same basis as the

141 on Graduation List:

University's Newest Group Of Degree Winners Named

A list of 141 tentative graduates from the 1952 summer session was released by Registrar Ruby McKenzie this week as the session draws to a close.

Those getting the advanced degrees outnumber other grads by 82 to 59, Miss McKenzie said. She emphasized, however, that the list is tentative until final grades are posted.

Five persons will receive the highest degree awarded by UND at commencement Aug. 14.

Those receiving degrees are:

Master of science in education: Max T. Allen, Warren G. Allen, Melvin I. Anda, Ann Elizabeth Anderson, Henrietta Anderson, Milton N. Anderson, Adolph E. Beich, Donald M. Barniff, Chester E.

Campbell, Duane C. Carlson, John Coschignano, Cable James Edwards, Homer M. Englehorn, Ervin O. Gandrud, Milton G. Gulsvig, Edwin N. Herwick, Lawrence A. Hull, Jr., Robert E. Hullinger, Leonard G. Ilgana, William R. Krogh, James G. Lade, Arnold L. Larson, Evelyn R. Larson, Alfred C. Larvick, Howard L. Mansager, Alvin H. Meyer, Lorne C. Miller, James L. Noonan, Donald S. Peckham, Robert A. Pederson, Robert H. Pesky, Robert E. Quale, Dwain K. Thunem, and Richard E. Werstler.

Master of arts degree: Bruce M. Anderson, Franklin E. Brainard, Paul Shelley, Hanna, Lenora I. Johnson, LeRoy Klettli, Herman J. Kopp, William W. Phillips and Glen R. Wills.

Master of education: Donovan J. Bakke, Victor A. Ball, John D. Bartol, George W. Becker, Lorne H. Bluhm, Marvin T. Bronken, Richard G. Buswell, Arvid W. Christopherson, Verl Lee Clark, Alfred S. Dale, Erven W. Day, Jr., Elmer J. Doran, Clarence M. Espeseth, John P. Halvorson, Ernest J. Heuschert, Bruce Carlton Johnson, Lyndon M. Loken, Wilfred C. Malone, John M. Mark, Arthur H. O'Keefe, Oluf T. Olsen, Arthur V. Olson, Lloyd B. Parker, Donald A. Peterson, Thomas H. Risdal, Elmer G. Rostedt, Robert R. Sand, Henry P. Sciaa, Ernest L. Severson, Jerry J. Sitta, Franklin G. Skogen, Robert D. Smith, Lyle J. Wallace and Ernest A. Wutze.

Master of science: Howard H. Osborn, John W. Vennes and John L. Whitcomb.

Master of science in chemical engineering: Yorgi Moskopulo.

Doctor of philosophy: William E. Cook and Norman K. Olson.

Doctor of education: Gottlieb Leno, Reuben R. Poston and Ronald G. Riggs.

Bachelor of science in civil engineering: Richard J. Fiala, Robert R. Akerlund and James E. Lium.

Bachelor of science in chemical engineering: John P. Cooney.

Bachelor of science in electrical engineering: Ernest Leroy Gunerius.

Bachelor of science in mechanical engineering: Lloyd A. Johnson.

Bachelor of science in chemistry: Henn Ruus.

Bachelor of science in commerce: Franklin J. Bavendick, Rodney Louis Anderson, Robert N. Berg, Helen E. Birkeland, Lawrence C. Ekren, Lynn C. Eslinger, John L. Gardner, Andrew R. Haman, Carroll O. Olson, Clarence G. Olson, William E. Pallasch, Archie V. Miller, Glayds B. Pearson, Cairn H. Richardson, Richard E. Sorlie, Ronald C. Warcup and Robert W. Kuhlman.

Bachelor of science in education: Thomas Bachmeier, Herschel L. Bowman, Earl J. Gangeness, James R. Hansen, Earl S. Haugen, Kathryn Ann Hornbacher, Carl H. Morken, Ardis Nassett, Gwendolyn I. Swanson and Joseph W. Werre.

Bachelor of science in geology: Richard C. Coffman.

Bachelor of science in nursing: Phyllis Jean Beckman, Clarice M. Kylo, Vivian Jean Ratcliffe, Lois Elaine Schultz and Jean Elaine Westin.

Bachelor of science in medical technology: Barbara Ann Gretter.

Bachelor of science: James A. Lipp, Allen O. Svare and Henry M. Waldren, Jr.

Bachelor of law: Patrick H. Mulloy.

Bachelor of arts: Yukata Kaneshiro, Gordon F. Markel, Marcia Ann Melicher, Robert W. Poppie, Doris H. Tees and Dorothy Marie Tweet.

Bachelor of philosophy: Paula Louise Bowersock, Jesse C. Davis, Gerald D. Donahue, Donald M. Juelke and Arnold O. Thompson, Jr.

Bachelor of science, general industrial engineering: Robert W. Lyngholm.

Campus Poll:

What Students Are Thinking

What did you enjoy most about summer school?

Audrey Swedeen, junior: "Having enough time to study and go steady."

Richard Barr, junior: "It gives me time to go to school and earn money at the same time."

Bonnie Bohnenblust, graduate: "Having the spare time to enjoy yourself."

Stan Johnson, senior: "The fact that it is only eight-weeks long."

Curly McLean, graduate: "It's good to be on the other side of the fence—listening in place of teaching."

PAY BUT ONCE

UND students get their tickets to all school athletic contests, to Playmaker plays and their subscription to the Student paid for in a "one-package" activities fee.

Gray Gowns are Robert Boeder, Eldon D. Roberts, Russell H. Stebleton, Arthur C. Torgerson, Mary J. Barrett, Jacquelyn Larson, Marilyn A. Miller and Pauline Power.

Construction in University Area Now Totals 10 Million

The post-war building program, on or near the campus, present, past, and future, has reached the staggering total of \$10,433,462.48.

Non-University building projects closely related to UND amounted to \$5,423,591.78, more than half the total. University building, finished, for the future totals \$5,009,870.70.

Since the building boom started with the Medical science building costing \$400,000 in March, 1948, 11 projects have been tabbed com-

plete. The biggest of these was the Fieldhouse costing \$850,000, followed closely by the Lignite laboratory with a cost of \$750,000 and the Student Union, \$600,000. Other projects finished besides the four above are the Campus driveway, \$75,000; expansion of campus steamlines finished this summer at a cost of \$95,000; Johnstone and Harrington halls, \$400,000 each; Newman chapel \$265,000; University avenue bridge, \$24,175.95; and storm sewer, \$43,386.64, for a total of \$3,902,562.59.

Building now under way is St. Michael's hospital, the largest project of all, \$3,890,000; power plant expansion, \$400,000; Hancock hall, \$350,000; University avenue paving from Tenth street to campus, \$401,000; and the medical science addition, \$600,000. The total of building now under construction is \$5,641,000.

Bids received or asked on building to start in the future are Second avenue and campus, \$51,370.70; new education building, \$600,000; swimming pool in the Fieldhouse, \$80,000; Columbia road paving, \$50,029.19 and artificial ice and remodelling the Winter Sports building, tentatively set at \$108,500.

Porch Furniture Placed on Union Patio in Experiment

Porch furniture has been placed on the front patio of the Student Union more or less as an experiment, says Amos S. Martin, Union director.

Four new tables were purchased at the beginning of the experiment and have since been "joined" by repainted chairs from the old University commons. All furniture has been painted uniformly white.

If the experiment proves successful, more tables and chairs will be added. Students will be allowed to take beverages and snacks out on the terrace and possibly in the future curb service of a sort will be provided.

Crowded Calendar Awaits Students Returning in Fall

Next week many summer sessionites will close their books and some, if they are lucky, graduate. However, there is still going to be a few sessionites around September when classes resume, so for those still in pursuit of that sheepskin and for those who will continue the chase after a three-months "vacation," here's how things will happen:

Sept. 13—First meeting of sorority and fraternity rushees and rushers.

Sept. 14—First sorority formal teas.

Sept. 15-16—Freshmen Days begin.

Sept. 17—Freshmen registration day.

Sept. 18—Transfer students registration and orientation.

Sept. 19—Registration for all returning upperclassmen.

Sept. 20—Opening football game at Bemidji Teachers college.

Sept. 22—Instruction begins.

For those who want to make plans early — Homecoming and Dad's Day celebrations are set for October 25 with an AC-UND football battle scheduled for the climax.

Holstine to Attend Executives School

Dean Garold D. Holstine, school of education, will attend the Biennial School for Executives at Michigan State college, Ypsilanti, Mich., August 17-23. The meeting is held for all college presidents and deans who wish to attend.

The conference will deal with discussions of preparing college teachers, public relations, self-evaluation of institutions, administration organization of colleges and universities, field service, extension service work, international education, student teaching programs, general education and recruitment problems.

Only 4 More Days To Go—Before Fatal Exam Time

Only four more days of class remain before the fatal days are here. Little tension is noticeable on the campus but there is an air of finality in the way instructors are trying to jam just a little more into every lecture and students spend more time catching up on assignments.

Thursday and Friday are exam days, with Wednesday the last day of regularly scheduled classes. Ruby McKenzie declined to comment on possibility of some instructors with 7 and 8 o'clock classes holding class Thursday morning.

The exam schedule is as follows for the benefit of those who lost last week's Student or have not procured their copy of the schedule at the registrar's office:

7 a.m. classes, 7 to 8 Friday; 8 a.m. classes, 1 to 2 Thursday; 9 a.m. classes, 1 to 2 Friday; 10 a.m. classes, 8 to 9 Friday; 11 a.m. classes, 2 to 3 Thursday; 1 p.m. classes, 2 to 3 Friday; 2 p.m. classes, 10 to 11 Friday and 3 p.m. classes will be examined from 3 to 4 Thursday.

TAKES NEW JOB

Larry Aasen, 1947 Journalism graduate, has accepted a position in New York City with "Fleet Owner," trucking industry trade magazine. He formerly was with the Fire Underwriters of America doing public relations.

Editorial:

New Sense of Values

Another step toward completion of higher education goals has been accomplished by 843 summer session students at the University and each individual should have attained a new sense of values for the summer program.

Preparation for the ever-increasing competition in the various professional fields is a task that makes no allowance for wasted time. Realization of this factor is evidenced by the high percentage of graduate students enrolled and their interest may well set an example for the undergraduates.

Increased facilities and extensive planning at UND have replaced the old concept of drudgery with a streamlined environment that combines education with vacation. In addition to the normal academic functions, an opportunity is provided to observe and participate in many of the functions involving civic and educational groups which are attracted to the campus during the summer months. These added associations coincide with the trend among modern educational leaders to stress the liberal approach to college training.

Further interest is provided in the long-range expansion program under which the University operates. The privilege of participation in a progressive institution provides the impetus that guides many to further academic achievements.

The Dakota Student staff is proud to have served the 1952 summer session student body. We salute your accomplishments and respectfully acknowledge the instrument of success—UND. —ORW

Laud Student Participation In Recreation Activities

Student participation in the recreation program was better than average, Leonard Marti, summer recreation director, said as activities ended for the 1952 session. The schedule of events was set up to include entertainment for both students and faculty members on either individual or family basis.

Marti listed the weekly movie program as being the most successful. Attendance at the convocations and band concerts was considered excellent throughout the summer session.

Other features that will be offered again next summer are the splash party and the Arvilla picnic in view of the active support by the ses-

sionites.

Softball was revived after two years in the doldrums with a four-team league playing a round-robin schedule. Requests for a larger league and longer schedule have already been acknowledged in plans for next year, Marti said.

Two buffet suppers, both well attended, were held at the Student Union. Over 600 persons witnessed the summer session play, "Peter Pumpkin Eater," directed by Andrew Kochman.

Plans for next year's program are already being made by Marti and his staff. He said that the most successful features will be repeated for the 1953 session and others will be altered according to student interest.

While the majority of the student body did not take active part, Marti stated that the success is measured by the expressions of appreciation from those who regard the program as a valuable addition to the academic curriculum.

Bulletins

UND Activities

EXAMINATIONS—Finals from 1 to 4 p.m. Thursday, 7 a.m. to 3 p.m. Friday.

COMMENCEMENT—10:15 a. m. Thursday, Union ballroom.

GRADES—Final grades for candidates for degrees due at registrar's office by 1 p.m. today. All other grades due by August 18.

REGISTRATION—Students planning to return for the fall semester should complete fall registration now.

HOUSING—Applications for 1953 summer session housing acceptable now at Housing office, Old Main.

RADIO—KFJM on air, 3 to 5 p.m. daily.

Campus Banter

By the Staff

A new playground for the Tennis village children was unofficially opened as workmen began graveling the new parking lot east of the Student Union. The youngsters are going to resent the competition from automobiles when the lot is opened to traffic. Can't say that we will blame them.

x x x x

Seen in one trip around the campus—license plants from North Dakota, South Dakota, Minnesota, Montana, Missouri, Tennessee, Wisconsin, Oregon, Washington, South Carolina, New Jersey, New York, Kansas, California, Illinois, Pennsylvania, Arkansas, Manitoba, Saskatchewan, and Ontario.

x x x x

Question most often heard on the campus during the summer session is "when do we get artificial ice?" To date, the two main obstacles—money and priorities for material—have not been overcome. When wishes become reality the fans will be hanging from the rafters when Michigan and Minnesota come to the arena.

AT U 42 YEARS

"Top" veteran among UND faculty members is Dr. G. A. Abbott, professor of chemistry. He has been here since 1910.

22-Game Basketball Slate Ready for '52-'53 Season

Basketball? The opening whistle will not be blown for almost four months but Coach Louis Bogan is already making plans for the 1952-53 season and today released the schedule for the coming season.

Experience will keynote the Sioux cage squad this year. Ten members of last year's outfit are expected to draw equipment for opening practice sessions. Returning are: Bill McGinley, George Razook, Bob Constantini, Jon Haaven, Dale Cox, Doug Larson, Emil Carlson, Ron Lackie, Bob Doda and Bob McKinnon.

Three other veterans are eligible but may not turn out, Bogan said. Rube Entzel has indicated that he may not return to school this fall. Harvey Burkholder is a medical student and may devote full time to academic work. All-conference forward Chuck Wolfe underwent an operation this summer and may remain out of competition.

Engel, Edlund To Play Off Tie For Golf Crown

The blind bogey golf tournament sponsored by the summer recreation department ended in a tie between Fritz Engel and Dick Edlund. A nine-hole match has been scheduled to determine the winner.

Eighteen players entered handicap tournament which was supervised by John Quaday, U golf instructor. Playing through the blind bogey offers each golfer an equal chance of winning under the handicap arrangements, Quaday said. Engel and Edlund posted lucky scores of 78.

Members of the summer session golf classes are now playing a ladder tournament to close out the regular instruction course. The handicap arrangement in this tournament provides for challenge matches designed to provide equality of competition, Quaday stated.

Up from the "B" squad are Dale Kana, Jim Tollefson, Jack Anderson and Jerry Oehler. Pete Simonson and Jim Bischke, members of the 1949-50 squad are back from military service and have another year of eligibility, Bogan stated.

Haaven, Cox and Doda should be in top shape for the season's opener. The three cagers from Grand Forks have been working out at least twice each week at the Field house during the summer months.

The 22-game schedule authorized by the North Central conference rules opens against Montana State and is concluded with the AC series. Included is a tournament to be played at Fargo during the Christmas holiday.

The schedule:

Nov. 28—Montana State at Wolf Point, Mont.

Nov. 29—Montana State at Glasgow, Mont.

Dec. 6—Luther college here.

Dec. 9—St. Cloud Teachers here.

Dec. 19—Iowa State Teachers at Cedar Falls.

Dec. 20—Beloit college at Beloit.

Dec. 29-30—Two games in Fargo tournament.

Jan. 5—Morningside at Sioux City.

Jan. 6—South Dakota University at Vermillion.

Jan. 9—Augustana here.

Jan. 16—South Dakota State at Brookings.

Jan. 17—Augustana at Sioux Falls.

Jan. 21—Tennessee A and I college here.

Jan. 23—South Dakota State here.

Jan. 30—Morningside here.

Feb. 4—South Dakota University here.

Feb. 14—Iowa State Teachers here.

Feb. 20-21—North Dakota State here.

Feb. 27-28—North Dakota State at Fargo.

Bogan expects the stiffest competition within the conference to come from Morningside, Iowa State Teachers and North Dakota State.

Friday Bows Out As Big Night On Grid Schedule

For the first time in over 20 years, all games on the University's 1953 football schedule will be played on Saturday. This change in policy is being instituted to promote better attendance, according to Athletic Director Glenn Jarrett.

Saturday night games will be played against South Dakota university, October 4 and Iowa State Teachers, October 11. Kickoff time for these games has been tentatively set for 8 p.m.

The homecoming event against North Dakota State will be the customary afternoon game starting at 2 p.m.

Jarrett stated that he has reason to believe that the Saturday schedule will draw larger crowds because there will be no conflict with high school schedules in this area. This arrangement will enable out-of-town fans to see both the local prep games, usually scheduled for Friday, and University games. Saturday is the best day of the week for promoting attendance from throughout the Grand Forks trade area, he added.

Union Cafeteria to Stay Open After Session Ends

The Student Union snack bar will be closed between the closing of the summer school and the beginning of the fall term, said Miss Marie Ferree, director of the cafeteria.

Breakfast hour in the cafeteria will start at 7:30 each morning and service will continue through the coffee hour ending at 10. Lunch will be served from 12 noon until 1 p.m. and coffee service will be available until 3 p.m. The supper hour is from 5 p.m. to 6 p.m.

Miss Ferree said she expects from 100 to 150 persons to be served each day during this period and only a fourth of her present staff will be employed.

These schools, like NDU, have many returning lettermen and a close race for conference honors is promised, Bogan added.

Graduate Centers to Open Sept. 20; Schedule Ready

University of North Dakota graduate centers at Bismarck and Minot will open September 20 with curriculums now complete, Dr. Garold D. Holstine, dean of school of education, reports.

Pre-enrollment for courses by summer school students will take place August 11-12, Holstine said, and all other enrollees are urged to apply for enrollment blanks as soon as possible in order that ap-

propriate plans be made for textbooks and other materials.

Meeting dates for the classes are September 20-27, October 4, 11, 18; November 1, 8, 15; December 6-13, with January 10 reserved for make-up purposes. Ten meetings of the classes are required, Dr. Holstine said. Courses are open to school administrators, principals, supervisors and classroom teachers, both elementary and secondary.

Courses being offered at Bismarck and instructor are as follows: Ed. 504 Seminar Elementary Education, Dr. Lloyd King; Ed. 513 Individual Research, Dr. King; Ed. 514 Individual Research, Dr. King; Ed. 551 School Administration, Dr. A. L. Gray; Ed. 587 Public Revenue, Dr. Gray and Ed. 591 Arithmetic in the Elementary School, Dr. Gray.

The graduate center at Minot curriculum and instructors will be Ed. 503 Reading in the Elementary School (Advanced), Dr. Erich Selke; Ed. 513 Individual Research, Dr. Selke; Ed. 514 Individual Research, Dr. G. D. Holstine; Ed. 551 School Administration, Dr. Holstine; Ed. 554 Elementary School curriculum (Advanced), Dr. Holstine, and Ed. 573 School Law, Dr. Selke.

Speech Clinic's Work Ends Today

Diagnosis and remedial treatment of all types of voice, speech and hearing defects has been the aim of the summer speech clinic which ends today. Seventeen children have been enrolled in the six weeks session, four attending part time and 13 full time from 10 a.m. to 3 p.m.

Cases this summer included stutters, delayed speech, articulatory, cleft palate and cerebral palsy. Children were grouped by type of difficulty and four clinicians (Judy Dailey, Fargo; Alma Gustafson, East Grand Forks; Mrs. Grayce McGowan, Ada, Minn.; and Matthew Fetting, Halliday) carried out a planned program of speech-reeducation.

Morning programs were devoted to speech therapy and afternoons to recreation, story telling and speech games.

Each child in the clinic made satisfactory progress, said Director Ralph Vorhis, some showing very marked improvement. He added, co-operation of other departments of the University was of great value in completing a well rounded program.

TO TAKE LEAVE

Lt. Col. J. C. Davis, commander of the Air Force ROTC says, he will fly to Bakersfield, California, at the close of the summer session to visit his parents. He will remain in California for two weeks and spend the remaining week of his leave fishing in Minnesota.

Mrs. Johnson, '39 UND Grad, Named To Education Unit

Mrs. Mildred Burns Johnson, University law graduate, has been appointed to the State Board of Higher Education by Gov. Norman Brunsdale.

Named to a seven-year term ending July 1, 1959, Mrs. Johnson takes the place of Fred J. Traynor of Devils Lake, who had served on the board since its inception in 1939. Traynor declined another appointment.

Mrs. Johnson received her LL B degree from the University in 1939. Her husband, Vernon Johnson of Wahpeton, former speaker of the state house of representatives, graduated from the law school here in 1932.

Active in school activities during her undergraduate days, Mrs. Johnson was chosen to introduce the Who's Who section of the Dacotah annual in 1938. She served as president of Mortar Board and Sigma Epsilon Sigma and was member of Delta Sigma Rho, all honorary groups.

Other activities included Gray Gown, 1937; corresponding secretary of YWCA; debate team, two years; peace council; dean's advisory council and queen of the law school. She was also a member and chapter president of Delta Delta Delta sorority.

She is the daughter of Mr. and Mrs. L. S. Burns, former Grand Forks residents, and was married in Grand Forks in September, 1940.

Appointment of Mrs. Johnson to the state board provided the University with the one alumnus or former student allowed by state constitutional authority. Traynor was also a U graduate.

Or Do They?

Summer Classes End Wednesday

Classes are officially ended next Wednesday but—that doesn't necessarily mean you can relax, Ruby McKenzie hinted this week.

It's that old bugaboo called "it's up to the instructor". If he thinks he should hold just one more class before exams early Thursday, he can do so—even if commencement is held that day and you want to go ever so badly.

But, for the most part, UNDerS, there's nothing to worry about. Most of us are convinced that instructors are human and don't want Thursday classes after all and most of them are expected to live up to this theory when Thursday rolls around next week.

Final Grades Due Today For Graduating Seniors

Seniors who plan to receive degrees at commencement next Thursday will get the final word after 1 p.m. today. Grades of all candidates for degrees are to be reported to the registrar's office by that time.

There'll Be Some Changes Made—By Grounds Crewmen

Students returning to the University for the fall semester will note a lot of changes as far as the campus is concerned, E. J. Buckingham, building and grounds superintendent, said this week.

One big change will be the additional parking space provided by the new parking lot nearing completion east of the Student Union. Buckingham said his crew is putting gravel on the lot now and it should easily be finished by the fall term. He said, however, that some delay will be caused when a new storm drain line is dug through to accommodate drainage from the new Second avenue paving.

Building will go on as quickly as possible after the end of the summer session. Top on the list of jobs to be done is planting new grass around the newly completed Johnstone and Harrington halls. This in addition to routine maintenance, will keep his 40 men busy until the beginning of the fall term or longer, Buckingham said.

In the meantime, other men are busy caulking and painting windows on UND buildings in preparation for more winters. Buckingham said he hopes this can be finished by the arrival of cold weather. The workmen are nearly done on Merrifield hall and will start on others as soon as possible.

Lignite Lab Receives Slight Budget Boost

Dr. Alex C. Burr, chief of fuels technology division of the bureau of mines, recently returned from a trip to Washington, D.C. where he discussed the research program and budget for the 1953 fiscal year for the Lignite Laboratory. The budget will be approximately the same as last year with a small addition to take care of an increase in salaries granted employees he said. The research will be extended to the coal mines to determine whether or not the coal is suitable for use by various government agencies.

Trial Run Ends!

17 Practice Teachers Now Ready for Real Thing

Seventeen university students closed their notebooks last week as they concluded their duties as student teachers at Central high school and many began looking forward to a month's rest before assuming positions in the nation's schools on

the permanent status.

Dr. Frank Steeves, director of student teaching, said the group's work has been highly satisfactory and that the program is becoming more efficient with each year. Student praise of facilities along with excellent supervisory aid by major professors has added much to the program, he added.

Those teaching this summer were Frayne Anderson, Margaret Majeres and Gwendolyn Swanson, all instructing in Education 401, Miss Myrtle Schild supervising; Barnes Randall, Thomas Bachmeier, Donald Juelke, Philip Megorden, James Poissant, Charles Torjeson and Joseph Werre in Education 403, V. E. Esson supervising.

Tarl Tharaldson, Juel Skytland, Deisel Tykeson and John Wilmot, Education 403, and James R. Hanson, Earl Haugen and Mary Ketter, Education 407, John H. Gissel supervising.

Classes averaged fifteen pupils each with social studies being the most popular and mathematics the least popular. Approximately 100 students attended the summer high school term, Dr. Steeves said.

Most of the student teachers were juniors and seniors with some graduate students handling classes in order to get student teaching on their records. The summer class schedule was from 7:30 a.m. to noon for the student teachers with afternoons open. Dr. Steeves said the teachers summer work is divided into three parts: special methods, teaching and professional problems in student teaching. The third part is a regular class taught by Dr. Steeves once a week.

Each teacher receives eight semester hours credit for the summer's work, Steeves said, and "they earn it," he added.

AFFILIATED WITH U

Three religious foundations are affiliated with the University—Wesley college, the Newman foundation and the Lutheran foundation.

Fall Registration To Open Sept. 15

Registration for the 1952 fall semester will start Monday, September 15, and continue through Friday, September 19, Registrar Ruby McKenzie said today.

Freshman will be required to be on the campus at 8:30 a.m., September 15 with the first two days devoted to orientation and counselling for the new enrollees with completion of freshman registration scheduled for September 18.

Transfer students will register on Thursday, September 19, with former students slated to sign up Friday. The full schedule of classes opens at 8 a.m., Monday, September 22.

Miss McKenzie urges all freshman who plan to enroll for the fall semester and have not already filed transcripts of high school credits and application blanks to do so at once. Application blanks are now available in the registrar's office in Old Main.

Perry Resigns as UND Advertising Instructor

Roger C. Perry, marketing instructor in the Commerce department announced his resignation this week, effective at the end of the summer session. Perry came here from Ohio in 1950. He is, at present, teaching advertising. Perry's appointment to the University of Minnesota journalism school staff has been approved by the board of regents there. He will teach advertising there when he joins the faculty for the fall semester.

British Socialized Medicine Explained By Convo Speaker

Socialized medicine, its history, cost and benefits, in England today was explained by Rev. Harry Sellers, English pastor, who addressed the final summer session convocation audience Thursday in the Student Union ballroom. Mr. Sellers' topic of discussion was "Living in a Welfare State."

"The term socialized medicine is a misnomer if it is to be presumed that the socialist party was responsible for its adoption," Sellers said. He traced the health and pension program back to the act of 1911 which covered only the employed population. The post-war acts brought the entire population within the program and were aimed at extending the already existing health and pension program.

Adoption of the full coverage plan followed the Beveridge report of 1945. Beveridge was a liberal economist authorized to plan the program by the wartime coalition government headed by Winston Churchill.

An example of the cost of the individual could be found in his personal contribution of 6 shillings and sixpence—a little less than \$1. in American money—Sellers stated. These contributions do not cover the cost of the plan and the deficit is made up from the treasury through taxation.

Sellers expressed the opinion that to fear free medical program is akin to fear of the free education program offered by the United States in the sense that both are made available through taxation.

The general attitude of the British people is favorable to the health and pension service, according to the lecturer. He also cited the plan adopted by the British Medical association in the 1930's for extending provisions of the 1911 act to include specialist treatment for insured persons. The present plan is under constant review and adjustments are made wherever necessary, he added.

Minnesota Lakes Top Vacation Choice of Summer Sessionites

By BAYARD LEWIS

Minnesota lakes will be the main attraction, although a variety of other activities will claim UND summer students attention at the end of the session.

Robert Boeder, accounting major, will spend two weeks at the Waldorf-Astoria hotel in New York city attending the national convention of the Lambda Chi Alpha fraternity. The rest of the time he expects to be employed by Consolidated Freight Ways, Fargo.

Randolph Hublall, student from British Guiana majoring in natural sciences, will remain on the campus to complete requirements for his degree.

James Johnson, accounting major, employed by the Red River National Bank, will obtain two weeks leave to attend the organized reserve training camp at Fort Eustis, Virginia. Johnson is a captain in the artillery reserve.

Duane Reightal, chemical engineering junior, will proof read for the Grand Forks Herald, but will spend any free time at the lakes in Minnesota.

Tom Manley, physical education, will also spend his vacation at the Minnesota lakes.

Vincent Fenelon, accounting major, will divide his time between relatives in Detroit Lakes and Bismarck.

Family Affair!

22 Couples Mix Books With Housekeeping

Twenty-two married couples representing nine states and Canada attended summer session classes.

Registered from North Dakota are: Charles and Delores Clute, Gerhardt and Arlene Dammel, Donald and Jeanne Sorenson, Hayden and Marv Williams, Walter and Marguerite Zietlow and M. M. and Patricia Jaffer. Jaffer, a native of India recently returned from that country to rejoin his wife, a native of North Dakota.

Illinois sends Forrest and Jean Brewer and Robert and Donna App. From California come Russell and Barbara Reed, Robert and Martha Weaver, and Bus and Jane Dawson.

Only one couple registered from South Dakota, Elmen and Cedsel Hagen. Pennsylvania, New Mexico and Michigan, too, each send one couple. They are, Arthur and Dorothy Jackson, Richard and Betty Elkins and Lee and Belle Richardes, respectively.

John and Ruth Hausman and Roy and Evelyn Hoover come from Missouri. New Jersey registrants are Donald and Pauline Taber and Rus-

To Name Frosh Queen in Fall

UND will have a Frosh Queen for the first time in recollection this fall, thanks to the Dacotah annual staff, which will sponsor the contest during registration week September 15-19. Winner of the contest will automatically become a attendant to the Homecoming Queen in October, John Rhodes, editor of the 1953 Dacotah, said this week.

The contest will get under way as soon as freshmen girls register. Rhodes said pictures will be taken of 15 girls and posted at Dacotah selling desks where balloting will take place. It will not be necessary to purchase a book to vote, he said, and all students are urged to cast a ballot.

The queen will be featured in the "September" section of the 1953 yearbook, Rhodes said. All houses and hall members are asked to cooperate in aiding the annual staff to pick the 15 contestants so that their pictures may be displayed during freshman week and thus facilitate getting the balloting underway early in the week.

sell and Gene Ebersole.

Our neighbors to the north, Canada, sends Clare and Mary McGill, James and Gladys Dean, and Len and Doreen Newell.

Interest Increases In New Korean GI Education Plan

Interest is mounting concerning the Korean GI bill education benefits. Several Korean vets have inquired here about continuing their education and much more vet activity is expected here when the 47th division men from North Dakota and Minnesota are mustered out between August and January, when the mustering out is expected to be complete.

At least three former UNDRs may possibly re-enroll under the Korean GI bill for the fall or winter semesters. Peter Simonson, James Bischke and Donald Tuttle, the latter slated to be on the staff of the 1952-53 Student, are eligible under the bill. Tuttle has some time left under the old bill but it remains to be seen whether he uses it or the new bill when he re-enrolls. From the personal standpoint it would mean financial gain since the subsistence allowance is considerably larger. The same holds true of all other World War II vets who are eligible for educational benefits under both bills.

Yearbook Editorship Goes to Holstine

Dr. Garold D. Holstine, school of education dean, was appointed editor of the 1954 edition of the national research yearbook "Development of Good Facilities for Professional and Laboratory Experience for Teacher Education."

The research book deals with problems concerning working relationship, contractual relationships, financing, improvement of laboratory teaching service for cooperative schools and training of cooperative supervisors of student teaching.

Materials for the yearbook will be obtained, Holstine said, through nationwide study with research. Dr. Holstine is appointing assistants to aid him in working out the publication which is being done in cooperation with the National Association of Student Teachers.

Out of Picture!

Trailer Living, Once Popular, Soon to Be History on Campus

By DICK BUCKINGHAM

Living in trailers seems to be a going thing on the University campus, in fact going right out of the picture. An aerial view of the campus shortly after the war would have shown measles-like dots around the outer rim of the campus face, representing trailers.

University trailer housing was at a peak during the four years following the war when the veterans came to university campuses en masse.

During UND'S trailer peak, 90 families were living in three trailer camps in the University area, two

of which were considered private and the third sponsored by the University.

The two private camps were located by the Winter Sports building and the Stadium. The sponsored camp was located on the corner of University avenue and Oxford road and called officially the Oxford Trailer site. Each of the camps had a filled capacity of 30 families.

As the housing situation has become less acute, the married couples have left trailers in favor of Vets' apartments. At present, only 22 families live in trailers on the campus.

Registration Shows Increase In University Nursing Division

Registration in the division of nursing is on the increase according to Mrs. Evelyn Berg, secretary to Miss Beatrice Horsey, director. Seventeen applications have been received for the fall semester and three more are expected before the session starts. This will be an increase of seven over last year's enrollment.

At present the absences of facilities for instruction in tubercular and psychiatric training makes it necessary for students to spend their fourth year at the University of Minnesota, said Mrs. Berg.

However, it is hoped that arrangements can be made with the mental institution at Jamestown and

the tuberculosis sanatorium at Dunseith so that the senior year may be completed within the state, she said.

Union to Install Movie Projectors

More frequent and varied movies are being planned for next fall as the Student Union prepares to buy two new Bell & Howell 16 mm. auditorium projectors. Bids are now being accepted and will be decided on August 13.

Amos S. Martin, director of the Union said weekly movies are being planned along with a variety of special features. Sports and other short subjects are being sought. He also mentioned having dances in the ballroom to music of various bands being shown on the movie screen.

Each year, Phi Delta Kappa, history fraternity, sponsors six or eight films with historical value. Most of these are full length features produced earlier for public profit and entertainment.

Other equipment being purchased by the Union includes two projector stands and a set of film rewinders.

Lab Scientists Study N. D. Lignite Samples

Dr. Alfred Traverse, coal technologist, and Harold Bale, physical science aid, recently returned from the western part of North Dakota where they obtained core samples from the Truax Traer coal mines, Hohn H. Fleur, administrative assistant at the lignite laboratory reported. The cores will be studied in an effort to determine just what lignite coal consists of said Fleur.

UND Placement Bureau Reports Teacher Shortage

Jobs are more plentiful than teachers, says Dr. Erich Selke, head of the teacher placement bureau. There are a few teachers yet to be placed but this is due to the difficulty of finding jobs acceptable to the teachers, Selke said. He is certain, however, that all teachers will be placed by fall.

Dr. Selke said that although most of the teachers are placed in North Dakota, Minnesota, Montana and South Dakota, he has placed some as far away as Washington, Oregon and California.

Dr. Selke explained that this service is available to anyone who has received a degree from the University, and since the records are kept on file for many years this service may be of value to them in the future.

Future of Linguistic Institute Discussed

A committee of Linguistic Institute members and university officials met Tuesday in Dr. Garold D. Holstine's office to discuss future plans for the Linguistic Institute now in its eighth week here.

The committee evaluated the facilities and program for the 10-hour curriculum and sought to work out a plan whereby the institute could be scheduled for next summer. The present school began June 23 this summer and will carry through to September 5.

Fall Term Timetables To Be Ready Soon

Timetables for the 1952 fall semester will be issued late this month, Registrar Ruby McKenzie said today.

The new listings will be essentially the same as the tentative schedule published in April although there will be some faculty changes.

When ready, the timetables will be available through the registrar's office.

500 Drama Goers Watch Presentation Of Summer Play

"Peter, Peter, Pumpkin Eater" entertained more than 600 playgoers a week ago Wednesday and last Friday as the Summer session playmakers "displayed their wares."

Directed by Andrew J. Kochman, the cast gave a successful and entertaining show.

Originally scheduled for Thursday night, the third performance was postponed until Friday night because of rain.

O'Keefe, Utilities Head, in Hospital

Ed J. O'Keefe, superintendent of the campus heat and light department, is a patient at St. Michael's hospital. The hospital reports his condition critical.

O'Keefe began his employment at the University in 1899 as a fireman in the schools first power plant. Three years later he took charge of that department and has held that position ever since.

Ed enjoyed good health until 1948 when he was stricken with his present ailment and underwent surgery at Rochester. At that time it was thought that he had been cured, however, his recovery was only temporary and in December this year he again received treatment at Rochester. Complete recovery was never made and he has been bedridden since that time.

10 UND Men Attend Fort Benning Camp

Ten University students were among the 2,351 Infantry ROTC cadets who attended the six weeks summer camp at Fort Benning, Ga., which ended August 1. The purpose of the camp is to supplement ROTC instruction given at colleges and universities.

Representing the U were Milton L. Clift, Thomas C. Colwell, Robert H. Giedt, William F. Lang, Arthur E. Lian, Derwood J. Lund, John A. Reinbold, Estle W. Saum, Thomas T. Taylor and Joseph H. Wrigley.

New Army ROTC Head is Korean Combat Veteran

Lt. Colonel Paul T. Clifford, a native of New Hampshire, arrived here this week to assume his duties as head of the University Army ROTC unit. He is replacing Lt. Colonel David O. Byars, Jr., who is to report to the Armed Forces Staff College at Norfolk, Virginia.

Colonel Clifford is a combat veteran of both World War II and the Korean War. He graduated from West Point in 1939 and during World War II he served with the 2d Infantry division in the European Theater. At the outbreak of the Korean hostilities he was stationed in Japan and was immediately sent to Korea where he served with the 1st Cavalry division. Lt. Colonel Clifford is a holder of the Silver Star with two oak leaf clusters, Legion of Merit with an oak leaf cluster, Bronze Star with oak leaf cluster, Commendation Medal and the Purple Heart.

Clifford was accompanied here by his wife and two children. Mrs. Clifford is a native of South Carolina. The two children are Patricia, age 10, and Paul, age 8. Also accompanying the family was a Japanese dog.

Noted Youth Adviser To Speak Here in Fall

Dr. Daniel A. Poling, internationally famous religion and youth advisor, will address the fall meeting of the NDEA section of PTA when it convenes here October 23, Dr. Garold D. Holstine, chairman, announced this week.

Dr. Poling's topic will be "The Grip That Holds," which will follow along the theme chosen by the conference of "Moral and Spiritual Values Through Home and School Cooperation," Holstine said.

The conference will be attended by all administrators and teachers who are members of PTA, Dr. Holstine said.

RATED 'CLASS A'

The University is rated "Class A" by the U. S. Commissioner of Education.

Hurry - - - Hurry - - - !

Session a Success!

Student Calibre, Interest Reported at High Level

The 1952 summer session has been a most successful one from the graduate division standpoint, Dean Daryle Keefer, head of the graduate division, said this week.

Besides breaking all previous graduate enrollment records it was a successful session from the standpoint of student calibre and interest, he said. Another record in the number of advanced degrees conferred

was broken in 1952 with an all-time high in the number of doctorates granted. Student interest in all aspects of the session has been very high.

Donald J. Robertson, dean of men, said the session was a huge success from all points of view, not only because of the unusually high number of graduate students attending but because of the general high quality of all students enrolled for the session. "It has been one of the most satisfactory summer sessions held since they were inaugurated at the University," he stated.

ESTABLISHED IN 1926

Blue Key service fraternity was established at the University in 1926.

REPORT ON WEATHER

A regular U. S. meteorological station is located on the campus.

Minneapolis Symphony Booked Here April 23

The Minneapolis Symphony orchestra has been booked for a special Artist Series concert, sponsored by the Grand Forks Community Music association of which John E. Howard is general chairman.

Conducted by Antal Dorati, the Minneapolis Symphony will appear in Grand Forks April 21, 1953.

50 Workers Attend Cancer Leadership Training School

More than 50 volunteer cancer workers attended the three-day district leadership training school held on the University campus Monday through Wednesday.

Purpose of the meeting, according to Dr. J. D. Cardy, U pathologist, was to prepare the volunteer workers to carry the cancer message to everyone in the state.

Dr. Cardy said that cancer is the second most common cause of death in the United States, being exceeded only by heart disease. He explained that the early symptoms of the disease are silent and often overlooked. Cure is possible in the early stages but becomes impossible when vital organs are affected during the advanced stages.

The problem facing the cancer workers is to educate all adults to watch for and report apparently trivial symptoms. If this is done, an early diagnosis may result in effective treatment, Dr. Cardy added.

Tuesday's program was highlighted by a medical panel moderated by Dr. W. E. G. Lancaster of Fargo, past-president of the state medical society. Also on the panel were Drs. P. H. Woutat, radiologist; John H. Moore, obstetrician and gynecologist; Kenneth Fritzell, surgeon and J. D. Cardy, pathologist.

Community action was the keynote of the training program. Many of the volunteer members belong to community civic groups that provide excellent opportunity for diffusion of the knowledge gained at the meetings.

More than \$72,000 has been contributed to the University medical association by the North Dakota Cancer society to further cancer research within the state.

GOES TO ILLINOIS

Major Deane Fowler, of air ROTC, left Monday for Cantrill, Illinois, to join his wife and family, Col. J. C. Davis, commander of the air force unit reported. The major has a 20 day leave and will be accompanied by his family when he returns to duty here.
