DOCTOR OF MEDICINE CLASS OF 2022

Commencement Ceremony

Four years ago, the Class of 2022 recited the Hippocratic Oath upon arriving at the UND School of Medicine & Health Sciences. Today, they renew that vow.

SATURDAY, MAY 7, 2022

2:30 P.M.

**CHESTER FRITZ AUDITORIUM
GRAND FORKS, NORTH DAKOTA**

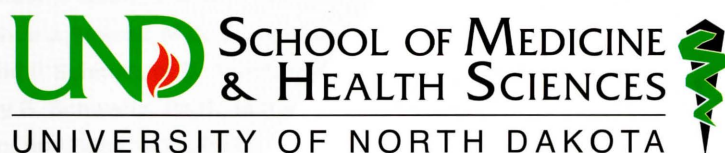

The faculty of
the University of North Dakota
School of Medicine & Health Sciences
presents the

CLASS OF 2022

and welcomes you to the
Celebration of the Forty-seventh
Granting of the
Doctor of Medicine Degree

2:30 p.m., Saturday, May 7, 2022

The logo features the letters 'UND' in a bold, green, sans-serif font. A red flame-like shape is integrated into the letter 'D'. To the right of 'UND' is the text 'SCHOOL OF MEDICINE & HEALTH SCIENCES' in a smaller, green, sans-serif font. Below this is a horizontal line, followed by 'UNIVERSITY OF NORTH DAKOTA' in a smaller, green, sans-serif font. To the right of the text is a green graphic element resembling a caduceus or a stylized lightning bolt.

UND SCHOOL OF MEDICINE
& HEALTH SCIENCES
UNIVERSITY OF NORTH DAKOTA

HISTORY

The University of North Dakota School of Medicine & Health Sciences, founded in 1905, was a two-year school of basic medical science until 1973, when the North Dakota Legislature approved initiation of a four-year curriculum leading to the Doctor of Medicine (M.D.) degree. The School offers a statewide, university-based, community-integrated medical education program that places an emphasis on primary care. Practicing physicians, constituting the majority of the faculty, educate medical students in clinics and hospitals throughout the state.

The primary purpose of the University of North Dakota School of Medicine & Health Sciences is to educate physicians, medical scientists, and other health professionals, and to enhance the quality of life in North Dakota. Through its federally funded Indians Into Medicine (INMED) Program, the School also seeks to address disparities in access to health care by educating American Indians as physicians and other health professionals.

The first two years of medical education are provided at the UND campus in Grand Forks. The third and fourth years consist of clinical rotations in Bismarck, Fargo, Grand Forks, and Minot. Students may elect to take the majority of their third year in rural communities through a program called ROME, Rural Opportunities in Medical Education, or the Minot Integrated Longitudinal Experience (MILE), a course of clinical training that third-year students undertake in required clerkships taught over the entire third year, in a longitudinal, integrated fashion. Medical students also have the opportunity to experience training in other parts of the country and the world through fourth-year electives. Postgraduate residency training in family medicine, geriatrics, internal medicine, general surgery, orthopedic surgery, and psychiatry, as well as a one-year transitional program, is conducted in the state's four major cities.

In addition to the medical education program, the School offers graduate study in biomedical sciences, clinical and translational science, medical laboratory science, occupational therapy, physical therapy, physician assistant studies, and public health. Undergraduate study is offered in athletic training and medical laboratory science.

THE CONTEMPORARY OATH OF HIPPOCRATES

Today, in the presence of family, friends, teachers and colleagues,
I dedicate myself to the profession of medicine.

I pledge myself to the service of humanity.

I will use my skills to care for all in need, without bias and with openness of spirit.

The health of my patients will be my first concern.

I vow to hold sacred the bond between doctor and patient.

I will hold in confidence all that my patients entrust to me.

I will strive to alleviate suffering.

I will respect the dignity and autonomy of my patients in living and in dying.

As a physician, I recognize my duty to society.

I will work to promote health and prevent disease.

I will advocate for the welfare of my community.

Even under duress, I will not use my knowledge or my skills against humanity.

I will acknowledge my limitations and my mistakes so that I may learn from them.

To uphold these responsibilities, I will maintain my own well-being and the well-being of those
close to me.

I will promote the integrity of the practice of medicine.

In the tradition of my profession, I honor all who teach me this art.

Through honest and respectful collaboration with my colleagues, I will uphold the highest standards
in the service of patients.

I will seek new knowledge, reexamine ideas and practices of the past, and teach what I have learned

Above all, the health of my patients will be my first concern.

This oath I take freely and upon my honor.

This contemporary version of the traditional Oath of Hippocrates was composed by the Harvard Medical
School Class of 1998.

KEYNOTE SPEAKER

Rhyme Hughes, M.D., graduated from Austin College (Sherman, Texas) with a Bachelor of Arts, and the University of North Texas (Denton, Texas) with a Master of Science. He attended medical school at the University of Texas Southwestern Medical Center (Dallas, Texas), where he was elected into the Alpha Omega Alpha (AOA) Honor Medical Society. He completed a combined anatomic and clinical pathology residency at Emory University Hospital (Atlanta, Ga.), serving as chief resident during his final year. He completed a forensic pathology fellowship at the Fulton County Medical Examiner's Office (Atlanta, Ga.), and is currently triple-board certified in anatomic, clinical, and forensic pathology. After fellowship, he served for five years on active duty for the United States

Air Force, stationed at Joint Base-San Antonio, where he functioned as a regional medical examiner for the Armed Forces Medical Examiner System; the director of autopsy services and a staff pathologist for the San Antonio Military Medical Center; and an assistant professor of pathology for the Uniformed Services University of the Health Sciences. In 2016, he was awarded the Meritorious Service Medal for his achievements and service. After separating from the Air Force, he worked first as a deputy medical examiner and then the deputy chief medical examiner at the Lubbock County Medical Examiner's Office (Lubbock, Texas). In 2018, in order to satisfy a long-standing desire to be more involved with teaching, he moved to Grand Forks, North Dakota, to begin work at the University of North Dakota as an assistant professor for the UND School of Medicine and Health Sciences and a forensic pathologist for the UND Forensic Pathology Center. During his time at UND (2018 – 2021), he was a three-time recipient of the Outstanding Block Instructor Award, a two-time recipient of the UND Golden Apple Award for Excellence in Teaching, and recipient of the UND Portrait Award for Outstanding Support of Medical Students. He returned to his home state of Texas in 2021 in the position of instructional associate professor for Texas A&M University – EnMed (Houston, Texas), a new medical education program dedicated to the training of “physicianeers,” where students receive both Medical Doctorates and Master of Engineering degrees focused on the design and implementation of medical technologies in the same four years as a traditional medical program.

Dr. Hughes has been married for 23 years, and has two sons (age 11 and 9). His hobbies are near-exclusively focused on his family—weekend trips to the beach; superhero movies and hamburger stands; bicycle rides; board games; and a continuous stream of golf, bowling, basketball, and baseball games.
