Supper Tonight, Plan Steak Fry For Wednesday

Two big features of the summer recreation program are on the immediate schedule for University students and faculty members.

The events are:

1. A family buffet supper to be served from 5:30 to 6:30 p. m. today in the Student Union.
2. The annual all-campus steak fry starting at 6 p. m. Wednesday on the University picnic grounds across the English coulee.

Background music for tonight's buffet supper will be furnished by an orchestra directed by John E. Howard. The orchestra also will present a program beginning at 6:30 p. m.

Prices for the supper are a dollar for adults and 50 cents for children. The buffet suppers are an annual summer session feature, and a second one is on the schedule for July 7.

Charcoal-broiled steaks will come into their own at Wednesday's steak fry—long a tradition of UND summer terms. All the trimmings for a picnic summer will be served along with the steaks by the Student Union staff.

Tickets for the picnic now are on sale at the Student Union information desk, the business office in Old Main and room 118 Fieldhouse. Tickets are 95 cents for adults and 45 cents for children. In case of inclement weather, the picnic will be held indoors in the Fieldhouse.

Entertainment will include a novel track meet, a variety of games and a community sing.

Faculty and students are invited to bring the entire family for both the buffet supper and the steak fry.

School Problems Topic for Workshop

Problems concerning school enrollments and teacher preparation will be one of the principal subjects to be taken up at the University's fourth annual School Administrators' Conference-Workshop July 18 to 22. A list of nationally known speakers and consultants is being arranged for the sessions, according to Archie L. Gray, of the Education faculty, who is in charge.

*Editorial:***Let's SLAP This Problem**

BZZzzz! BZZzzz BZZzzz! SLAP OUCH!—And then a few rashly chosen words.

This is one of the most common reactions to the least desirable summer visitor North Dakota has . . . the mosquito.

Other cities in this area solved this problem—and in many instances prevent it by spraying. Cities like East Grand Forks, Fargo, Crookston slay these blood-gathering parasites early in the year by spraying to prevent their residents from the sufferings and discomfort caused by this bothersome insect.

Why can't we? It seems that for many years airplanes have perfected spraying for mosquitos. Is this such an expensive operation that it can not easily be taken care of by a city the size of Grand Forks?

And—we do have a problem. The mosquito is with us not only in the evenings, but during day as well. He has been allowed to become so thick that should one open his door to go in or out he has also admitted a covey of mosquitos for company—and what company it is!

We can hardly repeat the old, time-worn joke about the two mosquitos in Louisiana who came upon a sleeping soldier on a field problem and tossed a coin to see if they should devour him on the spot or carry him away and save him for a later repast. But—our Grand Forks mosquitos are almost as large. Just the other day a mother was seen protecting her small child from the same fate as the soldier in Louisiana.

Come on Grand Forks. Let's wake up to the problem. One wonders how you could possibly sleep through it. Let's do away with the mosquitos. Let's eliminate any chances for disease these preying buzz-bombs may start.

And would it not be better to hear our fellow citizens say "Isn't it a lovely evening," instead of BZZzzz! SLAP! OUCH! and then a few rashly chosen words?—W. F. J.

Campus Banter*By the Staff*

"Classes to Meet Twice on Saturday," said the headline. Some students were expecting double-length sessions last Saturday as a result. But, all it meant was: classes were going to meet on two different Saturdays. And, incidentally, the other Saturday session is this week-end.

x x x

To compensate somewhat for these first two "overtime" weeks—the only "vacation" of the summer term is coming also soon. July 4 is just a week from Monday now.

x x x

There's nothing like the summer for "scenery" on the campus. Loud sport shirts worn by most male students—and some instructors—replace the more conservative regular session garb. And—the gals! All the shorts aren't confined to the playground area across the coulee!

The Buildings and Grounds crew has just seeded the lawn around the new Education Building. And bets are at least even that the area will be GREEN when the time rolls around for the building's dedication ceremonies next month.

x x x

The coulee has a brand new "dock system" on it this summer—to facilitate the voyages of the campus canoe.

M. L. Cushman, dean of the College of Education, also spoke to the group about summer plans and the progress being made on the national Phi Delta Kappa building now being erected on the campus of Indiana University. Cushman is the first vice-president of the national organization of Phi Delta Kappa and is also building program chairman for the national organization.

Allot \$3,330,000 To U For Biennium Starting July 1st

Biennium funds for the University of North Dakota, appropriated during the last session of the state legislature, total \$3,330,000 according to E. W. Olson, University business manager.

The last appropriation, made in 1953, totaled \$2,920,000. These sums are made available to the school every two years, and are estimated in consideration of the amount of additional income that the University may have.

According to Olson, 80 per cent of the funds are used for salaries of the school employees, with the remainder being used for the operation of the school plant, equipment for the departments and general supplies.

The biennium funds will become available July 1, 1955, and the appropriation will extend until June 30, 1957, Olson said.

Campus Poll: What Students Are Thinking

Question

"Do you think any good will come from next month's meeting of the Western Big Three with Russia? Do you think such a meeting wise on the part of the United States, Great Britain and France?"

Cliff Hestdalen, Boulder, Mont., graduate in School Administration—

"Some good should definitely come of it. It should iron out some of the major difficulties in the world situation."

Balzer Sherr, Linton, senior in Mathematics—

"Since it is the aim of the United States for world peace, any good that could possibly come of it would make it a wise move."

James Condell, graduate in Psychology—

"The meeting will provide an opportunity for closer understanding. Russias motives in her new plan for "getting along" aren't clear but any meeting is better than none."

Roy Wrestling, graduate in Education—

"The meeting should result in better understanding between nations. Whether or not it serves Russian propaganda, it is at least an attempt to ease world tensions."

Loran Volland, senior in Education—

"Certainly, because I think any meeting with Russia will help and is a step toward peace. I think it is wise in spite of the fact that Russia may use the meeting for propaganda purposes."

The second year courses are divided into two parts. The first is an advanced course in linguistic analysis which continues with the consideration of various methods and theories of translation.

Want to be a champion?

They're getting ready to name the summer session champs in just about everything—and everyone is urged to compete.

Tournaments currently being arranged are in tennis, golf, croquet, horseshoes, table tennis, badminton, handball, bowling and billiards.

Signup lists have been placed in both the Student Union and the Fieldhouse, with Monday as the deadline for entries.

If your favorite sport isn't on the list, just mention it to Joel McDonald, graduate student in charge of the tournament program, and likely as not he'll line up competition in it.
