Dedicate Building Monday

Program Complete For Administrator Sessions Next Week

Plans are being consolidated for the fourth annual Conference-Workshop for School Administrators scheduled for Monday through Friday of next week. Dr. Archie L. Gray is the Workshop's general chairman and Wayne C. Puttmann is the graduate assistant.

The Workshop will begin with registration at 8 a. m. Monday, followed by the dedication of the New Education Building at 10:30 a. m.

At 1 p. m. Monday, Dr. George W. Starcher, University president, will give the address of welcome.

A buffet dinner in the Student Union at 6 p. m. Wednesday will be sponsored by Phi Delta Kappa, men's professional education fraternity, in conjunction with the workshop.

Dr. Garold Hölstine, former UND dean of education now holding a similar position at the University of Nevada, will be the speaker. Reservations and tickets for the dinner may be obtained for \$1.60 in Room 101, Education Building.

The problems to be taken up during the Workshop are teacher
(Continued on Page Three)

Dr. Selke to Deliver Address at Ceremonies

Dr. George A. Selke, commissioner of conservation for the state of Minnesota, will be the speaker at the dedication ceremonies of the New Education Building Monday at 10:30 a. m.

Dr. Selke, a well known educator having received his bachelor's degree from the University of Minnesota, his master's from Columbia University also has received honorary doctorates from the University of North Dakota and the University of Vienna.

He has been a teacher on all levels and was president of the St. Cloud State Teachers College and chancellor of the University of Montana. A veteran of both World Wars, he served on various special missions for the federal government.

Dean M. L. Cushman of the College of Education is the chairman of the dedication program, and John E. Howard, director of bands and orchestra, is chairman of the committee on arrangements.

Because of limited seating in the Education Building auditorium, Howard stated that tickets are being issued to the staff of the College

DR. GEORGE SELKE
Dedication speaker

of Education, the University deans and other officials who have accepted invitations.

Those in attendance will include Elroy Schroeder, Grand Forks superintendent of schools; Lawrence Hanson, principal of Grand Forks High School, Richard K. Kline, chairman of the North Central Association of Colleges and Secondary Schools; Paul A. Dalagher, executive secretary of the North Dakota Education Association; James D. Mathisen, state supervisor of guidance; Miss Florence Rasmusson, president of the State Council of County Superintendents, and M. F. Peterson, state superintendent of public instruction.

The presentation of the Educa-
(Continued on Page Eight)

Play Tickets Available

Summer students now may pick free tickets in the business office for performances of "Candida" in the Education Building auditorium at 8:15 p. m. next Thursday and Friday.

Another play, "Little Red Riding Hood," will be presented in the four Grand Forks parks, July 27

and 28, but times for performances have not yet been definitely set.

Andrew J. Kochman, faculty adviser, is directing both plays. Rita Roach is the stage manager for "Candida" and "Little Red Riding Hood" will have Janet Englerth as its stage manager.

Editorial:

Lots of Credit Due Here

Our campus is not, as far as this writer knows, renowned as a beauty spot. However, I do think that the time is ripe for expressing thanks to the Building and Grounds personnel for making our campus the pleasant and attractive place it is.

One cannot walk across the grounds these days without seeing these men out raking, hoeing, clipping bushes, planting new grass or shrubbery, or clearing away debris.

A special pat on the back should go to this department for the job it did in making ready the lawn around the New Education Building for that building's dedication Monday.

Ground had to be leveled, seed planted and covered with straw, and finally, more watering. Whether a record for grass growing has been set or not, the fact still remains that visiting dignitaries and residents alike will find the Education Building more attractive because of this feat.

The more scenic spots on our campus, such as the Coulee, are also kept in tip-top shape by Building and Grounds.

One finds it hard to say very much about the beauty of the campus during the winter. But, if one cannot find any beauty he can see that Building and Grounds is on the job as we enjoy the convenience of cleared sidewalks and roads.

All in all Building and Grounds compliments the University and itself by its steadfast and wonderful work.

Henceforth, when admiring the beauty and well-keptness of our campus, how about devoting just one thought to the personnel of Buildings and Grounds who make this come so.—W. F. J.

Campus Banter

By the Staff

Wanted:

The name of the oldest student attending summer school!

The Registrar's Office, in a routine check for the ages of summer students, listed one "young lady" just 79 years old. Then the clerk slipped her card back into the file, without even noting the name.

Now the Student would like to find her, to run her picture or something.

Anybody have a clue?

x x x

That was no twister moving along the campus drive Tuesday morning. That was the city's street sweeper, an artificial dust storm all by itself.

x x x

Just when the weather seems to hit the ultimate in heat and humidity, an air-conditioning cool front always seem to move in and save the day. And also save the boys who write about the weather in the summer session brochures.

Some fishermen returned to the campus after a weekend outing on Union Lake. Their catch wasn't bad—except for two (big ones, they say) that got away, stringer and all. At least, they saved the boat!

x x x

Just to correct the record: that was Ed Deitz, campus electrician, getting his hair cut by Purv in the picture in last week's Student (and not a Starkweather gentleman, as listed.) And the graduate student helping to arrange the forthcoming School Administrators' Workshop is Wayne Puttmann, instead of Jackson Putman, as listed under the front page picture.

x x x

Also, to give credit where credit is due, the picture of Purv at work was taken by Dick Enger, not the other Student Photographer, Leland Johnson, as reported.

x x x

There WERE some things right in last week's Student though.

Bulletins

UND Activities

MOVIES — Tuesday, Union Ballroom; feature: "All the King's Men."

SWIMMING — 4:30 to 6 p. m., Monday through Friday; 2 to 3:30 p. m. Saturday, Fieldhouse pool; everyone invited.

BAND CONCERT — Postponed until week of July 25. Exact date to be announced later.

DEDICATION — New Education Building, 10:30 a. m. Monday

BAND REHEARSAL — 1 p. m. daily through Thursday and 7 p. m. Tuesdays and Thursdays. Bandroom, Education Building.

CHORUS — Rehearsal, 7 p. m. Monday, Room 6, Education Building.

COULEE SPORTS — Tuesday, Wednesday, Thursday, 4 to 5 p. m., English Coulee banks; Canoeing, horseshoes, croquet, archery, casting, tetherball, box hockey, badminton; equipment furnished.

BICYCLING — Bikes available free at Fieldhouse, 9-10 a. m. and 3:30-4:30 p. m. daily.

ORCHESTRA — Rehearsal Wednesday, 7 p. m., Bandroom, Education Building.

CONVOCATION — Today, 10.15 a. m., Student Union Ballroom, Michael Polovitz of UND Music faculty, a woodwind recital.

DANCE CANCELED

The dance scheduled for Wednesday, July 20, in the Student Union has been canceled because of a conflict in schedules.

100 Area Secretaries Attend Special Event on Campus

Approximately 100 secretaries from various cities in North Dakota and Minnesota heard Dr. Dorothy J. Lipp, dean of women, welcome them and deliver the keynote address on Secretaries' Day Wednesday.

"Today's Secretary: Personality, Stability, and Creative Know-How" was Dr. Lipp's topic.

Under personality Dr. Lipp emphasized sincere personal charm, kindness and impartiality in dealing with people. She also said today's secretary must dress properly. The secretary sets the office pace because she is the first per-

son contacted in any office, said Dr. Lipp.

Dr. Lipp pointed out the importance of being efficient and courteous every day. She declared a secretary must practice good human relations and have sound emotional stability.

Creative know-how is more than knowing how to type, continued Dr. Lipp. It is knowing how to organize a daily schedule, full utilization of skills and using public relations.

Secretaries' Day was under the direction of Dr. M. Adeline Olson, head of the Department of Business Education.

Jazz Important Too, Grads Hear

"Musical and Sociological Interpretations of Jazz" was the title of a talk given by Dr. Carroll D. Clark, chairman of the Department of Sociology, University of Kansas, to the Graduate Club at its annual summer meeting Wednesday evening in the Student Union Red River Room.

Dr. Clark said that jazz is a very important kind of music that has been largely misunderstood except by a few critics. He stated that it is a most important part of the American fine arts.

The sociological implications of jazz were discussed by Dr. Clark when he used New Orleans with its mixture of cultures and races to show origins and early development of jazz.

He also stated that jazz has been looked down on too much in polite musical circles which has led to Americans aping European music and forgetting about their own great folk music.

WORKSHOP

(Continued from Page One)

education, school and community relations—P. T. A., reorganization and finance, impasse of enrollments and improving educational leadership.

The coordinators are Dr. Gray, associate professor of education; Puttmann, graduate student; Dr. Raymond P. Harris, associate professor of education, and Dr. A. J. Bjork, professor of education.

Keynote speakers for the Workshop include Dr. Frank L. Steeves, director of student teaching at UND; Dr. Carroll D. Clark, head of the sociology department, University of Kansas; Dr. Robert A. Skaife, field secretary for the Commission for the Defense of Democracy through Education of the National Education Association; Mrs. H. A. Blecher, chairman, North Dakota Conference on Education; M. L. Cushman, dean of the College of Education; Hamilton G. Vasey, superintendent, Fargo; Joel A. Day, principal, Valley City; Duan Bjerke, superintendent, Ontario, Wisc.; Mrs. Mabel Stuart, teacher, Marcell, Minn.

U Business Education Head to Attend International Conclave in Stockholm

Dr. M. Adeline Olson, chairman of the department of business education, will represent the College of Education and the University at the 28th International Economic Conference of the International Society for Business Education in Gothenburg, Sweden, July 25 to August 7.

Dr. Olson was selected to be a delegate from the United States Chapter of the International Society for Business Education at its annual meeting in Chicago.

Attendance at this conference will be limited to official delegates from European, Middle Eastern, Latin American, Canadian, Far Eastern countries, and official delegates from the United States Chapter of the International Society for Business Education, a division of the United Business Education Association, which in turn is a department of the National Education Association.

The conference group will attend meetings and take part in excursion trips in different cities of Sweden. There will also be special dinners and luncheons for the group.

Mrs. Olson will be accompanied by her 11-year-old son, Mark David. He will be a guest of the William Johnsson family during his stay in Sweden.

DR. M. ADELINE OLSON

Following the conference Mrs. Olson will meet her son in Copenhagen, Denmark, where they will proceed to various European cities on a travel tour before returning home.

TRANSFERRED TO ENGLAND

Captain Robert Soule of the Air ROTC staff has been transferred to London, England, for a three-year tour of duty. He has been stationed at the University for four years.

5 Top Attractions Listed for '55-'56 Artists Program

The 1955-56 Artist Series will feature five talented musicians, John E. Howard, chairman of the annual presentations, announces.

Scheduled by the Grand Forks Community Music Association, sponsors of the series, are Jussi Bjoerling, tenor, October 1; Ray Dudley, pianist, November 28; Dorothy Warenskjold, soprano, January 8; Zino Francescatti, violinist, February 2, and The Concertmen, April 19.

A native of Sweden, Bjoerling will return to the United States in the early autumn for a recital tour and opera performances. He will also appear on television.

Dudley, a Canadian, is the winner of Canada's highest musical honor, the Eaton Award, and was unanimous winner in the International Competition at Geneva.

Miss Warenskjold is said to have "one of the purest voices before the public, clear and flexible as molten silver" by music critics.

Francescatti, as stated by one of the leading New York City newspapers, is perfection itself.

The Concertmen, a 10-voice male chorus in joint recital with Edmond Karlsrud, bass-baritone, will provide a program which includes classics, opera, operetta, folk songs and spirituals.

Persons desiring the same seats as last year, Howard announced, may get tickets for them before Friday of this week, at which time the ticket board will be open for selection.

LSA Director Back from Illinois

Rev. Otto L. Proehl, director of the Lutheran Students Association, returned Tuesday from a visit to the home of a son, Prof. C. W. Proehl, Dekalb, Ill. Prof. Proehl is an instructor at a Lutheran Seminary in Illinois.

Summer Session Features Husband, Wife Combinations

There are just a few married couples who attend school during the regular school year, but during the summer this number swells.

Many couples return to college to complete their graduate work at the same time and thus receive their advance degrees together.

The Summer Institute of Linguistics has the bulk of married couples this year. There are 19 married couples taking part in the Institute this summer. There are also three engaged couples enrolled.

The Institute is directed by Howard McKaughan who is also the associate director of the Phillippine Branch of the Summer Institute of Linguistics.

Phi Delta Kappa Hears Utah Man

Dr. Roy Willey, professor of educational psychology, college of education, University of Utah, was the speaker at the Phi Delta Kappa, men's professional Education fraternity, meeting Monday at 6 p.m. in the Education Building Auditorium.

He gave a historical review of the development of guidance in elementary education. He also pointed out some of the issues on guidance and made certain recommendations concerning these issues and guidance.

There will be a brief Phi Delta Kappa meeting Monday at 6:15 p.m. in the auditorium of the Education Building for the purpose of considering people for a special initiation. The special Phi Delta Kappa initiation will be held Monday, August 1.

This will be the last initiation this summer and all members should be prepared to submit the names of candidates at the meeting Monday.

HAD DOWNTOWN CLASSES

The University had a downtown music conservatory in 1891-92.

Prepare to Select N. D. Rhodes Scholar Entries in Fall

Plans for the application and selection of students for the Rhodes Scholarship program of this fall are moving ahead satisfactorily. Dr. F. Y. St. Clair, head of the English department and chairman of the state selection committee, made the announcement this week.

There are now two North Dakotans in residence at Oxford under this program. Raymond Dougherty, Warren, Minn., a 1954 University graduate is one and the other is Manver Olson from North Dakota State College in Fargo.

Eligibility requirements for a Rhodes Scholarship are being a single, male citizen of the United States with at least five year's domicile. A candidate must be 19 and have not passed his 25 birthday by the first of October of the year for which he is elected except veterans who may deduct their service time from their age. Candidates must be a junior at some recognized degree-granting university or college by the time of their application.

Candidates are selected on the basis of literary and scholastic ability and attainments, qualities of manhood, truthfulness, courage, devotion to duty, sympathy, kindness, unselfishness, and fellowship, exhibition of moral force of character and of instincts to lead and to take an interest in his fellows, and physical vigor, as shown by fondness for and success in sports.

The value of a Rhodes Scholarship is over \$1,700 a year.

Tourney Contestants To Meet Tomorrow

Because of rain and misunderstanding of schedules none of the tournaments in table tennis, tennis, and golf were run off as scheduled Tuesday. Joel McDonald has asked that all entrants in those tournaments meet with him in the clubroom of the Fieldhouse at 4 p.m. Friday to arrange new schedules.

Launch New Freshman Setup in Fall

The new University College, which will be launched this fall, is designed to provide a program that will insure contact with fields of learning and of ideas which the student will share with others in school.

The new freshman division, which is to be headed by D. J. Robertson, present dean of men, will help students become better oriented to the meaning of study at the university.

The University College has certain requirements which, as emphasized by Dean Robertson, are not the requirements for entry into the University. They are merely the requirements for study during the student's stay in the University College:

In addition to the basic requirements now in effect for freshmen, such as English, physical education and military science, the new college will feature four divisions—humanities, mathematics, natural sciences and social sciences.

Students are required to take at least two courses from the variety of subjects offered by these divisions, with added courses being required depending on the amount of preparation in high school.

Should the student have less than the required background in one of these four groups, his deficiency will be provided for during his first year in school, and in this manner, bring him up to the level of each student in his class.

Requirements for the various divisions for the new college are as follows:

HUMANITIES: Students with less than two years of a foreign language in high school are required to take a year in one of the courses in the Humanities division, which includes such subjects as Living Books, Origins of Western Culture or a foreign language.

MATHEMATICS: Students who have no algebra or plane geometry in high school take one year of mathematics.

NATURAL SCIENCES: Students with less than two years of high school laboratory science take one year of natural science in college.

SOCIAL SCIENCES: Two years in any combination of courses taken in high school or college are required.

In addition, members of the faculty will be assigned to the students as counselors, if possible in or familiar with the student's area of interest. Counselors will meet with the student during freshman week, when a program of studies will be prepared. More conferences will be scheduled during the semester for discussion of academic progress.

"The new University College will provide one office and one dean, whose sole concern is freshmen," Dean Robertson stated, "and will also give the student a time to decide before committing himself as to what field of study will be selected."

D. J. ROBERTSON
Heads University College

Range Wide in Ages Of Summer Students

Students ranging in age from 12 to 79 are enrolled at the University for the summer session, according to a report from the office of the registrar.

At one extreme are two 12-year-old registrants, one boy and one girl, and at the other is a 79-year-old woman. In addition there are one 16-year-old, three 17-year-olds and eight 18-year-olds.

Dominating the enrollment are the 26-year-olds, with a total of 75 registered in that age group. Following closely are the 25, 24, 23 and 20-year-olds, with totals of 74, 66, 58 and 57, respectively.

Latest registration totals, as of July 8, show 702 men and 245 women enrolled at the University for the summer session.

Oral Exams Due Soon For Advanced Degrees

Oral examinations for candidates for advanced degrees may be scheduled any time after completion of the thesis. The cut-off date for oral examinations is July 27, but this date may be extended one or two days, according to the word from the Graduate School.

100 World War II Veterans Enrolled

With the influx of graduate students at the University during the summer, twice the number of World War II veterans are going to summer school than were enrolled during the spring semester recently ended.

A total of 100 World War II veterans are enrolled this summer, as compared with 50 during last semester.

There are 230 Korean veterans during the present term, less than half the number enrolled in the regular term. A total of 550 Korean vets were enrolled last semester.

Prospects for the fall semester look good, with approximately 100 more Korean veterans expected to enroll, according to Miss Lessel Abbot, supervisor of veterans records. About half as many World War II vets are expected.

TELLS OF SCHOOL

A. B. Wabaunsee, summer graduate student, discussed the work of the White Shield Indian school at a session of the Lions club downtown last week. Wabaunsee is principal of the Emmet, N. D., school.

Art Workshop To Close Sessions On Campus Today

"More Fun In Art" is the motto of the Elementary Teachers Art Workshop being held in the Education Building Tuesday through today. Dr. Donald G. Pollock, associate professor of elementary education, is director of the workshop.

Miss Sigrid Rasmussen, art consultant with the Binney and Smith Company, is the instructor. She has had many years of art teaching experience at all grade levels as well as working with teachers in summer schools in Wisconsin State Colleges and Binney and Smith Company in-service art workshops since 1947.

Teachers attending the workshop gain a broader understanding of art education through actual participation and use of materials. The workshop approach of learning by doing includes creative experiences with crayola, chalk, fingerpaint, water color, powder paint, tempera, clayola and paper mache.

Meets With New Education Board

M. F. Peterson, state superintendent of public instruction who is a graduate student on the campus this summer, met in Bismarck over the week-end with the new state board of education.

Established at the last legislative session, the new board assumes duties formerly performed by the scholarship, special education, re-organization and equalization fund boards.

Peterson is executive secretary of the new setup. Other board members are Governor Brunsdale, Attorney General Burgum, Supt. Leonard Havig of Williston and D. B. Allen of Walcott.

SET RELIGIOUS DAYS

March 11 to 14 are the dates set for the annual Religious Emphasis Days during the coming school year.

Far from Home

One of the University's "long ways from home" students this summer is Eric Gajeski of the Canal Zone, a sophomore in SLA. He's shown above partaking in Union patio refreshments, "just like the natives." (Photo by Dick Enger)

Geology Field Trip Slated for Badlands

The badlands area will be the scene of this summer's geology field course. During the first two weeks in September, geology students will take to the rustic way of life, living in tents, cooking over a campfire, really "roughing" it. As of July 12, a total of 21 students have signed up for the field course, which will be under the direction of Dr. Gordon Bell, assistant professor of geology. The course will consist of a series of service mapping expeditions in that area.

Methodist Women End Conference At Wesley Today

Wesley College campus is the site of the twelfth annual Institute of Missions and Women's Society of Christian Service and the Wesleyan Service Guild on which began Monday and lasts through today.

Mrs. James A. Graham, Grand Forks, hostess of the institute said that approximately 100 women from Methodist churches from throughout North Dakota were attending the Institute.

Featured speakers were Miss Jessie Phaff, Methodist missionary to Africa, who related some of her experiences, and Mrs. J. S. Wood, Woodbine, Iowa, who spoke on the topic "Within Two Worlds."

This afternoon the women will devote one hour to the topic "We Do It This Way In Our Society" during which the women will relate things of interest to the others.

Medics Hold Lead In Softball League

Although dropping one extra-inning thriller during the week, the Medics softball team was on top of the heap in the UND summer league at Student press time Wednesday.

The Medics had three wins and a single loss—a 10-8 overtime decision taken by Phi Delta Kappa last week.

Tied for second were Hancock and Phi Delta Kappa, with two victories and two defeats apiece. In fourth place was the Linguistics entry, with one win in four starts.

In the second game last week, Hancock defeated the Linguistics, 17 to 1. Monday night, the Medics took Hancock, 11-7, while PDK outlasted the Linguistics, 10-7.

Another round of games was scheduled Wednesday night.

ICE SHOW CANCELED

The ice show scheduled for July 24 in the Winter Sports Building has been canceled.

UND Represented At Camp Inspection

A highlight of the Army ROTC encampment at Camp Carson, Colo., was a visit Wednesday and today from presidents of participating colleges.

D. J. Robertson, who left Tuesday for Colorado, represented President George W. Starcher at the event. He also will visit the University of Wyoming on his trip.

University students attending the encampment include Bruce Beard, Dale Boelz, Daniel Buckmiller, Richard Danstrom, Merlin Dewing, Curtis Erickson, Robert Gowan, Richard Kidd, Eugene Kidd, David Muralt, Richard Olson, Douglas Rinn, John M. Risan, Walter Schoenwald, Glen Sherwood, Dennis Thomte, Robert Wagner, Aaron Wolf and Robert C. Zejdlik.

Purpose of the camp, which will end August 5, is to give the cadet important experience in every phase of Infantry Company's operation.

U to Hold August Clinic For Young Hockey Players

Forty young hockey players from the Northern United States and Canada will come to the campus for two weeks of intensive training at the first annual Hockey Clinic at the University August 1-13.

The clinic, believed to be the first this side of the Canadian border, will be staffed by Canadian hockey professionals with classes being held in the Fieldhouse and on the artificial ice in the Winter Sports Building, said Glenn L. Jarret, athletic director.

Manager of the clinic will be George P. Vogan, founder of the All-Canada Hockey Schools at Moose Jaw, Sask. and Galt, Ontario. Vogan has been connected with the Moose Jaw Canuck Hockey Club since 1939 and has been president since 1944. Moose Jaw Clubs he has managed have won the Western Saskatchewan title five times.

Clinic instructors will be Mestro Canada championship twice and the Prystai, formerly of the Chicago Blackhawks and the Detroit Redwings, and Emile (The Cat) Francis, who also has played with the Chicago Blackhawks.

Participation in the clinic is limited to boys between the ages of 12 and 18 years. Enrolled in the clinic are players from Massachusetts, Pennsylvania, Michigan, Minnesota, North Dakota and Canada.

Many of the parents have indicated that they will accompany the players here, making the trip a part of their vacation, Jarrett said.

Lectures will be held in the Fieldhouse while scrimmage and demonstrations will be held in the Winter Sports Building. Classes will run from 8:30 a. m. to 8 p. m. The players will be on the ice from 9 to 11 a. m. and from 2 to 4 p. m. daily.

The first week will be spent developing and polishing the fundamentals of shooting, stick handling and passing with instructions in the more advanced phases of hockey play the second week. Films of the Stanley Cup playoffs will be shown during the course of instruction.

Anyone interested in any of the lectures, demonstrations or movies may sit in on the sessions without charge Jarrett said. Registration fee for the regular participants was 75 dollars.

Next summer the athletic department plans to conduct a football clinic with the hockey clinic.

Campus Poll:

What Students Are Thinking

The question this issue, "Why do you like summer session," sounds quite leading, but those who answered all came up with affirmative answers so things can't be too bad.

All had various reasons, but none expressed a negative approach to their summer educational pursuits.

Here are the answers:

Rosendo Apeles, senior in SLA: "I like the summer session because it is short and no time is wasted, and because you can enjoy the weather."

Earl Gangeness, graduate student in school administration: "I like it because it's the end of a long haul for me—I graduate in August."

Willard Kotts, junior in physical education: "I like it because of the older students enrolled who are interesting to meet and talk to."

Robert E. Johnson, senior in journalism: "I think summer school is a good time to pick up extra credit hours and the summer weather is very enjoyable."

Don Seidl, Killdeer, graduate in Education, "I can't think of any reason, but I like it.

Herman Doeling, Bordulac, graduate in Economics, "I may graduate at the end of it."

S. P. Singh, New Delhi, India, graduate in Chemical Engineering; "My only other alternative would be to sit idle and I would like to complete my study as soon as possible."

U Man Studies Ants in West N. D.

Now at work in North Dakota's western Badlands is Dr. George C. Wheeler, head of the University Biology Department, who is collecting specimens of North Dakota ants.

Dr. Wheeler and his wife are in the second summer of a three-season Hill Foundation grant which provides \$9,000 for collecting and studying the state's ants. The Wheelers now have in their collec-

tion samples from 3,000 nests, including from 25,000 to 50,000 preserved or mounted ants.

He hopes to obtain ants from every county in the state but is concentrating on western North Dakota because of the greater variety of habitats there.

One of the world's few Myrmecologists—ants specialists—Dr. Wheeler thinks that agriculture eventually may benefit from his study.

Name Six More New Instructors To Staff for Fall

Six additional instructors have been added to the University faculty for the coming term, the president's office announced Wednesday.

Harry W. Campbell, as instructor in speech, is entering a new position at the school. He has a bachelor's degree in psychology from North Central College, Ill., and received his master's degree from Northwestern University. He taught for two years at Elmhurst College and is just returning from four years of service in the navy.

Taking another new position is James S. Rue, instructor in mathematics, who received his bachelor of science degree from Mayville State Teachers College. He has taught at St. John, N. D., and Mahanomen, Minn., and plans to receive his master's degree from the University in August.

Duane Wentworth, as instructor in mathematics, replaces Philip Rognlie, who will be on leave. He has a bachelor of science degree from Mayville State Teachers College and will receive his master's degree from the University in August. He has taught at Perham, Minn., for the past year.

New additions to the physics department are Kenneth L. Hartt and Van O. Nicolai. Hartt, instructor in physics, replaces Harold Bale. He has his B.A. from the University of Iowa, and will receive his master's degree there in August. Nicolai, assistant professor of physics, replaces Victor Kaufman. He has a B.S., M.S. and Ph.D. all from the University of Illinois. He has previously taught at that institution and while in the navy.

Edward J. O'Reilly, assistant professor of chemistry, received his B.S. from St. John's University, Brooklyn, N. Y., and Ph.D. from the University of Connecticut, where he taught for six years. Dr. O'Reilly has also had two years experience in federal government service as a physical chemist. He replaces Mrs. Shirley Kazeck.

Other new staff members are to be announced later.

'Unionizing'--UND Style

"Unionizing" on the Student Union patio—a popular UND summer pastime—are (left) Joanne Buan, Grand Forks, senior in education who plans to teach home economics, and Ann Campbell, Grand Forks, sophomore in SLA majoring in art. (Photo by Dick Enger.)

● DEDICATION

Continued from Page One)
tion Building will be made by Myron Denbrook of the firm of Denbrook and Wells, Grand Forks, and it will be accepted by George W. Starcher, president of the University.

Musical selections will include "Morning, by Oley Speaks, sung by Mrs. Leonard Clark, soprano, and "Czardos" by Monti, played by Joseph Meidt Jr., clarinetist.

At noon a luncheon in the Student Union Red River Room for out-of-towners and other guests will conclude the event.

Polovitz to Present Convo Recital Today

Today's convocation will feature Michael Polovitz, assistant professor of music here, and a noted woodwind specialist.

The convocation is at 10:15 a. m. in the Student Union Ballroom.

Polovitz will use five woodwind instruments to demonstrate his versatility. His accompanist will be Mrs. L. C. Harrington.

The final convocation of the summer is scheduled July 22, when Marta Becket, noted dancer, will present a survey of dance.

Watch Russ Talks Beneath Summit, Expert Tells Convo

"Watch what goes on BENEATH the summit BEFORE the Big Four conference opens in Geneva July 17."

That was the admonition of Dr. Harold C. Deutsch, foreign affairs analyst, when he addressed a UND convocation session last Thursday.

He pointed to Russia's current wide-scale program of attempting to negotiate separately with as many nations as possible—all the way from Finland to Turkey—so as to be able to confront the Western Powers with as many accomplished facts as possible on July 17.

Dr. Deutsch, who is a Minnesota University history professor when not working on foreign problems for federal agencies, referred to 1955 as a year of great change in foreign affairs and policies.

Most of the men who made headlines in 1954, as well as the incidents that made trouble last year, have been removed, he said. But, he added, the big question for the United States, as it has been ever since 1946, is "where do we go from here with Russia?"

For the first time since giving Russia so much in 1945-46, he said, the United States has something with which to bargain with Russia.

That, he declared, was German rearmament, which the Western Powers have pushed close to reality despite countless and varied threats from the Soviets.

Dr. Elwyn Robinson of the history department presided.

55 Students U Scholarships

Fifty-five students have accepted University general state and alumni scholarships for the 1955-56 school year, the UND scholarship committee announces.

The list includes 43 from North Dakota who will receive the general scholarships, while 12 from North Dakota and Minnesota on the alumni list.

Study in Angles

A "study of angles" is this campus scene, shot by Dick Enger, Dakota Student photographer this summer. It shows two of the University's more familiar landmarks—the bridge over the English Coulee and the 100-foot KFJM radio station tower. The tower is the campus' highest structure; the bridge was built by engineering students a decade ago as a class project. It makes the campus recreation area, so important to summer session students, easily accessible.

142 Apply for Degrees

A total of 142 students have applied for degrees this summer, according to the registrar's office.

This includes 20 from SLA, five in education, one in engineering, 19 in commerce, eight in nursing and 84 from the Graduate School.

The graduate degrees include 17 masters of art, five masters of science, three masters of science in

chemistry, one master of science in engineering, 24 masters of science in education, 34 masters of education, two doctors of philosophy and three doctors of education.

STARTLING STATISTIC

Sixty per cent of America's school children never reach high school.

Authenticity Goal In Preparation for 'Babes in Toyland'

Authenticity is playing an important part in forming this summer's opera, "Babes In Toyland," to be presented in Riverside Park, Thursday and Friday, July 28-29 at 8 p. m.

A 50 by 40 foot stage being built by Leon A. Potter, superintendent of parks and recreation, will have real turf and flowers. Mrs. L. W. Gallagher, painting instructor of the Grand Forks Park Board's craft program, is doing all the sets and costumes.

Kay Vasicek, Grand Forks, is aiding in the dance routines and other speciality routines in addition to playing a principal role.

Hywel C. Rowland, head of the music department and director of the summer opera, also said that real toys will be used as stage props.

Rehearsals are being held almost every evening plus sectional rehearsals at various other times. John E. Howard, director of bands and orchestra, is rehearsing with the orchestra for the opera.

Group Enthusiastic At Dance Institute

A small but enthusiastic group attended the third annual Summer Dance Institute on the campus Monday through Wednesday.

Thirty-two persons were enrolled in the regular course. Mrs. Grace Rhonemus, in charge, was especially pleased with the interest shown in the afternoon ballroom dancing sessions by students who were not regularly enrolled in the course.

Square dancing was held Monday, Tuesday and Wednesday evenings. Robert Figgenshaw of East Grand Forks, instructor at the dance institute, called for these evening dances. The graduate club sponsored the Wednesday evening dance.

AND MORE NEEDED

In 1953, \$11,947,584,000 was spent on education in the United States.

'Raindrop View' of Band

This is the way the UND summer session band looked to a raindrop, coming down, at the group's first concert a week ago. The raindrop and his numerous "friends" resulted in a shortening of the opening program

Band Plays Initial Concert; Next Appearance Postponed

Due to a conflict with the Greater Grand Forks State Fair, the next evening concert of the summer session band has been postponed, Director John E. Howard announces.

The concert will be held an evening during the week of July 25 on the Student Union patio, with the definite date to be announced later.

The band, upholding the old tradition that "the show must go on," played its first concert in between thundershowers on the Union patio last Thursday.

Approximately 100 people were gathered in cars and around the patio to hear the initial concert.

The concert, which was directed by Prof. Howard, was delayed a half-hour due to heavy rain, and attendance was apparently cut by the impending threat of further showers.

The group opened with the "Cardinals on Parade" march, and

continued through a variety of marches, patrols and overtures. Other numbers were the "Jolly Robbers" overture, a tone poem, "Summer Scene," the "Blue and Gray" patrol, a selection, "Mexican Melodies," "The Impresario" overture, the "Parade of the Clowns," the "Auld Lang Syne" march and the "Star Spangled Banner."

U Man to Speak Sunday At Federated Church

Dr. Dale Riepe of the University Philosophy Department will be the speaker at the 11 a. m. service Sunday in the Federated Church, North Fifth Street at First Avenue. His subject will be "The Church's Debt to Heretics." The service will be conducted by Dr. Ross Talbot of the Political Science Department.
