Campus Ready for Holiday

Dr. Hundley to Give Final Faculty Lecture Wednesday

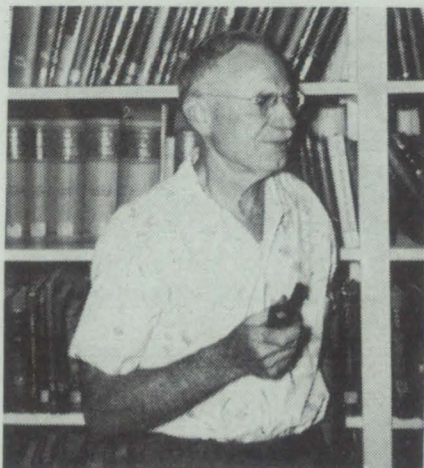

John Hundley, head of the physics department at the University of North Dakota, will give the fifth address of the third annual Faculty Lecture Series for 1956-57 in the Education Building Auditorium next Wednesday at 8 p. m.

His talk, "Future Sources of Power," is the last lecture of the current series and is also a feature of the program of the Summer Institute for Teachers of Science and Mathematics.

J. Donald Henderson, associate professor of physics and director of the summer institute, will introduce the speaker.

Hundley has served two periods at the University of North Dakota. He was instructor of physics, 1921-24, and has been head of the Department of Physics since 1929. He received B.A. and M.A. degrees from the University of Missouri and a doctor's degree from the University of Chicago, where he was a University Fellow in physics.

He has taught at Kenyon College and Tulane University. He was in the army, 1917-18.

DR. JOHN HUNDLEY
Features Future Fuels

Hundley is a member of the American Physical Society and of the American Association of Physics Teachers.

He is past president of the North Dakota Academy of Science and of the North Dakota chapters of Sigma Xi and Phi Beta Kappa. He is listed in Who's Who in America and American Men of Science.

2-Day Recess For July Fourth Gets Official OK

Never kick a gift horse in the mouth.

This statement has never been more appropo than following the official announcement that Friday's classes have been dispensed with. But—they must be made up at a later date.

Previously, Thursday had been the only scheduled "day-off" of the entire eight-weeks session. Now the campus Fourth of July holiday for students and faculty will encompass two days—Thursday and Friday. Classes will be resumed at 7:30 a. m. Monday.

Official and unofficial acknowledgements were accepted that classes would not be held until the Administration council met last Thursday and confirmed the announcement of the two-day recess.

The day may be a holiday for the students and faculty but other University personnel will be at their desks as usual. Administration offices will be open as usual Friday.

Miss Ruby McKenzie, University registrar, said classes will be made up at the discretion of the instructors. This means of course, some Saturday classes may be held in the future.

This announcement dispells any thought of some students staying on campus and studying. Also, it will take students off the hook who were quoted in last week's Student as planning to spend the time in some foreign metropolis, such as Fargo, Bismarck and Detroit Lakes.

Anyway, it adds up to a well-deserved three-day vacation from rigors of studying. To some scholars it may be a continuation of absence from scrutinizing the textbooks.

Drama by Frye Selected

Christopher Frye's "Venus Observed" has been selected as the vehicle for the annual summer play, to be presented July 31 and August 1, Director Henry Lee announced Tuesday.

The play, which is written in semi-poetic language and strong on subtle wit and wordplay, will be presented as a reading. Tryouts for the cast were held Monday, and final selections will be announced later, Lee said.

The play has an aging, but amorous European duke as its central character. The part was first played in England by Sir Laurence Olivier. When it was first staged in America, Rex Harrison and Lilli Palmer had the leading roles.

DRIVE SAFELY!

We want you back when classes start again Monday!

Editorial:

A Lasting Heritage

Tomorrow, July 4, 1957, is the 181st birthday of the signing of the Declaration of Independence.

This document was written by Thomas Jefference, a man ahead of his time. The principles of independence and liberty of individual and nation written so long ago are still a basic tenet in the government of one of the great nations of the earth.

The 4th of July in years past was a time of patriotic spirit and declamation speech making by members of the government. It was a salute those who founded our country. Whole communities and surrounding countryside gathered for speeches, oratorical contests, a picnic, concerts and as a fitting climax, fireworks as dusk fell.

The 4th of July now is just a long weekend with probably a family picnic. There is little or no common observance in memorium or salute. It is more of a chance to sleep late and "get away from it all."

On this 4th of July let us pause to give thought to our heritage, to our freedom. Let us thank our God that we live in a land where liberty can be taken for granted in most ways, and a free speech and press are an integral part of those liberties we do enjoy. —N.H.C.

Campus Poll:

What Students Are Thinking

QUESTION: "What would you do if you heard that a tornado was heading this way and might hit within 30 minutes?"

Maxine Emerson, Senior, SLA: "If I didn't have any time I'd go in the basement, but if I had 30 minutes I'd take a car and go."

Doris Onstad, Junior, SLA: "First I'd get down on my knees and pray that it wouldn't strike us and then hide in the cellar."

Mary Olson, Freshman in Nursing: "I don't know—I guess I'd just look out!"

Bruce Cleveland, Senior, SLA: "—get in the car and go!"

Fred Dezotell, Chief Custodian of Student Union: "My first interest would be in my family's safety then see to my building on the campus."

Roland Flint, junior, SLA: "Get in a tall tree so that I might better observe it."

William Teachmond, graduate, Education: "Get in the northwest corner of a basement and remember Fargo."

Marjorie Alwin, sophomore, SLA: "Go into a corner of a basement from which direction the tornado is coming."

Betty Traud, graduate, Education: "I'd run to the basement."

Betty Wagner, senior, SLA: "I'd go to the corner in the nearest basement."

Joyce Champ, junior, Accounting: "I would just wait."

Jan Grove, sophomore, Nursing: "I'd sit down and think it out."

Al Hillstrom, junior, SLA: Find myself a basement.

Doug Williams, graduate, Speech: "The first thing I would do is look up the kids and then take them to the south west corner of the basement."

Robert Wheeler, graduate, Education: "Go to the basement."

Joanne Bena, sophomore, SLA: "Go to Johnstone and go to the basement."

Don Tuttle, law school mail man: "I wouldn't be around to see it."

Jerry F. DeWitt, professor of History: "Like anyone else,—the basement."

Bulletins

UND Activities

BAND—Rehearsal daily, 1 p.m., Monday through Thursday, Band Room, Education Building, First concert July 17.

MOVIE—7 p.m., Tuesday "Hondo," Student Union Ballroom.

ORCHESTRA—Rehearsals weekly, 7 p.m., Wednesday, band room, Education Building.

ARCHERY CLUB—Regular sessions, 7 p.m., Monday and Wednesday, Room 108, Fieldhouse.

CHORUS — Regular meeting, Room 6 Education Building, 7 p.m., Monday. All summer session students invited.

HOLIDAY—No classes Thursday and Friday.

DEGREE DEADLINE—Any student who intends to get a degree in August must apply in Registrar's Office on or before Monday.

WANT RIDERS—Dean and Leslie Peterson, attending the Summer Institute of Linguistics, desire riders to Fairmont and Minneapolis, Minn., respectively. They will leave Wednesday at 3 p.m. Either can be contacted at 2-2389 or Dormitory C.

FACULTY LECTURE — Next Wednesday, July 10, 8 p.m., Education Building Auditorium. Dr. John Hundley, "Future Sources of Power."

BUFFET SUPPER—Next Thursday, July 11, Student Union Ballroom, 5:30-6:30 p.m.; \$1 for adults, 50c for children; all invited. Entertainment at 6:30 p.m.

SWIMMING — Fieldhouse pool, 4 p.m. daily, Monday through Friday, faculty, students and their families welcome.

Staff:

Published each week during the summer session at the University of North Dakota by students in journalism.

EDITOR, This Issue:
NORMAN H. CRUSE

STAFF MEMBERS: Ralph Rothrock, Joy Thoen, Norman Cruse, Jeanne Lawrence, Judy Ferber, Rosemary Rawson, Carl Emmerich, Harvey Jacobson, Lawrence Spears, Charlene Lohse, Mary Lynn Herrick, Ida Mae Vleck, Ruth Alice Dronen.

ADVISER: Alvin E. Austin.

U Donates Land:

New Water Tank Going Up

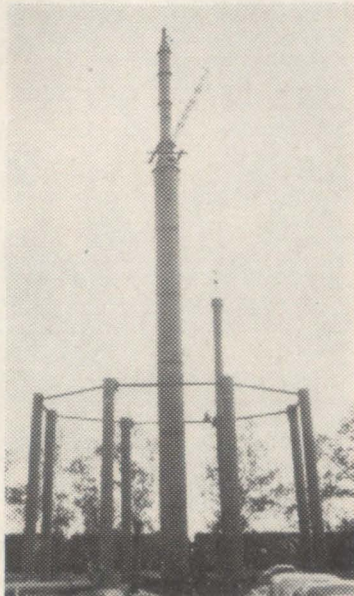

Canadian Education Topic at Institute

The Chicago Bridge and Iron Company, Chicago, Ill., is building a water tank behind the east end of the Winter Sports Building. The University donated the land to the city. The name, University of North Dakota, will be placed on the tank.

The 500,000 gallon tank, second in the city, is intended to boost the water pressure in this end of the city.

This company is the only one in the world to patent and use the guyless rig, according to Sidney Scott, field foreman for the company. The rig works on roller bearings with wires running inside the main pipe. All the work is done on the ground and then raised into position by the rig.

There are 16 sections to the main tank each one weighing 6,200 pounds. There is not one bolt in the whole constructed tank. Every peice is welded, inside and out. That is another amazing fact to this structural steel construction.

NEW WATER TOWER
NOT a guided missile!

Canadian progress in educational institutions was discussed by Frank Harder of St. John's High School in Winnipeg in an address before the Summer Institute of Science and Mathematics for High School Teachers Monday.

The Canadian professor addressed the Summer Institute twice on the topics, "Canadian Reflections on Education Trends," and "Science Education in Manitoba." Tuesday he spoke on "Some Fundamental Thoughts on Chemistry Teaching."

1st Buffet Supper Scheduled Tuesday

A special buffet supper will be held at the Student Union Ballroom, July 11, from 5:30 to 6:30 p. m. for summer session students and faculty and their families. Special entertainment will also be provided.

The menu will include: sliced cold meats, baked ham, fresh fruit plates, cottage cheese, potato salad, home-baked beans, assorted relishes and freshly baked rolls. For desert there will be lemon pie with king-sized meringue. Iced tea and coffee will also be served.

U. S. Official Meets With Classes Here

G. Henry Richert, program specialist from the Distributive Education branch of the U. S. office of Education, is meeting this week with O. M. Hager's classes on Distributive Education. Hager is State Supervisor of Business and Distributive Education.

Richert is assigned to 13 north central states including North Dakota. He works with the states on Distributive Education by meeting with University administrators, business people and trade associations. He is also an author of text books in Retailing and Selling used in Distributive Education classes.

'Hondo' Next Movie On Union Schedule

Next Tuesday's movie will be "Hondo". Starting time will be 7 p. m. in the Student Union Ballroom. Price of admission is 20 cents for adults and 10 cents for children.

Who Dunit?

Snack Bar Has 'Mystery' Drink

Whodunit?

For the price of one thin dime last Friday, the snack bar offered a special, unknown to them.

Someone, they don't know who, put root-beer in the coke dispenser. It added a little pucker to the drink, however. For those who like it that way it was all right.

There is nothing like uncarbonated root-beer and carbonated coke.

Linguistics Group Plans For July 18 Demonstration

Preparation continues for the public demonstration of the Summer Institute of Linguistics, to be held July 18. Seventy-two students enrolled in the courses will participate.

The demonstration is held each year for area residents to become better acquainted with the Summer Institute.

Interpretations of some of the 2,000 unwritten languages in the world will be uttered in sound only.

Overflow Audience Attends Convocation

An enthusiastic overflow audience greeted violinist Shirley Lillehaugen Thomson and pianist Mary Johnson for the opening convocation of the UND summer session Friday. These artists ranged from Mozart through Brahms to Stravinsky in a program which captivated the music-loving audience from start to finish.

The unusually distinguished program pointed up what is really special about this team of performers. Here are players who love to play, and their enthusiasm is infectious. They think more of the music they play than a personal display and the result is sheer delight. We look forward to hearing them again. —J.L.S.

15 Taking Part In Daily Sessions At Art Institute

Fifteen oil painters are presently enrolled in the art workshop being held in the art department, according to Professor L. C. Mitchell, in charge. Students work all day one week for one credit, two weeks for two credits, and three weeks for three credits in the course, which ends July 13.

A lecture by Professor Mitchell is given at 10 a. m. daily and the rest of the day is spent by the students working on their individual paintings. His lectures consist of perspective as applied to painting and with the principles of working in oil.

Professor Mitchell, head of the School of Painting and Allied Arts at the University of Ohio, is a well known artist and his works have been exhibited in many local and national art exhibitions. His landscapes are painted in all media.

12 Medics Receive Research Grants

Twelve University medical students have been selected to work under various research grants this summer. With the exception of one grant, all are for \$600 and consist of 10 weeks of research and study.

The National Institute of Health has provided grants for eight medical students. Working in biochemistry are Wayne Hemphill and Lyle Hillman; in psychology, Dorothy Gray and Betty Soo; and in anatomy, Reinhold Goehl, Bennie Faul, and Leon Bjerke.

Working for the National Institute for Infantile Paralysis are Kenneth Kihle and Robert Welsh.

The Tobacco Industries have provided a \$500 grant for two month's research in bacteriology to Gary Touskin.

Wayne Low is doing work in parasitology for the Lederle Laboratory Division of The American Cyanamid Company.

Scenes at Art Workshop

In the top picture, Professor L. C. Mitchell, School of Painting and Allied Arts, Ohio University, is explaining to Jean Matthews, youngest member of 15 enrolled in the Art Workshop, some of the finer points of painting. Below is pictured Alice Hale, Peggy Klemer and Jean Matthews, left to right, working on paintings in the Art Workshop. In the background is Christine Orvick another member of the class.

They Like Milk, Coffee!

Students Keep Union Eating Unit Busy Buying Food

By JUDY FERBER

One thing about summer session students—they like milk. Over 5,940 half pints of milk are consumed each week at the Student Union. There must be a few coffee drinkers too, because the weekly order totals 200 pounds.

In looking over the Union's Weekly shopping list with Warren C. Norden, Student Union Director, it developed that 96 pounds of butter are spread on 2,240 slices of bread. The Union orders 400 pork chops, 280 pounds of hamburger, 672 slices of bacon, and, on Fridays, 180 pounds of pike.

With the hot summer weather due—if not already here—salads and ice cream are high on the list of favorites. The union serves about 72 heads of lettuce, 90 pounds of cottage cheese, and 40 gallons of ice cream each week.

For those who like their food seasoned (and who doesn't?) 40 pounds of salt must be ordered.

All these figures just go to prove that studying must be pretty hard work and must take a lot of energy, for who else but people with huge appetites consume 60 pounds of spaghetti and 180 pounds of peas a week?

161 at Business Conference

With 161 persons attending, the 10th annual International Business Education Conference was on the campus last Thursday and Friday. Pictures are scenes at the conference. Center: left to right, Donald J. Zueklke, Bemidji, Eben Galder, Bemidji, James Fagerstrom, Southwestern Publishing Co.; Oscar Bergos, Crookston, Donald Anderson, Grand Forks. Right center, Dr. Elvin Eyster, Chairman, Department of Business Education, Indiana University. Top, left to right, Roy W. Poe, Editor-in-Chief, Gregg Publishing Division, McGraw-Hill Book Company Inc.; Mrs. Margaret L. Barr, University; Dr. Eyster; Dr. John L. Rowe, chairman of Business Education department; Dr. M. L. Cushman, Dean, College of Education. Bottom: left to right, Bergos, Anderson, Harold Bohlken, Grand Forks; Mrs. Earl Bute, Wahpeton. Persons from as far away as Alaska attended the meetings. People also came from California, Oregon and a large representation from Canada.

Dr. Rowe Hospitalized By Heart Attack

Dr. John L. Rowe, chairman of the Business Education Department, has been hospitalized by a heart attack, which he suffered Monday

morning, July 1. He will be in St. Michael's Hospital for a few weeks rest. Dr. Rowe's classes are being handled by other members of the business education staff.

26 Law Students Pass Bar Exams

Twenty-six University Law School graduates were among 34 who passed the North Dakota state bar examinations at Bismarck last week.

Only one, Jack D. Paul of East Grand Forks, was not admitted to the practice of law by the Supreme Court. Paul must establish residence in North Dakota before being allowed to practice.

Other UND students admitted to practice were:

Douglas L. Dunahay, Grand Forks; Jon R. Kerian, Grand Forks; Max D. Rosenberg, Grand Forks; David A. Vaaler, Grand Forks; Jerome J. Mack, East Grand Forks; and Donald E. Bjertness, Hatton.

Robert L. Eckert, New Rockford; Roger W. Gackle, Velva; Shelley J. Lashkowitz, Fargo; Robert A. Olson, Hatton; Myron E. Bothun, Crosby; Francis A. Breidenbach, Oakes; Kenneth R. Erie, Minnewaukan; Henry H. Galloway, Valley City; and Kenneth L. Gilchrist, Cando.

Raymond M. Hagen, Aneta; Robert L. McConn, Fairmount; Fabian E. Noack, New Rockford; William J. O'Keefe, Crystal; Paul J. Pfeilsticker, Fargo; Donald E. Phelps, Grafton; Mark F. Purdy, Minot; Kirk B. Smith, Cogswell; Richard B. Thomas, Dickinson; and Frederick E. Whisenhand Jr., Wiliston.

100 Couples Attend 'June Bug Hop' Event

The June Bug Hop was termed a great success by all. Even though some of the people had to dance out on the patio. With approximately 100 couples attending, the Red River Valley Room overflowed. With windows open, the music of John Stone and his Orchestra was piped to the patio.

An added attraction of the evening was the harmonious singing of the Velvetones, a trio of girls from Grand Forks.

ACTS AS DEAN

W. R. Steffen, Wesley College, acted as dean of a high school group meeting at Wesley Acres near Valley City June 18 to 25th.

Administrator Workshop Plans Near Completion

Plans for the sixth annual School Administrators Conference Workshop July 15-19 are nearing completion, according to Dr. Archie Gray, coordinator.

The Monday program will concern "Leadership and the Elementary School Curriculum." Monday morning the keynote address will be made by Dr. Maynard Liljebled,

College of Education, on "The Elementary Curriculum is the Administrators First Responsibility." The afternoon keynote address will be given by Dr. R. F. Hilburn, superintendent of schools, Barstow, California, on "Organization for Curriculum Improvement."

Wednesday's program will be devoted to the discussion of "The Role of Business Education in the Secondary Curriculum." Dr. Vern Frische, New Rochelle, New York public schools, and Dr. Doris H. Crank, Champaign, Illinois public schools, will be the keynote speakers.

Thursday and Friday's sessions will be devoted to the discussion of "Effecting Better District Organization." Speakers include William Butterfield, director of the midwest section of the National Citizens Council for Better Schools; Dean M. L. Cushman, University of North Dakota; State Senator Guy Larson and State Senator Glenn R. Dolan of the Legislative Research Sub-committee on Education.

In addition to the keynote speakers, members of the Legislative Research Sub-committee on Education have been invited to attend.

Phi Delta Kappa and Graduate Club meetings will be held during the week.

Phi Delta Kappa To Meet Monday

"Juvenile delinquency" will be the subject discussed by a panel at the Phi Delta Kappa meeting to be held in the Education Auditorium, 6 p. m. Monday.

Panel members will be a representative from the police department, a juvenile officer, a clergyman and a schoolman. Moderator of the discussion will be Walter Loomer, principal of the Lewis and Clark School of Grand Forks.

Following the panel discussion, the subject will be opened to the floor. The meeting is open to anyone interested in coming.

Students Inspect U. S. Defenses on Minneapolis Trip

Classroom lectures yielded to field inspection of U. S. defense units last Friday and Saturday when the University Aviation Education Workshop toured Wold Chamberlain Field in Minneapolis.

Eight University students and staff members were included in the contingent of North Dakotas who were guests of the U. S. Air Force and Navy for the two-day Minneapolis trip.

Headed by M. L. Cushman, dean of the College of Education, and Melvin E. Kazeck, professor of geography, the group left the Grand Forks airport at 1 p. m. Friday aboard an Air Force plane.

From 3:30-5:00 p. m. Friday, the class toured Navy installations. Following a banquet, the UND group was shown films of Navy procedure and new defense weapons.

Saturday morning the Air Force served as guides and the Workshop class inspected warning stations and AF planes. Following a dinner as guests of the Air Force, the Workshop group was flown back to Grand Forks.

Law Dean Leaves For N. Y., London

O. H. Thormodsgard, dean of the University Law School, leaves Friday for a series of meetings in New York City and London, England.

He will attend the Conference of Commission on Uniform State Laws in New York City Sunday through July 13. From July 14-17, he will attend the American Bar Association conclave in NYC.

On July 17 Dean Thormodsgard will sail for London where he will participate in the second portion of the American Bar Association. Following the London meeting, the UND Law School dean and his wife will tour Europe.

Mrs. Thormodsgard left in June for a visit with her family in France.

Summer Swimming Program Changed

A change has been announced in the summer swimming schedule by Recreation Director John Quaday.

Afternoon swimming will be open Monday through Friday to faculty members, students, and families from 4 p. m. to 5:30 p. m. This change is due to lack of interest by students, he said. The pool will be open next Tuesday at 8 p. m. for students, families and friends. There will be no admission charge for this evening's swimming, an experiment to see if it meets the needs better than the afternoon sessions. All women swimmers are asked to enter the Fieldhouse by the west entrance.

Morning swimming classes have also been changed. Because of the large number of beginner swimmers, this group has been divided into two classes. Section one now meets at 8:45 a. m. and section two at 9:30 a. m. The combined intermediate and swimmers class meets at 10:15 a. m. and the advanced class continues to meet at the regular time.

New Mixer Added To Union Equipment

W. C. Norden, Student Union director, has announced that beginning next Monday a new Sweden Freezer will be used in the Snack Bar. This freezer makes instant, thick chocolate milk shakes in about 10 seconds.

The freezer has a capacity of around 240 milk shakes per hour.

8 Teams Enter Annual Summer Softball League

An eight team softball league was formed last week. A full team schedule was made with play starting Tuesday. The season ends July 25 and the four top teams will be in the playoff held July 30 and August 1. A championship game will be held on August 1.

The eight teams that comprise the league are: Macnie Hall, Medics, Greenshades, Queen City Packers, Phi Delts, Buildings and Grounds, Hancock Hall and Sigma Chi's.

Umpires are needed badly, says Rod Bergen, director of the league. If you think you have the intestinal fortitude you can contact Bergen at the Fieldhouse or call 4-8193. There is also a \$2 incentive per game to go along with the job.

Many Workshops On Schedule

Almost every week during the eight weeks of the summer session, the University is acting as host to a wide variety of workshops.

The school health workshop and a workshop in elementary physical education for classroom teachers were held even before the summer school began.

The aviation education workshop, held in cooperation with the Civil Air Patrol, started with the first day of the session and ends today.

An art workshop now is being held on campus. Several other workshops are still ahead—an administrators' conference, a workshop in human relations, and one in economic education.

80 Students Apply For Advanced Degrees

Advanced degree applicants for this summer total 80. Of these, 75 are for masters degrees and 5 are for doctors degrees. Approximately 38 persons are writing theses at present.

Radio Actives

Ray Andres seems to be receiving all kinds of help from his fellow associates at KFJM. Observing the typing of script is Bruce Bakke and pointing out the errors is Beverly Nelson. All are members of the summer staff.

270 Veterans Swell Summer Enrollment

This summer's record enrollment is due in part to an increase in the number of veterans attending.

In the 1956 summer session, 220 Korean veterans and 3 disabled veterans were enrolled. The 1957 enrollment shows an increase of 48 Korean veterans and a decrease of one disabled veteran making the total 268 Korean and 2 disabled.

Good Progress Reported on New Rehab Center

The new Rehabilitation Center, located just east of the Medical Science Building is nearing completion. Miss Frances Landon, director of the Center, said the plastering is nearly done and the rest of the building is progressing well.

When completed, the Center will be used for the physically disabled. A comprehensive program for rehabilitation will be offered, including physical and occupational therapy, speech and hearing clinics, psychological and sociological services, and a pre-locational testing department.

Miss Landon added that interviews still are being held for positions in the psychological and physical therapy departments. Bids also are being let for offices and technical equipment for the center.

Student Union to Close For July Fourth Holiday

The Student Union will be closed Thursday, Friday and Saturday over the Fourth of July holiday, with regular summer hours resuming Monday morning. Only the cafeteria will be open Sunday, serving breakfast from 9 to 10 a.m., luncheon from noon to 1 p.m., and dinner from 5 to 5:30 p.m.

Pictured at Speech Clinic

Pictured at the right is Dr. Robert W. Albright, visiting professor from NDAC, who is in charge of clinical practice at the summer speech clinic. At the left is a clinical class in progress. Left to right are Rene Berg, Mary Schoenwald, speech therapist, Douglas Louma, James Hanson and Peter Godtland.

Thick, Juicy Steaks Get Top Billing

Lines always look longer from the end—

When there's charcoaling steaks at the other end—

But eventually there's a good solid meal—

And good solid after-meal comfort—

Late Arrivals Put Registration at 100 Over Previous High

With 17 more students enrolling during the past week, University registration for the summer school session reached 1,078.

Miss Ruby McKenzie, UND registrar, said the mark represents 100 more students than the 1947 total of 978, which was the previous all-time high.

Little change was noted in individual colleges. Two students enrolled in Science, Literature and Arts; one in business education, four unclassified or special and 10 in graduate work.

Graduate School continued to set the enrollment pace with 533 registrations, approximately one-half of the total enrollment.

Steak Fry Termed Success:

250 Enjoy Big Tenderloins

Delicious seven-inch tenderloin steaks, sold at restaurants for at least \$2 to \$3, were the main item on the menu at the fourth annual steak fry last Monday night at the picnic grounds on the west Coulee bank.

These juicy steaks, along with generous servings of scalloped potatoes, tossed green salad, assorted relishes, bread and butter, apple and cherry turnovers, and coke and coffee for a drink, were served to over 250 students, faculty members, and families for only \$1.25 per person. The cokes were courtesy of the Coca Cola Bottling Co. in Grand Forks.

Mrs. Cecil Ruud, manager of the cafeteria, was in charge of the all-

school outing. Serving as cooks were Mrs. Bakken and Mrs. Hamilton. Bing Deimer, Robert Jarman, W. C. Norden, and Dorothy Outka fried the steaks. Mrs. Norden took tickets. Marvin Poyzer, head of the Industrial Arts Department, also assisted in serving. Fred Dezotell, building supervisor, had charge of getting things organized before hand.

Following the meal, different sports were enjoyed under the supervision of John Quaday, recreation director, and his assistant, Rod Bergen.

The charcoal burner wagon used to fry the steaks was designed by Norden, Student Union director, and was built by Metal Fabricators in Grand Forks.
