ACADEMIC PAGEANTRY

The pageantry of American colleges and universities, including such ceremonies as commencement, has been inherited from the medieval universities of the 11th and 12th centuries. Academic life as it is known today began in the Middle Ages, first in the church and then in the guilds. The teaching guild was the Guild of the Master of Arts, in which the Bachelor was the apprentice of the Master and the dress was the outward sign of privilege and responsibility.

The ceremony you will witness today will be less formal than would have been the case even a few decades ago. Still, many traditions have been

continued. To maintain continuity with the past, University of North Dakota faculty, the stage officials and the degree candidates will wear academic dress.

Principal features of academic garb are the gown, cap and hood. Early it became necessary for universities to set rules to preserve the dignity and meaning of academic dress. Both Cambridge and Oxford since the 15th century have made academic dress a matter of university control even to its minor details, and have repeatedly published revised regulations. American universities agreed on a definite system in 1895.

ACADEMIC DRESS

THE GOWN

The flowing gown comes from the 12th century. While it originally may have been worn as protection against the chill of unheated buildings, it has today become symbolic of the democracy of scholarship, for it covers any trappings of rank or social standing underneath. It is black for all degrees, with pointed sleeves for the bachelor's degree recipient, long closed sleeves with a slit at the arm or wrist for the master's degree, or full bell double sleeves for the doctoral degree. Bachelor's and master's degree gowns have no trimming. For the doctoral degree, the gown is faced down the front with velvet and has three bars of velvet across the sleeves in the color distinctive of the faculty or discipline to which the degree pertains.

THE CAP

The academic cap is a sign of freedom of scholarship, and of the responsibility and dignity with which scholarship endows the wearer. Ancient poetry records the cap of scholarship as square to symbolize the book. The color of the tassel denotes the discipline. At the University of North Dakota, the tassel colors associated with academic divisions are:

white, College of Arts & Sciences; **drab** (subdued orange), Nistler College of Business & Public Administration; **black and white**, John D. Odegard School of Aerospace Sciences; **light blue**, College of Education & Human Development; **orange**, School of Engineering & Mines; **purple**, School of Law; **green**, School of Medicine; **apricot**, College of Nursing; **black**, School of Graduate Studies & Professional Disciplines. For undergraduate students, the tassels hang on the right side of the cap until they receive their degrees, at which time the tassel is moved to the left. For master's and doctoral students, the tassel hangs on the left side of the cap and is not moved.

THE HOOD

The hood is trimmed with one or more chevrons of a secondary color on the ground of the primary color of the college. The color of the facing of the hood denotes the discipline represented by the degree; the color of the lining designates the university or college which granted the degree. The official colors of the University of North Dakota, selected by the student body in preparation for the institution's first commencement in 1889, are the pink and green of the prairie rose.

CEREMONIAL OBJECTS

THE MACE

The mace was initially modeled after a 12th century implement of war. In earlier days, the mace, or heavy staff, was borne by or carried before a magistrate or other dignitary as an ensign of authority. A mace is placed as the symbol of royal authority on the treasury table in the British House of Commons at the opening of each session and is removed at its close. In the U.S. House of Representatives, it is a rather plain staff mounted in a marble pedestal at the right hand of the Speaker. The mace of the University of North Dakota symbolizes authority to carry out its mission, especially the granting of degrees. Made from the oak of the University's first building, "Old Main," the mace is carried by a marshal during academic processions and is placed at a prominent spot on the stage during commencement.

THE MEDALLION

A medallion or seal of office worn by the head of an educational institution is a practice that also dates to the Middle Ages. In those times, a seal was used to mark documents as official. Possession of the seal was so

important that it was usually worn around the neck for safekeeping. The wearing of the seal eventually became a symbol of authority. One side of the medallion worn by the president bears an engraving of the University's official seal and the names of all former presidents are included on the chain of office.

THE CHARTER

The University of North Dakota was founded six years before North Dakota became a state. The original, handwritten charter, enacted in 1883 by the Dakota Territorial Assembly, is preserved in UND's archives. One facsimile is displayed in the President's Office and another is used at commencements and other special occasions.

THE UNIVERSITY FLAG

The University flag features the UND flame logo set on a white background. The flag is used at ceremonial events and is carried by the honorary faculty flag marshal to lead the commencement procession. The flag is displayed on the stage during the commencement ceremony along with the mace and charter.

THE AWARDING OF DEGREES

The awarding of degrees and academic distinctions listed in this program is contingent upon successful completion of the various program requirements. Commencement ceremonies at UND are planned through Ceremonies & University Events in the Division of Marketing & Communications.

The University of North Dakota is an equal opportunity/affirmative action institution. More information on equal opportunity policies and procedures can be searched at UND.edu.

UNIVERSITY OF NORTH DAKOTA LAND ACKNOWLEDGEMENT STATEMENT

Today, the University of North Dakota rests on the ancestral lands of the Pembina and Red Lake Bands of Ojibwe and the Dakota Oyate - presently existing as composite parts of the Red Lake, Turtle Mountain, White Earth Bands, and the Dakota Tribes of Minnesota and North Dakota.

We acknowledge the people who resided here for generations and recognize that the spirit of the Ojibwe and Oyate people permeates this land. As a university community, we will continue to build upon our relations with the First Nations of the State of North Dakota - the Mandan, Hidatsa, and Arikara Nation, Sisseton-Wahpeton Oyate Nation, Spirit Lake Nation, Standing Rock Sioux Tribe, and Turtle Mountain Band of Chippewa Indians.

COMMENCEMENT SPEAKER

Denise K. Lajimodiere, Ph.D.

Denise Lajimodiere is an award-winning poet, artist and retired educator of 44 years, as well as a three-time graduate of the University of North Dakota.

A citizen of the Turtle Mountain Band of Chippewa Indians in Belcourt, N.D., Lajimodiere was appointed North Dakota's newest poet laureate by state lawmakers on April 5. With the appointment, she became the state's first Native American poet laureate, succeeding Larry Woiwode, a native of Carrington, N.D., who passed away last year after holding the poet laureate title for three decades.

At UND, Lajimodiere studied educational leadership, earning her bachelor's, master's and doctoral degrees.

Through her career in education, she served as an elementary school teacher in New Town, N.D., and as an instructor and eventually principal in Belcourt. In 2006, Lajimodiere became an assistant professor of educational leadership at North Dakota State University, where she worked until her retirement.

Lajimodiere's poetry has been published in four books, "Thunderbird," "Dragonfly Dance," "Bitter Tears," and "His Feathers Were Chains."

And as a nationally recognized expert in American Indian boarding schools, Lajimodiere wrote "Stringing Rosaries: The History, the Unforgivable, and the Healing of North American Indian Boarding School Survivors," which chronicles the atrocities experienced by survivors.

She also published a children's book, "Josie Dances," which follows the story of a young fancy shawl dancer at the Labor Day Pow Wow in Belcourt.

As North Dakota's first Native American poet laureate, and one of only a handful of poets to have served in the post since it was established in 1957, Lajimodiere hopes she can be a mentor and role model, putting on poetry workshops and readings for young writers from underrepresented communities in North Dakota.

She is one of the founders and past presidents of the National Native American Boarding School Healing Coalition, formed to increase public awareness and cultivate healing for the trauma experienced by American Indian and Alaska Native Nations as a result of the U.S. Boarding School era, which lasted from the 1800s until the 1970s.

Plans After Graduation & Experiences Survey

Each semester, a survey is sent to new graduates asking them to reflect on their time at UND and to share post-graduation plans.

Complete the survey to be included in a drawing for a \$250 Amazon gift card - winner drawn one month after graduation.

To participate, watch for an email from UND Career Services with the link.

UNIVERSITY MARSHALS

A UND faculty member, chosen from the ranks of the Chester Fritz Distinguished Professors, carries the University flag and leads the commencement procession.

Honorary Faculty Flag Marshal
Saturday, May 13 — 9 A.M.

Mark Hoffmann
Professor of Chemistry

Dr. Mark Hoffmann has been a UND faculty member in Chemistry since 1988 and was named a Chester Fritz Distinguished Professor in 2006. He served as chair of the Chemistry Department from 2003 to 2010, and recently is also an Adjunct Professor in the Physics Department. In 2018, he assumed the position of Associate Dean for Research in the College of Arts & Sciences. Since Summer 2022, he is the Science Co-Lead of the current NSF EPSCoR grant.

His expertise is in the development of new theoretical methods to describe quantum effects in molecular electronic structure, and the computational implementation and use of those methods for describing reactive and unusually bonded molecules. Of long-term interest are molecules relevant to combustion and atmospheric chemistry, and the elucidation of the behaviors of catalysts of energy relevance. More recently, he has begun to study mechanochemistry effects in the binding of membrane proteins in cancer cells to the extracellular matrix.

He has authored more than 110 papers in peer-reviewed journals, is a frequent invited speaker at national and international meetings, and sits on the editorial boards of 2 journals. He has mentored 20 UND PhD students. Hoffmann was elected a vice president of the International Society of Theoretical Chemical Physics in 2016 and continues to hold that position. In January 2022, he was named a Fellow of the American Association for the Advancement of Science (AAAS).

Honorary Faculty Flag Marshal
Saturday, May 13 — 2 P.M.

Cindy Juntunen
**Dean of Education &
Human Development**

Dr. Cindy Juntunen, Chester Fritz Distinguished Professor of Counseling Psychology in the College of Education and Human Development.

Juntunen joined the UND faculty in 1994, in the Counseling and Counseling Psychology programs. She was named Chester Fritz Distinguished Professor in 2015, and in 2016 assumed the role of Dean of the College of Education and Human Development. Juntunen is a Fellow of the American Psychological Association and has served on numerous national and state boards and committees in psychology. Juntunen is active as a national leader in the training and education of psychologists and counselors, and her work has been recognized with several teaching and leadership awards. Her scholarship focuses on vocational psychology, the impact of poverty and socioeconomic status on work attainment, and rural behavioral health issues and access to care.

She also serves as Co-Director of the Mountain Plains Addiction Technology Transfer Center and Director of the State Opioid Response - Technical Assistance serving Region 8 (North Dakota, South Dakota, Wyoming, Utah, Colorado and Montana).

UNIVERSITY STUDENT MARSHALS

A tradition since the early years of the University of North Dakota, students serve as the honorary marshals and ushers for commencement exercises.

STUDENT HONOR MEDALLIONS

Honor Medallions are earned by candidates for the bachelor's degree who have at least 50 graded hours from the University of North Dakota and achieve a scholastic average of 3.50 (cum laude), 3.70 (magna cum laude), and 3.90 (summa cum laude) in courses completed at the University of North Dakota. For the purpose of the commencement program and publication, honors are based on the UND grade point average at the end of the previously completed term. Once final semester grades are recorded and the degree has been cleared by the college, grade point averages are recalculated and final graduation honors are recorded to the transcript and diploma.

SPECIAL NOTICES

Whether the individual is the first or last to receive a degree in the graduation ceremony, the conferring of that degree is a very special event for every graduate and family. To this end, it is requested that everyone remain seated until the conclusion of the commencement ceremony.

PHOTOGRAPHY

The University has contracted the services of The Grad Team for all commencement ceremonies. The service will provide each graduate access to a photo taken when accepting congratulations on stage and a posed photo. Graduates will see their proofs via email a few days after the ceremony.

View and order portraits at thegradteam.com/UND.

Customer Service: call 1.800.482.0321 or email help@thegradteam.com

SOCIAL MEDIA

Send a virtual message to your graduate by posting to Twitter or Instagram using #UNDproud. Your post may appear on UND.edu!

WEBCAST

UND provides a live stream video of the commencement ceremonies to allow family and friends to participate, even if they cannot attend in person.

The ceremonies will be streamed live on UND's website (UND.edu) and UND Facebook page. Free video downloads of the ceremonies will be available on UND's Vimeo channel at vimeo.com/uofnorthdakota a few days after the ceremonies.

THE MACE OF THE UNIVERSITY

The ceremonial mace was first a practical weapon intended to protect the king and borne by the Sergeants-at-Arms, a royal bodyguard. The history of the civic mace begins about the middle of the 13th century. Since about the 15th century, universities have displayed a mace as a symbol of both internal authority and the independence of the scholarly tradition.

The mace of the University of North Dakota came into being at the direction of George W. Starcher, president from 1954 to 1971. In 1963 he approached Alvin Rudisill, chairman of the Industrial Arts Department, with the idea of creating a mace with materials from "Old Main," UND's first building. Condemned for decades for its severe structural deficiencies, Old Main was being demolished as administrative offices had moved to the newly completed Twamley Hall.

Rudisill turned to one of his students, Dennis Kulas, who was also pursuing a minor in art. Kulas crafted a mace in wood and then a second, when some thought the first might be too heavy for ceremonial use. The first one is the mace that has been carried at the front of all commencement ceremonies since.

Kulas explained the artistic ideas he incorporated into his design:

"The theme used for making the mace was like a drop of water falling into a body of water, its effects sending out ripples throughout the water. Likewise, a little learning affects everyone by sending out knowledge to all four corners of the Earth, hence the design. The globe: symbolizing the Earth. The rings: symbolizing a drop of knowledge ever spreading throughout the Earth. The four spikes: emphasizing the four corners of the Earth."

The second mace used the same theme, but the globe was hollowed out to make it lighter by using recessed rings.

CHESTER FRITZ DISTINGUISHED PROFESSORS

Steven Light & Kathryn Rand

Steven Light, professor of Political Science & Public Administration, and Kathryn Rand, Floyd B. Sperry Professor of Law, are the co-founders and co-directors of the Institute for the Study of Tribal Gaming Law & Policy at UND. Both joined the UND faculty in 2000.

Light and Rand are widely regarded as the nation's leading and most prolific academic experts on "Indian gaming," having published three books and dozens of articles on the topic. Their work has examined the law, policy, business and politics of tribal casinos, and has helped to lay the legal foundation for a multi-billion-dollar industry that has significantly improved the economies and quality of life for American Indian communities.

Their co-authored books – considered the gold standards in the field and used in university and law school classrooms throughout the U.S. – include "Indian Gaming & Tribal Sovereignty: The Casino Compromise," which was featured on C-SPAN's Book TV. Light and Rand are credited with launching tribal gaming law and policy as an academic area of specialized study.

In 2022, Light and Rand were Inaugural Visiting Professors in the Indian Nations Gaming & Governance Program at the University of Nevada, Las Vegas, where they also were Senior Distinguished Fellows in Tribal Gaming at the International Center for Gaming Regulation. Both are frequent media commentators for leading news outlets, such as The New York Times, Wall Street Journal, Washington Post, Boston Globe, National Public Radio, and Indian Country Today. Together, they have delivered invited lectures at Boston College, University of Manitoba, Stanford, University of Helsinki, University of Macau and numerous law schools.

Light and Rand have testified twice on Indian gaming regulation and oversight before the U.S. Senate Committee on Indian Affairs in

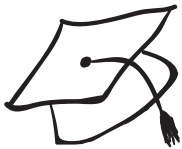

Washington, DC, as well as before the Sycuan Band of the Kumeyaay Nation. They have shared their expertise with such diverse audiences as the NCAA, industry professionals, and tribal, federal, state, and local leaders and officials.

Light and Rand each have extensive leadership portfolios at UND. Light served as interim dean of UND's Nistler College of Business & Public Administration (2017-18) and the College of Nursing & Professional Disciplines (2013-14). He also was associate vice president for Academic Affairs (2011-17) and associate provost for Undergraduate Education (2010-11). Rand served as dean of the UND School of Law from 2009 to 2018 and was the first woman to hold that position. She also served as the law school's associate dean for academic affairs and research (2004-09) and interim director of the Northern Plains Indian Law Center (2003-04).

Light and Rand were previously jointly awarded the UND Foundation/McDermott Award for Excellence in Teaching, Research or Creative Activity, and Service.

In the Nistler College of Business & Public Administration, Light teaches American government, public organizational leadership, American Indian politics and the senior capstone in political science. Light's research also focuses on higher education leadership, teaching and learning, and voting rights, race, and representation, including his book, "The Law is Good." He is a five-time faculty award winner in his College, a six-time UND Presidential Scholars "Faculty Star," and was a nominee for CASE/Carnegie U.S. Professor of the Year.

At the School of Law, Rand teaches in the areas of constitutional law, civil rights, Indian gaming law, and professional skill development. Rand also has published on academic leadership and diversity and inclusion in legal education. She is an elected member of the American Law Institute and serves as a vice president of the International Masters of Gaming Law.

CHESTER FRITZ DISTINGUISHED PROFESSORS

The Chester Fritz Distinguished Professorships were established with an endowment gift from the late UND benefactor Chester Fritz, 1892-1983. Revenue from the endowment provides for cash stipends to one or more full-time UND faculty members, who thereafter may use the title “Chester Fritz Distinguished Professor.” Nominations are solicited from members of the Vice President for Academic Affairs Academic Cabinet and the Chester Fritz Distinguished Professors; these are evaluated by a committee chaired by the graduate dean and composed of three Chester Fritz Distinguished Professors and faculty representatives from each academic college not represented by a Fritz Professor. The recommendations are reviewed by the Vice President for Academic Affairs and forwarded to the President for final decision.

Chester Fritz attended UND from 1908 to 1910. He became an international trader in precious metals and lived most of his life in China and Europe. In establishing the endowment for the professorships — just one of his many gifts to UND — as an “investment in the future of my Alma Mater and of the people who make the future what it shall be.” He added, “I am especially indebted to the fine teachers who, in the end, have determined in large measure, how well I was able to learn and to use the knowledge that the University of North Dakota could provide.”

HONORARY DEGREE

Werner G. Nistler Jr.

Werner G. Nistler Jr., founder and chairman of Touchmark, is an entrepreneur, philanthropist and 1968 graduate of the University of North Dakota.

Born and raised on a farm near Golva, N.D., Nistler credits his farming experience and upbringing for the work ethic and skillset he has used to be successful in business. While at UND, he worked full-time at Smith Hall cafeteria, eventually becoming student manager, a position he held until graduation.

After earning a Bachelor of Science in Accountancy from UND in 1968, Nistler went on to earn a master's degree from Arizona State University and honed his business acumen as a Certified Public Accountant in Portland, Ore.

In 1980, Nistler founded Touchmark, a company specializing in developing and operating retirement communities. He served as the company's CEO for 35 years and now serves as its chairman. His wife, Colleen, is vice chairperson of the company, which

owns 15 full-service senior living communities in 10 states, including North Dakota and one Canadian province.

Nistler has served on bank and charity boards and has started many other successful businesses, including Amatterra Wines in Portland.

In recognition of the Nistlers' continued support of education in North Dakota, the North Dakota State Board of Higher Education voted to name the UND College of Business & Public Administration after the couple, who financially supported the construction of the building that would eventually be named Nistler Hall.

Nistler was inducted into the UND Accounting Hall of Fame in 2017 and received a Sioux Award from the UND Alumni Association & Foundation in 2020, recognizing his achievements in business and service to others. He is also the 2018 winner of Ernst & Young's Entrepreneur of the Year Award for the Pacific Northwest Region.

HONORARY DEGREES AWARDED

Honorary degrees have long been awarded by institutions of higher learning to recognize lives of achievement. In 1909 UND presented its first honorary degree, a Doctor of Laws, to Webster Merrifield, who served the University for 25 years, including 18 as its third president.

Honorary degrees from UND particularly recognize those with an association with the University or with the state and region.

UND HISTORY

Ground Breaking Ceremony

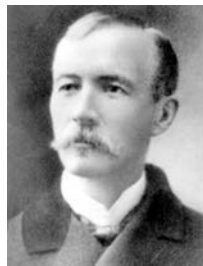

With help from more than 150,000 proud alumni, UND's traditions have endured for more than a century. Our history is colorful and diverse. From educators to political leaders and astronauts, our alumni credit UND for their successes. Here are some facts:

- UND was founded in 1883 by the Dakota Territorial Assembly — six years before North Dakota became a state.
- The cornerstone for Old Main — UND's first building and where the Eternal Flame in the Old Main Memorial Plaza now stands — was laid in the fall of 1883.
- As part of its evolution into a full-fledged, multi-purpose University, UND added research and the instruction of graduate students (the first master's degree was awarded in 1895) before the end of the 19th century.
- Four faculty members met the 11 students who entered the University on opening day, September 8, 1884.
- Three U.S. Presidents have visited campus: Franklin D. Roosevelt, John F. Kennedy, and Ronald Reagan.
- The first class of eight students graduated on June 13, 1889.
- Unlike most state institutions of higher education west of the Mississippi, UND did not begin as an agricultural school or as a teachers college. It was organized initially as a College of Arts & Sciences, with a Normal School for the education of teachers.

THE FIRST COMMENCEMENT

The following is excerpted from University of the Northern Plains, the history of the University of North Dakota written by Louis G. Geiger and published in 1958 as part of the University's 75th anniversary celebration.

A major milestone in student affairs, as well as in the University's history, was the graduation of the first college class in 1889. A faculty committee was appointed in February to plan the exercises. In April the student body met and chose the school colors, the pink and green of the prairie rose, "suggestive of our green prairies and rosy prospects." On June 13, a cool, fair day, the ceremony began at ten o'clock in the University assembly hall, which had been decorated with flags and flowers and a large "89" centerpiece. A capacity crowd of students and spectators (perhaps as many as 250) was on hand as the graduates — "the ladies ... dressed in white" and "the gentlemen ... neatly attired" — marched to their places on the stage to the accompaniment of music by [W. W.] Hall's Cadet Band. Special guests were the Regents, H. M. Mellette, governor of the Territory, several other territorial officials [North Dakota did not attain statehood until November 2, 1889], and Nehemiah Ordway, who as governor had signed the organic act of the University. [President Homer B.] Sprague presided and introduced the speakers. Mellette observed that it was a "Red River letter day." Ordway spoke with pride and feeling on the University's founding. One of the Regents relieved the occasion with a touch of unconscious humor when he explained: "As to the faculty we have done the best we could with the money at hand." Following the official commemoration of the occasion, the main part of the program began; there were essays and orations presented by each of the eight graduates, six from the college and two from the four-year normal course; Frances M. Allen (B.A.), Clinton S. DeGroat (B.S.), Ben E. Ingwaldson (B.S.), Cora Smith (B.S.), Marie Teel (B.S.), May Travis (B.A.), and Genevieve Arnold

The University of North Dakota graduated its first class on June 13, 1889. Seated: Frances M. Allen, B.A.; May Travis, B.A.; Genevieve Arnold, Normal Certificate; and Marie Teel, B.S. Standing: Irene Mares, Normal Certificate; Clinton S. DeGroat, B.S.; Cora Smith, B.S., and Ben E. Ingwaldson, B.S.

The Main Building and Ladies' Hall (later Davis Hall)

and Irene Mares (normal certificates). The orations, on current as well as literary and moral subjects, were printed in full in the Grand Forks newspapers.

Three of the college graduates were from Grand Forks; none had come from farther than Hillsboro. Not one had been born in North Dakota; Ben Ingwaldson had been born in Norway. In the class of 1890, of seven college graduates, four were from Grand Forks, three were women, and six took the science degree. A considerable proportion of the early graduates entered medicine, law, or teaching. Cora Smith, a member of the first class, took a degree in medicine at Boston University; Mary Crans of the second class completed the course in dentistry at the University of Michigan. Ben Ingwaldson went on to the University of Minnesota law school. North Dakota's first appointee to West Point, Joseph Travis, graduated in the class of 1890.

Congratulations and Best Wishes

The University of North Dakota is proud to recognize the accomplishments of its graduates and to extend best wishes to them, their families and loved ones.
