PREFACE

This eighteenth volume of the Work Papers contains notes and research papers representing a variety of interests. There are notes on linguistic theory from 2 or 3 viewpoints. There are research papers on Mayan, Creoles, Choctaw, Mikasuki Seminole, Sangil, Magindanao, and the languages of Vietnam.

This volume has more papers contributed from outside North Dakota than most previous volumes, and it is hoped that the Work Papers series can serve as a forum for discussion and preliminary airing of thoughts on linguistic theory and practice. The reader's attention is drawn to the notes on forthcoming titles.

An index to Vols. 1-17 (1957-1973) is included in this volume.
