# Music Camp Enrolls 1,200

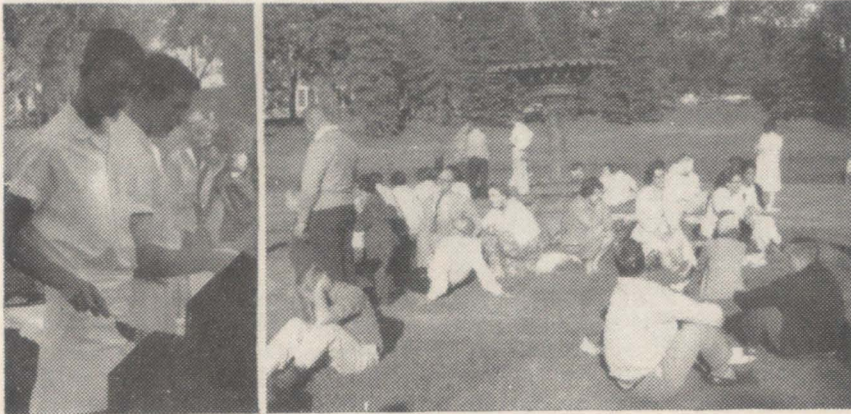

## The Dakota Student

SUMMER SESSION

FRIDAY, JUNE 22, 1962

NUMBER 2

### 452 Answer 'Burgers' Call

—Dakota Student Photos by Jim Penwarden

This was the scene as Summer Session students and faculty members took time out from their studies for relaxation with their families at the all-University hamburger fry Tuesday evening. The Student Union staff served 452 persons at the event, for which the weatherman called off his rain threats and provided sunny skies and a pleasant temperature. At the left, Ron Bohn and Tom Welch tend to the frying 'burgers.

## Woman War Correspondent Talks on Campus Tuesday

Reader's Digest War Correspondent, Miss Dickey Chapelle, will be the first summer convocation speaker.

To be held in the Student Union Ballroom, the convocation will be Tuesday at 7:30 p.m. The public is invited to her talk on "The Reality of Terror."

Since 1942, when she was the youngest accredited front line correspondent, Miss Chapelle has been through two decades of world crisis.

She has reported from Hungary, Lebanon and Viet Nam, besides other military operations.

Miss Chapelle received the George Polk Memorial Award from the Overseas Press Club for "the best reporting, any medium, requiring exceptional courage and enterprise abroad." She is also the author

DICKEY CHAPELLE

of a best-seller book, "What Is a Woman Doing Here."

## 4-Week Program To Open Sunday At Peace Garden

Over 1,200 persons from the United States and Canada have enrolled for participation in the 7th annual International Music Camp and Music Directors Workshop which starts Sunday at the International Peace Garden on the border between Manitoba and North Dakota. This enrollment sets a new record.

The camp, which ends July 22, is affiliated with UND.

New facilities in the form of a new music hall, a new dormitory wing and seven new practice huts will help to accommodate the record enrollment.

Climaxing the event will be a European tour by the International Music Camp band comprised of 70 selected players.

Four sessions make up the camp program. The first two will be devoted to band and baton twirling. The third will consist of orchestra, chorus, piano and organ activity. Musical drama, ballet, modern dance and art will be covered in the fourth session.

Seminar discussion, instrumental clinics, reading of new materials and private instruction will be offered for the directors.

**Band, orchestra, chorus, dance band, baton twirling, piano, organ, art, musical drama, private lessons, and voice classes will be available for the students.**

College credit will be offered to directors enrolling in courses approved by UND.

Emeritus Professor John E. Howard will be the University representative and will serve as seminar coordinator.

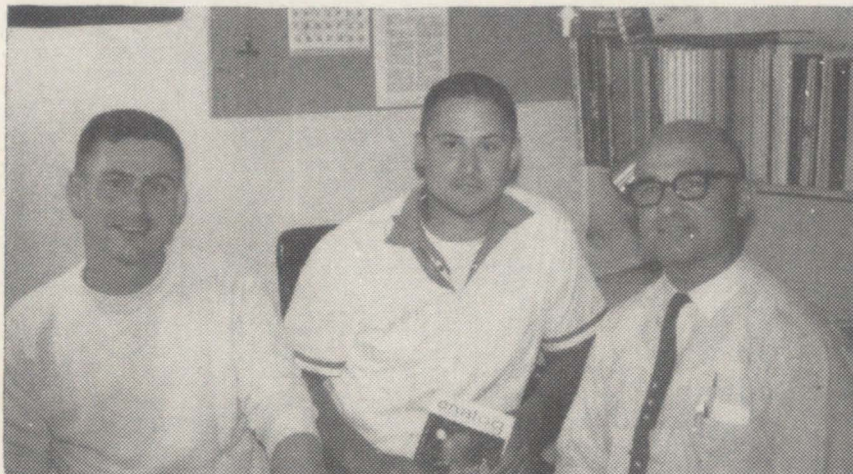

### NOTICE

If you intend to be a candidate for a degree at the August 4 Commencement, apply now at the Registrar's Office. July 5 is the deadline for these applications.

*All in the Family!*

## Father, 2 Sons Join For Summer of Study

—Dakota Student Photo by Lois Reiser

In the study of their Tennis Village residence are John Campbell, far right, and his sons, Bruce, far left, and Jan.

By LOIS REISER

Having someone in college is no novelty for the John Campbell family of Crary, N. D. In fact, three are on campus right now.

Campbell and his eldest son, Jan, 27, are in graduate school and Bruce, 24, is a freshman.

## Yoder to Direct July 10 Concert

Combining for a July 10 concert will be the University of North Dakota Band and the Grand Forks city band, Michael Polovitz, UND band director, said.

The concert, which will start at 7:30 p.m., will take place on the Student Union patio.

Paul Yoder, a 1930 UND graduate and now "a nationally known figure in composing and arranging," according to Polovitz, will conduct the concert.

Yoder now lives in Fort Lauderdale, Fla. He will come here from the International Music Camp at the International Peace Garden.

He was awarded an honorary doctor's degree during UND's 75th anniversary observance.

Not only that, three more of the ten Campbell children are also going to college. Tamara, 22, is in nurses training in Sarasota, Fla. Clark, 23, will be a junior next fall at Dickinson State Teachers College and Jim, 19, will be a sophomore at Bottineau State School of Science.

Another son, Jon, 21, is in the Navy as were his father and three older brothers. The remaining four children, Brenda, Judy, Jean and Roger are at home with their mother in Crary.

The family shares an interest in the education profession, also. Campbell and Jan are in the same classes in School Administration and Bruce is in elementary education.

Campbell is with the Crary school system and coaches basketball, a favorite activity which he calls "frosting on the educational cake."

He has taught in North Dakota 11 years, and coached several of his sons at schools in Sentinel Butte, Hannah and Haynes. One Haynes team went to the State Class C Tournament.

The Campbell family likes North Dakota, definitely preferring it to the larger cities in Indiana and Ohio where they formerly lived.

## English Educator Talks Next Week To Science Institute

Herbert F. Broad, headmaster of the Cedars School, Leighton Buzzard, Bedfordshire, England, will be the next lecturer in the Summer Science Institute series. He is under the auspices of the American Association for the Advancement of Science.

Broad will speak in Abbott Hall Auditorium Monday, Tuesday and Wednesday at 1 p.m. each day. The lectures are open to the public.

The organization of education in England with special reference to the field of secondary education, the physics course in the English grammar school, and lectures and demonstrations on teaching physics in England will be his topics.

Broad received his B.Sc. at London University and M.A. at Cambridge University.

Dr. William F. Kieffer, editor of the Journal of Chemical Education, College of Wooster in Wooster, Ohio, spoke last week on "Chemistry is what Chemists do" and "Elements from Aristotle to Seaborg."

Most future lectures will be held in the Abbott Hall Auditorium and all are open to the public, according to Dr. J. Donald Henderson, director of the institute.

Other lecturers this summer include Dr. Richard M. Sutton, professor of physics at the California Institute of Technology in Pasadena, Calif., who will speak on demonstrations in Physics July 11-13.

Dr. David Dineley, professor of Geology at the University of Ottawa in Ottawa, Canada, will speak on "First Vertebrates— Fossil Vertebrates from North America and Europe" and "The Palaeontological Clock" July 17-18.

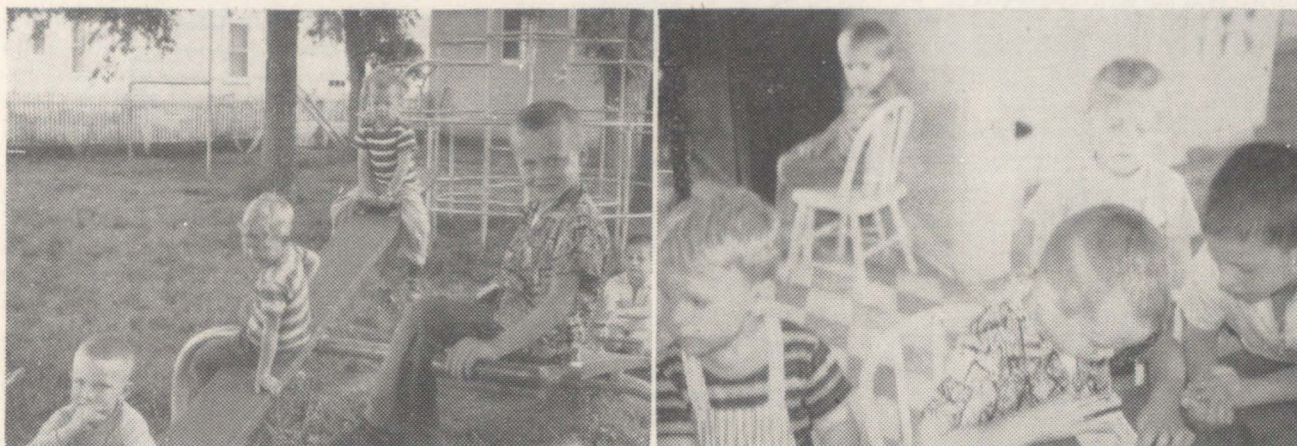

A discussion on the Physical Science Study Committee and progress in physics will be topics, July 19-20, of Ben N. Peacock, PSSC representative for Educational Services, Inc., and Macalaster Scientific Corporation, from Wauwatosa, Wisconsin.

Effective Use of Demonstrations in Teaching Science will be the topics, July 24-25, of Denman C. Evans, Arts and Science Extension, Oklahoma State University, Stillwater, Oklahoma.

*Campus Tots Keep Busy:*

# Youngsters Go to School Too--Play School!

—Dakota Student Photos by Lois Reiser

Stopping a minute for the photographer in the picture at the left are (left to right) Mark Crase, Chet Stendal, Seth and Kent Allen and John Foster. They are "teetering" in the yard behind the Nursery. In the other photograph, busy finding themselves on a picture the photographer just took are, front, Billy Andrews, Kent Allen, Sharon Stendal and John Foster. Harold Goehring in the background, looks a little envious.

**By LOIS REISER**

While Mommy and Daddy are busy studying and translating languages, junior is busy going to school, too — the University Play School, that is.

Children of participants of the Summer Institute of Linguistics, from a few weeks old to school age study the physics of a slide and teetertotter at the University Nursery, on loan to the Institute, near the Winter Sports Building.

While their vehicles (strollers and little red wagons) are parked outside in a neat row, the children are inside at the sandbox, little chairs and tables or in cribs or playpens. Others venture outside to the climbing bars, slide, swings and teetertotter.

Children from school age up to 11 years old have supervised activities at Davis Hall. Besides outside games and activities, handwork

and Bible study is conducted in the club room there.

A total of 45 children are enrolled in the two sessions, under the direction of Mrs. Neva Andrews. Teenage girls working at the Nursery are Heather, Bonnie and Janet Speirs, Gail Dougerty, Roberta Longacre, Jean Andrews and Angela Robinson. Most of them are daughters of Linguistics Institute staff members.

## 3 Graduate Fellowship Winners Named

Announcement of three graduate fellowship and scholarship winners at the University of North Dakota for the 1962-63 academic year has been made by Dr. C. J. Hamre, dean of the Graduate School.

Thomas Nielson, Grand Forks; Richard Olson, New Rockford; and Rolfe Sobolik, Rolla; received Board of Higher Education Scholarships which cancel the incidental fee for the year.

Nielson and Olson were also winners of \$1,000 Chester Fritz Graduate Scholarships. Sobolik received an Alumni Fellowship of \$500.

Nielson, a 1962 UND graduate, will work toward a master's degree with a physical education major and an education minor.

Olson, a 1961 UND graduate, will

**Graduate Scholarship winners for 1962-63 are (from left to right) Thomas Nielson, Richard Olson and Rolfe Sobolik.**

do graduate work in chemistry. He was a graduate teaching assistant in the UND chemistry department during the past year.

Sobolik is also a 1961 UND graduate. He will work toward a master's degree in accounting.

## Science Institute Group Takes Flying Trip to Twin Cities

Participants in the Summer Institute for High School Teachers of Science and Mathematics were touring facilities at the U. S. Naval Air Station and Wold Chamberlin International Airport, both in Minneapolis, this morning.

Forty-five persons made the trip, according to J. Donald Henderson, Director of the institute and coordinator for the trip. They left Thursday afternoon aboard a U. S. Navy plane and will return late today.

Thursday evening the group stayed at the Bachelor Officers' Quarters at the naval station.

# Lecturer Favors Science In Elementary Schools

By **LOIS REISER**

High school science teachers should be taught to teach science to children in elementary schools, said Dr. Harold E. Tannenbaum in a lecture on Science in the Elementary Schools Wednesday.

Speaking to an audience of more

## Driving Workshop Meets Saturdays

By **BRENDA OLAND**

A Driver Education Workshop with emphasis on driver qualification, psycho-physical tests, written tests, behind-the-wheel instruction, road tests in traffic, skill developing exercises and the administration of driver training programs is now in session on the University campus.

The workshop, which began last Saturday, will meet on the next five Saturdays through July 21, enabling participants to receive American Automobile Association certificates qualifying them to teach driver education in any state.

The workshop is sponsored by the American Automobile Association, the North Dakota Automobile Club, UND and Mayville State Teachers College. Director is A. B. Holm of Mayville State Teachers College.

The sessions will be from 8 a.m. to 5 p.m. Saturdays. Three undergraduate quarter credits are available for the course through the Mayville school.

## Family-Style Buffet Supper Set Wednesday

The first of two family buffet suppers scheduled this summer will be held in the Student Union on Wednesday. All students and faculty are invited.

Serving of the smorgasbord style supper will begin at 5:30 p.m. Prices are \$1.50 for adults and 75 cents for children. The second buffet supper will be July 17.

than 100 persons in the Abbott Hall auditorium, Tannenbaum also outlined a six-year college program for elementary teachers he felt should be started.

Comparing teacher education with medical education, Tannenbaum said a third of the first four years should be spent on each of the subjects of science, humanities and social sciences. The fifth year would include philosophy, psychology, sociology, methodology, observation and participation. Internship would be done the last year.

Three factors, he said, were determinants in our society concerning science education. These were that we were a democratic, science-oriented society, that 95 per cent of all the scientists who ever lived are living today and that we must maintain a perspective on the importance of science.

Concerning specialized, intensified science programs, Tannenbaum said "Enrichment must be for all children—not just five or ten per cent.

Tannenbaum cited a well-known science instructor who recently toured 100 schools and found that science programs had become lecture courses, that we are mixing up facile learners with able learners, and that teachers were trying to put more factual information on science in courses. The latter, he said, was due to the tremendous growth of scientific knowledge in recent years.

### NEWMAN SCHEDULE

The summer schedule at the Newman Center includes daily mass at 5 p.m. and Sunday Mass at 7:45, 9, and 10:15 a.m., and 5 p.m. according to Father Branconnier.

*Staff:* ~~~~~

### THE DAKOTA STUDENT

Published each week during the Summer Session at the University of North Dakota by students in Journalism.

**STAFF MEMBERS:** Jim Penwarden, Lois Reiser, Lynnell Garrett, Anne Hays, Wes Christenson, Gerald Haga, Ralph Molinaro, Brenda Oland.

**ADVISER:** Prof. Alvin E. Austin.

## Bulletins

### UND Activities

**DEGREE DEADLINE** — July 5 is the last day to apply for degrees to be awarded at the August 4 Commencement. If you intend to be a candidate, apply for the degree at the Registrar's Office.

**LECTURE** — Public is invited to hear Summer Science Institute lecturer, Herbert F. Broad of England, Abbott Hall Auditorium, Monday, Tuesday and Wednesday, 1 p.m. each day.

**CONVOCATION** — 7:30 p. m. Tuesday, Student Union Ballroom, Miss Dickey Chapelle, Reader's Digest foreign correspondent.

**BUFFET SUPPER** — 5:30 p. m. Wednesday, Student Union. Family Night, \$1.50 for adults, 75c for children.

**GRADUATE CLUB**—8 p.m. Wednesday, main lounge, Student Union. Mixer, all graduate students invited.

**NO PARKING** — Parking is prohibited on the campus drive (the loop) including evenings and weekends.

**SWIMMING** — Fieldhouse pool, 3 to 5:30 p.m. Monday through Friday, and 6:30 to 8 p.m. Tuesdays, Wednesdays and Thursdays. Faculty, students and families welcome.

**PHI DELTA KAPPA** — Meeting 7:30 p.m. Monday, Education Building. Open to the public.

**ARCHERY** — Club shoots at 7 p.m. every Monday and Wednesday, Room 208, Fieldhouse. Everyone welcome.

**BICYCLES** — Rental bicycles available at Student Union. A croquet set is also available.

**TOURNAMENTS**—Signup sheets now posted in Student Union for planned tournaments in tennis, golf, table tennis, horseshoes, handball, bowling, badminton, croquet, billiards and archery. All welcome to enter.

**ELECTIONS** — North Dakota Primary, next Tuesday. Polls open 9 a.m. to 7 p.m. Don't forget to vote!

**I. D. CARDS**—Students are urged to pick up identification cards in the business office starting Monday morning.

## Campus Archers Right on Target

—Dakota Student Photos by Lois Reiser

Lined up and shooting at the left are these archers: (left to right) Gary Nelson, Bob Meisenholder, Ricky Taylor and Darlene Meisenholder. At the target range between the Fieldhouse and the Stadium, archers shoot each Monday and Wednesday evening. What goes in must come out and at the right, young archer Ricky Taylor, son of Dr. John J. Taylor, assistant professor of anatomy, carefully pulls an arrow out of the target. Anyone interested may shoot, according to Frank Berry who is in charge of recreation activities.

## Schoolmen to Consider Finances at Conference

The eleventh annual School Administrators' Conference Workshop at UND July 16 to 20, will consider the topic "Public School Finances."

Specific studies will include federal, state, and local support of public schools, financial implications of school reorganization, policies and procedures in presenting bond issues, levy increases, planning a school budget, and school accounting: reporting and recording.

Members of the staff of the Col-

lege of Education, the State Department of Public Instruction, nationally and regionally known leaders in education, district and county superintendents will serve as speakers, consultants, and panel members.

Dr. Archie L. Gray is directing the workshop with the assistance of Kent Alm, doctoral student in educational administration. Students and participants will receive one hour of graduate credit.

## PDK to Hear English Headmaster

Herbert F. Broad, English educator, will be featured speaker for meeting Tuesday of Phi Delta Kappa, men's education honorary.

Broad will speak on curriculum of grammar schools in England where he is Headmaster of the Cedars School, Leighton Buzzard, Bedfordshire, England. He is on campus

under the auspices of the American Association for the Advancement of Science and with the Summer Institute for High School Teachers in Science and Mathematics directed by Dr. J. Donald Henderson.

The meeting will be held in the education building auditorium and begin at 7:30 p.m.

## Speech Clinic Has Enrollment of 28

Twenty-eight persons had been enrolled in the Speech and Hearing Clinic at UND as of Wednesday. More are expected, according to director Dr. Mitchell R. Burkowsky, assistant professor of speech.

The figure includes 25 children between the ages of 3 and 13 and three adults. Most attend the clinic for one and one half hours a day.

Sessions are held in the speech department rooms in the basement of Merrifield Hall and the Old Library.

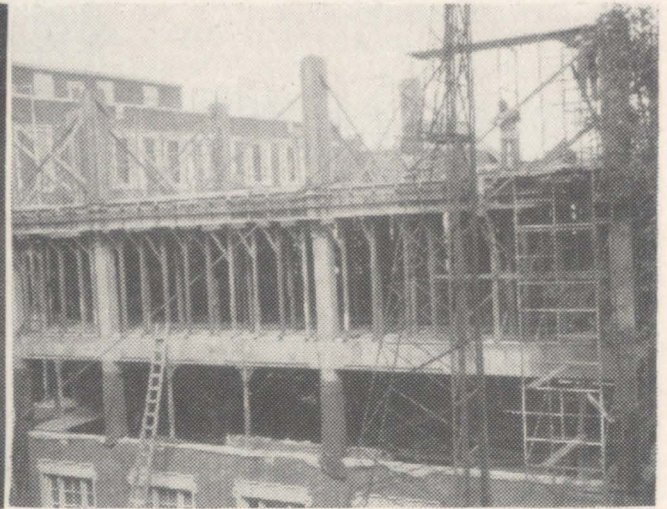

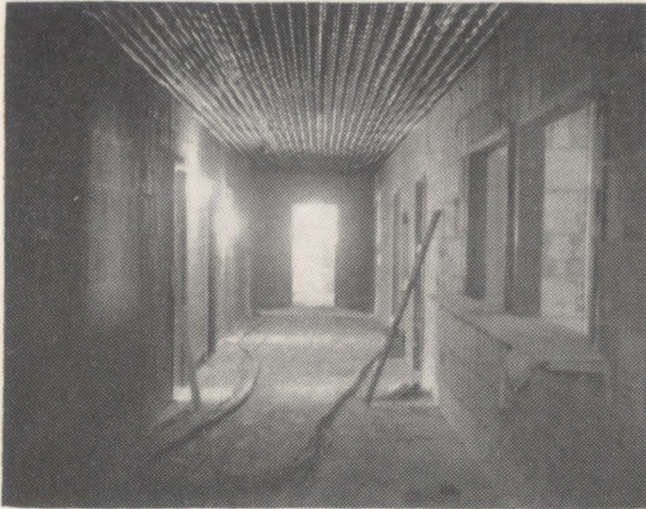

Dr. Thelma Trombly, visiting professor of speech from the University of Missouri at Columbia, is clinical supervisor.

Eleven student clinicians are participating. They are, Susan Jarrett, Mrs. J. Virginia Mitchell, Barbara Satrom and Mrs. Nancy Thomasson of Grand Forks, Anita Dolan and Mrs. Nancy Lund of Kenmare, Mary Kay Eddie and Thomas Mahoney of Hibbing, Minn., K. Dale Gronhovd of Hatton, Marian Le Mieux of Stanley, and Mrs. Mary Lang of St. Paul, Minn.

*New Theater to Go Up Soon:*

## 7 Buildings Under Construction at U

—Dakota Student Photos by Jim Penwarden

**Extent of progress on the interior of Twamley Hall—'New Main'—is shown in the left picture. This is the main corridor on the new administration building's first floor. At the right, pouring of concrete forms moves ahead on the three-story addition to the Ireland Cancer Research Laboratory.**

Work on seven new buildings or additions to present ones is currently underway at UND and work on another is scheduled to begin soon. The total cost of these projects is nearly \$3,800,000.

Slated to begin soon is work on

the new assembly hall, Burtness Theater. The State Board of Higher Education is accepting bids at its meeting which began Thursday and continues today.

Also to be accepted by the Board were bids for the remodeling of the

old chemistry building.

A new women's and a new men's dorm are being constructed for identical sums of \$1,200,000.

The women's dormitory is being built west of the Johnstone-Fulton units. It will include a cafeteria and two dining rooms. Completion date is September, 1963.

September, 1963 is also the planned completion date for the new men's dorm to be built north of Hancock Hall. It will house 242 men and will include a cafeteria able to serve from 1,200 to 1,500 persons per meal.

**West Green is the site of 72 new apartments for married students. They are to be completed in the fall of 1963 at a \$72,000 cost.**

Construction began in April on a \$402,000 three story addition to the Ireland Cancer Research Laboratory and is expected to be done in December. A fifth floor shell is being added for \$31,000.

Next month should mark the completion of a \$570,000 addition to Walsh Hall, men's dormitory.

Completion of the \$1,050,000 Twamley Hall, the new administration building, is set for December.

Two stories are being added to McCannel Hall, UND Medical Center Rehabilitation Unit for \$535,000.

## Dean Hamre Returns from Research Session

Dean C. J. Hamre of the University of North Dakota Graduate School attended one of the four annual meetings of the Advisory Committee on Institutional Research Grants of the American Cancer Society in New York last week.

Hamre left Grand Forks June 13, was at the meeting all day on the 14th and returned the next day.

That meeting completed Hamre's three year tenure on the committee. Along with Dr. Louis Flexner, professor and chairman of the department of anatomy at the University of Pennsylvania, Hamre represented the area of anatomy on the 14 man committee headed by an executive secretary.

The purpose of the committee is to review applications for grants for cancer research and related work for the American Cancer Society.

Reviewing of reports submitted by schools presently doing work

under a grant and determining if the grant should be renewed is also a task of the committee.

"We reviewed applications from various universities and recommend to the Society whether or not they should be approved," Hamre said.

Hamre stated that 36 applications were considered at the last meeting.

He said that 74 institutional grants with stipends ranging from 9 to 60 thousand dollars are available.

Members selected to serve on this advisory committee are chosen by the executive committee of the American Cancer Society and are nationally known representatives of all areas of medicine and biological sciences, Hamre said.

About four or five changes takes place each year on the advisory committee, Hamre said. Members are selected from throughout the United States.

*'My Three Angels' Coming:***Playmakers Schedule Comedy July 19-20**

Casting is nearly completed and rehearsals under way for the special summer production of "My Three Angels" by the Dakota Playmakers to be presented July 19-20.

Under the direction of Donald W. McCaffrey, UND theater director, "My Three Angels" is a comedy adapted by Sam and Bella Spewack from Albert Husson's "La Cuisine Des Anges."

Members of the cast are Bill Rene as Felix Ducotel, Carolee Sabin as Emilie Ducotel, Charolette Burghoff as Marie Louise Ducotel, Debbie Silverman as Mme. Parole,

Terry Wolf as Alfred, Paul Sandell as Joseph, Paul Sjoldal as Jules and Jeff Shero as Paul.

The roles of Henri Trochard and the Lieutenant have not been cast and interested persons should contact the director.

"My Three Angels" centers on the antics of three convicts in French Guiana who take over the financial and romantic problems of a French family who run a small store in the tropics.

Because of their good deeds for the family, they are called "three

angels" by the daughter, Marie ouise. These three convicts, with warm, sunny natures, clever manipulations and sleepless efforts, are more than a match for Henri Trochard, a cousin of Marie's father who tries to take the shop away from the family and send them back to France, according to McCaffrey.

The intrigue created by these three modern Robin Hoods has made "My Three Angels" a hit on Broadway and has, since its Broadway run, provided many laughs for audiences in college and community theatres, said McCaffrey.

**Time Running Out--Rapidly--for 'Old Main'**By **JIM PENWARDEN**

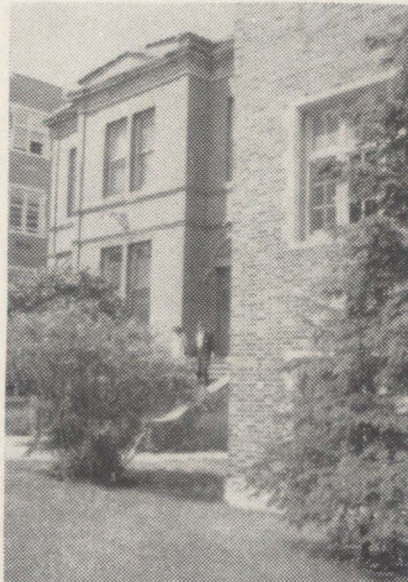

When students return for the Summer Session after having been away from campus for a while they naturally expect to find that a number of minor changes have been made. Students coming back to summer school next June, however, will see a major change—a gaping space between Twamley Hall, presently being constructed, and Merrifield Hall.

"The "empty space" will result from razing Old Main, UND's first and oldest building. Gordon Kroeber, superintendent of buildings and grounds, said that it will be torn down sometime after December. That is the target date for completion of Twamley. Twamley will house administrative and many other offices and departments now located in Old Main.

The sagging old red building, which will be 80 years this fall, is just a shadow of its former self. When completed late in 1883 it "towered" three stories above a barren prairie. A cupola rose from the middle of the roof and two staircases led to two doors on the east end, or what is considered the front.

A two story, 30 by 50 foot west wing was added in 1884 but a wind storm in 1887 destroyed this along with the cupola and chimneys and it flooded the interior.

When the top floor reached the

—Photo by Jim Penwarden

**Feeling the squeeze of progress is Old Main (center) as the once proud structure seems to struggle for attention between Merrifield Hall in the foreground and Twamley Hall in the background.**

point of collapsing in 1924 it was removed.

Apparently Old Main never was a sturdy building. In Louis Geiger's "University of the Northern Plains" it is reported that the building began to fall apart and settle a few months after its construction.

Originally the structure contained professors' offices, classrooms, a

chemistry laboratory, a chapel, a library and a reading room. A museum was housed in the west wing when it was added.

Other uses to which parts of Old Main have been put over the years included living quarters for the president and his family, janitor's living quarters, eating facilities and a gymnasium.

Starting in 1907 the main floor was used strictly for administrative offices.

Kroeber said that bids for Old Main's razing will be let after the completion of Twamley Hall, expected in December.

He said that only some of the wiring, pipes and a few other removable objects will be spared from this structure which has witnessed the growth of a university for nearly 80 years since its very beginning.

**3 University Students Honored by France**

Three UND students received special awards from the French government for excellence in the study of French language and literature. They are Karla Erstad, a freshman from Kindred; Mary Tschider, a sophomore from Bismarck; and Mrs. Gayle Segar, a junior from Hibbing, Minn. The awards consist of medals and a choice volume of French literature.

*Fresh Air Project:*

# Campus Gets Its Face Mapped--with Straws

—Photo by Jim Penwarden

Using a Theodolite made in class, Josephine Hutchins, standing, right, works on mapping the campus. Behind her is Blanca Carmona. Holding ends of string are Warren Kilmer and Carrie Myrick.

A special project brought participants in the Elementary Science Institute "out into the open". Under the leadership of Dr. Harold E. Tannenbaum, visiting lecturer, Students studied how to map a local area and were mapping the center portion of the campus Wednesday. Dr. Bernt Wills, institute director, explained how it was done.

First, they learned how to make a simple compass and studied magnetism. The next step was measuring their own rooms and Merrifield Hall and making floor plans. Then followed more studies of angles and plotting points of reference.

Then, by putting two 180 degree protractors together and securing two soda straws in the center with a pin, they made their own Theodolites, instruments for measuring horizontal and, usually, vertical angles.

Using these and string, they mapped the area. With homemade equipment, they were doing what engineering students do with costly equipment, said Wills.

The final step in the project was to prepare lesson units they could take back to their own communities and teach.

Wills said the remaining six weeks of the institute will deal largely with other mapable attributes of places. "Each institute participant," said Wills, "is working with the idea of being able to transfer knowledge acquired here to his home community."

## Session Enrollment Now Totals 1,586, Tops Last Year

A total of 1,586 students have enrolled in the UND summer session, according to figures released by Miss Ruby M. McKenzie, registrar.

The figure is 48 larger than last year's total for the eight-week and first four-week session. It does not include enrollments of the 20 conferences, workshops and institutes supplementing the summer session nor the enrollment for the second four week session which begins July 9.

The 1,586 figure includes 1,063 men and 523 women. Of the colleges, the Graduate School has the largest enrollment with 790.

Other colleges and their enrollments include Education, 260; Science, Literature and Arts, 203; Business and Public Administration, 110; Engineering, 82; University College, 70; Nursing, 3 and special and unclassified, 68.

## Play Begins in UND Softball League

Softball got under way this week with four games Tuesday and four more scheduled Thursday. Game time is 6:30 every Tuesday and Thursday evening.

The Millers beat the Dischords 8 to 5, the Leftys downed the Westerners 17 to 2, The Librarians beat the Monros 20 to 14 and the 40 lb. Robins topped the Grad Castoffs 17 to 5.

Diamonds 1 and 2 are located in front of the fieldhouse, diamond 3 behind the fieldhouse and 4 south of the President's Residence.

### ARTICLE PRINTED

An article entitled "Federal Labor Law—Ideals, Objectives and Prospects" by Jack H. Doty, associate professor of management at UND, has been published in the "Personnel Journal."

Games the rest of the summer are as follows:

JUNE 21	
Dischords vs. Westerners	Diamond 4
Millers vs. Monros	2
Leftys vs. 40 lb. Robins	3
Librarians vs. Castoffs	1
JUNE 26	
Dischords vs. Monros	3
Westerners vs. 40 lb. Robins	1
Millers vs. Grad Castoffs	4
Leftys vs. Librarians	2
JUNE 28	
Dischords vs. 40 lb. Robins	2
Monros vs. Grad Castoffs	3
Westerners vs. Librarians	1
Millers vs. Leftys	4
JULY 2	
Dischords vs. Grad Castoffs	1
40 lb. Robins vs. Librarians	3
Monros vs. Leftys	2
Westerners vs. Millers	4
JULY 5	
Dischords vs. Librarians	3
Grad Castoffs vs. Leftys	1
40 lb. Robins vs. Millers	2
Monros vs. Westerners	4
JULY 10	
Dischords vs. Leftys	2
Librarians vs. Millers	3
Grad Castoffs vs. Westerners	1

JULY 17 & 19	
Playoffs—top four teams	
1st place team vs. 4th place team	
3rd place team vs. 2nd place team	
Winners play for championship	
Losers play for third place.	

## Session Directory Is Now Available

Now available at the Student Union Information Desk is the Summer Session Student Directory.

This is the second year it has been published. The Office of Student Affairs and Services in cooperation with the Summer Session Recreation Committee prepared the directory which also includes names of Summer Session faculty members.

Supplemental listings of all late registrants will be available later.
