## One-Day Holiday Coming

*British 'Headmaster' Here*

### Government School Aid 'Reality' in England

By LOIS REISER

Although Federal Aid to Education is a controversial subject in the United States, it is a reality (60 per cent of funds come from the central government) in England, according to Herbert F. Broad, headmaster of the Cedars School, Leighton Buzzard, Bedfordshire, England.

However, the headmaster has complete control over running the school, said Broad. This includes curriculum, what and how much is taught, and appointing teachers.

A board of governors, appointed by the county council meets three times a year, said Broad. "They assist me in getting what I need. They are there to support me in making the school efficient."

Secondary education in England is for children over 11 years old, said Broad. It is arranged differently than in the U. S. in that there is no high school where all in the area go to one school.

—Dakota Student Photo by Lois Reiser  
Holding a map which shows the stops they will make, are Mr. and Mrs. Herbert Broad, guests of the Science-Math Institute. The University was their first stop for the summer.

Broad said the most intelligent children, about 25 per cent, are sent

### July 4th Recess To Be Only Break For This Summer

The campus will take the day off Wednesday, observing the Independence Day national holiday—the only break in classes scheduled for the Summer Session.

All administrative, business and faculty offices also will be closed.

Many instructors and students planned quick trips to closest lake and resort areas, others planned picnics or were looking over July 4th entertainment offerings in the city and region.

Others planned to "just stay home and study."

After all, many students commented, "what can you do with a one-day vacation?"

Stay-at-home studiers were getting no assists from the library, however. It planned to be closed all day.

In fact, about the only action on the the campus will be at the Student Union. The building will be open from 9 a.m. to 8 p.m. The cafeteria will serve breakfast from 9 to 10 a.m., lunch from 11:45 a.m. to 12:45 p.m., dinner from 5:15 to 6:15 p.m. Snack bar hours will be 1 to 8 p.m.

The Union office, store, bowling alley and game room will be closed, but bicycles and croquet sets will be available as usual.

Classes will resume at 7:30 a.m. Thursday. That evening, a free dance is planned for the Union patio starting at 9 p.m. An orchestra will be furnished—"for free."

#### DEADLINE NEAR

If you intend to be a candidate for a degree at the August 4 Commencement, apply now at the Registrar's Office. Next Thursday, July 5, is the deadline for these applications.

### Music Camp Directors to Meet July 7

By BRENDA OLAND

Annual meeting of the UND-affiliated International High School Music Camp is scheduled for Saturday, July 7, at Dunseith.

UND President George W. Starcher is chairman of the board, and Education Dean M. L. Cushman is president.

At the session, new members will be named to the board, new officers elected, camp salaries and finances reviewed. Expansion and building plans also are on the agenda.

Status of the camp band's European tour, planned later this summer, will be discussed.

The camp, with more than 1,000 enrolled this summer, is in operation at the International Peace Garden on the border between North Dakota and Manitoba.

The first week-long session for band and twirling ends Sunday, and a second session in this category opens the same day. A session for orchestra, chorus, piano and organ, and one for ballet and modern dance are to follow later in the month.

## Enrollment Still Open

# Tests for Vision Keep Driver Students Busy

Visual ability testing was among topics discussed Saturday at the Driver Education Workshop.

Under the direction of A. B. Holm, instructor at the Mayville State Teachers College, workshop participants learned how to use an Orthorater which checks vertical and lateral vision, visual acuity, depth perception and color vision.

Upon successful completion of the course, the teachers enrolled will be certified by the American Automobile Association to teach driver education. Schools they teach at will then be eligible for automobiles available to teach driver education.

Emphasis of the workshop is on driver qualifications, psycho-physical tests, written tests, behind-the-wheel instruction, road test in traffic, skill developing exercises and the administration of driver training programs.

According to Holm, more persons may enroll by contacting him or M. L. Cushman, dean of the College of Education.

The workshop is sponsored by the AAA, North Dakota Automobile Club, UND, and Mayville State

—Photo by Lois Reiser

**Demonstrating the Orthorater by checking the vision of Wayne Kobberdahl is A. B. Holm, workshop director. Looking on is Stewart Nessel.**

Teachers College, and will continue each Saturday through July 21.

## UND Group Attends State Bar Meeting

By LYNN GARRETT

Four University Law professors are attending the annual North Dakota State Bar Association meeting at Bismarck which ends tonight.

The UND delegation includes Dean O. H. Thormodsgard, Professors Ross Tisdale, James White and Paul Mathews.

The Morton County Bar Association acted as hosts at an outdoor barbecue Wednesday evening after committee meetings during the first day.

Thursday afternoon sessions were devoted to a continued legal education program, and in the evening delegates and their wives were entertained by the Burleigh County Bar Association.

Robert D. Hursh of the Lawyers Cooperative Publishing Co. will dis-

cuss products liability this morning following the annual Bar Association breakfast. Robert J. Farley, dean of the University of Mississippi Law School, will speak at a Friday noon luncheon.

This evening Clarence Manion, former Notre Dame Law School dean, will be the featured banquet speaker.

### Staff: ~~~~~

#### THE DAKOTA STUDENT

Published each week during the Summer Session at the University of North Dakota by students in Journalism.

**STAFF MEMBERS:** Jim Penwarden, Lois Reiser, Lynnell Garrett, Anne Hays, Wes Christenson, Gerald Haga, Ralph Molinaro, Brenda Oland.

**ADVISER:** Prof. Alvin E. Austin.

## Bulletins

### UND Activities

**DEGREE DEADLINE** — July 5 is the last day to apply for degrees to be awarded at the August 4 Commencement. If you intend to be a candidate, apply for the degree at the Registrar's Office.

**NO PARKING** — Parking is prohibited on the campus drive (the loop) including evenings and weekends.

**SWIMMING** — Fieldhouse pool, 3 to 5:30 p.m. Monday through Friday, and 6:30 to 8 p.m. Tuesdays, Wednesdays and Thursdays. Faculty, students and families welcome.

**PHI DELTA KAPPA** — Meeting 7:30 p.m. Monday, Education Building. Open to the public.

**ARCHERY** — Club shoots at 7 p.m. every Monday and Wednesday, Room 208, Fieldhouse. Everyone welcome.

**BICYCLES** — Rental bicycles available at Student Union. A croquet set is also available.

**TOURNAMENTS**—Signup sheets now posted in Student Union for planned tournaments in tennis, golf, table tennis, horseshoes, handball, bowling, badminton, croquet, billiards and archery. All welcome to enter.

**I. D. CARDS**—Students are urged to pick up identification cards in the business office.

**LINGUISTICS** — Seminar Thursday afternoons, 3:45 to 5 p.m., Room 18, Merrifield Hall. Anyone interested invited.

**MOVIES** — 7:30 p.m. Monday, Student Union Ballroom. Feature: "High Noon." Free for the family.

**HOLIDAY** — No classes Wednesday, July 4. National Holiday. "Business as usual" Thursday, July 5.

**CHORAL UNION** — 7:30 p.m. Mondays and Wednesdays, Room 6, Education Building. All "who like to sing" invited.

**BAND** — 7:30 p.m. Tuesdays, Room 7, Education Building. Concert, Student Union patio, July 10.

**BOOKSTORE** — The Bookstore will be closed today, Friday, for inventory.

*From Across the Nation:*

# Guest Educators Fill Out Summer Faculty

New faces appeared this summer among faculty members. Guest faculty and conference guests from schools across the nation are teaching regular classes and at institutes and workshops.

Specialists in their fields, they were invited by the University to teach and lecture on their specialties.

The largest group is with the Summer Institute for Secondary Teachers of French. Included are Alain Bernard from the University of Wisconsin; Georges De Cote, Brooklyn College; B. C. de Ruffi de Ponteves, Martine Ekman, and Danielle Scialom, Cornell University; L. C. Porter, University of Rhode Island and Josiane Pommier, University of Illinois.

## Minnesota Girl Wins Lander Award

The \$250 Lander Scholarship has been awarded to Dianne Harriet Fish of Sleepy Eye, Minn. She is a June graduate of Sleepy Eye high school.

The Lander Scholarship was established in 1958 by Miles Lander, presently president of the E. J. Lander and Co. of Grand Forks. Academic promise, financial need, character and citizenship are considered in awarding it.

Miss Fish, who intends to major in chemistry with the intention of going into medical research, participated in music and speech activities, class plays and was editor of the school yearbook in high school. She has been a class officer and a Student Council member.

Last summer she received a scholarship to attend a mathematics-science institute at St. Cloud, Minn. She has also received Student of the Month Lions Club Award, given to seniors with high achievement records.

Miss Fish

Guest instructors in business education are Marie Benson, Wisconsin State College; Cleo P. Cassaday, State University of Iowa and Wilmer O. Maedke, Northern Illinois University.

These professors were honored recently at the summer tea and reception for graduate students in the Business education department held in the Student Union.

Here for the Summer Institute for Teachers and Supervisors of Elementary School Science are Douglas Block, Wheaton (Ill.) College; Chester Campbell, Valley City Public Schools; Marvin A. Leraas, Valley City State Teachers College and Harold McConnell, State University of Iowa.

The staff of the Summer Institute for High School Teachers of Science and Mathematics includes Charles L. Bieber, De Pauw University, Indiana; Oscar Fryer, Drury College, Missouri; Lyle Haugen, Pelican Rapids (Minn.) High School; W. E. Remmele, Memorial High School in Beloit, Wisconsin; Howard M. Thomas, Wisconsin State College and Raymond C. Staley, University of Washington.

Thelma Thombley, University of Missouri, is with the UND speech department, which A. B. Holm, Mayville State Teachers College is conducting the Driver Education Workshop. Bernard Larsen, director of the State Commission on Alcoholism in Bismarck, was here for the School of Alcohol Studies.

Visiting instructor in physical education for women is Virginia Hoffman, Bemidji (Minn.) State College. James Mathisen, State Department of Public Instruction in Bismarck will be here for the Guidance Workshop.

Col. Stanley C. Frank, commander of the North Dakota Wing, Civil Air Patrol, was here for the Aerospace Education Workshop. Paul Yoder, band conductor from Fort Lauderdale, Fla., will conduct a band concert here.

Here for the Summer Institute of Linguistics are Richard Pittman and Robert Longacre.

At the School Health Workshop were Thelma Morris, National Health Association, New York City;

—Photo by Lois Reiser

At her desk in the Physical Education for Women Department, Dr. Virginia Hoffman, Bemidji (Minn.) State College, said the campus looked much nicer than last fall when she was here. She also said she enjoyed visiting friends here.

Jeannette Simmons, National Heart Association, New York City, and Thomas Smith, Minnesota State Department of Health.

Also here for the workshop were Cameron Gilland, vice president of the Valley City State Teachers College, Dr. A. S. Samuelson and Janet Smaltz, State Department of Public Instruction, Edward Sytnieski, director of the State Tuberculosis and Health Association and Bernardine Cervinski of the State Department of Health.

Miss Benson, in business education, said she got lost one of her first days here. She said people seemed very friendly as did Dr. Thombley in speech, who added she felt this was an attractive campus.

Mr. Maedke, also in business education, was surprised at the wet weather and impressed with campus buildings.

### CONDUCTS WORKSHOP

Mrs. Grace O. Rhonemus, associate professor of physical education, directed an elementary physical education workshop for classroom teachers at Brigham Young University in Provo, Utah. She was also a consultant for the Utah Conference on Recreation and Parks in Salt Lake City.

*War Writer, Just Back from Front, Tells U:*

## Vietnamese See U. S. as 'a Helicopter'

By LOIS REISER

"America looks like a helicopter to Vietnamese", said Miss Dickey Chapelle, war correspondent.

Less than 100 helicopters, stationed at four bases, daily transport troops and supplies to aid South Vietnamese forces in their battle against Communist supported North Vietnamese forces, she said. To the average Vietnamese farmer, said Miss Chapelle, the "choppers" are evidence "the Yanks have come".

Speaking to a University Convocation Tuesday in the Student Union Ballroom, Miss Chapelle illustrated the importance of the helicopters by telling of incidents and conflicts she observed before returning to the United States two weeks ago.

**Displaying a Communist North Vietnamese battle flag won just before she returned, Miss Chapelle explained the symbolism of the flag which is blue and red with a gold, five-pointed star in the center. The star was a Communist symbol, she said.**

"I haven't seen us gain an inch of ground in the past seven years" she

said. Speaking concerning assignments which took her to such trouble spots as Hungary, Korea and Laos she said America must exercise the leadership it claims.

Our assistance to the county of Viet Nam, in her opinion, was not so much to save the Viet Nam people from Communism but to save ourselves by halting the spread of Communism. She added, "We are running out of real estate to play that game on."

The helicopter force is one of three American forces in Viet Nam, she explained. The other two are the Civil Operations Commission--the Point Four Program--and Army military advisers.

**"American blood is being spilled now", she said. Although we have committed no ground troops, she added, our military advisers train and lead South Viet Nam forces and some have died in battle.**

A meeting such as the convocation was abnormal in the world Miss Chapelle said, because there were no secret police in attendance. "More than half of the world is

ruled by secret police", she said.

**The Dakotas have much in common with the Southern half of the Viet Nam province, Miss Chapelle said. The land is flat and rich, but Vietnamese farmers would find it hard to understand the freedom from fear found here.**

Viet Nam has a tradition of minor disorders and civil wars starting with river pirates. The country people have traditionally been against the city people. Now the Communists have taken the side of the farmers, so we are on the other side. The civil war has become a global conspiracy, she said.

Although the helicopter pilots had had extensive training, they are "daily trying to evolve tactics" Miss Chapelle said. This is because there is no stable front line in the guerrilla fighting going on. Only a short distance from the bases, hostile forces have fired on the helicopters.

Miss Chapelle was on assignment for the National Geographic Magazine, and with troops as they battled. She parachuted with South Vietnamese forces.

One mission, at a village which had just been attacked, looked like what you see in the movies, Miss Chapelle said. But, she added, "It's pretty ugly when you know people are dying."

## Discussion Reigns at Lutheran Center

Discussion groups are being held at the Lutheran Student Center this summer in addition to regular worship services at 10 a.m. Sunday.

### Top Scholars Plan To Enter U in Fall

An estimate based on scholastic records of students applying for scholarships indicates about half of the entering UND freshmen next fall will have graduated in the top half of their classes.

Scholarship committee chairman, D. J. Robertson, dean of University College, said about 80 per cent will have graduated in the top half of their classes.

The committee, said Robertson, has received over 300 applications and of these, 144 were awarded scholarships. Twenty-two of the recipients were National Merit Scholarship finalists or semi-finalists or General Motors semi-finalists.

Pastor Al Beyers, director of the Svee Children's Home in Fargo will lead a discussion on "God and the Day's Work", Monday at 7 p.m. at the center.

"After Death Comes . . ." was the topic of Lester Hornvedt, counselor at the center, Tuesday.

Facilities of the center available include a library, classroom, stereo player and records, and pingpong, croquet and badminton equipment.

### Alumni Director Attends Meeting in Alberta

J. Lloyd Stone, University of North Dakota alumni director, and his wife attended an American Alumni Council meeting Sunday through Tuesday.

The meeting, held in the Bluff Springs Hotel at Banff, Alberta, Canada, was attended by alumni directors from United States colleges.

### UND Awarded \$8,330 For Science Research

A National Science Foundation grant of \$8,330 has been awarded to the University of North Dakota for use in science research, according to Dr. George W. Starcher, UND president.

The grant, which may be used at the University's discretion, is an increase over the \$2,680 grant received by UND in 1961.

The amount of money an institution receives is determined by the per cent of National Science Foundation grants which the institution has received during the past year.

This grant program was established in 1960 to assist colleges and universities in the development and maintenance of sound, well-balanced program of research, education and related activities in the sciences.

## British Visitors Like Area

(Continued from Page 1)

to grammar school. Not only grammar is taught, he added, science and mathematics are also offered. These are highly specialized courses which lead on to professions, Universities, and teacher training colleges.

The other children go to what is called a Modern School or Secondary Technical School. Most students leave at 15, Broad said. They take a general course, which includes science. It is possible to go on to college, he said.

An experiment with comprehensive secondary schools is being conducted. This type of school takes all children, irrespective of ability. In order to be effective, Broad said there must be between 1,500 and 2,000 children.

A small town in England (10 to 15 thousand population) has one grammar school and three or four Modern schools, Broad said.

**Broad gave a series of lectures here Monday through Wednesday as guest lecturer at the Summer Institute for High School Teachers of Science and Mathematics directed by J. Donald Henderson.**

The University was his first stop of a series under the auspices of the American Association for the Advancement of Science. His wife accompanied him.

Their first impression of the area, as they were flying from Minneapolis to Fargo was that the area was "one large puddle". This reminded them of the Fenland, marshland in England. Broad also remarked about the "vast amount of sky."

## Law Grads Studying For Bar Examination

All 37 June graduates of the University Law School will begin taking the state bar exam in Bismarck July 10.

The examination is given by the North Dakota Bar Board whose members are William R. Pearce of Bismarck, chairman, Norman G. Tenneson of Fargo, Mack V. Traynor of Devils Lake and J. H. Newton of Bismarck, secretary.

Those who pass the examination will be admitted to the bar July 13.

Of the institute participants he met, Englishman Broad said they were an "excellent lot of chaps".

Mrs. Broad visited stores downtown and was very pleased that clerks took time to discuss and compare prices and products.

**Both liked Grand Forks and thought student facilities at UND were excellent, especially the library. However, one thing impressed them in particular.**

"The streets are all alike", said Mrs. Broad. She explained that streets in England curve a great deal and she found the straight streets in the city seemed monotonous.

## Freshmen Awarded Language Scholarships

Three entering freshmen at the University of North Dakota have been awarded Arneberg Scholarships to study foreign languages.

The scholarships, given to students planning to major in foreign language study at the University, are financed by a portion of a trust fund set up by the estate of the late Dr. John G. Arneberg, pioneer Grand Forks physician who died in 1958.

Receiving the awards, which cover tuition fees for one year, are Mary Ellen Melby, Oakes; Mildred Fredlund, Williston; and Joseph Karlage, Amelia, Ohio.

Miss Melby, a June graduate of Oakes high school, is the daughter of Mr. and Mrs. Martin Melby of Oakes. While in high school she participated in chorus, dramatics, band and Student Council. She was also a cheerleader for four years.

Miss Fredlund, daughter of Mr. and Mrs. Vernon Fredlund of Williston, is a 1962 graduate of Williston high school. She was a participant in the Pep Club, senior choir, Student Council and Girls Athletic Association. She was also on the yearbook staff, vice president of the German Club and co-editor of the school paper.

Karlage graduate from Amelia

## Campus Players To Present Comedy 'Under the Stars'

The campus mall will be the stage for "My Three Angels", Dakota Playmakers presentation scheduled July 19-20, according to Donald W. McCaffrey, theater director.

"My Three Angels" is a comedy adapted by Sam and Bella Spewack from Albert Husson's "La Cuisine Des Ages."

Lois Johnson and Eva Gardebring will assist McCaffrey.

Casting is now being completed for the "under the stars" presentation.

Miss Fredlund

Karlage

high school in June and is the son of Mr. and Mrs. William Karlage of Amelia. A member of the National Honor Society and the French Club, he lettered in football and basketball. He also received honorable mention in the Miami Scholarship test given on the study of Spanish in the state of Ohio.

## Choral Union Asks For More Singers

More singers are needed for the University Choral Union, according to Robert Van Voorhis, director.

Van Voorhis extended an invitation to "all persons that like to sing" to attend the 7:30 p.m. sessions Monday and Wednesday evenings in room 6 in the Education Building.

Fifty-seven people attended the first meeting June 13 to start preparation for the July 26 presentation of Beethoven's Mass in C.

## Work Starts on Campus Theater Project

—Dakota Student Photos by Lois Reiser

**The winner—the catipiller tractor! Ground was cleared Tuesday for construction to begin on Burtness Theater and this tree was the last to make way. Edmund Kostrzewski, construction worker with Dean Witcher Co. which will build the theater, cuts the tree into portable pieces. In the background is Macnie Hall. Excavation began Wednesday.**

Bids for the construction of the \$250,000 Burtness Theater and remodeling the old chemistry building at the University of North Dakota were approved by the State Board of Higher Education at its meeting at Mayville last week.

Construction began Tuesday on the Burtness Theater, which is expected to be completed February 1, 1963.

Part of the Construction cost of the new theater is being financed

by a \$100,000 gift from Mrs. O. B. Burtness, widow of the late district judge and former congressman.

Contracts awarded were general contract, Dean L. Witcher Construction Co., Minneapolis, \$149,573; plumbing and heating, Valley Service, Moorhead, Minn., \$37,876; and electrical, GM Electric Co., Grand Forks, \$27,772.

Wells and Denbrook of Grand Forks are the architects.

Contracts for remodeling the old

chemistry building were awarded to Valley Service, Moorhead, Minn., plumbing and heating, \$95,400 and Thrall and Tupa, Grand Forks, electrical, \$16,935.

Construction is scheduled to begin next week.

### FREE MOVIE PROGRAM

Grace Kelly and Gary Cooper star in "High Noon", the free movie to be shown Monday at 7:30 p.m. in the Student Union Ballroom.

## Linguistic Experts Describe Techniques

A seminar on descriptive linguistics is held each Thursday afternoon to which interested persons are invited, according to Dr. Richard Pittman, executive director of the Summer Institute of Linguistics.

Various staff members conduct the seminar which is held from 3:45 to 5 p.m. in Room 18, Merrifield Hall.

Presenting the lecture this week was Dr. Robert Longacre, a second year staff member. Considered the leading linguist in the reconstruction of the ancient languages of Mexico, Dr. Longacre presented a paper entitled "Progress in Otomanguari Reconstruction," a report on a study being made on that language family which he will also

present at the International Congress of Linguists to be held at Harvard University in Cambridge, Mass., in August.

**A special convocation will be presented by institute participants and staff members on July 12 at which they will present various skits of native groups with which they have worked and exhibit costumes and curios of the natives.**

Of the 65 taking Linguistics Institute courses, 38 are enrolled in the first year classes with 21 taking second year courses. Four of the students are enrolled in a special readings course. The group is divided nearly in half with respect to those taking courses for graduate credit and those termed unclassi-

fied, Dr. Pittman said.

Each person works an hour a day assisting with the serving of meals and upkeep of the dormitories to help keep costs at a minimum.

Prior to this year, the institute at UND was one of five Summer Linguistic Institutes in the world, the others being held in Norman, Okla., at the University of Oklahoma; Seattle, Wash., at the University of Seattle; London, England; and Melbourne, Australia.

Dr. Pittman said a sixth institute will be held in Germany this summer. Dr. Fred Gerstung, of Wheaton College, Wheaton, Ill., who will direct that institute, is now observing the classes at UND and will soon leave for Germany.

## 5 Million Dollar Business!

# UND Prepares for New Fiscal Year

By JIM PENWARDEN

What does it cost to run the University of North Dakota for one year? Estimated expenses for the next fiscal year, which begins Sunday, will run close to \$5,000,000.

At its May meeting the State Board of Higher Education approved a budget of \$4,171,510.30 for UND for the 1962-63 fiscal year, according to Gerald Skogley, UND comptroller.

Operated on a separate budget of

\$747,765 is the Medical Center, which includes the school of medicine, the college of nursing, the blood bank, the rehabilitation units and the medical library.

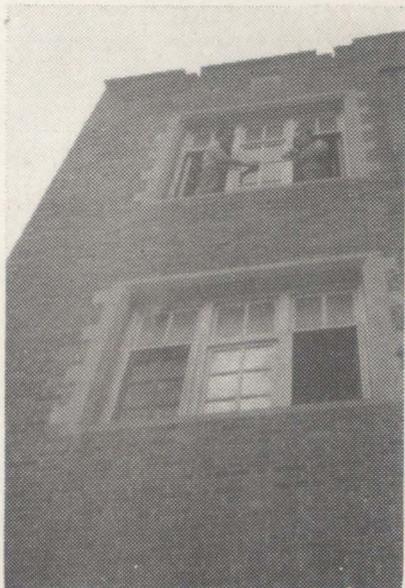

Of the four main expense categories, instruction will take the largest chunk of the budget—\$2,759,572.13. The other three categories in order of expense are physical plant operation, administration and general expenses and libraries.

Where does the money for UND's

annual budget come from? Student fees and miscellaneous sources account for part of it but most of it is supplied by appropriations from the state legislature.

Every two years the state legislature allots UND a certain appropriation to cover the next two fiscal years. In the fiscal year due to begin Sunday UND will be using the remainder of the state legislative appropriation adopted at this 1961 session.

## Higher Education

—Photo by Lois Reiser

It's a long way up—or down—depending on where you are. Window-washers Glenn Gullickson and Marvin Larson with the Buildings and Grounds department, make it easier to stare out of the windows during class in southeast corner, third floor, of Merrifield Hall.

## Dr. Beck Is Speaker At Icelandic Observance

Dr. Richard Beck spoke June 17, Iceland's Independence Day, at services at Hallson and Vidalin Churches in Mountain, N. D., in his official capacity as Consul of Iceland for North Dakota.

## Beat the Heat:

# 36 Students to Continue Institute Work at Lake

Camp Richie of the State Conservation Training Center at Lake Ashtabula, 12 miles north of Valley City, N. D., was the destination of participants in the summer institute in earth science and biology when they left the University in a car caravan Wednesday.

The three and one half week session at Camp Richie will provide the 36 institute participants with a chance to do outside work in biology and earth sciences. They will return to UND for the final two weeks of the institute.

Participants spent the first two and one half weeks of the institute on campus studying field biology, earth science, maps and mapping and introduction to astronomy.

Dr. Bernt Wills, UND professor of geography and director of the institute, said that at Camp Richie emphasis will be placed upon biolo-

gy because the area is a transition zone between the humid eastern and somewhat more arid western part of North Dakota.

Atmosphere, climate and geology, with particular interest in the impact of glaciation, will also be studied at the encampment.

Virtually every feature of continental glaciation, both of erosion and deposition, are to be found in Barnes County where the camp is located, Wills said.

July 12-14 will find participants visiting the badlands and Garrison Dam, among other places. While there, Wills said, they will observe first hand the work of running water and burning underground coal seams.

The institute is being financed by a \$42,200 grant from the National Science Foundation.

## PDK to Hear About Speech Clinic

Facilities and services of the Speech and Hearing Clinic will be discussed by Dr. Mitchell R. Burkowski, assistant professor of speech, at the meeting Monday of Phi Delta Kappa, men's education honorary.

Open to the public, the talk will

be at 7:30 p.m. in the Education Building Auditorium.

Meetings are held Monday evenings, rather than Tuesday as erroneously reported in last week's STUDENT. A joint banquet of Phi Delta Kappa and persons attending the Administrative Workshop will be held in July.

## Busy Night at the Student Union

—Dakota Student Photos by Jim Penwarden

The Student Union was a busy place Wednesday evening when it was the scene of a buffet supper (left in the ballroom early in the evening) and hosted a Graduate Club mixer in the lounge later on. Pictured in the refreshment line at the mixer (right) are, from l. to r., Dr. Virginia Hoffman (seated), Lawrence Karsky, Tom Shaffer, Ed Motl and Lyle Stockman.

## U Building Needs Add Up to \$13,000,000

Future University of North Dakota building needs totalling over \$13,000,000 were cited by Dr. George W. Starcher, UND president, at the State Board of Higher Education's June meeting last week at Mayville. Starcher mentioned that need for

the buildings presently exists or will by 1966. Some of the buildings needs have approval by the legislature but need approval of the State Budget Board and Board of Higher Education.

Buildings which UND needs by 1963, according to Starcher, include an Industrial Arts building and a Women's Physical Education building. UND will have need for a Geology building, a Business and Public Administration building, a Physics building and an Engineering building by 1964. Starcher reported.

Other constructions which Starcher said would be needed by 1966 are an auditorium, a four-dormitory quadrangle west of the English Coulee, a smaller dormitory on the site of the Lambda Chi fraternity house and an unspecified number of married student housing units.

At the meeting Starcher received the green light on the construction of a new men's dormitory and 72 married student housing units. The men's dorm will cost \$1.2 million and the housing units \$820,000.

Also approved at the meeting were contracts for construction of Burtness Theater and remodeling of the old chemistry building and contracts for furniture and equipment for the Medical Center Rehabilitation addition.

## 2 Undefeated Teams Top Softball League

Sharing the top spot as of Tuesday evening in the softball league

standings are the Millers and 40 lb. Robins each with three wins and no losses.

In second place are the Librarians and Leftys with two wins. The Dischords and Westerners have won one and the Monros and Grad Castoffs share the low spot with three losses.

Jerry Meyer, who plays for the Librarians, hit five for five June 21, doing it with two home runs, two triples and a double for a total of 16 bases.

Meyer

Scores of games played are:

JUNE 21  
 Westerners 28 — Dischords 10  
 Librarians 7 — Grad Castoffs 3  
 Millers 12 — Monros 9  
 40 lb. Robins 23 — Leftys 4

JUNE 26  
 Dischords 7 — Monros 6  
 40 lb. Robins 18 — Westerners 13  
 Millers 19 — Grad Castoffs 7  
 Leftys 10 — Librarians 6

## Europe on Agenda For UND Women

Several University women will be in Europe this summer.

Already on their way are Miss Helen Kjelmyr, associate professor of management and Miss Virginia Larsen who taught French here the past year.

Mrs. Robert Wilkins, wife of History Professor Wilkins, was granted a two-month, all-expense paid stay in France for teachers of French and left recently.

Mrs. Paul E. Barr, assistant professor of business education, will sail for Europe today. She will visit rural sections of England and also the continent.

Mrs. Ruth B. Allen of the UND library staff expects to leave in July for a European tour, stressing England and London.

## 59 WIN AWARDS

Fifty-nine general scholarships have been awarded to North Dakota high school seniors by the University scholarship committee. These are awarded by the state.
