Session Ends Saturday

Graduation Is Final Event

Graduates Listed on Page 7

The campus mall will be the setting as 222 students receive degrees at summer commencement exercises Saturday at 10 a.m.

Dr. Herbert R. Albrecht, president of North Dakota State University in Fargo will give the commencement address. Dr. George W. Starcher, UND president, will preside at the graduation and award the degrees.

Five doctors degrees will be awarded. The list also includes 140 persons who will receive masters degrees and 77 will receive undergraduate degrees. Last summer 205 received degrees.

Candidates and faculty members will assemble at 9:30 a.m. near Merrifield Hall and at 9:45 will march to the site of commencement between the old library building and the Chester Fritz Library. In case of rain, the exercises will be held in the UND fieldhouse.

Twenty-four top scholastic juniors

will serve as Grey Gowns, honorary ushers, at the commencement.

Four advanced ROTC cadets will receive commissions at a 9 a.m. ceremony Saturday in the UND Armory. They include David P. Hailey, Grand Forks, Denis L. Levi,

Zeeland, Larry Sausker, Lansford, and Gene Tetrault, Williston. All will receive commissions as second lieutenants in the U. S. Air Force. Lt. Col. Thomas H. McGuigan, professor of air science, will preside at the ceremony.

SUMMER SESSION

THURSDAY, AUGUST 2, 1962

NUMBER 8

It's All Over Except The Exams for 1,400

Final examinations were to start at 7:30 a.m. today for the 1,400-plus summer sessionites NOT receiving degrees at Saturday's commencement. Given during regular class periods, the tests wind up Friday.

Regular classwork of both the eight-weeks session and the final four-weeks term closed Wednesday.

Ending this weekend with dinners and their own "graduations" are a score of institutes that started in June. Only the Summer Institute of Linguistics remains in session, with its finale not due until Aug. 24.

Three more meetings are scheduled for the campus before the regular fall semester opens next month. A Guidance Service workshop opens Monday, as does a 6-day session on shop machinery care and maintenance.

The Potato Growers Assn. of America will use Abbott Hall Auditorium for its annual meeting August 15-17.

Meanwhile, construction projects will continue in full force, along with numerous remodeling, renovating and repair jobs.

Which twin will get the Master of Education degree? Answer: both will. These twin brothers, Luverne (left) and Loran Eikhoff, have carried their twinship into their education. Both are graduates of Williams High School, Williams, Minn., and both earned their bachelor of science degree at Bemidji Teachers College. Luverne is on the UND Industrial Arts department staff while Loran teaches industrial arts at Brooklyn Center high school, Minneapolis. (Photo by Jim Penwarden).

24 Juniors Don Grey Gowns

Twenty-four UND juniors have been selected as Grey Gowns for commencement exercises Saturday.

Selections for the honorary ushers group are based on outstanding scholarship with leadership, participation in campus activities and character also being considered.

Grey Gowns are: Terrence Miller, John McDougall, John Preiser, Minnie Fay Smith, Allen Schatz, Sharon Mowers, Mardell Grothe, David Mersy, Judith Boone, Margaret Berger, David James, Susan Jarrett, Lois Johnson, Mary Sue McDonald.

Wesley Christensno, Nancy Lund,

Maxene Wirtz, Monica Hynek, Dennis Netland, Aija Kuplis, Terrence Haakenson, Wayne Juhala, Roy Pollock, and Colin Bailey.

Dean's Reception Planned Tonight

A reception honoring all candidates for advanced degrees will be given by Dean and Mrs. C. J. Hamre at 8 p.m. today on the Student Union patio if weather permits. Otherwise it will be held inside the Union.

Hamre Announces Plans for 1963 Session

The Director of Summer Sessions, Dean C. J. Hamre, this week announced that the University of North Dakota Summer Session for 1963 will have the general organization of the present session with major emphasis placed on an eight-week program. The session will open with registration in the Fieldhouse beginning at 8:30 o'clock on the morning of Monday, June 17 and will close with commencement exercises scheduled for 10 o'clock on Saturday morning, August 10.

Courses will be offered for the eight-week period June 17 to August 10 and the courses tentatively planned for the eight-week session were announced this week. The list of courses proposed for the eight-week session are presented below.

Courses will also be offered for the first four-week period of June 17 to July 12, and for the second-four-week period of July 15 to August 10. Though courses for the four-week sessions have been considered, the courses for those sessions have not been selected.

Workshops, conferences, institutes and seminars will be offered during the summer session for 1963. Some of these will be for the full eight-week period of June 17 to August 10. The greater number of workshops and conferences will be scheduled for the period of June 4 to June 15. Some workshops will meet in August following the close of the Summer Session.

The Director of Summer Sessions and the faculty for the Summer Session have planned course programs and workshop and conference programs it is hoped will meet the needs of the summer session students. The Director of Summer Sessions has announced he will appreciate suggestions on courses and conferences.

The tentative list of courses for the eight-week session follow:

700 Appreciate Choral Union's Artistry

Seven hundred appreciative patrons made up the audience for the UND Choral Union's presentation of Beethoven's Mass in C last Thursday evening in the Fieldhouse. At the left, Robert B. Van Voorhis directs the 75-voice Union and 25-piece orchestra with accompanist Paul Lundquist in the foreground. At the right are the four guest artists—Charles Fullmer, St. Paul; Mrs. Marjorie Swenson, Thief River Falls; Mrs. Adeline Johnson Felsted, Minneapolis, and James T. Fudge, UND. 'Youngest' Scientists Score Big Success

By JIM PENWARDEN

A luncheon Saturday will close the 1962 Pre-Collegiate Science-Mathematics Program for Talented High School Students, one which associate professor of biology Paul Kannowski, program director, calls better than any of the three previous such programs held here.

These programs get better and better each year, Kannowski said, "We are looking forward to a continuation of the improvements for next year."

He called the program unique in that the courses it offers are not available in high school or college. No college or high school credit is given, he said.

"This is not an attempt to give college courses to high school students but rather one to stimulate interest in science by actually doing scientific research," Kannowski explained.

The 37 participants in the program came from throughout the United States including North Dakota and were selected from 300 applicants. Almost all students selected for participation rank in the top two per cent of their high school classes.

With the exception of students working in mathematics, participants have assisted on research projects under the direction of faculty members from the biology, chemistry, engineering, physics and psychology departments actually working on research projects. An afternoon course replaced the research work for math students.

The two courses required for all students in the program were elements of Statistical Inference and Nature of Science.

Staff members for the program were Alexander Ospovat, assistant professor of history; Milton Winger,

assistant professor of mathematics; and Dean Phelps, assistant professor of mathematics. Kannowski, program director did no regular teaching.

Several participants commented on the program. Wade Larson, Jefferson, Wis., said one of the major things he has learned through the Nature of Science course is about the background of science. He also lauded the availability of facilities to the participants..

Gary Nagel, Beach, said the program has given him a different outlook on research. He has come to realize that there is more calculating and less actual discovery than he imagined, he said.

"The program is teaching a lot about laboratory work and experimental methods," Sylvia Byron, Grand Forks Air Base, said.

"I've gotten a better insight into the history and nature of science and a better mathematical knowledge," Robert Seidel, Espanola, N.M., said. "I'm grateful for the opportunity."

Angela Burley, Gardner, said "I have learned a lot more about science than I thought possible."

"I think that the program is very worthwhile and the courses in chemistry research are very profitable," Carol Brenner, Mapleton, Iowa, commented. She said the program has helped her in preparing for college.

11 Complete Water Safety Course

Eleven persons completed the Water Safety Instructors course offered at the Fieldhouse swimming pool on the University of North Dakota campus.

The course was the second part of a three-part program which must be completed by persons seeking water safety instructor certificates.

Completing the course were Bruce Campbell, Crary; Gerald

Cool, Luverne; John Gray, Albert Lea, Minn.; John Hjellum II, Grand Forks; Susan Ludowese, Grand Forks.

Sally Mjolsness, Coleraine, Minn.; Lynn Mosher, Willow City; Richard Owens, Devils Lake; Paul Schutte, Miles City, Mont.; Joan Scharnowske Skabo, Bismarck; and Marlys Weekley, East Grand Forks, Minn.

Budget, Building Needs Reflect U Growth

By **JIM PENWARDEN**

The growing University of North Dakota was in the spotlight once again at the July meeting of the State Board of Higher Education last week.

Authorization was given by the Board to Dr. George W. Starcher, UND president, to contact Grosz and Anderson architects of Grand Forks to make preliminary arrangements for a new dormitory. It would be the first part of a future unit of dormitories tentatively planned for construction west of the English Coulee immediately south of the School for the Blind.

The new dorm is not to exceed \$1,250,000 in cost.

Since State Legislative authori-

zation must be obtained before final plans can be made, no concrete action can be taken until after the 1963 legislative session in January, according to E. W. Olson, UND business manager.

Also at the State Board meeting a report was given on four old dormitories: Davis, Budge, Macnie and East Halls. The report said it would cost \$880,000 to replace these structures and \$485,000 to remodel them satisfactorily. The report also said that Davis and Macnie are not worth saving.

Bids will open August 21 for two other housing units. One is a new dormitory to be located between Hancock and Walsh Halls. It will house 241 students.

The other bids which will be opened are for 72 married students housing units in West Green.

The Board took no action on the UND operating budget request for the next biennium. It will probably be acted upon at the Board's August meeting, Gerald Skogley, UND comptroller, said

The total budget request is for \$10,449,057. Plant improvements would take \$1,904,500 of this while new buildings that are needed other than dormitories would require a \$6,030,000 slice.

After the Board has acted on this budget request it must be approved at the 1963 session of the State Legislature.

Preparations Ready For Fall Semester

With the Summer Session nearly completed at UND, many plans for the opening of the 1963 fall semester have been formulated.

Freshmen orientation week begins Sept. 10. Official opening of residence halls is scheduled for 9 a.m. that day, but for students planning to arrive earlier, residence halls will be open from 1 p.m. to 9 p.m. Sept. 9.

Sorority orientation is scheduled for Sept. 10 in the Student Union Lounge while fraternity orientation takes place at 8:15 p.m. the following day in the Fieldhouse.

Tests, programs for parents, tours, movies, residence hall orientation sessions, discussions, meetings with counselors, swim periods, purchasing of books, pep rallies and dances are some of the numerous activities planned for orientation week.

Registration in the Fieldhouse begins Sept. 13 with registration for freshmen scheduled from 8 a.m. to 12 noon. Registration for transfer students is also scheduled for Sept. 13. For upperclassmen who did not preregister in the spring, registration will be held Sept. 14.

Classwork begins for all students at 8 a.m. Sept. 17.

First faculty meeting of the fall has been scheduled for 9 a.m. Saturday, Sept. 8, in the Student Union Ballroom.

42 Years at U Ends as Grounds Foreman Retires

A notable absence in the Building and Grounds department this summer is that of James F. (Jim) Hogan, who has retired after working for UND for 42 years.

Hogan started at UND May 2, 1921, as a teamster. The horses he drove were kept along with the president's cow in a barn still standing south of Fulton hall.

Hogan was grounds foreman at the time of his retirement.

Married and the father of three married sons, Hogan is a veteran of WWI and now lives at 624 Ninth Ave. S. in Grand Forks.

Oct. 19-20 Dates For '62 Homecoming

Plans are being formulated for the 1962 Homecoming by a student committee headed by Barry Jorve of LaMoure and an alumni steering committee.

The 1962 event, to be held Oct. 19-20, will include a reunion of the class of 1952, a 10-year reunion, and the class of 1937, a 25-year gathering. Alumni chairmen are Ralph Adamson of Grafton for the 1952 alumni and Sam Silverman and Brooks Baukol of Grand Forks for the 1937 graduates.

Football Practice To Start Sept. 1

Five home games and four road contests comprise the 1962 Sioux football slate which opens Sept. 15 when Youngstown University gridgers come here from Ohio.

Coach Marv Helling has called his team to the campus Sept. 1 to begin training for the fall campaign. Between 40 and 50 candidates are expected to turn out.

The complete schedule is: Sept. 15, Youngstown University, here; Sept. 22, Montana University, here; Sept. 29, at Augustana College; Oct. 6, at Morningside College; Oct. 13, at South Dakota State; Oct. 20, North Dakota State, here (homecoming);

Oct. 27, State College of Iowa, here; Nov. 3, at Montana State; Nov. 10, South Dakota University.

President Attends Father's Funeral

John H. Starcher, 92, father of UND President Dr. George W. Starcher, died July 25 at Cheshire, Ohio. Funeral services were conducted Saturday at Gallipolis, Ohio.

Dr. Starcher left Thursday to attend the services, and will return late this week after attending to University business matters in New York and Pennsylvania.

11 Selected for U Journalism Scholarships

Eleven journalism scholarships worth a total of \$2,000 have been awarded at UND, eight for upper-classmen and three for entering freshmen.

Upperclassmen who received awards include Sylvia Bergstrom, Pekin; Dana Spitzer, Grand Forks; Joseph Aberle, Bismarck, Gary Wigdahl, Rothsay, Minn.; Dale Forster, Richardton; Mary Wingire, Medina; Karla Erstad, Kindred; and Harvey Dahl, Wyndmere.

Entering freshmen who received scholarships are Ann Gire, Edinburg; Kay Ayres, Fargo; and Cheryl Doran, Kenmare.

Miss Bergstrom, daughter of Mr. and Mrs. Henry O. Bergstrom, received the \$150 KNOX Scholarship given by KNOX radio and television of Grand Forks. A junior at the University, she is news editor of the Dakota Student and co-assistant director of the Northern Interscholastic Press Association.

Spitzer, son of Mrs. Eleanor Spitzer of Wolf Point, Mont., was awarded the \$300 North Dakota Press Association Scholarship. He is a member of Sigma Delta Chi, professional journalism society, and the Young Democrats. A reporter for the Dakota Student, he is a junior at UND.

Aberle, son of Mr. and Mrs. Sebastian Aberle, received the \$100 senior scholarship given by the North Dakota professional chapter of Sigma Delta Chi, professional journalism society. A transfer from Bismarck Junior College as a junior, he is a reporter for the Dakota Student and a member of the Vets Club. He was editor of the BJC paper as a sophomore.

Wigdahl, son of Mr. and Mrs. John Wigdahl, received the Sigma Delta Chi Undergraduate Chapter Scholarship of \$150. A junior, he will transfer from Fergus Falls Junior College, Fergus Falls, Minn., where he was a member of the newspaper and yearbook staffs.

Parties, Programs Close Summer Institutes

Dinners, parties and "graduation" ceremonies this week are closing out many of the institutes conducted on the campus during the summer session. Without exception, directors of the study groups termed their ventures "successful."

● Elementary Science

Films, skits and songs reviewing the summer's activities will be featured tonight at a banquet for participants in the Summer Institute for Teachers and Supervisors of Elementary School Science.

To begin at 5:30, in the Red River Room of the Student Union, the banquet is the last session of the Institute. The 38 participants will receive certificates of completion.

According to Dr. Bernt Wills, director, the highlights of the insti-

tute were the numerous field trips and field camps. Wills termed the institute "very successful."

● Speech and Hearing

Parties followed therapy sessions Wednesday for the 30 persons enrolled in the Speech and Hearing Clinic which ended that day.

Of the 25 children and 5 adults enrolled, according to Dr. Mitchell R. Burkowsky who headed the clinic, some will continue therapy in school this fall while others finished their therapy. One student will attend the State School for the Deaf after having one year of intense preparation, he said.

● Summer Science

Approximately 100 science teachers are successfully completing their summer's work in the related Sum-

mer Science Institute and the related Academic Year Institute, according to J. Donald Henderson, director.

The Summer Science Institute will finish the second year of its four year program with a banquet Friday. Participants will receive completion certificates.

Dr. Neville Bennington, an advisory consultant for the National Science Foundation, visited the institute this week.

● Language

A farewell banquet honoring the staff members of the Summer Institute for Secondary Teachers of French was held Wednesday in the Student Union Ballroom.

Participants of the institute arranged the banquet as a type of "thank you" to the staff for its work this summer and a ball given by the staff for participants earlier this month, said Dr. John A. Green, director of the Institute.

Green said the native informants on the staff have done an excellent job. Most will be returning to France soon.

The seven staff members Green cited are: Alain Bernard, Georges DeCote, Bruno deRuffi de Ponteves, Martine M. Eckman, Josiane Pommer, Jean Rabut and Danielle Scialom. Other staff members were Green and Lambert C. Porter.

The 37 institute participants received certificates of completion at the banquet. Dr. R. B. Witmer, dean of the College of Science, Literature and Arts spoke.

Tuesday was the last day of classes for institute participants. Tests started Wednesday and continue today.

Counselors to Meet Monday

Aids in solving problems of financing, budgeting and staffing guidance programs will be offered to approximately 50 counseling and guidance personnel and school administrators at the Workshop in Organization and Administration of Guidance Services to be held Monday through next Thursday at UND.

Other topics include implications of federal guidance programs, establishing adequate physical facilities and underlying philosophies of guidance programs in the schools.

Director of the workshop will be James Mathisen of the State Department of Public Instruction. He will be assisted by UND guidance and counseling personnel and selected area educators who will serve as speakers and discussion leaders.

The workshop, which is sponsored by the UND Extension Division and the counselor education section of the University psychology department, will get underway Monday morning with registration in the Education Building.

Business Education Group Initiates 14

Fourteen candidates—the largest class in its history—were initiated into membership in Pi Omega Pi, national honorary business education fraternity, at ceremonies Monday at the home of Dr. John L. Roe, chairman of the Business Education Department.

Initiated were:

Betty Brecto, Red Lake Falls, Minn.; Mrs. Sadie Coninx, Warren, Minn.; Mrs. Brenda Duppong, Grand Forks; John Garry, Dillon, Mont.; Richard Haberer, Park Rapids, Minn.; Mary Heery, Redwood Falls, Minn.; Donald Myrold, Crookston, Minn.; George Porozny, Willingdon, Alberta; Sister M. Antonine, Fargo; Gayle Sobolik, Fordville; Mrs. Eu-

jene Stuart, Sarnia, Ont.; Mrs. Ethel Thompson, Ray; Charles Walejko, Brussels, Wis.; and Donald Zandi, Stevens Point, Wis.

Presiding at the initiation were John Staples of Colorado State University, Robert Hanson of Illinois State, Normal University, William Mitchell of Illinois State Normal University, Donald Nellermeoe of Ferris Institute, and Ellis Jones of Gustavus Adolphus College.

Following the ceremonies the initiates were honored at a dinner at the Westward Ho.

Membership in Pi Omega Pi is based on scholastic achievement, service to the community, and promise as a teacher.

Law School Professor To Attend Bar Session

James P. White, Law School professor, will attend the annual American Bar Association meeting opening Saturday in San Francisco. The session continues through Aug. 9.

He will be on a special committee concerning taxation of farmers and a member of a panel which will discuss legal education and bar admission.
