6.

The question period was opened at 4:25 p.m.

Mr. Petros asked if Adobe Connect and Tegerity would be retained. Ms. Swinney responded that we will continue all current software even though voice is added to Blackboard.

Mr. Neubert asked a question regarding when students see the grade after it is entered into Campus Connection. Mr. Correll responded that students do not see the grades until after the actual grade due date (Typically, Noon on Tuesday following finals week).

Ms. Vogeltanz-Holm asked about the possibility of administrator evaluations and if someone was working on it? Ms. Betting announced that the committee has met and the president is evaluating a proposal from the SPEA committee and a consultant for executive evaluations including a 360 evaluation. It should start next semester and roll out throughout next fall. Ms. Hunter stated that the SPEA committee has not yet been informed about recommendations that the consultant is making to the president. Ms. Vogeltanz-Holm asked if University Senate will get to comment on the proposal. A question was asked if the Senate will be able to have input and feedback to the results of evaluations.

Mr. Murphy asked about recruitment efforts for next fall and what is being done to bring in more students. Ms. Betting stated that enrollment management is under the Provost's Office and that the Strategic Enrollment Management committee has come back together to use best practices. Ms. Betting also stated that the President supports more funding for marketing and recruiting.

Mr. Petros asked if the Senate and faculty will have input into how the cuts will be handled. Mr. Harsell stated it is his responsibility to communicate that request. Mr. Blackburn asked if current and future curricular cuts follow NDUS policy. Mr. Murphy explained the program suspension and program termination requirements by the SBHE. He additionally stated that there has been a request to get on the SBHE agenda regarding programs ending and budget cuts. Discussion ensued.

Mr. Murphy made a motion without objection to extend the question period by 10 minutes.

Mr. Blackburn suggested that suspending admissions is a way to terminate programs without following the curricular process. Discussion ensued. Ms. Gjellstad asked if the Senate survey results will be followed up on. Mr. Harsell has asked that the Provost and others begin to respond.

The question period ended at 4:55 p.m.

North Dakota University System (NDUS) Blackboard Initiative

As a part of the State Board of Higher Education directive from January 2012, "Maximizing Results through Efficiencies" to implement a learning management system that includes a consistent software approach, shared curriculum content (when appropriate), content repository and consistent mobile device interfaces and the functional consolidation of IT services as outlined in the NDCC 15-10-44 the chancellor determined that moving to a single LMS would be the best solution. Blackboard was chosen due to 70% of the student and faculty population already using Blackboard (UND, NDSU, MISU, VCSU).

University of North Dakota (UND) will transition to the shared Blackboard Learning Management System managed by NDUS during summer 2017. Fall 2017 courses will all reside on the new shared system that is cloud-based, expected increased up-time, timely updates, and improved stability. The package selected is Blackboard Learn Essentials which means your courses will have all of the same tools, look and functionality that we are currently providing. Support services will continue at UND as your first contact, with connection to NDUS and Blackboard as needed.

The benefits listed in the NDUS Enterprise Learning Management System Charter include:

- single unified LMS where students and faculty across all campuses can utilize a consistent system for accessing coursework and foster collaboration.
- students and faculty who are taking classes or teaching at multiple NDUS institutions will have a unified experience and a single place to access their course materials.

A Blackboard Academic Technology Planning (ATP) event is scheduled for February 21-23, 2017. During this ATP there will be opportunities for input from administrators, faculty, students and staff. During fall we have been meeting with departments to provide information and gather input to help in the planning. We will continue this work throughout spring and host open forums during all phases of the transition.

For information or questions, contacts are:

Lori Swinney, UND Campus Sponsor, Functional Lead

Chad Bushy, Technical Lead
