Honorable William Langer
U. S. Senate
Washington, D. C.

My dear Senator:

This is to advise that this community is very interested in the proposed Senate Joint Resolution 104 which authorizes an appropriation of \$3,000,000 for the study of the disease to be conducted by the Encephalitis Control Board under the U. S. Public Health Service. We have had several cases of encephalitis in this locality and one case was treated in our local hospital here.

Will you please pass this letter on to the proper committee member handling this bill with the comment that the community is extremely interested in having this appropriation made.

Sincerely yours,

W. R. Beyer
Superintendent
