

# COST OF RESEARCH

*Open Access Week 2021*

## FOR READERS

- **ILL** – Article is unavailable through an institutional library subscription and isn't available as OA. Access to the article is provided by resource sharing through libraries.
- **Open Access** – the author has chosen to make the article available openly
- **Free Access** – available for free via the publisher without a creative commons license to permit reuse. Publisher can choose to lock down the article, making it unavailable without a subscription.

Wednesday, Oct. 27th @11am.

# COST OF RESEARCH

*Open Access Week 2021*

## FOR AUTHORS

- **APCs** – Article processing charge or a publication fee. Authors, the author's institution, or research funder pays to make an article open access.
- **Gold Open Access**– journals that are available to their readers free-of-charge through OA journals
- **Green OA** – authors can submit a pre-print or post-print of their work to an institutional repository with the permission of the journal they publish in
- **Hybrid OA** – authors can submit their work to a traditional publisher and pay an APC to make their work open access through that publisher.
